Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the certified investment information in the supplemental schedule agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to the Financial Statements

1. Description of the Plan

The following description of the MVM, Inc. 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document and any amendments thereto for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution profit sharing plan with 401(k) salary deferral provisions covering substantially all full-time employees of MVM, Inc., a wholly-owned subsidiary of KG&P Strategies, Inc. (KG&P) (the Company), and KG&P's wholly-owned subsidiaries: The Providencia Group, LLC, The KACE Company, LLC, and Sherpa LLC, DBA Evolve24. Effective March 1, 2023, the Sherpa LLC 401(k) Plan merged into the Plan. The net assets of the Sherpa LLC 401(k) Plan totaling \$3,480,876 were transferred, which included \$81,449 of outstanding loans.

The Plan does not include participation by leased employees, independent contractors, employees who are employed by the USMS 10th Circuit United Government Security Officers of America (UGSOA) collective bargaining agreement, or who are residents of Puerto Rico. There are no age or service requirements in order to be eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Plan was restated effective January 1, 2018 to allow for wage rate contributions equal to the fringe benefit amount determined according to the Prevailing Rate Schedule for each person reduced by contributions made to other plans that count towards satisfying the fringe rate stated in the Prevailing Rate Schedule.

Trustee, Custodian and Administration of the Plan

The trustee, custodian and recordkeeper of the Plan is Principal Trust Company and Principal Life Insurance Company (Principal). The administrator of the Plan is the Company. Principal holds all assets of the Plan in accordance with the service provider contract with the Company. The Investment Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions

Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover contributions). Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company may make a discretionary employer matching contribution to the Plan. During the year ended December 31, 2023, the Company did not make a discretionary employer matching contribution. The Company also makes qualified non-elective contributions to certain employees as defined by the Plan (health and welfare contributions). During the year ended December 31, 2023, the Company made health and welfare contributions of \$6,846,865 to the Plan. The Company may also make a profit sharing contribution as determined by the Company's Board of Directors. During the year ended December 31, 2023, the Company made \$1,299,287 in profit sharing contributions. Contributions are subject to certain Internal Revenue Service (the IRS) limitations.

Notes to the Financial Statements

2. Summary of Significant Accounting Policies

Basis of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in accordance with GAAP requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from estimated amounts.

Investment Valuation and Income Recognition

Investments are reported at fair value, including the collective trust funds, which hold indirect investments in fully benefit-responsive investment contracts, and except for the Plan's direct investment in a fully benefit-responsive investment contract which is reported at contract value. Contract value is the relevant measurement for the portion of the net assets available for benefits attributable to the fully benefit-responsive investment contract because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodian and insurance. See Note 4 for additional information related to fair value measurements.

The Plan's investments in mutual funds are valued at the daily closing price as reported by the funds. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission.

These funds are required to publish their daily net asset value (NAV) and to transact at that price. The Plan's investments in pooled separate accounts represent the NAV of shares held by the Plan at each year end. The Plan's investments in the collective trust funds are valued at NAV per unit, as determined by the trustee at year-end. The NAV is used as the practical expedient to estimate fair value for the Plan's investments in pooled separate accounts and common/collective trust funds. There are no unfunded commitments.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There were no changes in the methodologies used at December 31, 2023 or 2022.

MVM, Inc. 401(k) Savings Plan

Notes to the Financial Statements

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2023 and 2022:

Assets at Fair Value as of December 31, 2023				
	Total	Fair Value Hierarchy Level		
		Level 1	Level 2	Level 3
Investments at fair value level:				
Mutual funds	\$ 3,841,926	\$ 3,841,926	\$ -	\$ -
Total assets at fair value level	\$ 3,841,926	\$ 3,841,926	\$ -	\$ -
Total investments measured at NAV *				
Collective trust funds	\$ 54,185,655			
Pooled separate accounts	1,072,447			
Total investments, at fair value	\$ 59,100,028			

MVM, Inc. 401(k) Savings Plan

Notes to the Financial Statements

of the Funds' assets. While the Trustee generally relies on the Sub-Advisor to manage the Funds' assets, the Trustee maintains ultimate fiduciary authority over the management of and investments made in each Fund.

The fund is valued at NAV per unit. Units of each fee class of each Fund are valued each day on which the New York Stock Exchange (NYSE) is open for trading in accordance with the valuation procedures established by the Trustee. The NAV per unit is calculated as of the close of trading on the NYSE each day. The NAV per unit is computed by dividing the total fair value of the assets of a Fund, less its liabilities, by the total number of units outstanding at the time of such computation. The Funds sell new units and repurchase outstanding units on a daily basis. The Funds require the Company to provide a five-day written notice for withdrawals which will exceed \$1 million.

The Trust has investments in collective funds as well as other types of securities. Some funds may hold investments in units of other funds within the Trust or similar funds for which other unrelated entities are trustee. The Trustee or unrelated trustee estimates the fair value of investments in collective funds that have calculated NAV per unit in accordance with the specialized accounting guidance for investment companies. Accordingly, as a practical expedient, investments in other such funds are valued at their NAV as reported by the investee funds. The funds have the ability to redeem their investments in the collective funds at NAV without restrictions.

Securities, other than bonds, listed on a securities exchange, market or automated quotation system for which quotations are readily available are valued at the closing price on the primary exchange or market on which they are traded on the day of valuation or, if there is no such reported sale on the valuation date, at the most recent bid quotation on the principal exchange. If a market price is not readily available or if such price is deemed unreliable, it will be valued at fair value in accordance with valuation procedures established by the Trustee. The Trustee's determination of fair value involves consideration of a number of subjective factors, and therefore, no single standard for determining fair value will apply.

The investment contract issuers seek to preserve the principal investment and earnings but cannot guarantee that they will be able to do so. The collective trust is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. There are no reserves against contract values for credit risk of the contract issuers or otherwise. There are no unfunded commitments.

6. Guaranteed Investment Contract With Principal Trust Company

In 2016, the Plan entered in a benefit-responsive guaranteed investment contract with Principal. Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

MVM, Inc. 401(k) Savings Plan

Notes to the Financial Statements

10. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to reduce or discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

11. Reconciliation of Financial Statements to the Form 5500

The following is a reconciliation of net assets available for benefits per the accompanying statements of net assets available for benefits to the Form 5500 as of December 31, 2022:

	2022
Net assets available for benefits per the financial statements	\$ 48,159,737

The following is a reconciliation of the change in net assets available for benefits per the financial statements for the year ended December 31, 2023 to the Form 5500:

Less: true up for distributions	(4,319)
Net Income, per the Form 5500	\$ 12,739,446

12. Delinquent Participant Contributions

During the Plan year ended December 31, 2021, participant contributions totaling \$324,271 were not remitted to the Plan within the period prescribed by DOL regulations. These transactions constitute prohibited transactions as defined by ERISA. These contributions and related lost earnings were remitted to the Plan in October 2024.

13. Subsequent Events

The Plan Administrator has evaluated subsequent events through October 15, 2024, the date the financial statements were available to be issued. The Plan Administrator is not aware of any subsequent events which would require recognition or disclosure in the financial statements, except as disclosed in Note 12.
