FINANCIAL STATEMENTS

JANUARY 31, 2024 AND 2023

INDEPENDENT AUDITOR'S REPORT

Board of Trustees
Office and Professional Employees International Union
Locals 30 and 537 Retirement Fund
1200 Wilshire Boulevard, Fifth Floor
Los Angeles, California 90017

Members of the Board:

Opinion

We have audited the accompanying financial statements of Office and Professional Employees International Union Locals 30 and 537 Retirement Fund (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits as of January 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the statement of accumulated plan benefits as of February 1, 2023, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of January 31, 2024 and 2023, and the changes in its net assets available for benefits for the years then ended, and the accumulated plan benefits as of February 1, 2023, and the changes in its accumulated plan benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

NOTE 1 - DESCRIPTION OF THE PLAN

The Office and Professional Employees International Union Locals 30 and 537 Retirement Fund (the "Plan") is a multiemployer defined benefit pension plan providing benefits to participants. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Active employees of participating employers, on whose behalf employers are required to contribute to the Plan, are eligible for those benefits specified by the Plan based on the employer contribution rate designated in the collective bargaining agreements between their employer and OPEIU Locals 30 and 537.

THE PLAN DOCUMENT INCLUDES DETAILED RULES FOR EACH SITUATION. PARTICIPANTS SHOULD REFER TO THE PLAN AGREEMENT AND ANY AMENDMENTS REGARDING SPECIFIC PROVISIONS OF THE PLAN.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Accounting

The accounts of the Plan are maintained on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

B. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires the plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates.

C. Employer Contributions

Employer contributions are reported on the accrual basis and contributions made by employers on behalf of employees for the hours worked during the year. Employer contributions receivable is accrued based on contributions received subsequent to the year end and includes delinquent contributions only to the extent they are collected. No allowance is provided for estimated uncollectible accounts.

D. Employer Payroll Compliance Program

Employer remittance reports were accepted as submitted, without examination or verification of employers' payroll records. The system of internal control provides for examination of employers' payroll records under a separate payroll compliance program.

E. Investment Valuation and Income Recognition

Accounting standards establish a fair value hierarchy which prioritizes valuation inputs into three levels based on the extent to which inputs used in measuring fair value are observable in the market.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Investment Valuation and Income Recognition (Continued)

Level 1 – Inputs are based on quoted prices for identical instruments in active markets.

Level 2 – Inputs are based on quoted prices for similar instruments and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data.

Level 3 – Inputs are generally unobservable and typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability.

The following tables summarize the Plan's investments based on the inputs used to value them:

Description	January 31, 2024			
	Level 1	Level 2	Level 3	Total
Money Market Fund	\$ -	\$ 126,315	\$ -	\$ 126,315

				<u>\$ 135,268,153</u>

Investments Valued at Net Asset Value ^A				<u>91,557,964</u>
				<u>\$ 131,670,188</u>

^A In accordance with ASC 820, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Level 1 investments consist of mutual funds that are actively traded on a national exchange. Level 2 investments consist of a money market fund that is reported at amortized cost, which approximates fair value. The limited partnerships and common/collective trusts are valued based on net asset value (NAV) (or its equivalent).

The Plan's investments are invested in accordance with the Plan's policies and guidelines. The unfunded commitments and significant terms of redemption for the Plan's investments valued at net assets value are as follows:

⁽¹⁾ Hamilton Lane Private Equity Fund VI LP is a diversified private equity "fund of funds" vehicle that invests in multiple strategies (i.e., corporate finance/buyout, special situation, venture capital) that match, as closely as possible, the return of the S&P 500 Index plus three percent.

⁽²⁾ Hamilton Lane Private Equity Offshore Fund VIII LP is a private equity "fund of funds" with exposure to a well-diversified private equity portfolio seeking to enhance returns through secondary investments.

