Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) ☒ Unmodified (2) ☐ Qualified (3) ☐ Disclaimer (4) ☐ Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) ☒ DOL Regulation 2520.103-8 (2) ☐ DOL Regulation 2520.103-12(d) (3) ☐ neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **ARMANINO LLP**

(2) EIN: **94-6214841**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) ☐ This form is filed for a CCT, PSA, DCG or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		☒	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		☒	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		☒	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		☒	
e Was this plan covered by a fidelity bond?	☒		1000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		☒	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	☒		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)		☒	
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		☒	
l Has the plan failed to provide any benefit when due under the plan?		☒	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)		☒	
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? ☐ Yes ☒ No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

To the Plan Administrator
Hunter Engineering Company 401(k) Savings Plan
Bridgeton, Missouri

Scope and Nature of the ERISA Section 103(a)(3)(C) Audits

We have performed audits of the accompanying financial statements of Hunter Engineering Company 401(k) Savings Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Hunter Engineering Company 401(k) Savings Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2023 and 2022, and for the years then ended, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audits of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Hunter Engineering Company 401(k) Savings Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audits does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Hunter Engineering Company 401(k) Savings Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audits of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audits section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing audits in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Hunter Engineering Company 401(k) Savings Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Hunter Engineering Company 401(k) Savings Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2023 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Hunter Engineering Company 401(k) Savings Plan
Notes to Financial Statements
December 31, 2023 and 2022

1. DESCRIPTION OF THE PLAN

The following description of the Hunter Engineering Company 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan Document or Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan that was established on March 1, 1960. The Plan has been amended from time to time and was restated effective November 1, 2016 to comply with current regulations.

Hunter Engineering Company (the "Company" or "Employer") serves as sponsor of the Plan and has the authority to amend or terminate the Plan, subject to certain restrictions. The management of the Company has the authority and responsibility for the general administration of the Plan. Empower Annuity Insurance Company of America ("Empower"), the Plan's recordkeeper and trustee, has the authority and responsibility to hold and protect the assets of the Plan in accordance with the provisions of the Plan and the separate trust agreements. The Plan's Administrator determines the appropriateness of the Plans investment offerings and monitors the investment performance.

Participation

The Plan covers substantially all employees of the Company who are not: (1) classified as a sales representative, technical or training representative, or a contracted training instructor; (2) a non-employee contract worker; (3) assigned to work primarily for persons or entities other than the employer; or (4) temporary/seasonal employees. Eligible employees may become participants in the Plan for purposes of making pre-tax or post-tax contributions on the first enrollment date the employee has attained age twenty-one and completed sixty days of service; and for purposes of receiving non-matching employer contributions on the first enrollment date that occurs after the employee has completed 1,000 hours of service during the previous twelve consecutive months and has attained age twenty-one. Employees classified as union employees may receive an employer matching contribution based on the terms of the collective bargaining agreement in place.

Contributions

Plan participants may contribute a percentage of pretax annual compensation, not to exceed the dollar limitation contained in Section 402(g) of the Internal Revenue Code (the "Code"), through a salary reduction election. Participants may modify the amount of their contribution throughout the calendar year. Participants may elect to rollover contributions into the Plan from a previous employer on behalf of the participant into a "Rollover Account." Employer profit sharing contributions are made at the discretion of the Board of Directors of Hunter Engineering Company into each participant's "Employer Contributions Account."

Notes to Financial Statements
December 31, 2023 and 2022

1. DESCRIPTION OF THE PLAN (continued)

Contributions (continued)

In the calendar year that a participant is age 50 or older and each year thereafter, certain participants meeting additional specific criteria will be permitted to make catch-up contributions to the Plan. Participants will be able to contribute amounts over and above the maximum otherwise permitted by the Plan, subject to certain limitations.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of: (a) the Company's contributions, and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants shall at all times be one hundred percent (100%) vested in their salary deferral and rollover contributions. Participants become vested in Company contributions ratably over five years, beginning in the second year of participation. A participant is 100% vested upon the completion of six years of service. Participants are fully vested at their normal retirement date, death or disability, regardless of the number of years of participation.

