Independent Auditors' Report

Board of Trustees
Pipeline Industry 401(k) Fund
Tulsa, Oklahoma

Opinion

We have audited the financial statements of Pipeline Industry 401(k) Fund, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2023 and 2022, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly in all material respects, the net assets available for benefits of Pipeline Industry 401(k) Fund as of December 31, 2023 and 2022, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis For Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities For The Audit Of The Financial Statements section of our report. We are required to be independent of Pipeline Industry 401(k) Fund and to meet our ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities Of Management For The Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Pipeline Industry 401(k) Fund's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due to which may become due to such participants.

Auditors' Responsibilities For the Audit Of The Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the United States of America will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood, that individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with auditing standards generally accepted in the United States of America, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Pipeline Industry 401(k) Fund's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Pipeline Industry 401(k) Fund's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplemental Schedules Required By ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets held at end of year as of December 31, 2023 and delinquent participant contributions for the year ended December 31, 2023 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

PIPELINE INDUSTRY 401(k) FUND

NOTES TO FINANCIAL STATEMENTS

December 31, 2023 And 2022

1. Description Of The Plan

General

The following description provides only general information. Participants should refer to the Plan Document for a more complete description of all provisions.

The Pipeline Industry Annuity/401(k) Plan (d/b/a Pipeline Industry 401(k) Fund) (the Plan) was adopted March 12, 2008 (inception of the Plan) by the Trustees of the Plan. The Plan is a defined contribution plan established for the benefit of members of the Pipeliners Local 798 (Local 798) of the United Association of Journeymen and Apprentices of the Plumbing and Pipefitting Industry of the United States and Canada, AFL-CIO. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

On October 14, 2008, members of Local 798 began contributing to the Plan. There was no activity in the Plan prior to October 14, 2008. On October 27, 2008, the Board of Trustees of the Oklahoma State Pipe Trades Annuity Fund (Predecessor Plan) spun off a portion of its assets under the Predecessor Plan attributed to account balances of participants who were members of the Local 798 to the Plan in accordance with the applicable sections of the Internal Revenue Code (the IRC).

The Plan, the Pipeline Industry Benefit Fund (an affiliated health and welfare fund), the Pipeline Industry Pension Fund (an affiliated pension fund) and Local 798 Training Center were established and are administrated by a common Board of Trustees under the National Pipe Line Agreement between the Pipeline Contractors Association (the Association) and the United Association of Journeymen and Apprentices of the Plumbing and Pipefitting Industry of the United States and Canada (UA) originally dated May 1, 1964, as renegotiated and restated. The Gas Distribution Contractors Association of New Jersey and Local 798 entered into an agreement dated July 15, 1989, covering distribution work in New Jersey.

The Plan is administered by the Fund Director (Plan Administrator). The Board of Trustees is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings and monitors investment performance. Trust Company of Oklahoma (the Custodian) serves as the custodian of the Plan and processes and maintains the records of the participant data and holds the Plan's assets.

PIPELINE INDUSTRY 401(k) FUND

Notes To Financial Statements (*Continued*)

Eligibility

Members of Local 798 are eligible to participate in the Plan on the first day of membership in accordance with the National Pipe Line Agreement or various participation agreements. Members of other local unions and nonbargained individuals can participate on the first day of employment.

Contributions

Eligible members may contribute to the Plan, subject to certain Internal Revenue Service (IRS) limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions.

Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a certificate of deposit, common/collective trust fund, money market funds and mutual funds as investment options to participants.

Discretionary amounts may also be contributed by the contractors of the Association (the Employers) pursuant to various reciprocal agreements or other written agreement in effect from time to time.

Effective June 1, 2014, all employers working under the National Pipe Line Agreement are required to contribute a Qualified Non-Elective Contribution (QNEC) for each hour worked by journeymen and helpers. Effective June 3, 2019, the rate was \$9.30 for each hour worked by journeymen and \$4.68 for each hour worked by helpers for mainline and integrity and maintenance and \$7.57 for each hour worked by journeymen and \$3.85 for each hour worked by helpers for special agreement and station work. The rates remained unchanged from January 1, 2022 through June 4, 2023. Effective June 5, 2023, the rate was \$8.00 for each hour worked by journeymen and \$3.33 for each hour worked by helpers for mainline and \$4.50 for each hour worked by journeymen and \$1.21 for each hour worked by helpers for integrity and maintenance and special agreement and station work. Effective June 3, 2024, the rate was increased to \$8.50 for each hour worked by journeymen and \$3.33 for each hour worked by helpers for mainline and \$4.60 for each hour worked by journeymen and \$1.21 for "A" states and \$4.80 for each hour worked by journeymen and \$1.21 for each hour worked by helpers for "B" states.

The Plan was amended effective January 1, 2015 and annually thereafter to provide that the Safe Harbor method is satisfied. As of that date, the QNEC made by the employers is a Safe Harbor Non-Elective Contribution, which is equal to at least 3% of compensation of each participant of that employer.

PIPELINE INDUSTRY 401(k) FUND

Notes To Financial Statements (*Continued*)

Participant Accounts

Each participant may self-direct their contributions choosing from several different investment options. Each participant's account is credited with the participant's contributions and employer's annuity and QNEC contributions and allocations of Plan earnings, and charged with withdrawals and an allocation of Plan losses and administrative expenses. Beginning January 1, 2016, a portion of administrative expenses was charged to participants' accounts. Allocations are based on participant account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions, any employers' annuity contributions and employers' QNEC contributions plus actual earnings thereon.

