Independent Auditor's Report

Board of Trustees
R.T. Vanderbilt Holding Company, Inc. Profit Sharing Plan

Opinion

We have audited the financial statements of R.T. Vanderbilt Holding Company, Inc. Profit Sharing Plan, formerly R.T. Vanderbilt Holding Company, Inc. Employee Stock Ownership Plan, (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 5, 2023 and December 31, 2022, the related statement of changes in net assets available for benefits for the period from January 1 to December 5, 2023, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 5, 2023 and December 31, 2022, and the changes in its net assets available for benefits for the period from January 1, 2023 to December 5, 2023, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter—Investments

As discussed in Note 3, the financial statements include investments representing 95% of total assets as of December 31, 2022, whose fair value has been estimated by an independent appraisal, in the absence of readily ascertainable fair values, with the assistance of management and approved by the trustee. Because of the inherent uncertainty of the valuation, the estimated values may differ significantly from the values that would have been used had a market for the investments existed, and the differences could be material. Our opinion is not modified with respect to this matter.

Emphasis of Matter—Plan Merger

As discussed in Note 1 to the financial statements, the Board of Directors of R.T. Vanderbilt Holding Company, Inc., the plan sponsor, voted on December 4, 2023, to merge the Plan into R.T. Vanderbilt Holding Company, Inc. 401(k) Plan effective December 5, 2023. All assets of the Plan totaling approximately \$2.3 million were transferred to R.T. Vanderbilt Holding Company, Inc. 401(k) Plan on December 5, 2023. Our opinion has not been modified with respect to these matters.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of reportable transactions for the period from January 1 to December 5, 2023, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Notes to Financial Statements

Note 1. Description of the Plan

The following description of the R.T. Vanderbilt Holding Company, Inc. Profit Sharing Plan, formerly R.T. Vanderbilt Holding Company, Inc. Employee Stock Ownership Plan, (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan was established in 1975 for the employees of R.T. Vanderbilt Holding Company, Inc. (the Company) as a stock ownership plan (ESOP). As of April 14, 1998, the Plan was amended and changed from an ESOP to a stock bonus plan within the meaning of Section 401(a) of the Internal Revenue Code of 1986 (the Code). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 as amended (ERISA).

The purpose of the Plan is to provide eligible employees with the opportunity to acquire an interest in the Company's common stock.

On January 1, 2013, R.T. Vanderbilt Company, Inc. exchanged its stock for shares of a newly formed corporation, R.T. Vanderbilt Holding Company, Inc. Each share of R.T. Vanderbilt Company, Inc. common stock (voting) and Class B common stock (nonvoting) was exchanged for one fully paid share of common stock (voting) or Class B common stock (nonvoting) of R.T. Vanderbilt Holding Company, Inc.

Plan amendment and merger: Effective May 1, 2023, the Plan was amended to change it from a stock bonus plan to a profit sharing plan and change the Plan's name to R.T. Vanderbilt Holding Company, Inc. Profit Sharing Plan.

The Board of Directors of R.T. Vanderbilt Holding Company, Inc., the Plan's sponsor, voted on December 4, 2023, to merge the Plan into R.T. Vanderbilt Holding Company, Inc. 401(k) Plan effective December 5, 2023. All assets of the Plan totaling approximately \$2.3 million were transferred to R.T. Vanderbilt Holding Company, Inc. 401(k) Plan on December 5, 2023.

Eligibility: Effective as of December 31, 2012, the Plan was frozen to new entrants.

Contributions: Amounts may be contributed by the Company at the discretion of the Company's Board of Directors. Contributions are allocated to Plan participants on the basis of relative compensation (limited to annual compensation of \$330,000 in 2023). There were no contributions for the period from January 1, 2023 to December 5, 2023.

Vesting: Participants become fully vested in Company contributions after three years.

Payment of benefits: Upon retirement, termination, death or permanent disability, a distribution in the form of cash or common shares of the Company is made to participants or their beneficiaries.

