Plan Administrator  
TriOak Foods, LLC Retirement Plan

### ***Scope and Nature of the ERISA Section 103(a)(3)(C) Audit***

We have performed audits of the accompanying financial statements of TriOak Foods, LLC Retirement Plan (Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of January 2, 2024 and December 31, 2023 (in liquidation), and the related statements of changes in net assets available for benefits for the period then ended January 2, 2024 and year then ended December 31, 2023 (in liquidation), the statement of net assets available for benefits as of December 31, 2022 (ongoing), and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2023 and 2022, and for the year ended December 31, 2023, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

### ***Opinion***

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

### ***Basis for Opinion***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

### ***Emphasis of Matter - Basis of Opinion***

As discussed in Note 7 to the financial statements, the governing body of TriOak Foods, LLC Retirement Plan approved a plan of liquidation on December 29, 2023, and management determined liquidation is imminent. As a result, the Plan has changed its basis of accounting from the going concern basis used in presenting the 2022 financial statements to the liquidation basis used in presenting the 2024 and 2023 financial statements. Our opinion is not modified with respect to that matter.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material, if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

*Auditor's Responsibilities for the Audit of the Financial Statements* (continued)

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

**Note 1. Description of Plan**

The following description of TriOak Foods, LLC Retirement Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of TriOak Foods, LLC (Company) who are age twenty or older. Employees must have completed one year of service to receive employer contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to the maximum percentage allowable under the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollovers). The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation. Employee deferral rates increase by 1% each year to a maximum of 8% unless the participant elects out of the auto escalation provision. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company contributes safe harbor matching contributions to employees who have completed one year of service. The current matching formula is 100% of the first 3% and 50% of the next 2% of eligible compensation that a participant contributes to the Plan. Additional amounts may be contributed at the option of the Company's Board of Directors. During the year ended December 31, 2023 and period ending January 2, 2024, respectively, no additional contributions were made. Contributions are subject to certain IRS limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's matching contributions, and allocations of Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or specific transactions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account. The Plan allows each participant to choose his or her own investment mix for Company and participant contributions. Participants can change their investment elections at any time.

Vesting

Participants are immediately vested in their voluntary contributions and in the Company's safe harbor matching contributions plus actual earnings thereon. Vesting in the Company's discretionary contributions portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after five years of credited service.

**TriOak Foods, LLC Retirement Plan**  
**Notes to Financial Statements**

---

**Note 1. Description of Plan (continued)**

Notes Receivable from Participants

The Plan allows a participant or his/her beneficiary to borrow up to 50% of the vested account balance, with the minimum loan allowed being \$1,000 and the maximum \$50,000. Principal residence loans must be repaid within a reasonable period of time with a reasonable interest rate, while loans for any other purpose are due within five years with a reasonable interest rate. The loans are secured by the balances in the participants' accounts and bear interest at rates ranging from 4.25% to 8.50%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest are paid ratably through scheduled payroll deductions.

Payments of Benefits

Upon retirement, participants receive the amount credited to their accounts. A similar benefit is paid upon disability or death. In the event of termination of employment, the participant will receive the vested balance of his or her account. Benefits are paid to participants or their beneficiaries in a lump sum or in installments.

**Note 2. Summary of Significant Accounting Policies**

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting. The financial statements as of December 31, 2022 are presented using the ongoing plan basis to value Plan assets and the financial statements as of and for the period ended January 2, 2024 and year ended December 31, 2023 are presented using the liquidation basis to value Plan assets.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction. See Note 4 for discussion on fair value measurement.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

**TriOak Foods, LLC Retirement Plan**  
**Notes to Financial Statements**

---

**Note 2. Summary of Significant Accounting Policies (continued)**

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis and continues to accrue until delinquent participant notes are reclassified to a distribution. Related fees are recorded as administrative expenses and are expensed when they are incurred. The Plan administrator monitors delinquent notes in order to estimate the allowance for credit loss. As of January 2, 2024 and December 31, 2023, respectively, the allowance for credit loss is zero. If a participant ceases to make loan repayments and the Plan administrator deems the participant notes to be in default, the participant notes balance is reduced, and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants and distributions are charged directly to the participant's account and are included in administrative expenses. Investment advisory and plan administration fees are allocated to participants' accounts.

