**Part III Accountant's Opinion**

**3** Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

**a** The attached opinion of an independent qualified public accountant for this plan is (see instructions):

- (1)  Unmodified    (2)  Qualified    (3)  Disclaimer    (4)  Adverse

**b** Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

- (1)  DOL Regulation 2520.103-8    (2)  DOL Regulation 2520.103-12(d)    (3)  neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

**c** Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: PRICEWATERHOUSECOOPERS LLP

(2) EIN: 13-4008324

**d** The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

- (1)  This form is filed for a CCT, PSA, DCG or MTIA.    (2)  It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

**Part IV Compliance Questions**

**4** CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
<b>a</b> Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.) .....			
<b>b</b> Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.).....		X	
<b>c</b> Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.) .....		X	
<b>d</b> Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.).....		X	
<b>e</b> Was this plan covered by a fidelity bond?.....			
<b>f</b> Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty? .....			
<b>g</b> Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser? .....			
<b>h</b> Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?.....			
<b>i</b> Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.).....	X		
<b>j</b> Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.).....			
<b>k</b> Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC? .....			
<b>l</b> Has the plan failed to provide any benefit when due under the plan? .....			
<b>m</b> If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.).....			
<b>n</b> If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3. ....			

**5a** Has a resolution to terminate the plan been adopted during the plan year or any prior plan year?.....  Yes  No  
If "Yes," enter the amount of any plan assets that reverted to the employer this year \_\_\_\_\_.

**5b** If, during this plan year, any assets or liabilities were transferred from this plan to another plan(s), identify the plan(s) to which assets or liabilities were transferred. (See instructions.)

<b>5b(1)</b> Name of plan(s)	<b>5b(2)</b> EIN(s)	<b>5b(3)</b> PN(s)

**5c** Was the plan a defined benefit plan covered under the PBGC insurance program at any time during this plan year? (See ERISA section 4021 and instructions.) .....  Yes  No  Not determined

If "Yes" is checked, enter the My PAA confirmation number from the PBGC premium filing for this plan year \_\_\_\_\_.

**DUPONT CAPITAL MANAGEMENT CORPORATION**

**GEM TRUST: GEM TRUST RISK-CONTROLLED 1**

**FINANCIAL STATEMENTS**

**December 31, 2023 and February 29, 2024**

## Report of Independent Auditors

To the Trustee of GEM Trust: GEM Trust Risk-Controlled 1

### ***Opinion***

We have audited the accompanying financial statements of GEM Trust Risk-Controlled 1 (the "Trust"), which comprise the statement of assets and liabilities, including the schedule of investments, as of December 31, 2023 and February 29, 2024 and the related statements of operations, of changes in net assets, including the related notes, and the financial highlights for the year ended December 31, 2023 and the period ended February 29, 2024 (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Trust as of December 31, 2023 and February 29, 2024, and the results of its operations, changes in its net assets, and the financial highlights for the year ended December 31, 2023 and the period ended February 29, 2024 in accordance with accounting principles generally accepted in the United States of America.

### ***Basis for Opinion***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Trust and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### ***Emphasis of Matter***

As discussed in the introduction to the notes to the financial statements, DuPont Capital Management Corporation determined on February 29, 2024 to terminate the operations of the Trust. Our opinion is not modified with respect to this matter.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Trust's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

### ***Auditors' Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that

includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Trust's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

A handwritten signature in black ink that reads "PricewaterhouseCoopers LLP". The signature is written in a cursive, flowing style.

DuPont Capital Management Corporation

GEM Trust: GEM Trust Risk-Controlled 1

Notes to Financial Statements

The GEM Trust: GEM Trust Risk-Controlled 1 (the “Trust”) was established by a Declaration of Trust dated October 1, 2004, to provide a commingled investment vehicle for tax-exempt pension, profit-sharing and stock bonus plan trusts. The Trust invests primarily in a diversified portfolio of fixed-income securities.