Participant accounts: Each participant's account is credited with employer contributions, if any, and Plan earnings or losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

**R.T. Vanderbilt Holding Company, Inc. Profit Sharing Plan
(formerly R.T. Vanderbilt Holding Company, Inc. Employee Stock Ownership Plan)**

Notes to Financial Statements

Note 1. Description of the Plan (Continued)

Termination of the Plan: Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

Expenses: The Plan's administrative expenses are paid by either the Plan or the Company as provided by the Plan document. Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements.

Forfeitures: Forfeited common shares are reallocated to participants in the same manner as employer contributions. There were no forfeited non-vested accounts as of December 5, 2023 and December 31, 2022.

Voting rights: Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Plan's trustee prior to the time that such rights are to be exercised. The trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The trustee is required, however, to vote any unallocated shares on behalf of the collective best interests of Plan participants and beneficiaries.

Put option: Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification distributions: The Tax Reform Act of 1986 added a "diversification election" Section 401(a) 28, which provides a participant with 10 years of participation in the Plan and once reaching the age of 55 the option to elect to receive a cash distribution equal to the portion of their Plan accounts eligible for diversification. The election to effect such distribution is granted with respect to a period of six Plan years commencing with the Plan year in which the participant attains the age of 55 and has completed 10 years of service.

During the first five years of the election period, 25% of the qualified participant's plan account attributable to post-1986 stock may be diversified; during the last year of the election period, 50% of the qualified participant's plan account attributable to post-1986 stock, may be diversified.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

**R.T. Vanderbilt Holding Company, Inc. Profit Sharing Plan
(formerly R.T. Vanderbilt Holding Company, Inc. Employee Stock Ownership Plan)**

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Investment valuation and income recognition: Investments are stated at fair value (see Note 3). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Dividend income is accrued on the declaration date. Interest income is recorded on the accrual basis. Realized gains and losses from Company stock transactions are reported on the average cost method. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and uncertainties: The Plan investments consist primarily of Company common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Payment of benefits: Distributions to participants are recorded when paid.

Note 3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Notes to Financial Statements

Note 3. Fair Value Measurements (Continued)

On November 17, 2023, the Company purchased all shares of Company common stock held by the Plan for \$2,486,220.

Following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022.

Money market fund: Valued at the daily closing price as reported by the fund. The Plan's money market fund is registered with the Securities and Exchange Commission. This fund is required to publish their daily net asset value and to transact at that price. The money market fund held by the Plan is deemed to be actively traded.

Company common stock: The Company voting and nonvoting stock held by the Plan is reported at fair value based upon an appraisal. This appraisal was based on a combination of the market and income valuation techniques consistent with prior years as follows: (a) capitalized cash flow method which relies on historical financial performance, an estimate of the long-term growth rate in free cash flows and a determination of the weighted-average cost of capital and (b) a market price method that gives consideration to the prices and other relevant information generated by market transactions involving comparable businesses. The appraiser prepares a report of estimated per share value of the Company voting and nonvoting stock.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

There were no issues, purchases or transfer into or out of the Plan's Level 3 investments during 2023.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2022.

Note 4. Tax Status

The Internal Revenue Service has determined and informed the Company by letter dated January 31, 2012, that the Plan was designed in accordance with the applicable requirements of the Code. Although the Plan has been amended since receiving the determination letter, the Plan Administrator and its counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code and ERISA. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5. Related Party and Party-in-Interest Transactions

Prior to the sale back to the Company (see Note 3), the Plan owned shares of the Company's common stock. During 2023, the Company paid a dividend to the Plan totaling \$23,992. Certain costs and expenses incurred in administering the Plan are paid by the Company. These costs include the engagement of external auditors to audit and report on the financial statements of the Plan annually, personnel and facilities of the Company used by the Plan for its accounting and other activities, legal fees and recordkeeping services. These transactions are related party and party-in-interest transactions under ERISA.

Note 6. Subsequent Events

The Plan has evaluated events through January 7, 2025, the date the financial statements were available to be issued.