Notes receivable from participants

Participants may borrow from their fund accounts a maximum equal to the lesser of \$50,000 or 50% of their vested account balances. The notes are secured by the balance in the participant's account and bear interest at a rate between 4.25% and 9.50%, which are commensurate with local prevailing rates. Loan terms generally range from 1 to 5 years. Notes receivable from participants are valued at their unpaid principal balance, plus any accrued but unpaid interest. Principal and interest is paid ratably through normal payroll deductions.

Payment of benefits

The Plan provides that a participant's vested interest in the Plan will be distributed to the participant upon retirement, total disability or death. Employees terminating employment with the Company for other reasons are entitled to their vested interest in the Plan. Participants with vested account balances in excess of \$1,000 may elect to defer distribution to a future date as more fully described in the Plan Document. Distributions may be made in lump-sum amounts, in annual or more frequent periodic amounts as defined by the Plan, or by a combination of the two methods, as selected by the participant.

Participants may also withdraw certain basic contributions thereon in the event of a financial hardship as defined by the Plan and the Code.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting

The accompanying financial statements have been prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

The Plan's investments are stated at fair value (except fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2023 and 2022, no allowance for credit losses has been recorded.

Payment of benefits

Benefits distributed to participants are recorded when paid.

Hunter Engineering Company 401(k) Savings Plan
Notes to Financial Statements
December 31, 2023 and 2022

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Forfeitures

Forfeitures resulting from participant withdrawals before full vesting are allocated among the participants' individual accounts based upon a formula set forth in the Plan. Ending forfeitures account balance totaled \$469,637 and \$508,650 in 2023 and 2022, respectively. Forfeitures totaling \$456,005 will be allocated during the 2024 plan year to those participants that meet profit sharing eligibility requirements as of December 31, 2023. During the 2023 plan year, \$508,650 of forfeitures were allocated to participant accounts for the 2022 plan year.

Administrative expenses

Costs of administering the Plan are paid by the Company and are not reimbursed by the Plan.

Subsequent events

The Plan has evaluated subsequent events through November 19, 2024, the date the financial statements were available to be issued.

3. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT

The Plan holds a traditional investment contract. This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. The contract value of the Guaranteed Investment Contract at December 31, 2023 and 2022, was \$37,223,850 and \$36,551,336 respectively.

The guaranteed investment contract is designed to accrue interest based on a crediting rate established by the contract issuer. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than zero percent. The crediting rate is reviewed on a quarterly basis for resetting. The guaranteed investment contract does not have a scheduled maturity date. The guaranteed investment contract can be terminated by either party, 60 days after communication is received by either party.

- The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under Section 501(a) of the Internal Revenue Code
- Premature termination of the contract
- Plan termination or merger
- Changes to the Plan's prohibition on competing investment options

Hunter Engineering Company 401(k) Savings Plan
Notes to Financial Statements
December 31, 2023 and 2022

3. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT (continued)

- Bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuer and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Examples of such events include the following:

- An uncured violation of the Plan's investment guidelines
- A breach of material obligation under the contract
- A material misrepresentation
- A material amendment to the agreements without the consent of the issuer.

4. TAX STATUS

The Internal Revenue Service issued its latest determination letter for the Plan on November 13, 2014, which stated that the Plan and its underlying trust qualify under the applicable provision of the Internal Revenue Code and, therefore, are exempt from federal income taxes. The Plan Administrator and the Plan's counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2023, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to review by taxing authorities, however, there are currently no audits for any tax periods in progress.

5. CERTIFICATIONS

For the years ended December 31, 2023 and 2022, the Plan Administrator elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Accordingly, as permitted under such election, the Plan Administrator has obtained certifications from Empower Annuity Insurance Company as of and for the years ended December 31, 2023 and 2022, that all of the investment and notes receivable from participant information included in the accompanying financial statements and supplemental schedule are complete and accurate. Information as to the investments, notes receivable from participants, interest income on notes receivable from participants, investment income (loss) appearing in the accompanying statements and supplemental schedule is presented in reliance solely upon those certifications.

6. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology included:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2023 and 2022.

Mutual funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds registered with the SEC. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled separate accounts – Comprised of a wide variety of underlying investments such as equities, preferred stock, bonds, real estate and mutual funds. The NAV of a pooled separate account is based on the market value of its underlying investments. The pooled separate account NAV is not a publicly-quoted price in an active market.

