Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITOR'S REPORT

To Plan Administrator
Roadway LLC Pension Plan
Overland Park, Kansas

Scope and Nature of the ERISA Section 103(a)(3)(C) Audits

We have performed audits of the accompanying financial statements of Roadway LLC Pension Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year ended December 31, 2023, and the statements of accumulated plan benefits as of December 31, 2023 and 2022, and the statement of changes in accumulated plan benefits for the year ended December 31, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Roadway LLC Pension Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2023 and 2022, and for the year ended December 31, 2023, stating that the certified investment information, as described in Note 8 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audits of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audits of the Financial Statements section of our report. We are required to be independent of Roadway LLC Pension Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter

As disclosed in Note 1 to the financial statements, on March 1, 2024, the Plan Administrator filed a distress termination application to the Pension Benefit Guaranty Corporation and issued a notice of intent to terminate to participants with a date of plan termination of May 1, 2024.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audits does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Roadway LLC Pension Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audits of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audits section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing audits in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Roadway LLC Pension Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Roadway LLC Pension Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control related matters that we identified during the audits.

1. DESCRIPTION OF THE PLAN

The following brief description of the Roadway LLC Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan covering certain employees of Yellow Corporation (the "Company" or the "Plan Sponsor") and legacy entities of Roadway Corporation not covered by collective bargaining agreements. The Roadway LLC Pension Plan is part of the Yellow Corporation Master Pension Plans Trust (the "Master Trust").

On August 6, 2023, the Company and certain of its direct and indirect subsidiaries (the "Company Parties") filed the Chapter 11 Cases under Chapter 11 of the Bankruptcy Code in the U.S. Bankruptcy Court for the District of Delaware. On the Petition Date, the Company Parties filed a motion with the Bankruptcy Court seeking to jointly administer the Chapter 11 Cases under the caption "In re: Yellow Corporation, et al."

On March 1, 2024, the Yellow Corporation Pension Plan and the Roadway LLC Pension Plan merged into the Yellow Retirement Pension Plan. In addition, on March 1, 2024, the Company filed a distress termination application to the Pension Benefit Guaranty Corporation ("PBGC") and issued a notice of intent to terminate to participants with a date of plan termination of May 1, 2024. The PBGC has notified the Plan Administrator that 1) the PBGC has determined that the requirements for a distress termination has been met, and 2) the PBGC is unable to determine that the Plan is sufficient for guaranteed benefits as of the termination date. Effective August 2, 2024, the PBGC became the Trustee of the Plan.

Administrators of the Company filed a chapter 11 plan on September 2, 2024 with the U.S. Bankruptcy Court for the District of Delaware. The approval of this plan is pending as of the date of this report.

Prior to the PBGC becoming the Trustee on August 2, 2024, the Plan was administered by the Benefits Administrative Committee ("BAC"), which is composed of members of management from the Plan Sponsor.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). Effective January 1, 2004, no new participants were eligible to participate in the Plan. Existing participants continued to accrue benefits from January 1, 2004 until July 1, 2008, when the Plan was curtailed, and future benefit accruals were frozen.

As of December 31, 2023 and 2022, U.S. Bank National Association ("U.S. Bank") served as the Plan's Custodian.

1. DESCRIPTION OF THE PLAN (continued)

Vesting and benefits

Employees with five or more years of service are entitled to receive annual pension benefits beginning at normal retirement age (65), which are based on their historical compensation. The Plan permits early retirement. An exempt employee can retire as early as age 50 if age plus years of service totals at least 75. Otherwise, early retirement is only available at age 55 with 10 or more years of service. On June 14, 2017, the Company adopted Amendment No. 5. Effective August 1, 2017, Amendment No. 5 provided for the automatic commencement of a pension benefit upon the participant's attainment of normal retirement age, regardless of whether the participant has terminated as of such date. Employees may elect to receive their pension benefits in the form of a joint and survivor annuity or a lump sum. Effective August 6, 2023, as a result of the Chapter 11 bankruptcy filing, the single lump sum option is no longer available.

Death and disability benefits

If a vested participant dies, a death benefit is paid to eligible survivors in accordance with the Plan. Employees who meet Plan requirements may elect to commence their disability retirement benefit, equal to the normal retirement actuarially reduced by age.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Certain investments include alternative investments, which are valued at net asset value ("NAV") as a practical expedient to estimate fair value. The Plan's BAC determined the Plan's valuation policies utilizing information provided by investment advisors and the Custodian. See Note 6 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net investment income from the Master Trust includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Use of estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of Plan assets available for benefits and the actuarial present value of accumulated plan benefits as of the date of the financial statements. Actual results could differ from these estimates. The Plan uses an actuary to determine the actuarial present value of accumulated plan benefits. A change in the actuarial assumptions used could significantly change the amount of the actuarial present value of accumulated plan benefits reported in the accompanying financial statements.