Due to a reduction in the number of clients, DuPont Capital Management Corporation determined on February 29, 2024, that the Trust should be terminated as of February 29, 2024. Final units were redeemed February 29, 2024, for the remaining client.

**A. Accounting Policies**

The following significant accounting policies are consistently followed by the Trust in the preparation of its financial statements for the period from January 1, 2023, through February 29, 2024. Such policies are in accordance with the Declaration of Trust. The Trust is considered an investment company under accounting principles generally accepted in the United States of America ("U.S. GAAP") and follows the Financial Accounting Standards Board ("FASB") Accounting Standards Codification Topic 946 ("ASC 946").

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses for the period. Actual results could differ from those estimates and those differences could be material.

**1. Security Valuation:** The fair market value of a Trust’s portfolio securities is determined in accordance with the procedures described below. U.S. GAAP defines fair market value as the price that a Trust would receive to sell an asset or pay to transfer a liability in an orderly transaction between market participants at the measurement date.

Bonds and temporary cash investments acquired over 60 days to maturity are normally valued using pricing data from independent pricing services. The pricing services generally utilize a matrix system incorporating security prices, yields, quality ratings, maturities and coupon as the valuation model parameters, supplemental research and evaluation, including review of broker-dealer market price quotations. Certain fixed income securities are valued at closing bid prices supplied by brokers considered by the Investment Manager to be active in the market. Investments maturing within 60 days are valued at amortized cost, which approximates market value. Securities that use similar valuation techniques and observable inputs as described above are categorized as Level 2 of the fair value hierarchy (see Note C).

Mortgage and asset-backed securities are normally valued by pricing service providers that use broker dealer quotations or valuation estimates from their internal pricing models. The pricing models for these securities usually consider estimated cash flows and market-based yield spreads for each class or tranche, attributes of the tranche, current market data and deal collateral performance. Mortgage and asset-backed securities that use similar valuation techniques and observable inputs as described above are categorized as Level 2 of the fair value hierarchy.

Mutual funds and commingled investment vehicles are valued at net asset value. Preferred stocks and rights are valued at the latest quoted sales prices as of the close of trading on the New York Stock Exchange (generally 4:00 p.m. Eastern time) on the valuation date. Equity securities for which market quotations are available are valued at the last sale price or official closing price on the primary market or exchange on which they trade. Futures contracts and exchange traded options are valued at the closing settlement price on the exchange on which they are primarily traded. To the extent that the securities described above are actively traded, they are categorized as Level 1 of the fair value hierarchy.

Financial derivative instruments, such as swap and swaption agreements, are valued daily based upon the terms specific to each agreement with its counterparty. These financial instruments derive their value from underlying asset prices, indices, interest rates, spreads, exchange rates or other inputs or combination of these factors. Options not traded on a national securities exchange are valued at the last quoted bid price. Forward foreign exchange contracts are valued upon closing exchange rates from each respective foreign market. Financial instruments that use similar valuation techniques and observable inputs as described above are categorized as Level 2 of the fair value hierarchy.

When prices are not readily available, or are determined not to reflect fair value, the Trust may value these securities at fair value as determined in accordance with the procedures approved by the Investment Manager. The fair value of these securities is determined in good faith by taking into account relevant factors and surrounding circumstances. Methods utilized to obtain a fair value may include the following list of acceptable methods: (i) a multiple of earnings; (ii) the discount from market value of a similar, freely traded security; (iii) the yield-to-maturity for debt issues; or (iv) a combination of methods. Securities that use similar valuation techniques and inputs as described above are generally categorized as Level 3 of the fair value hierarchy (see Note C).

Investments for which market quotations are not readily available are carried at fair value as deemed appropriate by the Investment Manager. Such investments have been valued by the Investment Manager in accordance with the Trust's valuation policy, with consideration given to factors such as original transaction price, comparable market transactions, pricing of similar instruments, and pricing expectations based on internal modeling, adjusted as appropriate for liquidity, credit, market and/or other risk factors. The Trust may also hold certain investments that may be valued by a single market maker. The estimated values for these investments may differ significantly from the values that would have been used had a ready market for the investments existed, and the differences could be material.

