INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator of the Pivot Energy, Inc. 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the financial statements of the Pivot Energy, Inc. 401(k) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the year ended December 31, 2023, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter — Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2023 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Pivot Energy, Inc. 401(k) Plan

Notes to Financial Statements as of and for the year ended December 31, 2023

1. Description of the plan

The following description of the Pivot Energy, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan provisions.

General - Established effective January 1, 2023, the Plan is a defined contribution plan covering, with certain specified exclusions, all employees that are at least age eighteen. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The Plan administrator is Pivot Energy, Inc. (the "Company"). The Plan Administrator keeps records for the Plan. The Plan Trustee is the Chief Financial Officer of Pivot Energy, Inc. (the "Trustee") and Empower Trust Company LLC is the Plan Custodian ("Empower", the "Custodian"). Participant investment options in the Plan are valued every day that Empower, any transfer agent appointed by the Trustee (or Custodian) or the Employer, and any stock exchange used by such agent are open for business (daily valuation).

Contributions - Participants may contribute from 1% to 100% of their eligible pay, as defined under the Plan. The Plan permits elective deferrals, including Roth elective deferrals, 401(k) "ADP Test safe harbor contributions", employer matching contributions, and rollover contributions. Participants are allowed to designate all or a portion of their contributions as Roth contributions. The Company may contribute to the Plan at its discretion, up to 4% of employee compensation, as part of the safe harbor match. The Company contributions to the Plan were \$810,242 for the year ended December 31, 2023. Contributions are subject to certain Internal Revenue Code ("IRC") limitations.

Participant accounts - Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions and an allocation of the Company's discretionary contribution and Plan earnings. Participant accounts are also charged with withdrawals and an allocation of plan losses and administrative expenses. Allocations are based on participant earnings or account balances, as defined under the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Investments - Participants direct the investment of all contributions into various investment options offered by the Plan and may change investments and transfer amounts between funds daily.

Vesting - Participants are immediately vested in their voluntary contributions plus actual earnings (losses) thereon. Participants are 100% vested in employer nonelective contributions and employer matching contributions upon entering the Plan.

Notes receivable from participants - Participants may borrow from their individual accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one to five years or up to fifteen years for the purchase of a primary residence. The loans are secured by the vested balance in the participant's account and bear interest at a rate established quarterly by the Plan administrator based on the published prime rate plus 1%. At December 31, 2023, participant loans have various maturities through November 2028 at interest rates ranging from 9.00% to 9.50%. Principal and interest are paid ratably through payroll deductions.

Payment of benefits - On termination of service, a participant will receive a lump-sum amount equal to the value of their vested account as soon as feasibly possible following the participant's termination of service. Participants are also eligible to make hardship withdrawals from their deferred contributions in the event of certain financial hardships.

Transfers into the plan - On October 24, 2022, the Pivot Energy, Inc. 401(k) Plan was created effective January 1, 2023. All of the participants in the TriNet 401(k) Plan became 100 percent vested in that plan and were provided the option to have their account balance rolled into the Pivot Energy, Inc. 401(k) Plan. An aggregate amount of \$2,395,705 was rolled into the Plan during the year ended December 31, 2023, and is included on the statement of changes in net assets available for benefits.

2. Summary of accounting policies

Basis of accounting - The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of estimates - The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Pivot Energy, Inc. 401(k) Plan

Notes to Financial Statements as of and for the year ended December 31, 2023

Risks and uncertainties - The Plan utilizes various investment instruments, including mutual funds and fixed annuities. Investment instruments, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Investment valuation and income recognition - The Plan's investments are stated at fair value, except for its investment in the EI Fixed Account - Series Class I fixed annuity which is stated at contract value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Contract value is the amount Plan participants would receive if they were to initiate permitted transactions under the terms of the Plan (see Note 5). Shares of mutual funds are valued at quoted market prices, which represent the net asset value ("NAV") of shares held by the Plan at year-end. Mutual funds are valued at the NAV per share, which is based on the fair value of the underlying net assets.

The net appreciation (depreciation) in fair value of investments is based on the fair value of the investments at the beginning of the year or cost, if purchased during the year. Net appreciation (depreciation) includes the Plan's gains or losses on investments bought and sold as well as held during the year.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are recorded as distributions based on the terms of the Plan Document.

Administrative expenses - Administrative expenses are paid by either the Company or the Plan, in accordance with the terms of the Plan Document. Participants pay administrative costs for loans, distributions and qualified domestic relation orders. See further disclosures regarding revenue sharing in Note 6. Management fees and operating expenses charged to the Plan for investments in registered investment companies are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Payment of benefits - Benefit payments to participants are recorded upon distribution. There were no amounts allocated to accounts of persons who have elected to withdraw from the Plan, but have not yet been paid, as of December 31, 2023.