Actuarial present value of accumulated plan benefits

Accumulated plan benefits are those estimated future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to vested (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Benefits under the Plan are based on the employees' historical compensation. Benefit accruals were frozen on July 1, 2008.

The 2023 and 2022 actuarial present value of accumulated plan benefits is determined by an independent actuary from Willis Towers Watson and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, withdrawal or retirement) between the valuation date and the expected date of payment. The valuation was performed as of January 1, 2024 and 2023, and deemed equivalent to December 31, 2023 and 2022, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Actuarial present value of accumulated plan benefits (continued)

Life expectancy of participants: Annuity and Lump Sum - for the years ended December 31, 2023 and 2022, Pri-2012 Gender Specific Tables with rates projected generationally from 2012 using scale MP-2021 with long term rates of 0.85% to age 62, 0.75% at age 80, 0.15% at age 95, and 0% at age 105.

Form of payment: 82.5% of participants are assumed to elect a straight life annuity and 17.5% are assumed to elect a 100% joint and survivor annuity.

Assumed rate of return: 7% in 2023 and 2022.

The interest rate basis was updated from September 2022 to September 2023 to reflect stabilization of interest rates.

In the December 31, 2023 valuation, all active participants were assumed to terminate in 2024.

The Master Trust asset allocation as of December 31, 2023, consisted of 19% in equities, 39% in debt securities and 42% in absolute return investments and as of December 31, 2022, consisted of 26% in equities, 48% in debt securities and 26% in absolute return investments. The targeted long-term asset allocation for the Plan is 19% in equities, 45% in debt securities and 36% in absolute return investments.

Payment of benefits

Benefit payments to participants are recorded upon distribution.

Administrative expenses

The Plan's expenses are paid by the Master Trust or the Company, as provided by the Plan document. Certain expenses of the Plan are paid by the Company and are not included in the statement of changes in net assets available for benefits. For the year ended December 31, 2023, the administrative expenses comprised of \$1,161,644 in premiums to be paid to the PBGC.

Subsequent events

The Plan has evaluated subsequent events from the statement of net assets available for benefits date through October 18, 2024, the date at which the financial statements were available to be issued.

3. FUNDING POLICY

Based on advice and information from the Plan's Custodian and actuary, the BAC made recommendations as to the contributions necessary to fund the Plan. The Company's policy is to fund an amount at least equal to the minimum required under ERISA, as determined by using the appropriate actuarial-cost method. The Company was in compliance with the minimum funding requirements of ERISA for 2023 and 2022.

4. PLAN TERMINATION

As disclosed in Note 1, the PBGC has determined that the requirements for a distress termination were met and established May 1, 2024 as the Plan termination date. The PBGC was appointed trustee of the Plan effective August 2, 2024. As such, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under the Plan's provisions in effect at any time during the five years preceding Plan termination.
- b. Other vested benefits insured by the PBGC up to the applicable limitations (discussed below).
- c. All other vested benefits (i.e., vested benefits not insured by the PBGC).
- d. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, a statutory ceiling exists, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits will depend on the sufficiency of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

5. INTEREST IN YELLOW CORPORATION MASTER PENSION PLANS TRUST

The Plan's investment assets are held by U.S. Bank and consist of an undivided interest in the Master Trust. As of December 31, 2023 and 2022, the Master Trust included assets of the Plan, assets of the Yellow Corporation Pension Plan and assets of the Yellow Retirement Pension Plan. The value of the Plan's interest in the Master Trust is based on the beginning-of-year value of the Plan's interest in the Master Trust plus allocated investment income and other income, less actual distributions and allocated administration expenses. The Plan's interest in the net assets of the Master Trust was approximately 44% at December 31, 2023 and 2022. Investment income (loss) of the Master Trust is allocated to individual plans based on average monthly balances invested by each plan.

The following tables present the net assets available for benefits in the Master Trust as of December 31, 2023 and 2022:

	2023		2022	
	Master Trust	Plan's Interest	Master Trust	Plan's Interest
Investments	\$ 442,551,929	\$ 192,952,558	\$ 483,269,076	\$ 212,971,468
Net assets available for benefits	<u>\$ 442,551,929</u>	<u>\$ 192,952,558</u>	<u>\$ 483,269,076</u>	<u>\$ 212,971,468</u>

Changes in net assets available for benefits of the Master Trust for the year ended December 31, 2023, are as follows:

Gain from investments	<u>\$ 23,938,366</u>
Benefit payments	(60,109,872)
Administrative expenses	(4,545,641)
	<u>(64,655,513)</u>
Net assets of the Master Trust	
Beginning of year	<u>483,269,076</u>
End of year	<u>\$ 442,551,929</u>

The \$23,938,366 gain in the Master Trust interest represents realized gains/losses on investments and related derivatives that were sold during the year as well as unrealized appreciation/depreciation on investments held at year-end. This amount also includes interest and dividends.

6. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs are unadjusted quoted prices for identical assets or liabilities in active markets at the measurement date.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, quoted prices in markets that are not active, and other inputs that are observable or can be corroborated by observable data for substantially the full term of the assets or liabilities.

Level 3: Inputs to the valuation methodology include inputs that are unobservable and are significant to the fair value of the assets or liabilities.

The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for the Master Trust's investments at fair value. There have been no changes in the methodologies used at December 31, 2023 and 2022.

Equity and fixed income: Equity and fixed-income funds are valued either at the closing price reported on the active market on which the individual securities are traded or the quoted redemption values that represent the NAV of units held at year-end.

Private equities and absolute return: Private equity and absolute return funds are valued at the NAV of the shares held by the Master Trust as determined by the investment managers without further adjustment. NAV is based upon fair value of the underlying investments.

Interest-bearing: Interest-bearing funds are cash and cash equivalents valued at the carrying amount due to the short-term nature of the assets' maturity.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Master Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Absolute return	<u>41,952,672</u>	-	180 days, monthly, quarterly	5-180 days
 Total	 <u>\$ 240,678,626</u>			

For the remaining Level 3 investments at December 31, 2023 and 2022, that do not use NAV to estimate fair value, the methods and assumptions used by third-party pricing sources include a variety of factors, such as recently executed transactions, existing contracts, economic conditions, industry and market developments, and overall credit ratings.

7. DERIVATIVE INSTRUMENTS

The Master Trust uses interest rate-related derivative instruments, principally exchange trade futures, to help manage the Plan's exposure to variability of the discount rate used to determine the pension benefit obligation. Futures expose the Plan to market risk. Market risk is the adverse effect on the value of a derivative instrument that results from a change in interest rates. The market risk associated with the hedging positions in interest rate contracts is intended to offset the market risk exposure of the pension benefit obligation calculation and is managed by establishing and monitoring parameters that limit the types of market risk that may be undertaken. The difference between the interest rate futures' rates at the date of entry in the contracts and the rates at the reporting date is included in the Master Trust's net assets. Realized and unrealized gains and losses are included in the Master Trust's statements of changes in net assets. The difference between the futures' rates at the date of entry in the contracts and the rates at the reporting date is included in the Master Trust's net assets. At December 31, 2023 and 2022, the fair value of these derivative financial instruments held by the Master Trust was not material.

For Projected Benefit Obligation hedging purposes, as of December 31, 2023, the total notional amount of the Master Trust's outstanding interest rate futures was \$278,862,508. For the year ended December 31, 2023, 630 Ultra ten-year treasury note futures, 512 ten-year note futures, 66 Ultra thirty-year bond futures, 235 thirty-year bond futures, 428 five-year note futures, and 301 two-year note futures were held in the account. If interest rates changed by 1 basis point, then total futures would change by \$171,036. The interest rate futures positions are collateralized daily utilizing cash, government, corporate and municipal fixed-income securities. Such collateral of \$152,273,532 at December 31, 2023, is included in the Master Trust's fixed-income assets, as is \$18,273,353 cash associated with the derivatives.

7. DERIVATIVE INSTRUMENTS (continued)

As of December 31, 2022, the total notional amount of the Master Trust's outstanding interest rate futures was \$243,743,117. For the year ended December 31, 2022, 551 Ultra ten-year treasury note futures, 456 ten-year note futures, 315 thirty-year bond futures, 305 five-year note futures, and 268 two-year note futures were held in the account. If interest rates changed by 1 basis point, then total futures would change by \$151,000. The interest rate futures positions are collateralized daily utilizing cash, government, corporate and municipal fixed-income securities. Such collateral of \$167,185,474 at December 31, 2022, is included in the Master Trust's fixed-income assets, as is \$7,108,885 cash associated with the derivatives.

The Master Trust implements some of its investment strategies through separate accounts, in which investment managers are permitted, through their investment management agreements, to trade derivative instruments (futures) for the purposes of implementing tactical rebalance and liquid portable alpha strategies. The fair value of futures contracts is determined by direct quoted market prices. There were no futures held for the year ended December 31, 2023 and 2022.

8. INFORMATION CERTIFIED BY THE CUSTODIAN

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, U.S. Bank, the Custodian of the Plan, has certified to the accuracy and completeness, to the best of their knowledge and belief, of all investment balances reflected on the accompanying statements of net assets available for benefits as of December 31, 2023 and 2022; and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2023. The information certified by the Plan's Custodian has not been subjected to any auditing procedures performed by the independent auditors.