**2. Security Transactions:** Security transactions are accounted for on a trade date basis. Realized gains and losses on sales of securities are determined on the average cost basis. For additional information on derivative instruments, see Note B.

**3. Income Recognition:** Interest income, including accretion of discount and amortization of premium, is recognized on an accrual basis. Dividend income is recognized on the ex-dividend date. Discounts and premiums on debt securities purchased are accreted and amortized, respectively, as adjustments to interest income using the effective yield method. Foreign income and foreign capital gains realized on some foreign securities may be subject to foreign taxes, which are accrued as applicable.

**4. Federal Income Taxes:** The Trust is qualified for the collective investment of funds of tax-exempt pension and profit-sharing trusts under Section 401(a) and governmental plans or units under Section 818(a)(6) of the Internal Revenue Code and is exempt from federal income taxation under Section 501(a). Accordingly, no provision for federal income taxes is required in the financial statements. Net investment income and realized net gains are not required to be distributed to unit holders and are instead retained by the Trust.

**5. Related Party Transactions:** The assets in the Trust are managed by DuPont Capital Management Corporation (DCMC), a registered investment advisor, under the terms of the investment management agreement between DCMC and the Trust. State Street Bank and Trust Company is Trustee and Administrator for the Trust and the Trust invests in the State Street Institutional U.S. Government Money Market Fund. At December 31, 2023, the Trust held \$20,821,324 in the State Street Institutional U.S. Government Money Market Fund and at February 29, 2024 held \$14,767,076. This investment represents approximately 9% and 7% of net assets of the Trust, respectively.

**6. Interest Rate Risk:** Generally, when interest rates go up, the value of fixed-income securities goes down. Prices of longer term securities generally change more in response to interest rate changes than prices of shorter-term securities. To the extent a Trust invests a substantial portion of its assets in fixed-income securities with longer-term maturities, rising interest rates are more likely to cause the value of the Trust's investments to decline significantly.

**7. Asset Backed Securities Risk:** The value of asset-backed securities may be affected by the credit risk of the servicing agent for the pool, the originator of the loans or receivables, or the financial institution(s) providing the credit support. In addition to credit risk, asset-backed securities and other securities with early redemption features are subject to pre-payment risk. During periods of declining interest rates, prepayment of loans underlying asset-backed securities can be expected to accelerate or an issuer may retire an outstanding bond early to reduce interest costs. A Trust's ability to maintain positions in such securities will be affected by reductions in the principal amount of such securities resulting from prepayments, and its ability to reinvest the returns of principal at comparable yields is subject to the general prevailing interest rates at that time.

## **B. Derivative Contracts and Financial Instruments**

The Trust may transact in a variety of derivative instruments including futures, forward foreign currency contracts and options primarily for trading purposes with each instrument's primary risk exposure being interest rate and foreign exchange. The Trust may also transact in other derivative instruments such as swap contracts. The fair value and/or variation margin of these derivative instruments are included in assets or liabilities in the Statement of Assets and Liabilities with changes in fair value reflected as

realized net gains (losses) or change in unrealized appreciation (depreciation) in the Statement of Operations.

**1. Futures Contracts:** The Trust invests in futures contracts for the express purposes of managing portfolio duration, hedging interest rates, facilitating trading, simulating a fully invested position in the underlying bonds while maintaining a cash balance for liquidity, or adding value when these instruments are favorably priced. The primary risks associated with the use of futures contracts are imperfect correlation between changes in market values of bonds held by the Trust and the prices of futures contracts, and the possibility of an illiquid market.