Payments Of Benefits

Upon retirement age of 62, early retirement age of 55, termination, disability or death, a participant may elect to receive installments or a lump-sum amount equal to the value of the participant's vested interest in his or her account. Additionally, participants may take an in-service distribution upon reaching the age of 62. Effective January 1, 2020, the age for an in-service distribution was reduced to 59½. Generally, certain minimum distributions are required for participants who have separated from service and have reached age 70½. Effective January 1, 2020, minimum distribution age was increased to 72. Effective January 1, 2023, minimum distribution age was increased to 73.

The Plan allows hardship withdrawals, subject to account balance limits and applicable laws. Effective January 1, 2024, 401(k) hardship distribution requests will be available by self-certification. Participants can attest that they qualify for the distribution via the application which includes a signed attestation. All available distribution options must be utilized (3-month separation, 24-month separation, in-service withdrawal, retirement withdrawal, etc.) before a hardship distribution can be processed. Annuity funds are not eligible for withdrawal under a hardship distribution.

Effective April 1, 2020, the Plan passed an amendment to reduce the six-month separation distribution option to a three-month separation distribution and expanded the sources available for a hardship distribution through April 30, 2021. Beginning May 1, 2021, this became a permanent benefit.

2. Summary Of Significant Accounting Policies

Basis Of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Estimates And Assumptions

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Investment Valuation And Revenue Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between participants at the measurement date. The Board of Trustees determines the Plan's valuation policies utilizing the information provided by the investment advisors and the Custodian. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net change in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment Of Benefits

Benefit payments are recorded when paid.

Contributions Receivable And Credit Loss Policy

As of January 1, 2023, the Plan adopted Accounting Standards Codification Topic 326, *Financial Instruments – Credit Losses*, using a modified-retrospective approach. The standard replaces the previous incurred loss model and requires entities to record an estimate of expected losses on financial assets for the remaining estimated life of the asset. This estimate must include consideration of historical experience, current conditions and reasonable and supportable forecasts. The standard applies to the Plan's Employers contributions receivable. The adoption did not have a material impact on these financial statements.

The Plan has concluded that no allowance for current expected credit losses was necessary at December 31, 2023 and no allowance for doubtful accounts was necessary at December 31, 2022.

Subsequent Events

Management evaluates subsequent events through the date the financial statements were available for issue, which is the date of the Independent Auditors' Report.

3. Fair Value Measurements

The Plan utilizes an established framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

PIPELINE INDUSTRY 401(k) FUND

Notes To Financial Statements (*Continued*)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

Money Market Funds And Mutual Funds

Valued at the daily closing price as reported by the fund. Mutual funds and money market funds held by the Plan are open-end investment companies that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds and money market funds held by the Plan are deemed to be actively traded.

Common/Collective Trust Fund

Valued at the NAV of units of the individual fund. The NAV, as provided by the trustee of the invested fund, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV or NAV equivalent. The common/collective trust fund held by the Plan files an annual report on Form 5500 as a direct filing entity and participants may redeem units of the fund daily.

Certificate Of Deposit

Valued at amortized cost, which approximates fair value.

The methods described above may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

There have been no changes in the methodologies used at December 31, 2023 and 2022.

PIPELINE INDUSTRY 401(k) FUND

Notes To Financial Statements (*Continued*)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2023:

	Level 1	Level 2	Level 3	Total
Money market funds	\$ 12,075,221	\$ —	\$ —	\$ 12,075,221

Total Assets At Fair Value				\$ 311,108,956

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2022:

	Level 1	Level 2	Level 3	Total
Money market funds	\$ 9,066,276	\$ —	\$ —	\$ 9,066,276

Common/collective trust fund measured at net asset value {a}				1,912,612
Total Assets At Fair Value				\$ 275,644,924

{a} Certain investments that are measured at fair value using the net asset value per share/unit (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of net assets available for benefits.

4. Income Tax Status

The IRS has determined and informed the Plan Administrator by a letter dated March 22, 2016, that the Plan, as amended through November 30, 2015 and the related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter; however, the Plan Administrator, the Board of Trustees and the Plan's counsel believe the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

5. Plan Termination

Although they have not expressed intent to do so, the Employers and the Association have the right to terminate the Plan, subject to the provisions of ERISA. In the event of termination, participant accounts would be distributed to the Plan participants, then all monies of the Plan would be used to pay any and all obligations of the Plan with the excess to be distributed to the Plan participants.

6. Party In Interest Transactions

The certificate of deposit and a portion of the money market funds are managed by the Custodian. These transactions qualify as exempt party in interest transactions. Fees paid by the Plan for the investment management services are included in net appreciation (depreciation) in the fair value of investments.

The Pipeline Industry Benefit Fund incurs all occupancy and operating expenses for the Plan and certain other affiliated plans, and allocates a portion of such expenses to the Plan based on square footage and hours worked by employees. Total expenses allocated to the Plan (including depreciation) were \$217,463 and \$224,239 in 2023 and 2022, respectively.

7. Risks And Uncertainties

The Plan invests in various investment securities, which are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and amounts reported in the statement of net assets available for benefits.