9. TAX STATUS

The Plan obtained its latest determination letter on March 23, 2021, in which the Internal Revenue Service ("IRS") stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principals generally accepted in the United States of America requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management did not identify any positions during the year ended December 31, 2023. The Plan is subject to routine audits by taxing jurisdictions.

10. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in the Master Trust held by the Custodian. Further, the Master Trust invests in various investments and money market funds managed by the Custodian. These investments and transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA.

11. RISKS AND UNCERTAINTIES

The Plan invests in the Master Trust, which has various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the 2023 statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

Changes in the discount rate and investment returns can have a significant effect on the funded status of the Plan. Management continues to monitor these changes and the potential impact on the future pension plan fund requirements and related expenses.

Benefit Commencement Date:

- Preretirement Death Benefit The later of the death of the active participant or the date the participant would have attained age 55
- Deferred Vested Benefit The later of age 55 or termination of employment
- Disability Benefit Upon disablement
- Retirement Benefit Upon termination of employment

Form of Payment

Retirement from active status exempt with 75 points: Sixty five percent (65%) of participants are assumed to elect a lump sum payment and thirty five percent (35%) are assumed to elect a straight life annuity.

Retirement from active status non-exempt and exempt with under 75 points: Eighty percent (80%) of participants are assumed to elect a lump sum payment and twenty percent (20%) are assumed to elect a straight life annuity.

Retirement from vested termination: Sixty percent (60%) of participants are assumed to elect a lump sum payment and forty percent (40%) are assumed to elect a straight life annuity.

Annuity form of payment election from active and former status employees: Fifty percent (50%) are assumed to elect a single life annuity and fifty percent (50%) are assumed to elect a 100% joint and survivor annuity.

Percent Married

For purposes of valuing the pre-retirement surviving spouse's benefit, 85% of males and 50% of females are assumed to be married. Ten percent (10%) of eligible employees are assumed to waive coverage for the Pre-Retirement Survivor Annuity after age 55.

Spouse Age

Male spouses are assumed to be two years older than female spouses.

At-risk Assumptions

For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are

SCHEDULE SB ATTACHMENTS

assumed to elect the most valuable form of benefit under the plan, which is usually the lump sum form of payment.

Timing of Benefit Payments Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation Date First day of plan year

Funding Target Present value of accrued benefits as required by regulations under IRC §430.

Target Normal Cost Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.

Decrement Timing The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.

Actuarial Value of Assets Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings limited as described in IRS Notice 2009-22. The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.) The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the

method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not Included in Valuation

All benefits described in the Plan Provisions section of this report were valued. WTW has reviewed the plan provisions with Yellow Corporation and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor through its third party administrator, furnished participant data as of January 1, 2023. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount Rate

The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

Lump Sum Conversion Rate

As required by IRC §430, lump sum benefits are valued using "annuity substitution", so that the interest rates assumed are effectively the same as described above for the discount rate.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality

Assumptions used for funding purposes are as prescribed by IRC §430(h).

Termination

Termination rates were based on an experience study conducted in 2020.

Disability

Disability rates were based on a published table for pension participants believed to have reasonably similar characteristics participating in pension plans with similar disability provisions.

SCHEDULE SB ATTACHMENTS

Retirement

Retirement rates were based on an experience study conducted in 2020.

Benefit Commencement Date for Deferred Benefits:

- Preretirement Death Benefit Surviving spouses are assumed to begin benefits at the earliest permissible commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value, and experience indicates that most spouses do take the benefit as soon as it is available.

Form of Payment

Form of payment was based on an experience study conducted in 2020.

Source of Prescribed Methods

Funding Methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Benefit Commencement Date:

- Preretirement Death Benefit The later of the death of the active participant or the date the participant would have attained age 55
- Deferred Vested Benefit The later of age 55 or termination of employment
- Disability Benefit Upon disablement
- Retirement Benefit Upon termination of employment

Form of Payment

Retirement from active status exempt with 75 points: Sixty five percent (65%) of participants are assumed to elect a lump sum payment and thirty five percent (35%) are assumed to elect a straight life annuity.

Retirement from active status non-exempt and exempt with under 75 points: Eighty percent (80%) of participants are assumed to elect a lump sum payment and twenty percent (20%) are assumed to elect a straight life annuity.

Retirement from vested termination: Sixty percent (60%) of participants are assumed to elect a lump sum payment and forty percent (40%) are assumed to elect a straight life annuity.

Annuity form of payment election from active and former status employees: Fifty percent (50%) are assumed to elect a single life annuity and fifty percent (50%) are assumed to elect a 100% joint and survivor annuity.

