MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		☒	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		☒	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		☒	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		☒	
e Was this plan covered by a fidelity bond?	☒		500000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		☒	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	☒		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)		☒	
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		☒	
l Has the plan failed to provide any benefit when due under the plan?		☒	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)		☒

INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator
St. Romain Oil Company, LLC 401(k) Plan & Trust

Opinion

We have audited the financial statements of St. Romain Oil Company, LLC 401(k) Plan & Trust (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statements of changes in net assets available for benefits for the years ended, December 31, 2023 and 2022, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2023 and 2022, and the changes in its net assets available for benefits for the years ended December 31, 2023 and 2022 in accordance with accounting principles generally accepted in the United States of America (GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, line 4i – Schedule of Assets (Held at End of Year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplemental schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

ST. ROMAIN OIL COMPANY, LLC 401(K) PLAN & TRUST
NOTES TO FINANCIAL STATEMENTS

For the Years Ended December 31, 2023 and 2022

1) Description of plan

The following description of the St. Romain Oil Company, LLC 401(k) Plan & Trust (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan began operations February 9, 1995 as a defined contribution plan covering substantially all employees of St. Romain Oil Company, LLC (Employer or Company) who are twenty and one half years of age and who have completed six months of service, as defined. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

(b) Contributions

Participants may make elective contributions to the Plan by deferring a percentage of their compensation each pay period up to a maximum of 100% of compensation or the statutory maximum dollar amount for the year. In addition, a participant who has attained age 50 before the close of the Plan year shall be eligible to make catch-up contributions in accordance with limitations under the Internal Revenue Code. The total of deferral and Company match cannot exceed the statutory maximum.

The Plan makes matching contributions equal to 50% of the participants salary deferred up to 5%. In addition, the Plan allows for a discretionary profit-sharing contribution, to be determined by the Company, out of current or accumulated net profits. There were no profit-sharing contributions made in 2023 and 2022.

(c) Participant accounts

Each participant's account is credited with the participant's contribution and allocation of the Company contributions and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of service. A participant becomes 100% vested after three years of services.

(e) Payment of benefits

Upon termination of service due to death, disability, or normal retirement, a participant will receive either a lump-sum or partial withdrawal amount equal to the value of the vested interest in his or her account upon participant consent. Additionally, under certain circumstances of financial hardship, the participant is allowed to withdraw funds from the Plan. Balances under \$5,000 may be paid out at the discretion of the Company.

(f) Forfeitures

When termination of participation in the Plan occurs, the non-vested portion of the participant's account, as defined by the Plan, represents forfeitures. Forfeitures are used to reduce Employer match. If the participant is re-employed and fulfills certain requirements, as defined in the Plan, the participant's account will be reinstated. Forfeitures used to reduce the Employer match in 2023 and 2022 were \$20,293 and \$3,672, respectively. Forfeitures available to offset future Employer contributions at December 31, 2023 and 2022 were \$12,067 and \$11,662, respectively.

ST. ROMAIN OIL COMPANY, LLC 401(K) PLAN & TRUST
NOTES TO FINANCIAL STATEMENTS

For the Years Ended December 31, 2023 and 2022

1) Description of plan (continued)

(g) Notes receivable from participants

Loans to participants from the Plan are not permitted.

2) Summary of accounting policies

(a) Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

(b) Investment valuation and income recognition

The Plan's investments are stated at fair market value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for discussion of fair value measurements.

The Plan maintains a non-fully benefit-responsive investment contract with Southern Farm Bureau Life Insurance Company. Southern Farm Bureau Life Insurance Company maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals. The contract is included in the financial statements at market value as reported to the Plan by Southern Farm Bureau Life Insurance Company. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed interest rate on the investment is 3.5% and is allocated to the participant accounts at the end of the plan year.

(c) Payment of benefits

Participants will become 100% vested in all their accounts under the Plan once they attain their normal retirement age. However, the actual payment of benefits generally will not begin until they have terminated employment and reached their normal retirement date. In such event, a distribution will be made, at their election, as soon as administratively feasible. If they remain employed past their normal retirement date, they may generally defer the receipt of benefits until they terminate employment. In such event, benefit payments will begin as soon as feasible at their request, but generally no later than age 70 1/2.

