Report of Independent Auditors

To Management of Bernstein Global Style Blend Series

Opinion

We have audited the accompanying financial statements of Bernstein Global Style Blend Series (the "Series"), which comprise the statement of assets and liabilities (prepared on the liquidation basis of accounting), including the condensed schedule of investments (prepared on the liquidation basis of accounting), as of December 31, 2023, the related statement of changes in net assets (prepared on the liquidation basis of accounting) for the period from December 20, 2023 through December 31, 2023, and the statements of operations and changes in net assets for the period from January 1, 2023 through December 19, 2023, including the related notes (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the statement of assets and liabilities (prepared on the liquidation basis of accounting) of the Series as of December 31, 2023, the changes in its net assets (prepared on the liquidation basis of accounting) for the period from December 20, 2023 through December 31, 2023, and the results of its operations and changes in its net assets for the period from January 1, 2023 through December 19, 2023, in accordance with accounting principles generally accepted in the United States of America applied on the basis described in Note 1.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Series and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis of Accounting

As discussed in Note 1 to the financial statements, the Investment Manager of Bernstein Global Style Blend Series approved a plan of liquidation on December 20, 2023, and the Series determined liquidation is imminent. As a result, the Series changed its basis of accounting on December 20, 2023 from the going concern basis to a liquidation basis. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Series' internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Bernstein Global Style Blend Series

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2023

1. ORGANIZATION

The Bernstein Global Style Blend Series (the “Series”) of the Sanford C. Bernstein & Co. Delaware Business Trust (the “Trust”) commenced operations on November 18, 2005. The Trust was created pursuant to an Agreement and Declaration of Trust dated July 1, 1997, the terms of which have been amended and restated as of October 16, 2006. The Series is managed by AllianceBernstein L.P. (the “Investment Manager”). The assets of the Series are primarily invested in equity securities of companies located around the world. The Northern Trust Company serves as Custodial Trustee (the “Custodial Trustee”) for the Series and the Trust’s assets and, in compliance with Delaware law, Wilmington Trust Company has been appointed as the co-trustee of the Trust (the “Delaware Trustee”). The Series follows accounting and reporting guidance under Financial Accounting Standards Board Accounting Standards Codification (“ASC”) Topic 946, “Financial Services—Investment Companies”.

The Investment Manager decided to terminate the Series on December 20, 2023 as a result of significant investor withdrawals.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Financial Statements—The Series’ financial statements in liquidation have been prepared in accordance with accounting principles generally accepted in the United States of America. Effective December 20, 2023, the financial statements were prepared under the liquidation basis of accounting. The liquidation basis of accounting requires that assets recorded at estimated net realized values, liabilities are recorded at estimated net settlement amount and expenses expected to be incurred through the final date of liquidation are accrued. The type and amount of costs and income accrued in the statement of net assets in liquidation and the period over which those costs are expected to be paid or income earned. Actual results could differ from those estimates

Valuation Date—A “Valuation Date” means (i) the second to last Business Day of each week; or (ii) the last Business Day of each calendar month. A “Business Day” means any day or part of a day on which the New York Stock Exchange and the principal offices of the Custodial Trustee are open for business.

Valuation of Each Unit—The “Net Asset Value per Unit” of the Series is determined by dividing the Net Assets by the number of units outstanding on the Valuation Date.

Valuation of Securities—Securities listed or traded on any generally recognized securities exchange are valued at the closing price on the Valuation Date. If no sale has been reported for that day or if the exchange was not open on that day, the last published sales price or the last recorded bid price, whichever is more recent, is used, unless in the opinion of the Custodial Trustee the value thus obtained does not fairly indicate the actual fair value, in which case the Custodial Trustee may rely on the value obtained from a reputable broker or investment banker as of the Valuation Date. Securities traded only in the over-the-counter (“OTC”) market are valued at the closing representative bid price, therefore, as reported by NASDAQ reporting system for securities covered by that system and for other OTC securities at the last current bid price, therefore determined in accordance with quotations obtained from a reputable broker or investment banker as of the Valuation Date.

