Independent Auditor's Report

To the Plan Administrator and Those Charged with Governance of
Employees' Retirement and Savings Plan of
Carter Machinery Company, Inc.
Salem, Virginia

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Employees' Retirement and Savings Plan of Carter Machinery Company, Inc. (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Employees' Retirement and Savings Plan of Carter Machinery Company, Inc.'s financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2023 and 2022, and for the years then ended, stating that the certified investment information, as described in Note 8 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Employees' Retirement and Savings Plan of Carter Machinery Company, Inc. and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Employees' Retirement and Savings Plan of Carter Machinery Company, Inc.'s ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Employees' Retirement and Savings Plan of Carter Machinery Company, Inc.'s internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Employees' Retirement and Savings Plan of Carter Machinery Company, Inc.'s ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

The supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2023 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by a institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Employees' Retirement and Savings Plan of Carter Machinery Company, Inc.

Notes to Financial Statements

December 31, 2023

Note 1 – Plan Description

The following description of the Employees' Retirement and Savings Plan of Carter Machinery Company, Inc. (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Carter Machinery Company, Inc. (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year participants may contribute up to the maximum allowed by statutory limitations of pre-tax annual compensation as defined in the Plan. Participants who have attained age 50 are eligible to make catch up contributions. Participants may also contribute amounts representing rollover distributions from other plans as defined in the Plan document. Employees are automatically enrolled at 6% of compensation unless the employee elects otherwise. Participants may direct their contributions into various investments offered by the Plan. The Company makes a matching contribution in an amount ranging from 75% to 125%, based on years of credited service, up to 6% of compensation. Additional amounts may be contributed at the option of the Company's Board of Directors. The profit-sharing contribution was \$3,400,000 and \$3,100,000 for 2023 and 2022, respectively. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's matching and any additional contributions, an allocation of Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after three years of credited service.

Notes from Participants

Participants may borrow from their accounts an amount greater than \$1,000 but not to exceed the lesser of (1) \$50,000 reduced by the excess, if any, of the highest outstanding balance of the participant's loans during the one-year period before the loan over the outstanding balance of the participant's loans on the date of the loan; or (2) 50% of the participant's vested balance. Note terms range from one year to five years or up to ten years for the purchase of a primary residence. Notes are secured by the balance in the participant's account and bear interest at a rate commensurate with market rates for similar notes as defined in the Plan. As of December 31, 2023, interest rates ranged from 4.25% to 9.50%. Principal and interest are paid ratably through payroll deductions.

Employees' Retirement and Savings Plan of Carter Machinery Company, Inc.

Notes to Financial Statements

December 31, 2023

Payment of Benefits

Upon termination of service for any reason, a participant may elect to receive either a lump-sum or installment amounts equal to the value of the participant's vested interest in his or her account. The Plan allows for in service withdrawals at age 59½.

Administrative Expenses

The Plan's administrative expenses, which include Trustee, investment management, and professional fees for services, are paid by either the Plan or the Plan Sponsor, as provided in the Plan agreement.

Forfeited Accounts

At December 31, 2023 and 2022, forfeited non-vested accounts totaled \$229,785 and \$136,740, respectively. These forfeitures will be used to reduce Plan expenses or reallocated to participant accounts. Forfeitures allocated to participant accounts were \$124,622 and \$168,503 for 2023 and 2022, respectively.

Note 2 – Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit responsive investment contracts. Contract value is the relevant measurement attribute for fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Interest-Bearing Cash

The Plan maintains interest-bearing cash. For the years ended December 31, 2023 and 2022, interest-bearing cash included in the self-directed brokerage account was \$755,907 and \$850,164, respectively. At times these amounts may exceed federally insured limits.

Investment Valuation and Income Recognition

The Plan's investments are recorded at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for full discussion of fair value measurements.

Employees' Retirement and Savings Plan of Carter Machinery Company, Inc.

Notes to Financial Statements

December 31, 2023

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation and depreciation include the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Notes from Participants

Notes from participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

Benefit Payments

Benefits are recorded when paid.

Note 3 – Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs are used only when Level 1 or Level 2 inputs are not available.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2023 and 2022. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

^(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Level 1 Fair Value Measurements

The fair values of mutual funds, pooled separate accounts, unit investment trusts, corporate stock, and American depositary receipts are based on quoted net asset values of the shares held by the Plan at year end.

Employees' Retirement and Savings Plan of Carter Machinery Company, Inc.

Notes to Financial Statements

December 31, 2023

Level 2 Fair Value Measurements

The fair values of common trust funds and corporate bonds are based on inputs that are observable for valuing the asset or liability, either directly or indirectly (i.e., interest rate and yield curves observable at commonly quoted intervals, default rates, etc.). Observable inputs include quoted prices for similar assets or liabilities in active or non-active markets. Level 2 inputs may also include insignificant adjustments to market observable inputs.

The common trust funds invest in securities that have observable Level 2 pricing inputs, including quoted prices for similar assets in active or non-active markets. While the underlying asset values are publicly quoted prices, the net asset value (NAV) of a unit in these funds is not publicly quoted. Units can be issued and redeemed on any business day at the NAV. All earnings and losses are reflected in the computation of the NAV and are realized by the participant upon withdrawal.

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2023 and 2022. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

	<u>Fair Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency</u>	<u>Redemption Notice Period</u>

Putnam Stable Value Fund	\$ 27,623,732	None	Daily	None
December 31, 2022				
Putnam Stable Value Fund	\$ 28,041,050	None	Daily	None

Note 4 – Investment Contracts

At December 31, 2023 and 2022, the Plan had investments in the Putnam Stable Value Fund. Included in this fund are certain guaranteed investment contracts and wrapper contracts. These contracts are considered to be benefit-responsive and are required to be stated at fair value. The average yield for the stable value fund for 2023 and 2022 was approximately 3.81% and 2.61%, respectively. The yield earned by the fund with an adjustment to reflect the actual interest rate credited to participants at December 31, 2023 and 2022 was 4.09% and 3.14%, respectively. The percentage of contributions allocated to each fund is determined by the participants.

Note 5 – Related Party Transactions

Certain administrative functions are performed by officers or employees of the Company. These employees are also Plan participants. No such officer or employee receives compensation from the Plan.

The Plan also pays fees to the Plan's service providers. Fees paid by the Plan for investment management and trust services amounted to \$156,928 and \$133,256 for 2023 and 2022, respectively.

Employees' Retirement and Savings Plan of Carter Machinery Company, Inc.

Notes to Financial Statements

December 31, 2023

Note 6 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 7 – Tax Status

The Company has adopted a prototype plan sponsored by the Trustee. The Internal Revenue Service has determined and informed the Company by a letter dated June 30, 2020, that the prototype Plan and related trust are designed in accordance with applicable sections of the *Internal Revenue Code (IRC)*. The Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the *IRC*.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.