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, participants shall immediately become 100% vested, and therefore, be entitled to receive a distribution of the value of all cash and investment units credited to his or her account as of that date.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. TRANSACTIONS WITH PARTIES-IN-INTEREST

Certain Plan investments are managed by Empower, the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to the trustee during 2023 and 2022 was \$6,049 and \$4,201, respectively.

INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator
Hunter Engineering Company 401(k) Savings Plan
Bridgeton, Missouri

Scope and Nature of the ERISA Section 103(a)(3)(C) Audits

We have performed audits of the accompanying financial statements of Hunter Engineering Company 401(k) Savings Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Hunter Engineering Company 401(k) Savings Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2023 and 2022, and for the years then ended, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audits of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Hunter Engineering Company 401(k) Savings Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audits does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Hunter Engineering Company 401(k) Savings Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audits of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audits section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing audits in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Hunter Engineering Company 401(k) Savings Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Hunter Engineering Company 401(k) Savings Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2023 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Hunter Engineering Company 401(k) Savings Plan
Notes to Financial Statements
December 31, 2023 and 2022

1. DESCRIPTION OF THE PLAN

The following description of the Hunter Engineering Company 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan Document or Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan that was established on March 1, 1960. The Plan has been amended from time to time and was restated effective November 1, 2016 to comply with current regulations.

Hunter Engineering Company (the "Company" or "Employer") serves as sponsor of the Plan and has the authority to amend or terminate the Plan, subject to certain restrictions. The management of the Company has the authority and responsibility for the general administration of the Plan. Empower Annuity Insurance Company of America ("Empower"), the Plan's recordkeeper and trustee, has the authority and responsibility to hold and protect the assets of the Plan in accordance with the provisions of the Plan and the separate trust agreements. The Plan's Administrator determines the appropriateness of the Plans investment offerings and monitors the investment performance.

Participation

The Plan covers substantially all employees of the Company who are not: (1) classified as a sales representative, technical or training representative, or a contracted training instructor; (2) a non-employee contract worker; (3) assigned to work primarily for persons or entities other than the employer; or (4) temporary/seasonal employees. Eligible employees may become participants in the Plan for purposes of making pre-tax or post-tax contributions on the first enrollment date the employee has attained age twenty-one and completed sixty days of service; and for purposes of receiving non-matching employer contributions on the first enrollment date that occurs after the employee has completed 1,000 hours of service during the previous twelve consecutive months and has attained age twenty-one. Employees classified as union employees may receive an employer matching contribution based on the terms of the collective bargaining agreement in place.

Contributions

Plan participants may contribute a percentage of pretax annual compensation, not to exceed the dollar limitation contained in Section 402(g) of the Internal Revenue Code (the "Code"), through a salary reduction election. Participants may modify the amount of their contribution throughout the calendar year. Participants may elect to rollover contributions into the Plan from a previous employer on behalf of the participant into a "Rollover Account." Employer profit sharing contributions are made at the discretion of the Board of Directors of Hunter Engineering Company into each participant's "Employer Contributions Account."

Hunter Engineering Company 401(k) Savings Plan
Notes to Financial Statements
December 31, 2023 and 2022

1. DESCRIPTION OF THE PLAN (continued)

Contributions (continued)

In the calendar year that a participant is age 50 or older and each year thereafter, certain participants meeting additional specific criteria will be permitted to make catch-up contributions to the Plan. Participants will be able to contribute amounts over and above the maximum otherwise permitted by the Plan, subject to certain limitations.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of: (a) the Company's contributions, and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants shall at all times be one hundred percent (100%) vested in their salary deferral and rollover contributions. Participants become vested in Company contributions ratably over five years, beginning in the second year of participation. A participant is 100% vested upon the completion of six years of service. Participants are fully vested at their normal retirement date, death or disability, regardless of the number of years of participation.

Notes receivable from participants

Participants may borrow from their fund accounts a maximum equal to the lesser of \$50,000 or 50% of their vested account balances. The notes are secured by the balance in the participant's account and bear interest at a rate between 4.25% and 9.50%, which are commensurate with local prevailing rates. Loan terms generally range from 1 to 5 years. Notes receivable from participants are valued at their unpaid principal balance, plus any accrued but unpaid interest. Principal and interest is paid ratably through normal payroll deductions.

