## Independent Auditors' Report

The Plan Administrator  
Robinson Engineering, Ltd. Cash Balance Plan:

### *Opinion*

We have audited the accompanying financial statements of the Robinson Engineering, Ltd. Cash Balance Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of March 31, 2024, the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of March 31, 2024, and the changes in its net assets available for benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

### *Basis for Opinion*

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### *Responsibilities of Management for the Financial Statements*

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

## ***Auditors' Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

# ROBINSON ENGINEERING, LTD. CASH BALANCE PLAN

## Notes to the Financial Statements

March 31, 2024

(1) Description of plan

The following description of the Robinson Engineering, Ltd. Cash Balance Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan is a non-contributory defined benefit plan which was adopted on April 1, 2023 to provide retirement benefits for employees of Robinson Engineering, Ltd. ("Plan Sponsor"). The Plan covers substantially all full-time employees who are 21 years of age and have completed one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

(b) Administration

The Investment Committee of the Plan Sponsor is responsible for the administration and operation of the Plan and has engaged Stifel, Nicolaus & Company, Inc. as investment advisors to assist in the investment of the assets of the Plan. The Benefit Practice provides administrative and actuarial services to the Plan.

(c) Contributions

All contributions to the Plan are made by the Plan Sponsor based upon recommendations of a consulting actuary in an amount necessary to fund normal cost and amortize prior service cost. Contributions by the Plan Sponsor are irrevocable and may be used only for the benefit of the participants and their beneficiaries. All minimum funding requirements were met as of and for the year ended March 31, 2024.

(d) Vesting

Participants become fully vested after completion of three years of credited services. Participants also become fully vested upon death, disability, or retirement.

# ROBINSON ENGINEERING, LTD. CASH BALANCE PLAN

## Notes to the Financial Statements

March 31, 2024

(e) Plan benefits

Benefits are determined based on the participants' hypothetical account balance and are payable as a monthly pension continuing for life or other benefit options under the Plan. Participants are credited with a principal credit after the end of each Plan year. The principal credit is determined based on a percentage of compensation as follows: 50% for the CEO, 18.75% for senior officers, 12.50% for officers, 9.375% for senior associates, 6.25% for Associates and 3.50% for all other eligible employees. Participants also receive an interest credit each Plan year determined by multiplying the dollar amount representing the balance of the hypothetical account at the beginning of the Plan year by the applicable actual rate of return on the Plan assets for the Plan year. There was no interest credit for the Plan year ended March 31, 2024 as there was no hypothetical account balance at the beginning of the Plan year.

Plan participants are eligible for their Plan benefits at retirement age, death or disability.

Participants who are married on the date their benefits are to begin and have a vested accrued benefit exceeding \$5,000 will automatically receive a joint and 50% survivor annuity. Participants who are not married and have a vested accrued benefit exceeding \$5,000 will automatically receive a life annuity. Participants have the option to waive their automatic election (with spousal consent, if married) and elect to receive a single lump-sum payment, life annuity, life annuity with a guaranteed number of payments, joint and 50% survivor annuity, joint and 75% survivor annuity or joint and 100% survivor annuity. If a participant has a vested accrued benefit less than \$5,000, it will automatically be distributed as a single lump-sum.

(f) Administrative expenses

Actuarial, investment management and other fees are generally paid from Plan assets or the Plan Sponsor. Pension Benefit Guaranty Corporation ("PBGC") premiums are paid by the Plan Sponsor. There were no actuarial, investment management or other fees paid from Plan assets for the year ended March 31, 2024.

(g) Plan termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the plan document to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

# ROBINSON ENGINEERING, LTD. CASH BALANCE PLAN

## Notes to the Financial Statements

March 31, 2024

Should the Plan terminate at some future time, its net assets generally may be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation ("PBGC") at that time. Some benefits may be fully or partially provided by the Plan's then existing assets and the PBGC guaranty, while other benefits may not be provided at all. The priority order of participants' claims to the assets of the Plan upon termination comply with applicable sections of benefits guaranteed by the PBHC as detailed in the plan document.

### (2) Summary of significant accounting policies

#### (a) Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

#### (b) Investment valuation and income recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

#### (c) Payment of benefits

Benefits are recorded when paid.

#### (d) Actuarial present value of accumulated plan benefits

Accumulated plan benefits are future periodic payments that are attributable to services participants have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries, (b) beneficiaries of participants who have died, and (c) present participants or their beneficiaries. The Plan's benefits are based on each participant's hypothetical account balance as defined in the Plan. Benefits payable under all circumstances (retirement, death, and disability) are included, to the extent they are deemed attributable to participant service rendered as of the valuation date.

## Notes to the Financial Statements

March 31, 2024

The actuarial present value of accumulated plan benefits is determined by consulting actuaries and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Actuarially estimated plan costs are computed using the unit credit method.