NOTES TO FINANCIAL STATEMENTS (continued)

YEAR ENDED DECEMBER 31, 2023

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Valuation of Securities (continued)

Futures contracts are valued at the settlement price on the exchange on which the contracts were purchased or sold. Net unrealized gains and losses on open futures contracts are included in the statement of operations.

Forward foreign currency contracts are valued at each Valuation Date at the difference between the forward foreign exchange rates at the dates of entry into the contracts and the forward rates at the Valuation Date. Gains and losses are included in the statement of assets and liabilities and the statement of operations.

Other securities or assets are valued on the basis of data obtained from the best available sources, including brokers or dealers who deal in or are familiar with the type of investment involved or qualified appraisers including the Investment Manager, or by reference to the market value of similar investments for which a market value is readily ascertainable. Investments, if any, in underlying funds are valued at closing net asset value per share. Any short-term investments are shown at amortized cost, which approximates fair value.

Foreign Currencies — Foreign currencies include cash denominated in currencies other than the U.S. dollar.

Foreign Currency Translation — Investment securities, assets and liabilities or other amounts denominated in or expected to settle in foreign currencies are translated into U.S. dollars at the Valuation Date. Purchases and sales of investment securities and income and expense items denominated in foreign currencies are translated into U.S. dollar amounts on the respective dates of such transactions.

The Series does not isolate the portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of investments held. Such fluctuations are included with the net realized and net change in unrealized gain or loss on investments in the statement of operations.

Reported net realized foreign currency gains or losses arise from sales and maturities of short-term securities, sales of foreign currencies, currency gains or losses realized between the trade date and settlement date on securities transactions, the amounts of dividends, interest, and foreign withholding taxes recorded on the Series' books, and the U.S. dollar equivalent amounts actually received or paid. Net unrealized foreign currency gains and losses arise from changes in the value of assets and liabilities, other than investments, at year end resulting from changes in the exchange rates.

Use of Estimates — The Series' financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America ("U.S. GAAP"). The preparation of financial statements in conformity with U.S. GAAP requires the Series' management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosures of contingent assets and liabilities, if any, at the date of the financial statements and the reported amounts of revenues and expenses recorded during the reporting year. Actual results could differ from those estimates and such differences could be material.

Income Recognition — Securities transactions are recorded on the trade date basis. Dividend income is recognized on the ex-dividend date and interest income is recognized on the accrual basis. Securities gains and losses are calculated on the identified cost basis.

Bernstein Global Style Blend Series

NOTES TO FINANCIAL STATEMENTS (continued)

YEAR ENDED DECEMBER 31, 2023

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Contributions and Withdrawals — Contributions and withdrawals are effective on the first Business Day following a Valuation Date or such other time as may be determined by the Investment Manager and the Custodial Trustee in their sole discretion. Contributions and withdrawals are valued at the net asset value on the Valuation Date.

Commission Expense — Commissions paid for security purchases and sales are reflected in the cost basis of securities purchased or as a reduction of proceeds to determine realized gain (loss) on investments.

Indemnifications and Warranties — In the ordinary course of its business, the Series has entered into contracts or agreements that contain indemnifications or warranties. Future events could occur that lead to the execution of those provisions against the Series. The maximum exposure to the Series under these provisions is unknown as this would involve future claims that have not yet occurred. However, based upon experience, the Series expects the risk of loss to be remote.

Income Taxes — In accordance with U.S. GAAP requirements regarding accounting for uncertainties in income taxes, management has analyzed the Series' tax positions taken for all open tax years and has concluded that no provision for income tax is required in the Series' financial statements.

The Series is classified as a partnership for federal income tax purposes and, therefore, no provisions for income taxes have been recorded in these financial statements. Each unitholder is individually responsible for reporting income or loss, to the extent required by the federal and state income tax laws and regulations, based upon its respective share of the Series' income and expense as reported for income tax purposes.