Payment of benefits

The Plan provides that a participant's vested interest in the Plan will be distributed to the participant upon retirement, total disability or death. Employees terminating employment with the Company for other reasons are entitled to their vested interest in the Plan. Participants with vested account balances in excess of \$1,000 may elect to defer distribution to a future date as more fully described in the Plan Document. Distributions may be made in lump-sum amounts, in annual or more frequent periodic amounts as defined by the Plan, or by a combination of the two methods, as selected by the participant.

Participants may also withdraw certain basic contributions thereon in the event of a financial hardship as defined by the Plan and the Code.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting

The accompanying financial statements have been prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

The Plan's investments are stated at fair value (except fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2023 and 2022, no allowance for credit losses has been recorded.

Payment of benefits

Benefits distributed to participants are recorded when paid.

Hunter Engineering Company 401(k) Savings Plan
Notes to Financial Statements
December 31, 2023 and 2022

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Forfeitures

Forfeitures resulting from participant withdrawals before full vesting are allocated among the participants' individual accounts based upon a formula set forth in the Plan. Ending forfeitures account balance totaled \$469,637 and \$508,650 in 2023 and 2022, respectively. Forfeitures totaling \$456,005 will be allocated during the 2024 plan year to those participants that meet profit sharing eligibility requirements as of December 31, 2023. During the 2023 plan year, \$508,650 of forfeitures were allocated to participant accounts for the 2022 plan year.

Administrative expenses

Costs of administering the Plan are paid by the Company and are not reimbursed by the Plan.

Subsequent events

The Plan has evaluated subsequent events through November 19, 2024, the date the financial statements were available to be issued.

3. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT

The Plan holds a traditional investment contract. This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. The contract value of the Guaranteed Investment Contract at December 31, 2023 and 2022, was \$37,223,850 and \$36,551,336 respectively.

The guaranteed investment contract is designed to accrue interest based on a crediting rate established by the contract issuer. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than zero percent. The crediting rate is reviewed on a quarterly basis for resetting. The guaranteed investment contract does not have a scheduled maturity date. The guaranteed investment contract can be terminated by either party, 60 days after communication is received by either party.

- The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under Section 501(a) of the Internal Revenue Code
- Premature termination of the contract
- Plan termination or merger
- Changes to the Plan's prohibition on competing investment options

Hunter Engineering Company 401(k) Savings Plan
Notes to Financial Statements
December 31, 2023 and 2022

3. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT (continued)

- Bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuer and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Examples of such events include the following:

- An uncured violation of the Plan's investment guidelines
- A breach of material obligation under the contract
- A material misrepresentation
- A material amendment to the agreements without the consent of the issuer.

4. TAX STATUS

The Internal Revenue Service issued its latest determination letter for the Plan on November 13, 2014, which stated that the Plan and its underlying trust qualify under the applicable provision of the Internal Revenue Code and, therefore, are exempt from federal income taxes. The Plan Administrator and the Plan's counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2023, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to review by taxing authorities, however, there are currently no audits for any tax periods in progress.

5. CERTIFICATIONS

For the years ended December 31, 2023 and 2022, the Plan Administrator elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Accordingly, as permitted under such election, the Plan Administrator has obtained certifications from Empower Annuity Insurance Company as of and for the years ended December 31, 2023 and 2022, that all of the investment and notes receivable from participant information included in the accompanying financial statements and supplemental schedule are complete and accurate. Information as to the investments, notes receivable from participants, interest income on notes receivable from participants, investment income (loss) appearing in the accompanying statements and supplemental schedule is presented in reliance solely upon those certifications.

6. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology included:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2023 and 2022.

Mutual funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds registered with the SEC. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled separate accounts – Comprised of a wide variety of underlying investments such as equities, preferred stock, bonds, real estate and mutual funds. The NAV of a pooled separate account is based on the market value of its underlying investments. The pooled separate account NAV is not a publicly-quoted price in an active market.

