The Hitachi Astemo Findlay, Inc. Pension Plan
1901 Industrial Drive
Findlay, OH 45840

October 15, 2024

Knueven, Schroeder & Co.
1035 North Main Street
Findlay, OH 45840

This representation letter is provided in connection with your audits of the financial statements of The Hitachi Astemo Findlay, Inc. Pension Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements (collectively, the “financial statements”).

The purpose of the audits is to express an opinion on whether the financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2023 and 2022, and the changes in its net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States (U.S. GAAP).

We elected to have the audit of the plan’s financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor’s (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA). We acknowledge that the audit did not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier, that is regulated, supervised, and subject to periodic examination by a state or federal agency, a qualified institution, that prepared and certified the investment information in accordance with 29 CFR 2520.103-5 of the DOL’s Rules and Regulations for Reporting and Disclosure under ERISA. We have determined that an ERISA Section 103(a)(3)(C) audit is permissible under the circumstances. We have also determined that the investment information is prepared and certified by a qualified institution as described by 29 CFR 2520.103-8, that the certification meets the requirements in 29 CFR 2520.103-5, and that the certified investment information is appropriately measured, presented, and disclosed in accordance with accounting principles generally accepted in the United States of America.

The purpose of an ERISA Section 103(a)(3)(C) audit is to express an opinion on whether the amounts and disclosures in the financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States and that the information regarding assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the certified investment information.

Certain representations in this letter are described as being limited to matters that are material. Items are considered to be material, regardless of size, if they involve an omission or misstatement of accounting misstatement. An omission or misstatement that is monetarily small in amount could be considered material as a result of qualitative factors.

32. We have no knowledge of any changes in:

The Plan obtained its latest determination letter on October 20, 2008, in which the Internal Revenue Service stated the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. All required amendments to and filings of plan documents with the appropriate agencies have been made. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable

36. The Plan is qualified under the appropriate section of the Internal Revenue Code and we intend to continue them as a qualified plan. 40. Certain administrative expenses of the Plan are provided by the Plan Sponsor and the Plan Sponsor will not seek reimbursement of such expenses.
41. The Plan has implemented certain requirements by the Coronavirus Aid, Relief, and Economic Security Act (the CARES Act) and the Setting Every Community Up for Retirement Enhancement Act of 2019 (the SECURE Act), laws which change the Plan to, among others, allow certain eligible individuals to receive penalty-free withdrawals during 2020, suspend required minimum distributions for 2020, and delay the commencement date for required minimum distributions to age 72. Certain optional features within these acts have been assessed and have been implemented to date. Written amendments to the Plan to reflect these operational changes will be adopted in or before 2025. In addition, the Plan elected the provisions of the American Rescue Plan Act (ARPA) that provides funding relief for defined benefit plans retroactively for years beginning in 2019. The ARPA extended the segment rate collars by another 6 years, eliminated all existing shortfall bases & charges, and extended future amortization periods for amortizing shortfall amounts from 7 years to 15 years. In addition, under ARPA, the segment rates now reflect a 5% floor on the 25-year average rates before application of the corridor. On November 15, 2021, additional interest rate smoothing was signed into law via the "Infrastructure Investment & Jobs Act" ("IIJA"). In brief "stabilized interest rates" must now be within 5% of the 25-year average of corporate bond rates through 2030, gradually widening the segment rate collar to 30% for plan years beginning after 2034. ARPA is the third law and IIJA is the fourth law which extended the segment rate collars for the valuation of the pension plan's funding liability as well as the determination of the plan's minimum contribution requirement and the adjusted funding target attainment percentage that was originally enacted as part of the "Moving Ahead for Progress in the 21st Century Act" (MAP-21) in 2012

Assumptions prescribed by law

Mortality	Before benefit payment period IRS Prescribed Mortality - Static Non-annuitant, male and female. During benefit payment period IRS Prescribed Mortality - Static Annuitant, male and female.
-----------	---

Assumptions selected by actuary

Inflation	2.40% increase per year. Our long-term inflation assumption considered the current economic environment, recent and historical data, and forecasts from Federal Reserve Bank FOMC, Congressional Budget Office, and Survey of Professional Forecasters. See Long-Term Capital Market Assumptions link.								
Asset return	6.50% for the current plan year. The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link.								
Expected expense	The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets, with an updated estimate of PBGC premiums. This is the best estimate available of upcoming year's expenses.								
Retirement	Active and inactive participants are assumed to retire at normal retirement age as defined in Plan provisions. This assumption is based on the results of recent experience analysis and anticipated future experience.								
Disability	None. This plan does not offer a subsidized disability benefit therefore the disability assumption is built into the withdrawal assumption.								
Marriage	100% married; husbands are 0 years older than wives. This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.								
Withdrawal	Table T-3 from the Actuary's Pension Handbook. Selected rates of withdrawal are shown below: <table border="1"> <thead> <tr> <th>Age</th><th>Rate of withdrawal</th></tr> </thead> <tbody> <tr> <td>25</td><td>5.35%</td></tr> <tr> <td>40</td><td>4.04%</td></tr> <tr> <td>55</td><td>1.46%</td></tr> </tbody> </table>	Age	Rate of withdrawal	25	5.35%	40	4.04%	55	1.46%
Age	Rate of withdrawal								
25	5.35%								
40	4.04%								
55	1.46%								
Form of benefit	Participants are assumed to receive their benefits on the normal form at the assumed retirement age.								

Methods prescribed by law

Liability measure	Funding target is the present value of the benefits accrued on the valuation date. Target normal cost is based on benefits expected to accrue during the current plan year.
-------------------	---

Methods selected by plan sponsor

Asset method	Market value
Segment rates	24-month average with no weighting to prior law basis. Use rates where December is the last month included in the average.
PBGC premium basis	Variable rate premiums are calculated using census, market value of assets and interest rates in effect on the current valuation date. Interest rates are the 24-month average rates used for annual cost but without the interest rate corridor defined in IRC §430(h)(2)(C)(iv). You elected this Alternative interest method for the 01/01/2020 plan year and this method must be used for five years before a change can be made.

Methods elected by actuary

Retirees	Assets and liabilities for current and future retirees are included.
Vested benefits	A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date. The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.

Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

Mortality	Based on Pri-2012 Blue collar base rate mortality table projected generationally using MP-2021.
Mortality base rates	Before benefit payment period Employee amount-weighted, male and female During benefit payment period Retiree amount-weighted, male and female The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The Blue collar base rate table was selected based on information provided by the plan sponsor. Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 1" is reasonable for this plan.
Mortality improvement	MP-2021 is the most recent improvement scale published by the SOA in October 2021. In selecting this assumption, we considered the other parameters available in the MIM-2021-v3 application tool issued by the SOA in October 2022 and consider the selections in MP-2021 reasonable. Based on the sponsor's input, plan experience does not show a need for long-term excess death or Covid death load adjustments.
Interest rate used to value liabilities	6.00% The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.

Treatment of administrative expenses

No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses.

Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer.

Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.