The Series may be subject to taxes imposed by countries in which it invests. Such taxes are generally based on income and/or capital gains earned or repatriated. Taxes are accrued and applied to net investment income, net realized gains and net unrealized gain (loss) as such income and/or gains are earned.

The Series remains subject to examination by U.S. federal and state jurisdictions, as well as international jurisdictions, for certain years prior to and including December 31, 2023 and upon completion of these examinations (if undertaken by the taxing jurisdiction) tax adjustments may be necessary and retroactive to all open tax years.

Expenses — Expenses were accrued by the Series as incurred from January 1, 2023 through December 19, 2023. Starting December 20, 2023, expenses that are not estimable are recorded on accrual basis and expenses that were estimable were recorded as liquidation costs.

3. FAIR VALUE MEASUREMENTS

In accordance with ASC 820, fair value is defined as the price that the Series would receive to sell an asset or pay to transfer a liability in an orderly transaction between market participants at the measurement date. ASC 820 also establishes a framework for measuring fair value, and a three-level hierarchy for fair value measurements based upon the transparency of inputs to the valuation of an asset or liability. Inputs may be observable or unobservable and refer broadly to the assumptions that market participants would use in pricing the asset or liability.

Observable inputs reflect the assumptions market participants would use in pricing the asset or liability, as of the reporting date, based on market data obtained from sources independent of the Series. Unobservable inputs reflect the Series' own assumptions about the assumptions that market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. Each investment is assigned a level based upon the observability of the inputs which are significant to the overall valuation.

The three-tier hierarchy of inputs is summarized below:

- Level 1 - Quoted prices in active markets for identical investments.
- Level 2 - Other significant observable inputs (including quoted prices for similar investments in active markets, interest rates, prepayment speeds, and credit risk).
- Level 3 - Significant unobservable inputs (including the Series' own assumptions used in determining the fair value of the investments at the reporting date).

3. FAIR VALUE MEASUREMENTS (continued)

Where readily available market prices or relevant bid prices are not available for certain equity investments, such investments may be valued based on similar publicly traded investments, movements in relevant indices since last available prices or based upon underlying company fundamentals and comparable company data (such as multiples to earnings or multiples to equity). Where an investment is valued using an observable input such as another publicly traded security the investment will be classified as Level 2. If management determines that an adjustment is appropriate based on restrictions, illiquidity or uncertainty, and such adjustment is a significant component of the valuation, the investment will be classified as Level 3. An investment will also be classified as Level 3 where management uses company fundamentals and other significant inputs to determine the valuation.

Warrants are valued using market-based inputs to models, broker or dealer quotations, or alternative pricing sources, with reasonable levels of price transparency, where such input and models are available. Alternatively, the values may be obtained through unobservable management determined inputs and/or management's proprietary models. Where models are used, the selection of a particular model to value a warrant depends upon the contractual terms of, and specific risks inherent in, the warrant as well as the availability of pricing information in the market. Valuation models require a variety of inputs, including contractual terms, market prices, measures of volatility and correlations of such inputs. For warrants that trade in liquid markets, inputs can generally be verified and model selection does not involve significant management judgment.

The fair value of OTC derivatives is generally based on market price quotations, recently executed market transactions (where observable) or industry recognized modeling techniques and is generally classified as Level 2. Inputs to Level 2 valuations are observable and may include quoted prices for similar investments in active markets, currency rates, interest rates, coupon rates, yield curves, option adjusted spreads, default rates, credit spreads and other unique security features in order to estimate the relevant cash flows which are then discounted to calculate fair values. If these inputs are unobservable and significant to the fair value at the reporting date, these investments will be classified as Level 3.

The following table summarizes the valuation of the Series' investments following the fair value hierarchy levels as of December 31, 2023:

Investment in Securities	Level 1	Level 2	Level 3	Total
Warrant	\$ —	\$ —	\$ —*	\$ —
Short-Term Investment	40,530,517	—	—	40,530,517
	<u>\$ 40,530,517</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ 40,530,517</u>

* The Series held a warrant at year end with zero market value.