Contributions - Employee contributions and employer matching contributions are recorded when withheld on a semi-monthly basis, in conjunction with the Company's payroll cycle.

Excess Contributions Payable - The Plan is required to return contributions received during the Plan year in excess of the IRC limits. There were no excess contributions due to participants as of December 31, 2023.

3. Fair value measurements

Accounting Standard Codification 820, *Fair Value Measurements and Disclosures* ("ASC 820"), provides a framework for measuring fair value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value, as follows:

- Level 1, which refers to securities valued using unadjusted quoted prices from active markets for identical assets,
- Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available, and
- Level 3, which refers to securities valued based on significant unobservable inputs.

Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds - Shares of mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with Securities and Exchange Commission and are categorized as Level 1. The mutual funds held by the Plan are deemed to be actively traded.

Pivot Energy, Inc. 401(k) Plan

Notes to Financial Statements as of and for the year ended December 31, 2023

Transfers between levels - The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Plan management evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2023, there were no transfers between levels.

The following table sets forth by level within the fair value hierarchy a summary of the Plans Investments measured at fair value as a recurring basis as of December 31, 2023.

	Active Markets for Identical Assets (Level 1)	Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Mutual funds	\$ 5,826,398	\$ -	\$ -	\$ 5,826,398

4. Certified investment information

The following is a summary of the information regarding the Plan as of and for the year ended December 31, 2023, included in the Plan's financial statements and supplemental schedule that were prepared by or derived from information prepared by Empower, the custodian of the Plan and furnished to the Plan administrator. The Plan administrator has obtained certification from Empower that such information is complete and accurate.

Notes to Financial Statements as of and for the year ended December 31, 2023

5. Fully benefit-responsive investment contracts

The Plan holds a general account investment product in its investment portfolio that comprises a traditional investment contract. This contract meets the fully benefit-responsive investment criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. As of December 31, 2023, the Plan held investments with a contract value of \$172,343.

The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. The interest crediting rate is reset quarterly and can never be less than zero. The average yield earned by the plan for the benefit responsive fund can be derived by averaging the quarterly gross interest rates for the fund over the year. The average for 2023 is 1.23%.

The fully benefit-responsive investment contract included in the Plan's net assets as of December 31, 2023 includes termination clauses that may limit the ability of the Plan to transact with the issuer at contract value. The contract may be terminated by the Plan or the issuer with advance written notice, and shall terminate on the 75th business date after that notice is received by either party. Additionally, the contract will be terminated in the event of Plan termination by the Company. In the event the contract is terminated, the issuer will remit the Fixed Account Value in accordance with the applicable Fixed Account rider, less any outstanding charges and fees, including the Contract termination charge, if applicable, due to the issuer. These termination events are not considered to be probable of occurring as of December 31, 2023.

6. Related party transactions and exempt party-in-interest transactions

Fees paid for investment management services were included as a reduction of the return earned on each fund.

The Plan also allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan, including the Company. The Plan issues loans to participants, which are secured by the vested balances in the participants' accounts. The Plan issues loans to participants under the deferred arrangement portion of the Plan, which are secured by the vested balances in the participants' accounts.

Plan investments include the EI Fixed Account - Series Class I investment contract, which is issued by Empower Advisory Group LLC, a wholly owned subsidiary of the Custodian, and therefore the investment qualifies as party-in-interest. See Note 5 for further information regarding this contract.

Administrative revenues arise when investment managers return a portion of the investment fees to Empower to offset the administrative expenses. Any excess resulting from this revenue sharing remains in an unallocated account from which future Plan expenses can be paid. During the year ended December 31, 2023 there were Plan expenses of \$43,007 paid from this account.

7. Federal income tax status

The Plan uses a prototype plan document sponsored by USI Consulting Group ("USI"). USI received an opinion letter from the Internal Revenue Service (IRS), dated June 30, 2020, which states that the prototype document satisfies the applicable provisions of the IRC. The Plan itself has not received a determination letter from the IRS. However, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income tax has been included in the Plan's financial statements.

8. Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions set forth in ERISA. The Employer has no obligation or liability to maintain the plan for a specific length of time and may terminate the Plan or discontinue contributions under the Plan at any time without liability hereunder for any such discontinuance.

9. Subsequent events

The Company evaluated subsequent events, if any, that would require an adjustment to the Company's financial statements or require disclosure in the notes to the financial statements through October 23, 2024, the date the financial statements were available to be issued. The Company did not identify any subsequent events requiring disclosure.