Percent Married

For purposes of valuing the pre-retirement surviving spouse's benefit, 85% of males and 50% of females are assumed to be married. Ten percent (10%) of eligible employees are assumed to waive coverage for the Pre-Retirement Survivor Annuity after age 55.

Spouse Age

Male spouses are assumed to be two years older than female spouses.

At-risk Assumptions

For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are

assumed to elect the most valuable form of benefit under the plan, which is usually the lump sum form of payment.

Timing of Benefit Payments Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation Date First day of plan year

Funding Target Present value of accrued benefits as required by regulations under IRC §430.

Target Normal Cost Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.

Decrement Timing The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.

Actuarial Value of Assets Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings limited as described in IRS Notice 2009-22. The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.) The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the

method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not Included in Valuation

All benefits described in the Plan Provisions section of this report were valued. WTW has reviewed the plan provisions with Yellow Corporation and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor through its third party administrator, furnished participant data as of January 1, 2023. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount Rate

The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

Lump Sum Conversion Rate

As required by IRC §430, lump sum benefits are valued using "annuity substitution", so that the interest rates assumed are effectively the same as described above for the discount rate.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality

Assumptions used for funding purposes are as prescribed by IRC §430(h).

Termination

Termination rates were based on an experience study conducted in 2020.

Disability

Disability rates were based on a published table for pension participants believed to have reasonably similar characteristics participating in pension plans with similar disability provisions.

Retirement

Retirement rates were based on an experience study conducted in 2020.

Benefit Commencement Date for Deferred Benefits:

- Preretirement Death Benefit Surviving spouses are assumed to begin benefits at the earliest permissible commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value, and experience indicates that most spouses do take the benefit as soon as it is available.

Form of Payment

Form of payment was based on an experience study conducted in 2020.

Funding Methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Effective Date and Most Recent Amendment

December 11, 2003; as amended effective December 29, 2021.

Plan Year

The twelve-month period ending December 31, 2023.

Eligible Employees

Employees of the former Roadway Corporation who were participants in the Roadway Services, Inc. Pension Plan as of December 31, 1995 shall be eligible for immediate participation. Any other employee shall become a participant on the date he has both attained age 21 and completed one year of service, provided that:

- i. He is not a member of a union which has a collective bargaining agreement under the terms of which the Company is required to contribute to another plan; and
- ii. He is not currently receiving retirement or pension benefits.

Employees hired on or after January 1, 2004 will not be eligible to participate in this plan.

Benefits for all employees were frozen effective July 1, 2008.

Continuous Employment

Years and months of employment from last date of hire up to retirement, including:

- i. Leave of absence (sick, personal and military) in accordance with uniform Company policy, if employee returns to work for at least one year;
- ii. Layoff, in accordance with uniform Company policy; and
- iii. Service with the Company other than as an eligible employee (but Plan benefit reduced by benefits from other Company plans).

Normal Retirement Benefit

Eligible on the first of month next following age 65. Employees hired after December 31, 1993 are eligible for Normal Retirement on the first of the month next following the later of age 65 or completion of five years of participation.

Effective July 1, 2008 pay and service accruals were frozen.

The monthly benefit available is as follows:

If average compensation is over \$45,000, then the greatest of (1), (2) and (3) following:

- (1) 1.75% of Average Compensation up to \$45,000 plus 1.50% of Average Compensation over \$45,000 times years of continuous employment taken to a maximum of 30,
- (2) \$27,000 annually, reduced proportionately if continuous employment is less than 30 years, and
- (3) 40% of Final Average Annual Compensation, reduced proportionately if continuous service is less than 30 years.

If average compensation is less than \$45,000, then the greatest of (1), (2), and (3) following:

- (1) 2% of Average Compensation times years of continuous employment taken to a maximum of 30,
- (2) \$16,200 annually, reduced proportionately if continuous service is less than 30 years, and
- (3) 40% of Final Average Annual Compensation, reduced proportionately if continuous service is less than 30 years.

For nonexempt employees, the normal retirement benefit shall not be less than the benefit calculated under the Pension Equity Plan (PEP) formula as follows:

Final Average annual Compensation multiplied by the sum of the percentages earned according to the following schedule:

For Service During the Plan Year in Which the Age Shown is Attained	Percentage (of 5-Year Average W2 Pay) Earned
Under 35	4%
35 – 44	6%
45 – 54	9%
55 – 59	13%
60 and over	18%

Final Average Annual Compensation is the average annual compensation in the five consecutive years during the last ten years that produces the highest average.

SCHEDULE SB ATTACHMENTS

To convert the lump sum calculated under the PEP formula to an annuity, the interest rate and mortality basis as prescribed under IRS Section 417(e) at commencement is used unless the minimum conversion factor as outlined in the table provided in Appendix A of the plan document produces a higher benefit for the participant.