If a participant becomes disabled while an employee, they will become 100% vested in all their accounts under the Plan. Payment of their disability benefits will be made to them as if they had retired.

(d) Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(e) Plan administrative costs

The Company absorbs administrative costs of the Plan.

3) Federal income tax status

The Plan adopted a prototype plan document effective January 1, 2014. The prototype plan received an opinion letter from the Internal Revenue Service dated March 31, 2014, in which the

ST. ROMAIN OIL COMPANY, LLC 401(K) PLAN & TRUST
NOTES TO FINANCIAL STATEMENTS

For the Years Ended December 31, 2023 and 2022

3) Federal income tax status (continued)

Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (“IRC”). The Plan has been amended since receiving the letter, including amendments made to comply with recent law changes. The Plan itself has not separately applied for a determination letter; however, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan’s financial statements.

U.S. GAAP require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan is subject to U.S. federal and state tax examinations by tax authorities for a period of three years from the filing of those returns.

4) Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

5) Risk and uncertainties

Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants’ account balances and the amounts reported in the statements of net assets available for benefits.

6) Related party transactions

Certain plan investments are guaranteed investment contracts managed by Southern Farm Bureau Life Insurance Company, the custodian of the Plan; therefore, these transactions qualify as party-in-interest transactions.

7) Fair value measurement

Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under Financial Accounting Standards Board (FASB) ASC 820 are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
---------	---

ST. ROMAIN OIL COMPANY, LLC 401(K) PLAN & TRUST
NOTES TO FINANCIAL STATEMENTS

For the Years Ended December 31, 2023 and 2022

7) Fair value measurement (continued)

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2023 and 2022.

Guaranteed investment contract: Valued at fair value, which approximates contract value.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2023:

	Assets at Fair Value as of December 31, 2023			
	Level 1	Level 2	Level 3	Total
Guaranteed investment contract	\$ -	\$ 3,118,051	\$ -	\$ 3,118,051

For the Years Ended December 31, 2023 and 2022

7) Fair value measurement (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2022:

	Assets at Fair Value as of December 31, 2022			
	Level 1	Level 2	Level 3	Total
Guaranteed investment contract	\$ -	\$ 4,188,911	\$ -	\$ 4,188,911
Total assets at fair value	\$ -	\$ 4,188,911	\$ -	\$ 4,188,911

8) Excess deferrals

For the Plan year ended December 31, 2023, the plan passed the nondiscrimination tests performed in accordance with the applicable provisions of Section 401(k) of the Internal Revenue Code. Therefore, there were no contributions deferred for reimbursement in the 2023 plan year.

For the Plan year ended December 31, 2022, the plan passed the nondiscrimination tests performed in accordance with the applicable provisions of Section 401(k) of the Internal Revenue Code. Therefore, there were no contributions deferred for reimbursement in the 2022 plan year.

9) SECURE Act 2.0

On December 23, 2022, Congress passed the Consolidated Appropriations Act of 2023 which included SECURE Act 2.0. SECURE Act 2.0 contains over 90 new retirement provisions, with varying effective dates through 2027. Since SECURE Act 2.0 provisions include both required and optional elements, the plan administrator will determine the optional provisions to elect and amend the Plan document accordingly. While most of the significant provisions will become effective in 2024 and subsequent years, there was no material impact on the Plan's financial statements for 2022 or 2023.

10) Error correction

During the closing process of the 2023 Plan year, the plan administrator discovered an error in the interest allocations for certain employees. An error of approximately \$18,928 was inadvertently made during the allocation process for the year ended December 31, 2023.

Upon further review and with assistance from the Plan custodian, the error was identified and corrected. The appropriate interest allocation has been made to all participants to ensure compliance with minimum interest rate requirements.

11) Subsequent events

The Plan has evaluated subsequent events through the date of the auditor's report, the date which the financial statements were available to be issued.

Effective January 1, 2024, the Plan sponsor implemented several key changes to the 401(k) Plan to comply with the requirements of the SECURE 2.0 Act. Additionally, during 2024, the Plan administrator and Plan sponsor selected Capital Bank and Trust Company to replace Southern Farm Bureau Life Insurance Company as the custodian/recordkeeper.