The Trust may purchase and sell financial futures contracts, which are commitments to purchase or sell a financial instrument at a future date for a specified price. Upon entering into a contract, the Trust deposits and maintains as collateral such initial margin as may be required by the exchanges on which the transaction is affected. During the period the futures contracts are open, changes in the value of the contract are recognized on a periodic basis to reflect the market value of the contract at the end of each day's trading. The Trust periodically receives from or pays to the broker an amount of cash equal to the fluctuation in the value of the contract as required by the exchange. Such receipts or payments are recorded as unrealized appreciation or depreciation. When the contracts are closed, the Trust records a realized gain or loss equal to the difference between the value of the contracts on the closing date and the value of the contracts when originally entered into. Financial futures contracts are utilized by the Trust as an alternative to direct investment in the underlying securities as the purchase or sale of futures contracts involves less cash outlay. Futures may also be used for hedging purposes. A sale or short futures contract is entered into in anticipation of declining prices while conversely, a purchase or long futures contract is entered into when prices are expected to increase. In engaging in futures transactions, the Trust is subject to a number of risks. Successful hedging transactions depend on the ability to predict the timing of, and future direction of, price movements. If the prediction is incorrect, the Trust may realize a loss. There is also a risk that the price of the futures contract may not correlate with the price of the underlying portfolio security or index. In addition, there is a possibility that there may not be a secondary market for the contracts, or that the counterparty to a contract may default on its obligation to perform. Counterparty risk is mitigated by periodic variation margins and the fact that the Trust enters into futures contracts only through exchanges. Potential losses on futures contracts may exceed the amount disclosed on the Statement of Assets and Liabilities.

At December 31, 2023, the notional value of open futures contracts and the related unrealized appreciation (depreciation) are:

Futures Contracts	Number of Long (Short) Contracts	Notional Value	Expiration Date	Cumulative Unrealized Appreciation/ (Depreciation)
US 2YR NOTE (CBT) MAR24	3	\$ 617,742	3/28/24	\$ 6,914
US 5YR NOTE (CBT) MAR24	68	7,396,594	3/28/24	166,914
US 10YR NOTE (CBT) MAR24	76	8,579,688	3/19/24	283,219
US LONG BOND (CBT) MAR24	(48)	(5,997,000)	3/19/24	(446,294)
				\$ 10,753

There were no open futures contracts as of February 29, 2024.

**2. Option Writing/Purchasing:** The Trust may write or purchase financial options contracts for the purpose of hedging its existing portfolio securities, or securities that the Trust intends to purchase, against fluctuations in fair value caused by changes in prevailing market interest rates. When the Trust writes or purchases an option, an amount equal to the premium received or paid by the Trust is recorded as a liability or an asset and is subsequently adjusted to the current market value of the option written or purchased. Premiums received or paid from writing or purchasing options which expire unexercised are treated by the Trust on the expiration date as realized gains or losses. The difference between the premium and the amount paid or received on affecting a closing purchase or sale transaction, including brokerage commissions, is also treated as a realized gain or loss. If an option is exercised, the premium paid or received is added to the cost of the purchase or proceeds from the sale in determining whether the Trust has realized a gain or a loss on investment transactions. The Trust, as writer of an option, may have no control over whether the underlying securities may be sold (call) or purchased (put) and as a result bears the market risk of an unfavorable change in the price of the security underlying the written option. As of December 31, 2023 and February 29, 2024, there were no options outstanding.

**3. Fair Value of Derivative Instruments:** The following table summarizes the fair value of derivative instruments categorized by risk exposure as included in the Statement of Assets and Liabilities:

	Interest Rate Contracts <u>12/31/23</u>	Interest Rate Contracts <u>2/29/24</u>
<b>Assets</b>		
Variation Margin Receivable	\$ 457,047	\$ -
<b>Liabilities</b>		
Variation Margin Payable	\$ 446,294	\$ -

The effect of realized and unrealized gains (losses) on the Statement of Operations from derivative instruments for the year ended December 31, 2023, and the period ended February 29, 2024, is as follows:

