Independent Auditor's Report

Participants and Trustees
Vanee Foods 401(k) Plan and Trust

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Vanee Foods 401(k) Plan and Trust (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, the related statement of changes in net assets available for benefits for the year ended December 31, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2023 and 2022, and for the year ended December 31, 2023, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2023, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Vanee Foods 401(k) Plan and Trust

Notes to Financial Statements

Note 1. Description of the Plan

The following description of Vanee Foods 401(k) Plan and Trust (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan was established effective January 1, 1990. This is a defined contribution plan, which covers substantially all employees except leased and nonresident employees of Vanee Foods Company and Joseph's Food Products Company, Inc. (combined as the Company due to common ownership) who have attained the age of 21 and have completed one year of service. Eligible employees begin to participate on the first day of any calendar quarter coinciding with or following the date the eligibility requirements are met. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan trustees are responsible for oversight of the Plan.

Contributions: The Plan allows participants to contribute from 1% to 20% of compensation, as defined by the Plan, up to the maximum allowed by the Internal Revenue Code (IRC) 402(g)(i), adjusted annually for the cost of living. This amount was \$22,500 for the year ended December 31, 2023. Participants aged 50 or older can make additional catch-up deferrals up to \$7,500 in 2023. Participants may also contribute amounts representing distributions from other qualified defined benefit and defined contribution plans.

Company matching contributions may be made at the discretion of the Company. Such amounts are credited among the accounts of participants who have made employee deferral contributions during the year. For hourly participants, the Company makes matching contributions equal to 25% of the employee's contribution for the first \$1,500 of elective deferral contributions made. The Company also makes additional contributions equal to \$0.25 for each hour of service credited during the payroll period for each person who was an active participant during that period. For salaried participants, the Company makes matching contributions equal to 100% of the employee's contribution up to a total of 4% of the employee's compensation.

In addition, the Company makes qualified nonelective contributions (QNEC) equal to 1% of a salaried employee's compensation for the payroll period for each person who is an active participant on the last day of that period.

Participants direct the investments of their contributions into various investment options offered by the Plan including various mutual funds, pooled separate accounts and a guaranteed interest account.

Participant accounts: Each participant's account is credited with the participant's contributions and matching contributions as well as allocations of the Company's additional contribution and nonelective contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan, and Plan losses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions and the Company's contributions, plus actual earnings or losses thereon.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 reduced by the greatest note balance outstanding during the prior 12 months or 50% of their account balance. Notes receivable terms range from one to five years and each participant may not have more than one note receivable outstanding at any time. The notes are collateralized by the balance in the participant's account and bear interest at prime rate plus 0.50%. Principal and interest are paid ratably through weekly payroll deductions.

Notes to Financial Statements

Note 1. Description of the Plan (Continued)

Payment of benefits: Unless an optional form of benefit is selected, the automatic form of distribution to a participant who does not become deceased before his/her annuity start date is a qualified joint and survivor annuity for a participant with a spouse or a single life annuity with installment refund for a participant without a spouse. The optional forms of distribution available to participants, if elected, upon termination of service due to death, disability, retirement or other reasons are lump-sum payments, installment payments, or a combination of such payment options.

If a participant's vested benefit is more than \$1,000 but not more than \$5,000 upon termination of service, the Plan Administrator is required to distribute the benefit into an Individual Retirement Account without consent from the participant if the participant does not make a distribution election after receiving the required notification. If a participant's vested benefit is less than \$1,000 upon termination of service, the Plan Administrator is required to distribute the benefit directly to the participant without consent. In-service and hardship withdrawals are allowed by the Plan.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates—defined contribution plans: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Contributions: Contributions from Plan participants and the matching contributions from the Company, if any, are recorded in the year in which the employee contributions are withheld from compensation.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) on fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Certain expenses of the Plan may be paid out of the assets of the Plan, to the extent that the Company does not pay such expenses. Expenses that relate solely to a specific participant account may be assessed against such participant account.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through October 15, 2024, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by Principal Life Insurance Company and Delaware Charter Guarantee and Trust Company (d/b/a Principal Trust Company)

The following is a summary of the Plan's asset and income information as of December 31, 2023 and 2022, and for the year ended December 31, 2023, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the custodians, Principal Life Insurance Company and Delaware Charter Guarantee and Trust Company (d/b/a Principal Trust Company), and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodians that information provided to the Plan Administrator by the custodians related to the following assets and income is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets and income:

	2023	2022
Mutual funds*	<u>\$ 20,293,947</u>	<u>\$ 17,736,617</u>
Guaranteed interest account**	<u>\$ 494,611</u>	<u>\$ 920,051</u>
Net appreciation in fair value of investments*	<u>\$ 2,122,069</u>	
Dividend income*	<u>\$ 553,310</u>	
Interest on guaranteed interest account**	<u>\$ 6,811</u>	

* The above information has been certified by Delaware Charter Guarantee and Trust Company (d/b/a Principal Trust Company), a Plan custodian, as complete and accurate.