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, participants shall immediately become 100% vested, and therefore, be entitled to receive a distribution of the value of all cash and investment units credited to his or her account as of that date.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. TRANSACTIONS WITH PARTIES-IN-INTEREST

Certain Plan investments are managed by Empower, the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to the trustee during 2023 and 2022 was \$6,049 and \$4,201, respectively.

INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator
Hunter Engineering Company 401(k) Savings Plan
Bridgeton, Missouri

Scope and Nature of the ERISA Section 103(a)(3)(C) Audits

We have performed audits of the accompanying financial statements of Hunter Engineering Company 401(k) Savings Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Hunter Engineering Company 401(k) Savings Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2023 and 2022, and for the years then ended, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audits of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Hunter Engineering Company 401(k) Savings Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audits does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Hunter Engineering Company 401(k) Savings Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audits of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audits section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing audits in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Hunter Engineering Company 401(k) Savings Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Hunter Engineering Company 401(k) Savings Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2023 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Hunter Engineering Company 401(k) Savings Plan
Notes to Financial Statements
December 31, 2023 and 2022

1. DESCRIPTION OF THE PLAN

The following description of the Hunter Engineering Company 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan Document or Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan that was established on March 1, 1960. The Plan has been amended from time to time and was restated effective November 1, 2016 to comply with current regulations.

Hunter Engineering Company (the "Company" or "Employer") serves as sponsor of the Plan and has the authority to amend or terminate the Plan, subject to certain restrictions. The management of the Company has the authority and responsibility for the general administration of the Plan. Empower Annuity Insurance Company of America ("Empower"), the Plan's recordkeeper and trustee, has the authority and responsibility to hold and protect the assets of the Plan in accordance with the provisions of the Plan and the separate trust agreements. The Plan's Administrator determines the appropriateness of the Plans investment offerings and monitors the investment performance.

Participation

The Plan covers substantially all employees of the Company who are not: (1) classified as a sales representative, technical or training representative, or a contracted training instructor; (2) a non-employee contract worker; (3) assigned to work primarily for persons or entities other than the employer; or (4) temporary/seasonal employees. Eligible employees may become participants in the Plan for purposes of making pre-tax or post-tax contributions on the first enrollment date the employee has attained age twenty-one and completed sixty days of service; and for purposes of receiving non-matching employer contributions on the first enrollment date that occurs after the employee has completed 1,000 hours of service during the previous twelve consecutive months and has attained age twenty-one. Employees classified as union employees may receive an employer matching contribution based on the terms of the collective bargaining agreement in place.

Contributions

Plan participants may contribute a percentage of pretax annual compensation, not to exceed the dollar limitation contained in Section 402(g) of the Internal Revenue Code (the "Code"), through a salary reduction election. Participants may modify the amount of their contribution throughout the calendar year. Participants may elect to rollover contributions into the Plan from a previous employer on behalf of the participant into a "Rollover Account." Employer profit sharing contributions are made at the discretion of the Board of Directors of Hunter Engineering Company into each participant's "Employer Contributions Account."

Hunter Engineering Company 401(k) Savings Plan
Notes to Financial Statements
December 31, 2023 and 2022

1. DESCRIPTION OF THE PLAN (continued)

Contributions (continued)

In the calendar year that a participant is age 50 or older and each year thereafter, certain participants meeting additional specific criteria will be permitted to make catch-up contributions to the Plan. Participants will be able to contribute amounts over and above the maximum otherwise permitted by the Plan, subject to certain limitations.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of: (a) the Company's contributions, and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants shall at all times be one hundred percent (100%) vested in their salary deferral and rollover contributions. Participants become vested in Company contributions ratably over five years, beginning in the second year of participation. A participant is 100% vested upon the completion of six years of service. Participants are fully vested at their normal retirement date, death or disability, regardless of the number of years of participation.

Notes receivable from participants

Participants may borrow from their fund accounts a maximum equal to the lesser of \$50,000 or 50% of their vested account balances. The notes are secured by the balance in the participant's account and bear interest at a rate between 4.25% and 9.50%, which are commensurate with local prevailing rates. Loan terms generally range from 1 to 5 years. Notes receivable from participants are valued at their unpaid principal balance, plus any accrued but unpaid interest. Principal and interest is paid ratably through normal payroll deductions.