Subsequent Events

The Plan administrator performed an evaluation of subsequent events through October 11, 2024, which is the date the financial statements were available to be issued. Except as disclosed in Note 7 to the financial statements, there are no subsequent events that require disclosure or recognition in the financial statements as of year end.

**Note 3. Information Prepared and Certified by Trustee**

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedule, as follows, was obtained by management and agreed to or derived from information certified as complete and accurate by Fidelity Management Trust Company.

	2024	2023	2022
Investments and notes receivable	\$ -	\$ -	\$ 29,604,042
Investment income and interest income on notes receivable	-	\$ 3,997,847	

**Note 4. Fair Value Measurements**

FASB's Accounting Standards Codification (Professional Standards) establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under Professional Standards are described as follows:

**TriOak Foods, LLC Retirement Plan**  
**Notes to Financial Statements**

---

**Note 4. Fair Value Measurements (continued)**

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets and liabilities in active markets
- quoted prices for identical or similar assets and liabilities in inactive markets
- inputs other than quoted prices that are observable for the asset or liability
- inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

*Money Market and Mutual funds:* Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

*Collective trust funds:* Valued based on the NAV of units of the collective trust. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

**TriOak Foods, LLC Retirement Plan**  
**Notes to Financial Statements**

**Note 4. Fair Value Measurements (continued)**

As of January 2, 2024 and December 31, 2023, respectively, the Plan did not have any investments. The following table set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2022:

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ <u>28,523,298</u>	\$ <u>-</u>	\$ <u>-</u>	\$ <u>28,523,298</u>

Total investments at fair value				\$ <u>29,286,748</u>

The following table sets forth a summary of the Plan's investments in Putnam Trust pooled funds as of December 31, 2022:

	Investment Strategy	Fair Value
Putnam Trust Stable Value	Diversified investment in guaranteed investment contracts and money market funds	\$ 763,450

As of January 2, 2024, December 31, 2023 and 2022, the Plan did not have any unfunded commitments with any of the above pooled funds. Furthermore, the above pooled funds' redemption frequency is daily without any redemption notice period.

**Note 5. Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Recent market conditions have resulted in an unusually high degree of volatility and increased the risks and short-term liquidity associated with certain investments held by the Plan, which could impact the value of investments after the date of these financial statements.

**Note 6. Tax Status and Plan Amendments**

The Plan is a nonstandardized defined contribution prototype plan sponsored by Fidelity Management & Research Co. The prototype plan has received a letter from the Internal Revenue Service as to its qualified status. The Plan obtained its latest determination letter on June 30, 2020, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code.

Professional standards require the Plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan has open tax years for the three years prior to December 31, 2023.

**Note 7. Plan Termination**

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in Company contributions.

Management of TriOak Foods, LLC, the Plan sponsor, elected to merge the Plan into the JBS 401(k) Savings Plan, to terminate the existing Plan and to liquidate all funds effective December 29, 2023. Final distributions will be determined based on all participants being 100% vested, and will be made as soon as possible after the January 1, 2024, termination date. In accordance with generally accepted accounting principles, the Plan has changed its basis of accounting used to value Plan assets from the ongoing basis to the liquidation basis for periods after December 31, 2022.

The Plan was effectively liquidated on January 2, 2024, with terminating distribution of \$20,050,225. The outstanding participant loans at this date were \$234,729.

**Note 8. Related Party Transactions and Party-in-Interest**

Certain Plan investments are shares of mutual funds managed by an affiliate of Fidelity Management Trust Company. Fidelity Management Trust Company is the Plan Trustee and, therefore, these transactions qualify as party-in-interest transactions.

Fees totaling \$42,062 were expensed by the Plan to Fidelity Management Trust Company for plan administration and investment trustee services for the year ended December 31, 2023. Fees totaling \$24,360 were expensed by the Plan to UBS for investment advisory fees for the year ended December 31, 2023.

As of January 2, 2024 and December 31, 2023, respectively, the Plan did not have any accrued fees payable to Fidelity Management Trust Company and UBS, respectively, for plan administration, trustee fees and investment advisory fees. As of December 31, 2022, the Plan had accrued fees of \$3,435 and \$8,951 payable to Fidelity Management Trust Company and UBS, respectively for plan administration, trustee fees and investment advisory fees.