** The above information has been certified by Principal Life Insurance Company, a Plan custodian, as complete and accurate.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Accounting Standards Codification 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Vanee Foods 401(k) Plan and Trust

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2023 and 2022.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed interest account: Valued at contract value, which approximates fair value. Contract value represents deposits made to the contract, plus earnings at guaranteed credit rates, less withdrawals and fees. The guaranteed interest account promises contract value for a benefit event (termination, death, disability and retirement); however, there is a possible surrender charge when funds are withdrawn prior to maturity. Thus, the guaranteed interest account is considered to be non-benefit responsive. In determining the reasonableness of the valuation methodology, plan management evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

Note 4. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis as of December 31, 2023 and 2022:

	2023			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 20,293,947	\$ -	\$ -	\$ 20,293,947
Guaranteed interest account	-	-	494,611	494,611
Investments at fair value	\$ 20,293,947	\$ -	\$ 494,611	20,788,558
Investments measured at NAV (a)				-
Investments at fair value				<u>\$ 20,788,558</u>

	2022			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 17,736,617	\$ -	\$ -	\$ 17,736,617
Guaranteed interest account	-	-	920,051	920,051
Total assets in fair value hierarchy	\$ 17,736,617	\$ -	\$ 920,051	18,656,668
Investments measured at NAV (a)				-
Investments at fair value				<u>\$ 18,656,668</u>

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Changes in fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2023, there were no transfers in or out of Level 3.

Vanee Foods 401(k) Plan and Trust

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

Quantitative information about significant unobservable inputs used in Level 3 fair value

measurements: The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs. There were no purchases of guaranteed interest accounts during the year ended December 31, 2023.

Instrument	Fair Value		Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values
	2023	2022			
Guaranteed Interest Account	\$ 494,611	\$ 920,051	See Above	Composite Guaranteed Rate Current Rate at 12/31/2023	0.96%-2.66% 1.97%

Note 5. Guaranteed Interest Account

The guaranteed interest account is under a group annuity contract with Principal Life Insurance Company (Principal) whereby the Plan receives a guaranteed interest rate declared by Principal for a set period of time (the guarantee period). Guaranteed interest rates for new allocations are subject to change daily, and each amount allocated to the guaranteed interest account will earn interest based on this guaranteed interest rate in effect for the date that the amount is allocated to this guaranteed interest account.

Because the guaranteed interest account is not fully benefit-responsive, fair value is the relevant measure attribute for that portion of the net assets available for benefits.

Note 6. Related Party and Party-In-Interest Transactions

Certain plan investments are managed by Principal and whose recordkeeping is performed by Principal Financial Group, a division of Principal. Principal is a custodian as defined by the Plan, while Forest Capital Management is the investment advisor; therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to Principal and Forest Capital Management during 2023 were \$52,314 and \$28,945, respectively.

The Company, which is the plan sponsor, pays certain administrative and overhead costs of the Plan, which are excluded from these financial statements. In addition, certain employees of the Company act as fiduciaries of the Plan and are responsible for the administration of the Plan. The employees are compensated by the Company and do not receive any compensation from the Plan.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the provisions of the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Vanee Foods 401(k) Plan and Trust

Notes to Financial Statements

Note 8. Tax Status

The Internal Revenue Service has determined and informed the Company, by a letter dated June 30, 2020, that the Plan is qualified and the trust established under the Plan is tax-exempt under the appropriate sections of the IRC. The Plan has been amended since receiving the determination letter. The Plan Administrator believes the Plan and trust are operating in a manner that did not jeopardize this tax status.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the local, state and federal taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 at December 31, 2023 and 2022:

	2023	2022
Net assets available for benefits per the financial statements	\$ 21,502,826	\$ 19,321,646
Mutual funds	1	(1)
Guaranteed interest account	(37,611)	(63,051)
Participant loans	695,308	665,634
Notes receivable from participants	(693,978)	(664,978)
Net assets available for benefits per Form 5500	<u>\$ 21,466,546</u>	<u>\$ 19,259,250</u>

The following is a reconciliation of the change in net assets per the financial statements for the year ended December 31, 2023, to Form 5500:

Change in net assets available for benefits per the financial statements	\$ 2,181,180
Net appreciation in fair value of investments	2
Interest income on notes receivable from participants	1,168
Other income	25,439
Benefits paid	(493)
Change in net assets available for benefits per Form 5500	<u>\$ 2,207,296</u>

Note 10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