The significant actuarial assumptions used in the valuation as of April 1, 2023 were (a) life expectancy of participants (the 2023 Mortality Tables prescribed by the IRS under Section 430(h)(3)), (b) retirement age assumptions (the assumed retirement age was 62), and (c) assumed interest rate of 5.0%.

Certain actuarial assumptions change periodically in accordance with certain statutory regulations.

The actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different assumptions might be applicable in determining the actuarial present value of accumulated plan benefits.

(e) Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

(f) Events occurring after reporting date

The Plan Sponsor has evaluated events and transactions that occurred between March 31, 2024 and January 9, 2025, which is the date that the financial statements were available to be issued, for possible recognition or disclosure in the financial statements.

(3) Income tax status

The Plan Sponsor adopted a pre-approved defined benefit plan, which received a favorable opinion letter from the Internal Revenue Service ("IRS") on February 28, 2023, which stated that the pre-approved plan was designed in accordance with the applicable sections of the IRC. The Plan itself has not received a determination letter from the IRS stating that the Plan is qualified under Section 401(a) of the IRC. However, the plan administrator believes that Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and is therefore, qualified and exempt from taxation.

## Notes to the Financial Statements

March 31, 2024

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of March 31, 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

#### (4) Risks and uncertainties

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

**A. Funding Method**

The valuation method is the actuarial cost method prescribed under Section 430 of the Internal Revenue Code.

Under this method, the following terms are used:

The Funding Target is the sum of the present value of all benefits accrued or earned under the plan as of the beginning of the plan year.

The Applicable Funding Target is equal to the Funding Target multiplied by the applicable transition percentage under the Worker, Retiree, and Employer Recovery Act of 2008.

The Target Normal Cost is the sum of the present value of all benefits which are expected to accrue or be earned under the plan during the plan year.

The Carryover Balance maintained by the plan was set equal to the Credit Balance, if any, in the Funding Standard Account as of the final day of the 2007 plan year. It is decreased when used to reduce the minimum required contribution in succeeding plan years. The unused portion is adjusted to reflect the rate of return on plan assets in those succeeding plan years.

The Prefunding Balance is the accumulation of discounted contributions in excess of the minimum funding requirement for 2008 and later plan years. It is decreased when used, and adjusted for return on plan assets, similarly to the Carryover Balance.

The Funding Shortfall is equal to the Funding Target, less the Actuarial Value of Assets, reduced by the Prefunding Balance and the Carryover Balance.

The Adjusted Funding Shortfall is equal to the Applicable Funding Target, less the Actuarial Value of Assets, reduced by the Prefunding Balance and the Carryover Balance.

A Shortfall Amortization Base is established for a plan year equal to the Adjusted Funding Shortfall less the present value of the existing Shortfall Amortization Installments and Waiver Amortization Installments, if any. Under some circumstances, no Shortfall Amortization Base may need to be established and/or prior Shortfall Amortization Bases may be eliminated.

A Shortfall Amortization Installment is the amount necessary to amortize the Shortfall Amortization Base over the 7-plan-year period beginning with the plan year it is established. Under the Preservation of Access to Care for Medicare Beneficiaries and Pension Relief Act of 2010, an extended amortization period may be elected by the plan sponsor for certain plan years. Effective with the 2021 plan year, the American Rescue Plan Act (ARPA) allows the plan sponsor to eliminate all prior amortization installments and reamortize the Funding Shortfall over a period of 15 years. A 15-year period will then be used for any new Shortfall Amortization Installments established in future plan years. The sponsor may choose to reamortize in the 2020 or 2021 plan years but must do so by the 2022 plan year.

## Summary of Plan Provisions

### DEFINITIONS:

Compensation: Participant's wages for each Year of Service, as defined in Internal Revenue Code Section 3401(a).

Hypothetical Account Balance: For each participant, the sum of all Principal Credits and Interest Credits as of such determination date.

Principal Credit: The amount credited at the end of the Plan Year to a Participant's Hypothetical Account Balance as follows:

- CEO– 50% of Compensation
- Senior Officers– 18.75% of Compensation
- Officers– 12.50% of Compensation
- Senior Associates– 9.375% of Compensation
- Associates– 6.250% of Compensation
- All Other Eligible Employees– 3.50% of Compensation

Only Participants who complete a Year of Service during the Plan Year shall be eligible to receive a Principal Credit.

Interest Credit: The Hypothetical Account Balance at the beginning of a Plan Year multiplied by the Interest Crediting Rate.

Interest Crediting Rate: The Actual Rate of Return on the Plan assets during the Plan Year as provided under Regulation Section 1.411(b)(5)-1(d)(5)(ii).

Year of Service: A computation period during which an Employee has at least 1,000 Hour(s) of Service.

For benefit accrual purposes, Years of Service prior to participation are excluded.

For vesting purposes, Years of Service prior to the Effective Date of the Plan are excluded.