There have been no transfers into or out of Level 3 fair value measurements for the Series for the year ended December 31, 2023.

4. RELATED PARTY TRANSACTIONS

In consideration for its investment advisory services, the Investment Manager receives a management fee directly from each unitholder. The amount of such fees, calculation and manner of payment are set forth under separate agreements between the unitholder and the Investment Manager and are not reflected as an expense of the Series in the accompanying financial statements. To the extent necessary to pay the Investment Manager any unpaid compensation, upon written direction from the Investment Manager, the Custodial Trustee can redeem a unitholder's units in an amount sufficient to pay such fees.

The Investment Manager reimburses expenses (excluding interest, taxes, brokerage and other transaction costs and extraordinary expenses) to the extent that these exceed an annual rate equal to 0.10% of the average monthly net assets. For the period from January 1, 2023 through December 19, 2023, the Series recorded an expense reimbursement of \$145,257.

The Investment Manager also bears the administrative expenses of the Series and provides office space and utilities, news, quotation, computer equipment and services, administrative services, secretarial, clerical and other personnel. Certain expenses in relation to the sale of units of the Series are borne by the Investment Manager.

The Series pays for the custody (including recordkeeping, accounting and administrative) services rendered by the Custodial Trustee. During the period from January 1, 2023 through December 19, 2023, the Series recorded Custodial Trustee fees of \$40,217 as included in the statement of operations.

5. FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET RISK

The Series uses derivatives to earn income and enhance returns, to hedge or adjust the risk profile of its portfolio, to replace more traditional direct investments, or to obtain exposure to otherwise inaccessible markets. In the normal course of its business, the Series enters into financial transactions where the risk of potential loss exceeds the related amounts recorded. The Series may use derivatives for non-hedging purposes as a means of making direct investment in foreign currencies, as described below under "Currency Transactions".

The Series enters into derivatives which may represent off-balance sheet risk. Off-balance sheet risk exists when the maximum potential loss on a particular investment is greater than the value of such investment as reflected in the statement of assets and liabilities.

Certain derivative agreements allow counterparties of OTC derivatives to require collateral or terminate derivative contracts prior to maturity in the event the net assets decline by a stated percentage or the Series fails to meet other credit-risk contingent terms in the agreements, which would cause an accelerated payment of any net liability owed to the counterparty.

The principal types of derivatives utilized by the Series are:

5. FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET RISK (continued)

Futures Contracts

During the year ended December 31, 2023, the Series entered into futures contracts for hedging purposes. Futures contracts obligate the buyer to take and the seller to make delivery at a future date of a specified quantity of a financial instrument or an amount of cash based on the value of securities indices, commodities or the fair value in U.S. dollars of a foreign currency.

The Series' participation in the futures markets involves certain risks, including imperfect correlation between movements in the price of the futures contracts and movements in the price of the securities hedged or used for cover. Risks may arise from the potential inability of a counterparty to meet the terms of the contract. Credit risk is mitigated to the extent that the exchange on which a particular futures contract is traded assumes the risk of a counterparty defaulting on its obligations under the contract.

At the time the Series enters into a futures contract, the Series deposits and maintains as collateral an initial margin with the broker, as required by the exchange on which the transaction is affected. Pursuant to the contract, the Series agrees to receive from or pay to the broker an amount of cash equal to the fluctuation in the value of the contract. Such receipts or payments are determined by the rules of the futures exchange and are known as variation margin. When the contract is closed, the Series records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the time it was closed. This amount is included in net realized gain or loss on futures contracts in the statement of operations.

For the months ended January, February and April through November 2023, the Series had an average monthly notional long exposure of \$395,361 related to futures contracts.