Non-exempt employees hired on or after January 1, 2000 are only eligible for the PEP formula.

There is an additional minimum benefit equal to the sum of the benefit accrued as of December 31, 1993 under the plan provisions then in effect (determined using a \$235,840 compensation limit applied to all years prior to 1994) plus future benefit accruals after January 1, 1994 determined using a \$150,000 (indexed) compensation limit.

For employees of Western Gillette, Inc., the benefit based on service before January 1, 1978 is determined under the provisions of that prior Plan.

Average Compensation is the average of W2 pay (subject to IRC Sec. 401(a)(17) limitations) during the final 20 years of continuous employment (or total years of employment, if shorter). The average W2 pay for years 1980 through 1984 is substituted for actual W2 compensation for years prior to 1980.

Retirement benefits in pay status which have been limited by IRC Section 415 will be adjusted annually to allow for post-retirement changes in such limits.

All participants are required to commence payment upon attainment of age 65.

2021 Retiree Annuity Purchase

In December 2021, retirees and in-payment beneficiaries in all subplans with monthly benefits less than or equal to \$1,205, who were in-payment as of January 1, 2021, were settled through the purchase of an annuity contract. Assets and liabilities for the affected participants and beneficiaries were transferred to Principal Financial for payments commencing January 1, 2022. Participants and beneficiaries were excluded if their benefit was impacted by a QDRO, they resided out of the US, or they had other administrative complexities.

Early Retirement Benefit

Eligible at age 55 with 10 or more years of continuous employment.

The monthly benefit payable is the accrued normal retirement benefit based on service and compensation to retirement, reduced to allow for early commencement. The amount of reduction is 3% per year between ages 60 and 65, plus 6% per year between ages 55 and 60.

The benefit for a nonexempt employee will not be less than the annuity equivalent of the PEP formula.

An exempt employee can retire as early as age 50, if his age plus service totals at least 75 points. For such exempt employees, more favorable early retirement reductions are applied:

Age Plus Service	Minimum Early Retirement Reduction Factor
At least 75 but less than 80	80%
At least 80 but less than 85	85%
At least 85 but less than 90	90%
At least 90	95%

Disability Benefit

Eligible after total and permanent disability with at least 10 years of continuous employment and not eligible for any other benefits under the Plan.

The benefit commencing at age 65 is equal to the accrued normal retirement benefit based on service and compensation to date of termination.

Termination Benefit

Eligible after any age with at least five years of service. For those eligible for the PEP formula, any age with at least three years of service.

The benefit commencing at age 65 is equal to the accrued normal retirement benefit based on service projected to age 65 and compensation to date of termination, multiplied by a ratio of service at termination to service at age 65. A participant with at least 10 years of service may elect to receive his benefit as early as age 55 in an actuarially reduced amount.

Pre-Retirement Death Benefit

In the event an active participant dies after age 55 with at least 10 years of continuous employment or after age 50 with 75 points (exempt employees only) and leaves a surviving spouse, that spouse is eligible for a retirement benefit.

The benefit payable to the surviving spouse, commencing the second calendar month after the employee's death, is equal to 50% of the accrued normal retirement benefit based on the deceased employee's service and compensation to the date of death. The benefit is payable to the earlier of the spouse's death or until the spouse has received 60 monthly payments.

Pre-Retirement Survivor Annuity

Upon the death of an active participant who has completed 5 years of service or a vested former participant who elects coverage and whose employment terminated on or after January 1, 1976, the employee's spouse is eligible to receive a spouse's retirement benefit, provided they had been married at least a year. This benefit is payable in lieu of the benefit described above unless elected otherwise.

If the participant has attained age 55 at the time of his death, his spouse receives a monthly lifetime pension equal to 50% of the reduced amount the participant would have received if he had retired the day before his death and elected Option 4 below.

If the participant is under age 55 at the time of his death, his spouse receives a monthly lifetime pension commencing on the first day of the month after the participant would have attained age 55 equal to 50% of the reduced amount he would have received if he had terminated employment as of the date of his death, survived to age 55, and retired with Option 4 below.

Benefits otherwise available will be reduced 0.3% per year of coverage after age 55 to provide for the additional cost of this survivor annuity. At the rate of 0.5% for each year of coverage after termination of employment with the Controlled Group between the ages of 55 and 59 and at the rate of 0.75% for each year of coverage after termination of employment with the Controlled Group between the ages of 60 and the Participant's Normal Retirement Date.