Purchases and sales of securities are recorded on the trade date basis. Dividends are recorded on the ex-dividend date and interest income is recorded on the accrual basis. Realized gains and losses from the sale or redemption of investments and unrealized appreciation or depreciation in the fair value of investments is reported as net appreciation (depreciation) of investments. Form 5500 requires realized gains and losses to be reported as the difference between proceeds from the sale or redemption of investments and the current (market) value of the investment at the beginning of the year, for those investments on hand at the beginning of the year, or the purchase price of investments acquired during the year. The different methods of computing realized gain or loss and the unrealized appreciation (depreciation) of investments results in differences in reporting on the financial statements and Form 5500.

F. Benefits

Benefits are recorded when they become payable to retired participants and beneficiaries. Under the payment procedures established by the Trustees, retirees are paid on a monthly basis in the month of their entitlement. No provision is made in the accounting records for the actuarially determined present value of "accrued" pension benefits.

G. Tax-Exempt Status

No provision for federal or state income tax is made. The Plan obtained its latest determination letter on September 4, 2015, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

G. Tax-Exempt Status (Continued)

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken a tax position that more likely than not would not be sustained upon examination by a tax authority. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

H. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on the employees' total credited services, which is the sum of future service credits. Benefits payable under all circumstances are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by Rael & Letson, and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment between the valuation date and the expected date of payment. The significant actuarial assumptions used in the latest report date of February 1, 2023 [2022] were: (a) life expectancy of participants - RP 2014 Employee/Retired Mortality Table with ages set forward one year, Disabled: RP 2014 Disabled Mortality Table with ages set forward one year, (b) retirement age assumptions (the assumed average retirement age was 74.1 [74.2]; (c) assumed average rate of return of 6.50% for funding, 2.60% [2.21%] for current liability; (d) "unit credit cost" method of valuation was employed; and (e) other assumptions.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The current liability interest rate was changed from 2.21% to 2.60% due to a change in the allowable interest rate range, and the current liability mortality table was updated as required.

As of February 1, 2023 and 2022, the Plan had an unfunded actuarial accrued liability of \$2,954,925 and \$708,224, respectively, which will be amortized by the excess of contributions received over the cost of each future year's accumulation of benefits.

I. Risks and Uncertainties

The actuarial present value of accumulated plan benefits is calculated based on certain assumptions pertaining to interest rate, participant demographics and other assumptions, all of which are subject to change. Due to the inherent uncertainty of the assumption process, it is at least reasonably possible changes in these assumptions in the near-term would be material to the disclosure to financial statements of actuarial present value of accumulated plan benefits.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

I. Risks and Uncertainties (Continued)

The Plan invests in various investments that are exposed to various risks such as interest rate, market fluctuations and credit risk. Some estimated values may differ from values that would have been used had a ready market existed for the investment. Due to the level of risk associated with investments and the level of uncertainty with respect to the changes in the value of investments, it is reasonably possible that changes in risks in the near term would materially affect the amounts reported in the financial statements.

NOTE 3 - ADMINISTRATION FEES

Benefit Programs Administration provides monthly administration services on a monthly flat fee of \$9,730 per month for the period June 1, 2020 through May 31, 2022, \$10,023, for the period June 1, 2022 through May 31, 2023 and \$10,323 effective June 1, 2023.

NOTE 4 - FUNDING POLICY

The Board of Trustees established a funding policy and method in order to promote the purpose of the Plan and to ensure compliance with ERISA. Each employer contributes to the Plan such amounts and at such times as are required by the applicable provisions of the Collective Bargaining Agreement, or such other agreements as are approved by the board of trustees. The annual contributions for the year satisfied the minimum funding requirements of ERISA.

NOTE 5 - PLAN TERMINATION

Under the current law, the Plan may be terminated in accordance with the provisions of ERISA (as amended) and related regulations. The Plan may be terminated by an amendment which provides that participants will receive no credit under the Plan for credited service with an employer after a specified date, or which causes the Plan to become a defined contribution plan; withdrawal of every employer; or through proceedings instituted by the Pension Benefit Guaranty Corporation (PBGC) when one of certain conditions exists with respect to the Plan.