Forward Foreign Currency Contracts

During the year ended December 31, 2023, the Series entered into forward foreign currency contracts for hedging purposes. A forward foreign currency contract is a commitment to purchase or sell a foreign currency at a future date at a negotiated forward rate.

Fluctuations in the value of open forward foreign currency contracts are recorded as unrealized gain or loss on forward foreign currency contracts in the statement of assets and liabilities and as net change in unrealized gain or loss on forward foreign currency contracts in the statement of operations. The gain or loss arising from the difference between the original contract and the closing of such contract is included in net realized gain or loss on forward foreign currency contracts in the statement of operations.

Risks arise from the potential inability of the counterparty to meet the terms of a contract and from unanticipated movements in the value of a foreign currency relative to the U.S. dollar. The face or contract amount, in U.S. dollars, reflects the total exposure the Series has in that particular currency contract.

For the months ended January through December 2023, the Series had an average monthly notional long exposure of \$2,758,039 and average monthly notional short exposure of \$5,679,592 related to forward foreign currency contracts.

Currency Transactions

The Series invests in non-U.S. dollar denominated securities on a currency hedged or unhedged basis. The Series seeks investment opportunities by taking long or short position in currencies through the use of currency-related derivatives, including forward foreign currency contracts. The Series enters into transactions for investment opportunities when it anticipates that a foreign currency will appreciate or depreciate in value but securities denominated in that currency are not held by the Series and do not present attractive investment opportunities. Such transactions are also used when the Investment Manager believes that it may be more efficient than a direct investment in a foreign currency-denominated security. The Series also conducts currency exchange transactions on a spot basis (i.e., for cash at the spot rate prevailing in the currency exchange market for buying or selling currencies).

The Series typically enters into International Swaps and Derivatives Association, Inc. Master Agreements (“ISDA Master Agreement”) or similar master agreements (collectively, “Master Agreements”) with its OTC derivative contract counterparties in order to, among other things, reduce its credit risk to counterparties. ISDA Master Agreements include provisions for general obligations, representations, collateral and events of default or termination. Under an ISDA Master Agreement, the Series typically may offset with the counterparty certain derivative financial instrument’s payables and/or receivables with collateral held and/or posted and create one single net payment (close-out netting) in the event of default or termination.

Various Master Agreements govern the terms of certain transactions with counterparties, including transactions such as exchange-traded derivative transactions, repurchase and reverse repurchase agreements and certain securities lending transactions. These Master Agreements typically attempt to reduce the counterparty risk associated with such transactions by specifying credit protection mechanisms and providing standardization that improves legal certainty. Cross-termination provisions under Master Agreements typically provide that a default in connection with one transaction between the Series and a counterparty gives the non-defaulting party the right to terminate any other transactions in place with the defaulting party to create one single net payment due to/due from the defaulting party. In the event of a default by a Master Agreements counterparty, the return of collateral with market value in excess of the Series’ net liability, held by the defaulting party, may be delayed or denied.

The Series’ Master Agreements may contain provisions for early termination of derivative transactions in the event the net assets of the Series decline below specific levels (“net asset contingent features”). If these levels are triggered, the Series’ counterparty has the right to terminate such transaction and require the Series to pay or receive a settlement amount in connection with the terminated transaction.

6. UNITS ISSUED AND OUTSTANDING

The beneficial interest in the Series is divided into units, each without par value. Each unit of the Series is identical in all respects with every other unit of the Series and represents an undivided beneficial interest in the net assets held on behalf of the Series. Unit transactions for the period from January 1, 2023 through December 19, 2023 and for the period from December 20, 2023 through December 31, 2023, were as follows:

	January 1, 2023 through December 19, 2023	December 20, 2023 through December 31, 2023
Balance — beginning of period	598,399	564,495
Units contributed	798	—
Units withdrawn	(34,702)	(564,495)
Balance — end of period	<u>564,495</u>	<u>—</u>

7. ADDITIONAL RISKS

The value of the Series' assets and liabilities will fluctuate as the stock market fluctuates. The value of its investments may decline, sometimes rapidly and unpredictably, simply because of economic changes or other events, including public health crises (including the occurrence of a contagious disease or illness) and regional and global conflicts, that affect large portions of the market.