Optional Forms of Payment

The normal form of benefit is a straight life annuity. Under an option, an employee may elect to receive a benefit actuarially equivalent to his normal or early retirement benefit in one of the following forms:

- Option 1 – A reduced monthly pension payable for 60 months certain and thereafter during the employee's lifetime.
- Option 2 – A reduced monthly pension payable for 120 months certain and thereafter during the employee's lifetime.
- Option 3 – A reduced monthly pension payable during the employee's lifetime with such amount payable during the remaining lifetime of his beneficiary.
- Option 4 – A reduced monthly pension payable during the employee's lifetime with 50% of such amount payable during the remaining lifetime of his beneficiary.
- Option 5 – A reduced monthly pension payable during the employee's lifetime with 75% of such amount payable during the remaining lifetime of his beneficiary.
- Option 6 – A lump sum distribution. For exempt employees retiring under the 50/75 early retirement provision, the lump sum value is determined based on the annuity payable at age 65, reduced as follows for the number of years retirement precedes age 65: 4% per year up to 5 years plus 5% per year for additional years.

Effective Date and Most Recent Amendment

December 11, 2003; as amended effective December 29, 2021.

Plan Year

The twelve-month period ending December 31, 2023.

Eligible Employees

Employees of the former Roadway Corporation who were participants in the Roadway Services, Inc. Pension Plan as of December 31, 1995 shall be eligible for immediate participation. Any other employee shall become a participant on the date he has both attained age 21 and completed one year of service, provided that:

- i. He is not a member of a union which has a collective bargaining agreement under the terms of which the Company is required to contribute to another plan; and
- ii. He is not currently receiving retirement or pension benefits.

Employees hired on or after January 1, 2004 will not be eligible to participate in this plan.

Benefits for all employees were frozen effective July 1, 2008.

Continuous Employment

Years and months of employment from last date of hire up to retirement, including:

- i. Leave of absence (sick, personal and military) in accordance with uniform Company policy, if employee returns to work for at least one year;
- ii. Layoff, in accordance with uniform Company policy; and
- iii. Service with the Company other than as an eligible employee (but Plan benefit reduced by benefits from other Company plans).

Normal Retirement Benefit

Eligible on the first of month next following age 65. Employees hired after December 31, 1993 are eligible for Normal Retirement on the first of the month next following the later of age 65 or completion of five years of participation.

Effective July 1, 2008 pay and service accruals were frozen.

The monthly benefit available is as follows:

If average compensation is over \$45,000, then the greatest of (1), (2) and (3) following:

- (1) 1.75% of Average Compensation up to \$45,000 plus 1.50% of Average Compensation over \$45,000 times years of continuous employment taken to a maximum of 30,
- (2) \$27,000 annually, reduced proportionately if continuous employment is less than 30 years, and
- (3) 40% of Final Average Annual Compensation, reduced proportionately if continuous service is less than 30 years.

If average compensation is less than \$45,000, then the greatest of (1), (2), and (3) following:

- (1) 2% of Average Compensation times years of continuous employment taken to a maximum of 30,
- (2) \$16,200 annually, reduced proportionately if continuous service is less than 30 years, and
- (3) 40% of Final Average Annual Compensation, reduced proportionately if continuous service is less than 30 years.

For nonexempt employees, the normal retirement benefit shall not be less than the benefit calculated under the Pension Equity Plan (PEP) formula as follows:

Final Average annual Compensation multiplied by the sum of the percentages earned according to the following schedule:

For Service During the Plan Year in Which the Age Shown is Attained	Percentage (of 5-Year Average W2 Pay) Earned
Under 35	4%
35 – 44	6%
45 – 54	9%
55 – 59	13%
60 and over	18%

Final Average Annual Compensation is the average annual compensation in the five consecutive years during the last ten years that produces the highest average.

SCHEDULE SB ATTACHMENTS

To convert the lump sum calculated under the PEP formula to an annuity, the interest rate and mortality basis as prescribed under IRS Section 417(e) at commencement is used unless the minimum conversion factor as outlined in the table provided in Appendix A of the plan document produces a higher benefit for the participant.

Non-exempt employees hired on or after January 1, 2000 are only eligible for the PEP formula.

There is an additional minimum benefit equal to the sum of the benefit accrued as of December 31, 1993 under the plan provisions then in effect (determined using a \$235,840 compensation limit applied to all years prior to 1994) plus future benefit accruals after January 1, 1994 determined using a \$150,000 (indexed) compensation limit.

For employees of Western Gillette, Inc., the benefit based on service before January 1, 1978 is determined under the provisions of that prior Plan.

Average Compensation is the average of W2 pay (subject to IRC Sec. 401(a)(17) limitations) during the final 20 years of continuous employment (or total years of employment, if shorter). The average W2 pay for years 1980 through 1984 is substituted for actual W2 compensation for years prior to 1980.

Retirement benefits in pay status which have been limited by IRC Section 415 will be adjusted annually to allow for post-retirement changes in such limits.

All participants are required to commence payment upon attainment of age 65.