If the Plan is terminated by the withdrawal of all employers and if the value of nonforfeitable (vested) benefits exceeds the value of Plan assets, the Board of Trustees must amend the Plan to reduce benefits, but only to the extent necessary to pay all of the nonforfeitable benefits when due and to reduce accrued benefits only to the extent that those benefits are not eligible for the guarantee of the PBGC. If, after implementation of the reduction in benefits, the Plan's available resources are not sufficient to pay benefits when due for the plan year, the Plan will be considered insolvent.

Plan benefits are guaranteed by the PBGC only if the Plan is insolvent. The PBGC, however, will not guarantee benefits or benefit increases in effect for fewer than 60 months before the first day of the plan year in which a plan amendment to reduce benefits is taken into account in determining the minimum contribution requirement for the plan year in accordance with the provisions set forth in ERISA.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

The Summary Plan Description contains detailed provisions regarding the priority order of participants' claims to Plan assets upon plan termination.

NOTE 6 - RELATED-PARTY TRANSACTION

The Plan's third-party administrator, Benefit Programs Administration (BPA) is a contributing employer to the Plan. During the years ended January 31, 2024 and 2023, BPA contributed approximately \$197,650 and \$189,578, respectively. Contributions receivable from BPA totaled \$20,567 and \$17,345 as of January 31, 2024 and 2023, respectively.

BPA provides monthly administration services on a monthly flat fee of \$9,730 per month for the period June 1, 2020 through May 31, 2022, \$10,023 for the period June 1, 2022 through May 31, 2023 and \$10,323, effective June 1, 2023.

STATEMENT OF ACTUARIAL ASSUMPTIONS / METHODS

METHODOLOGY:	
Actuarial Value of Assets	Assets are valued according to a method which recognizes 20% of each year's excess (or deficiency) of actual investment return on the Market Value of Assets over the expected return on the Market Value of Assets in the year the excess (or deficiency) occurs. An additional 20% of the excess (or deficiency) is recognized in each of the succeeding four years until it is totally recognized. In no event will the Actuarial Value of Assets be less than 80% or more than 120% of the Market Value of Assets.
Actuarial Cost Method	<u>Unit Credit Cost Method</u> Under this method, we determine the present value of all benefits earned through the valuation date. An individual's normal cost is the present value of the benefit expected to be earned in the valuation year. The total accrued liability is the sum of the individual present values for all participants. The Unfunded Accrued Liability is the difference between the accrued liability and the assets of the Trust. If the assets exceed the accrued liability, the Plan is in a surplus position. This method requires that each year's contributions be applied first to the normal cost, and the balance of the contributions applied to amortize the Unfunded Accrued Liability. The normal cost is adjusted at the close of the plan year to reflect the actual level of contributions received during that plan year.

STATEMENT OF ACTUARIAL ASSUMPTIONS / METHODS
(CONTINUED)

ASSUMPTIONS:																								
Interest Discount Rate		6.50% for funding and 2.60% for current liability.																						
Assumed Rate of Return on Investments		6.50% compounded annually, net of all expenses.																						
Derivation of Net Investment Return		The expected return assumptions are established based on a long-term outlook and are based on past experience, future expectations and professional judgment. We have modeled the assumptions based on average long-term future expected returns and their respective capital market assumptions as provided by several investment professionals. Based on the inputs of the Plan's specific target asset allocation, we have established the reasonability of the Plan's assumption.																						
Investment and Operating Expenses		Assumed covered by investment earnings.																						
Justification for Demographic Assumptions		The mortality, termination, retirement and disability assumptions are reviewed with each valuation to ensure they are reasonable and represent the actuary's best estimate of the long-term expectations for the Plan. Past experience and anticipated future experience based on industry-specific knowledge and professional judgment are used to verify the reasonability of each of these assumptions.																						
Mortality		Healthy Lives: RP-2014 Employee/Retired Mortality Table with ages set forward one year. Disabled Lives: RP-2014 Disabled Mortality Table with ages set forward one year. Current Liability: 2023 static mortality tables provided in IRC Regulations Section 1.431(c)(6)-1, as prescribed by IRS Notice 2022-22.																						
Mortality Improvement		The current mortality assumption, with no mortality improvement, is assumed to be reasonable at this time.																						
Termination Rates		Table T-3, <u>The Actuary's Pension Handbook</u> . Termination rates stop when a participant is first eligible to retire.