The Series has agreements with brokerage firms and the Custodial Trustee to carry its customer accounts. The brokers and the Custodial Trustee have custody of the Series' securities and, from time to time, cash balances which may be due to or due from these brokers and the Custodial Trustee. These securities and/or cash positions serve as collateral for any amounts due to brokers or the Custodial Trustee. The Series is subject to credit risk if the brokers and/or the Custodial Trustee are unable to repay balances due or deliver securities in their custody.

Investments in foreign securities entail significant risks in addition to those customarily associated with investing in U.S. equities. These risks are heightened with respect to investments in emerging-market countries where there is an even greater amount of economic, political and social instability. Economic, political and social instability could disrupt financial markets in which the Series invests and adversely affect the value of the Series' assets. In addition, national policies may restrict investment opportunities. In foreign markets, there may be a lower degree of market volume and liquidity than in U.S. markets, and this may result in greater price volatility. The securities markets in many emerging-market countries are substantially smaller, less developed, less liquid and more volatile than the securities markets of developed countries. Furthermore, since the composition of the Series will differ from that of market indexes, its performance generally will not mirror the returns provided by a specific market index.

8. SECURITIES LENDING PROGRAM

In order to generate additional income, the Series may, through its Custodial Trustee, lend securities to banks, brokers and other qualified institutions. The Series pays fees to the Custodial Trustee for administering the securities lending program. Income from securities lending (net of fees) is disclosed as investment income in the statement of operations. When the Series lends securities, it is subject to a risk of failure by the borrower to return the loaned securities or a delay in delivery of the securities, in which case the Series may incur a loss. To alleviate this risk, the Series will receive collateral in the form of cash, government securities or irrevocable bank letters of credit equal to at least 100% of the value of the securities loaned. Collateral levels are monitored daily and additional collateral is demanded from the borrower when necessary. Any cash collateral received by the Series in connection with these loans may be invested either directly or indirectly through a pooled cash collateral investment fund.

As of December 31, 2023, none of the Series' securities were on loan.

9. FINANCIAL HIGHLIGHTS

The financial highlights are intended to facilitate the understanding of the Series' financial performance during the period from January 1, 2023 through December 19, 2023. Per unit operating performance, total return and selected ratios for the period from January 1, 2023 through December 19, 2023, are provided in the table below. Total return is calculated as the change in net asset value per unit for the period from January 1, 2023 through December 19, 2023, and does not reflect the deduction of any management fees which would reduce the total return earned by unitholders. An individual unitholder's performance may vary based on the timing of capital transactions. The per unit operating performance and ratios are computed based upon the average units outstanding and average net assets, respectively, for the period from January 1, 2023 through December 19, 2023.

Per unit operating performance:	
Net asset value per unit — December 31, 2022	\$ <u>60.52</u>
Income from investment operations:	
Net investment income	1.16
Net realized and change in unrealized gain on investments, futures contracts, forward foreign currency contracts and foreign currencies	<u>10.05</u>
Total from investment operations	<u>11.21</u>
Net asset value per unit — December 19, 2023	<u>\$ 71.73</u>
Total return*	18.52%
Ratios to average net assets:*	
Expenses**	0.10%
Net investment income**	1.77%

* Total return and ratios are not annualized for periods less than one year.

** Includes the effect of expenses reimbursed of 0.38%.

10. SUBSEQUENT EVENTS

The Series liquidated all of its assets, accrued for all known expenses and made a final distribution of \$40,475,537 to the unitholders on January 2, 2024.

Management has evaluated the possibility of subsequent events existing in the Series' financial statements up to February 29, 2024, the date the financial statements were available to be issued. Management has determined that there are no other material events that would require disclosure in the Series' financial statements through this date.