2021 Retiree Annuity Purchase

In December 2021, retirees and in-payment beneficiaries in all subplans with monthly benefits less than or equal to \$1,205, who were in-payment as of January 1, 2021, were settled through the purchase of an annuity contract. Assets and liabilities for the affected participants and beneficiaries were transferred to Principal Financial for payments commencing January 1, 2022. Participants and beneficiaries were excluded if their benefit was impacted by a QDRO, they resided out of the US, or they had other administrative complexities.

Early Retirement Benefit

Eligible at age 55 with 10 or more years of continuous employment.

The monthly benefit payable is the accrued normal retirement benefit based on service and compensation to retirement, reduced to allow for early commencement. The amount of reduction is 3% per year between ages 60 and 65, plus 6% per year between ages 55 and 60.

The benefit for a nonexempt employee will not be less than the annuity equivalent of the PEP formula.

Plan Name: Roadway LLC Pension Plan

Plan Sponsor: Yellow Corporation
Valuation Date: January 1, 2023

SCHEDULE SB ATTACHMENTS

An exempt employee can retire as early as age 50, if his age plus service totals at least 75 points. For such exempt employees, more favorable early retirement reductions are applied:

Age Plus Service	Minimum Early Retirement Reduction Factor
At least 75 but less than 80	80%
At least 80 but less than 85	85%
At least 85 but less than 90	90%
At least 90	95%

Disability Benefit

Eligible after total and permanent disability with at least 10 years of continuous employment and not eligible for any other benefits under the Plan.

The benefit commencing at age 65 is equal to the accrued normal retirement benefit based on service and compensation to date of termination.

Termination Benefit

Eligible after any age with at least five years of service. For those eligible for the PEP formula, any age with at least three years of service.

The benefit commencing at age 65 is equal to the accrued normal retirement benefit based on service projected to age 65 and compensation to date of termination, multiplied by a ratio of service at termination to service at age 65. A participant with at least 10 years of service may elect to receive his benefit as early as age 55 in an actuarially reduced amount.

Pre-Retirement Death Benefit

In the event an active participant dies after age 55 with at least 10 years of continuous employment or after age 50 with 75 points (exempt employees only) and leaves a surviving spouse, that spouse is eligible for a retirement benefit.

The benefit payable to the surviving spouse, commencing the second calendar month after the employee's death, is equal to 50% of the accrued normal retirement benefit based on the deceased employee's service and compensation to the date of death. The benefit is payable to the earlier of the spouse's death or until the spouse has received 60 monthly payments.

Pre-Retirement Survivor Annuity

Upon the death of an active participant who has completed 5 years of service or a vested former participant who elects coverage and whose employment terminated on or after January 1, 1976, the employee's spouse is eligible to receive a spouse's retirement benefit, provided they had been married at least a year. This benefit is payable in lieu of the benefit described above unless elected otherwise.

If the participant has attained age 55 at the time of his death, his spouse receives a monthly lifetime pension equal to 50% of the reduced amount the participant would have received if he had retired the day before his death and elected Option 4 below.

If the participant is under age 55 at the time of his death, his spouse receives a monthly lifetime pension commencing on the first day of the month after the participant would have attained age 55 equal to 50% of the reduced amount he would have received if he had terminated employment as of the date of his death, survived to age 55, and retired with Option 4 below.

Benefits otherwise available will be reduced 0.3% per year of coverage after age 55 to provide for the additional cost of this survivor annuity. At the rate of 0.5% for each year of coverage after termination of employment with the Controlled Group between the ages of 55 and 59 and at the rate of 0.75% for each year of coverage after termination of employment with the Controlled Group between the ages of 60 and the Participant's Normal Retirement Date.

Optional Forms of Payment

The normal form of benefit is a straight life annuity. Under an option, an employee may elect to receive a benefit actuarially equivalent to his normal or early retirement benefit in one of the following forms:

- Option 1 – A reduced monthly pension payable for 60 months certain and thereafter during the employee's lifetime.
- Option 2 – A reduced monthly pension payable for 120 months certain and thereafter during the employee's lifetime.
- Option 3 – A reduced monthly pension payable during the employee's lifetime with such amount payable during the remaining lifetime of his beneficiary.
- Option 4 – A reduced monthly pension payable during the employee's lifetime with 50% of such amount payable during the remaining lifetime of his beneficiary.
- Option 5 – A reduced monthly pension payable during the employee's lifetime with 75% of such amount payable during the remaining lifetime of his beneficiary.
- Option 6 – A lump sum distribution. For exempt employees retiring under the 50/75 early retirement provision, the lump sum value is determined based on the annuity payable at age 65, reduced as follows for the number of years retirement precedes age 65: 4% per year up to 5 years plus 5% per year for additional years.