	Interest Rate Contracts <u>12/31/23</u>	Interest Rate Contracts <u>2/29/24</u>
<b>Realized Net Gain (Loss)</b>		
Futures	\$ 451,627	\$ (66,669)
<b>Change in Unrealized Appreciation (Depreciation)</b>		
Futures	\$ (115,531)	\$ (9,947)

For the year ended December 31, 2023, and the period ended February 29, 2024, the average monthly balances of outstanding derivative financial instruments were as follows:

<b>Financial futures contracts:</b>	12/31/2023	2/29/2024
Average notional value of contracts purchased.....	\$ 10,816,667	\$ 7,500,000
Average notional value of contracts sold.....	\$ (5,858,333)	\$ (2,400,000)

### C. Fair Value Measurements

The FASB Accounting Standards Codification Topic 820, *Fair Value Measurements and Disclosures*, prescribes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

- Level 1 – quoted prices in active markets for identical investments
- Level 2 – prices determined using other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 – prices determined using significant unobservable inputs (including the Trust’s own assumptions in determining the fair value of investments)

Inputs broadly refer to the assumptions that market participants use to make valuation decisions. A financial instrument’s level within the fair value hierarchy is based on the lowest level of any input both individually and in aggregate that is significant to the fair value measurement. Observable inputs include market data that are readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market. The inputs or methodology used for valuing investments are not necessarily an indication of the risk associated with investing in those investments.

The following is a summary of the fair valuations according to inputs used as of December 31, 2023:

	Quoted Prices (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Fair Value at 12/31/2023
<u>Assets</u>				
Fixed Income				
Corporate Bonds	\$ -	\$ 47,654,319	\$ -	\$ 47,654,319
Government Issues	-	66,756,409	-	66,756,409
FNMA	-	50,397,367	-	50,397,367
FHLMC	-	28,962,157	-	28,962,157
GNMA	-	237,982	-	237,982
CMO	-	15,002,253	-	15,002,253
Temporary Investments				
State Street Institutional U.S.				
Government Money Market Fund	20,821,324	-	-	20,821,324
Investments at Fair Value	20,821,324	209,010,487	-	229,831,811
Futures *	457,047	-	-	457,047
Total Assets	\$ 21,278,371	\$ 209,010,487	\$ -	\$ 230,288,858
<u>Liabilities</u>				
Futures *	\$ (446,294)	\$ -	\$ -	\$ (446,294)
Total Liabilities	\$ (446,294)	\$ -	\$ -	\$ (446,294)

\* Financial futures contracts are valued at the unrealized appreciation (depreciation) on the instrument.

For the year ended December 31, 2023, and the period ended February 29, 2024, there were no transfers between Level 1 and Level 2. Changes in valuation techniques may result in transfers in or out of an investment's assigned level within the hierarchy. Transfers between fair value hierarchy levels are recognized at the end of the period. In addition, there were no securities with significant unobservable inputs (Level 3) during the year ended December 31, 2023, and the period ended February 29, 2024. During this time period, there have been no significant changes to the Trust's fair value methodologies.

#### **D. Trust Management and Expenses**

State Street Bank and Trust Company is Trustee and Administrator for the Trust. The Trust pays fees directly to the Trustee. No trustee fees are accrued or paid directly by the unit holders to the Trustee. In accordance with the Trust Agreement, certain unit holders reimburse DuPont Capital Management Corporation (DCMC) for direct expenses incurred as investment manager of the Trust under the terms of an investment management agreement in place between DCMC and the unit holders.

Also, in accordance with the Trust Agreement, certain expenses such as legal/attorneys' fees, audit fees and other reasonable expenses incurred in the administration of the Trust are paid by redemption of units from each of the participating investors in the Trust.

#### **E. Subsequent Events**

Through April 16, 2024, the date the financial statements were available to be issued, no subsequent events or transactions occurred requiring adjustment or additional disclosure in the financial statements.