STATEMENT OF ACTUARIAL ASSUMPTIONS / METHODS
(CONTINUED)

ASSUMPTIONS:	
Form of Benefit	At retirement, 75% of all participants (from active and vested inactive status) are assumed to elect the lump sum option (with a residual annuity) and 25% are assumed to elect an annuity. For those electing an annuity (either residual or a full annuity), 65% are assumed to elect a Single Life Annuity, and 35% are assumed to elect an optional payment form (Joint & Survivor, Certain & Life).
Late Retirement Behavior	Terminated vested participants who are older than 64 are assumed to retire immediately and receive an actuarially adjusted benefit. Terminated vested participants who are at least age 70 and do not have a pending application are assumed to have a liability of \$0.
Assumption for Non-Vested Inactive Participants	Liabilities retained for non-vested inactives within 1 year of incurring a break in service (2 work months or less).
Marital Status	80% of non-retired participants are assumed to be married. Spouses are assumed to be the same age as participants in the population.
Future Contributions	Contribution received in the prior Plan Year along with any known collectively bargained increases.
Assumptions for Lump Sum and Cash Withdrawal Benefits	The assumed interest rate for valuing lump sums and cash withdrawal benefits is equal to 6¾% +/- ¼% (6½% as of February 1, 2023) depending on whether the weighted lump sum interest rate is above or below 6¾%. Mortality is based on the Current Year Applicable Mortality Table in accordance with Internal Revenue Code Section 417(e).
Cash Withdrawal Percentage	25% of participants terminating before retirement eligibility are assumed to take a cash withdrawal of their Pre-95 monies along with any employee contributions. The remaining portion is assumed to be deferred to age 64.
Missing Data	If not specified, participants are assumed to be female and the same age as the average of participants with the same status code.
CHANGES SINCE PRIOR VALUATION	The current liability interest rate was changed from 2.21% to 2.60% due to a change in the allowable interest rate range, and the current liability mortality table was updated as required.

SUMMARY OF PLAN PROVISIONS

The OPEIU Locals 30 & 537 Retirement Fund became effective January 1962 as a result of collective bargaining between the contributing Employers and the Union. The Plan was last restated as of November 1, 2022. The principal provisions of the Plan as of February 1, 2023 are summarized below. The provisions of the O.P.E.I.U. Local 139/537 Plan are unchanged as stipulated in the applicable Plan Document prior to the merger with the exception of disability, which is now based on the provisions of the OPEIU Locals 30 & 537 Retirement Fund.

In such case, the entire actuarial equivalent value is paid as a lump sum). (b) A Past Service Benefit of \$11.50 per month per year of service from February 1, 1962 to January 31, 1974. In lieu of receiving a monthly benefit, participants may elect to receive a lump sum which is the actuarial equivalent of the pension amount, in combination with the lump sum described in (a) above. (c) Lump sum payment of Account Balance with interest. In lieu of receiving a monthly benefit, participants may elect to receive a lump sum which is the actuarial equivalent of the pension amount, in combination with the lump sum described in (a) above. OTHER	
Interest Credits on Account Balances	Account balances and voluntary contributions are credited with 5% interest each year. Bonus interest is credited to accounts each January 31st equal to the sum (no less than zero) of the following: (1) 80% of the actuarial gain percentage on the investment assumption as reported in the previous year's actuarial valuation report, plus (2) 20% of such gain percentage from the next previous year, less (3) Up to 100% of any loss percentages not previously accounted for through this formula during the five years ending with the previous year's actuarial valuation. The Potential Bonus Interest to be applied on any January 31st will not be final until the Board of Trustees has: (1) Accepted the previous year's ERISA funding actuarial valuation, and (2) Effective with bonus interest credit applied on or after January 31, 2016, verified that the Fund is at least 100% funded in the previous year's ERISA funding actuarial valuation based on the fair market value of assets as confirmed by the Plan Actuary, and (3) Ratified application of the formula described above.