Payment of benefits

The Plan provides that a participant's vested interest in the Plan will be distributed to the participant upon retirement, total disability or death. Employees terminating employment with the Company for other reasons are entitled to their vested interest in the Plan. Participants with vested account balances in excess of \$1,000 may elect to defer distribution to a future date as more fully described in the Plan Document. Distributions may be made in lump-sum amounts, in annual or more frequent periodic amounts as defined by the Plan, or by a combination of the two methods, as selected by the participant.

Participants may also withdraw certain basic contributions thereon in the event of a financial hardship as defined by the Plan and the Code.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting

The accompanying financial statements have been prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

The Plan's investments are stated at fair value (except fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2023 and 2022, no allowance for credit losses has been recorded.

Payment of benefits

Benefits distributed to participants are recorded when paid.

Hunter Engineering Company 401(k) Savings Plan
Notes to Financial Statements
December 31, 2023 and 2022

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Forfeitures

Forfeitures resulting from participant withdrawals before full vesting are allocated among the participants' individual accounts based upon a formula set forth in the Plan. Ending forfeitures account balance totaled \$469,637 and \$508,650 in 2023 and 2022, respectively. Forfeitures totaling \$456,005 will be allocated during the 2024 plan year to those participants that meet profit sharing eligibility requirements as of December 31, 2023. During the 2023 plan year, \$508,650 of forfeitures were allocated to participant accounts for the 2022 plan year.

Administrative expenses

Costs of administering the Plan are paid by the Company and are not reimbursed by the Plan.

Subsequent events

The Plan has evaluated subsequent events through November 19, 2024, the date the financial statements were available to be issued.

3. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT

The Plan holds a traditional investment contract. This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. The contract value of the Guaranteed Investment Contract at December 31, 2023 and 2022, was \$37,223,850 and \$36,551,336 respectively.

The guaranteed investment contract is designed to accrue interest based on a crediting rate established by the contract issuer. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than zero percent. The crediting rate is reviewed on a quarterly basis for resetting. The guaranteed investment contract does not have a scheduled maturity date. The guaranteed investment contract can be terminated by either party, 60 days after communication is received by either party.

- The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under Section 501(a) of the Internal Revenue Code
- Premature termination of the contract
- Plan termination or merger
- Changes to the Plan's prohibition on competing investment options

Hunter Engineering Company 401(k) Savings Plan
Notes to Financial Statements
December 31, 2023 and 2022

3. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT (continued)

- Bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuer and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Examples of such events include the following:

- An uncured violation of the Plan's investment guidelines
- A breach of material obligation under the contract
- A material misrepresentation
- A material amendment to the agreements without the consent of the issuer.

4. TAX STATUS

The Internal Revenue Service issued its latest determination letter for the Plan on November 13, 2014, which stated that the Plan and its underlying trust qualify under the applicable provision of the Internal Revenue Code and, therefore, are exempt from federal income taxes. The Plan Administrator and the Plan's counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2023, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to review by taxing authorities, however, there are currently no audits for any tax periods in progress.

5. CERTIFICATIONS

For the years ended December 31, 2023 and 2022, the Plan Administrator elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Accordingly, as permitted under such election, the Plan Administrator has obtained certifications from Empower Annuity Insurance Company as of and for the years ended December 31, 2023 and 2022, that all of the investment and notes receivable from participant information included in the accompanying financial statements and supplemental schedule are complete and accurate. Information as to the investments, notes receivable from participants, interest income on notes receivable from participants, investment income (loss) appearing in the accompanying statements and supplemental schedule is presented in reliance solely upon those certifications.

6. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology included:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2023 and 2022.

Mutual funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds registered with the SEC. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled separate accounts – Comprised of a wide variety of underlying investments such as equities, preferred stock, bonds, real estate and mutual funds. The NAV of a pooled separate account is based on the market value of its underlying investments. The pooled separate account NAV is not a publicly-quoted price in an active market.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. TRANSACTIONS WITH PARTIES-IN-INTEREST

Certain Plan investments are managed by Empower, the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to the trustee during 2023 and 2022 was \$6,049 and \$4,201, respectively.
