INDEPENDENT AUDITOR'S REPORT

To the Trustees and Plan Administrator of
Hart Howerton Employee Stock Ownership Plan:

Opinion

We have audited the financial statements of Hart Howerton Employee Stock Ownership Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of March 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended March 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of Hart Howerton Employee Stock Ownership Plan as of March 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended March 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Hart Howerton Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Hart Howerton Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

601 MONTGOMERY, SUITE 800, SAN FRANCISCO, CA 94111, www.mahllp.com, email@mahllp.com, FAX 415 982-1111 TEL 415 981-1111

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Hart Howerton Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Hart Howerton Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets held as of March 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

HART HOWERTON

EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS

MARCH 31, 2024

1. Plan Description and Basis of Presentation

The following brief description of the Hart Howerton Employee Stock Ownership Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan Agreement for complete information.

General – Hart Howerton Holdings, Ltd. (the "Company") established the Plan effective as of April 1, 2012. As of October 1, 2016, the Plan was amended and operated as a leveraged employee stock ownership plan (ESOP) designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC), and subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by three trustees appointed by the Company's board of directors. The trustees are officers and/or shareholders of the Company.

On January 26, 2018, the Plan purchased from a major shareholder 38,595 shares of the Company's common stock with a loan of $5,696,105 financed by the Company and $4,300,000 in cash. The shares were purchased at a price of $259 per share for an aggregate purchase price of $9,996,105. The loan bore interest at the rate of 2.59%. The loan was paid off in the year ended March 31, 2023.

The borrowing was collateralized by the unallocated shares of common stock. The lender, or the Company, had no rights against shares of common stock once they were allocated to participants in accordance with the terms of the ESOP. As of March 31, 2023, all collateralized shares of common stock were allocated to employees.

On September 14, 2022, the Plan was amended to freeze the entry of new participants; to cease all contributions; and to cease all future benefit accruals effective October 1, 2022. As a result of the Plan amendment, all participants become fully vested in their account balances.

Eligibility – The Plan covered generally all active employees of the Company and its participating subsidiaries prior to freezing the entry of new participants. Employees were eligible to participate in the Plan if they were 21 years of age and had attained one year of service, or worked at least 1,000 hours. Eligible Employees who met the eligibility requirement and had at least 500 hours of service during each six months period (the "Allocation Period") of the Plan year and were employed on the last working day of the Allocation Period were eligible for an allocation of Company contributions for such Allocation Period.

The following are companies that are eligible to participate in the Plan under a controlled group, which is considered a single employer plan:

- Hart Howerton, Ltd.
- Hart Howerton Partners, Ltd.

Contributions -- The Company was obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. As of March 31, 2023, the Plan's term loan was paid off and contributions had ceased.

Payment of Benefits -- Distributions are made as follows:

A. If a participant's entire vested account does not exceed $10,000, the distribution shall be made as soon as administratively feasible after the end of the Plan year in which the participant has a severance from employment and in a single sum payment;

B. If a participant's entire vested account exceeds $10,000, the distributions shall be made in equal annual payments over a period not longer than the greater of:

   a. Five (5) years, or

   b. In the case of a participant with a vested account in excess of one million seventy thousand dollars ($1,070,000), five (5) years plus one (1) additional year (but not more than five (5) additional years) for each two hundred ten thousand dollars ($210,000) or fraction thereof by which such vested account exceeds one million seventy thousand dollars ($1,070,000), and such amounts may be adjusted for increases in the cost of living under IRC 415(d);

   The distributions shall also be made as follows:

   a. If the distribution is due to the participant's severance from employment other than by reason of the participant reaching normal retirement age, disability or death, the distribution of the account shall commence during, but before the end of, the sixth (6th) Plan year following the Plan year in which the participant has a severance from employment;

   b. If the distribution is due to a severance from employment by reason of the participant reaching normal retirement age, disability or death, the distribution of the account shall commence not later than one year after the end of the Plan year in which the participant has a severance from employment;

c. A participant who continues to be employed by the Company beyond the participant's normal retirement age may elect to have benefit payments commence as if the participant had terminated employment with the Company. Any additional benefit earned after the date when these benefits commence shall commence upon the participant's subsequent severance from employment, unless the additional benefit must commence at an earlier date as required by the provisions of IRC 401(a)(9).

The amount to be distributed is based upon the valuation of the Company's stock at the end of the Plan year following the event. Distributions of a participant's Employer Stock Account shall be made in Company common stock plus cash for any fractional share of common stock. If the participant elects to receive a distribution of the participant's General Account in Company common stock, it shall be used to acquire whole shares of Company common stock for the participant's Employer Stock Account, to the extent the shares are available within the Plan, with the value of any fractional share paid in cash. Under the provisions of the Plan, the Company is obligated to repurchase participant shares, which have been distributed under the terms of the Plan if the shares are not publicly traded or if the shares are subject to trading limitations.

Administrative Expenses -- As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. During the year ended March 31, 2024, all administrative expenses were paid by the Plan.

Voting Rights -- Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account with respect to corporate matters which involves the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets of a trade or business, or such similar transaction as may be prescribed in Treasury regulations promulgated under IRC 409(e)(3). The Plan's trustees must notify the participants prior to the time that such rights are to be exercised. The trustees are not permitted to vote any allocated share for which instructions have not been given by a participant. The trustees are required, however, to vote any unallocated shares on behalf of the collective best interests of Plan participants and beneficiaries.

Participant Accounts -- The Plan is a defined contribution plan under which a separate individual account is established for each participant. Prior to the Plan's being frozen, each participant's account was credited semi-annually as of the last day of each Allocation Period with an allocation of shares of the Company's common stock released by the trustees from the unallocated account and forfeitures of terminated participants' non-vested accounts. Only those participants who were eligible employees of the Company as of the last day of the Allocation Period would receive an allocation. Allocations were based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

Vesting -- Effective October 1, 2022, all participants became fully vested in their account balances as a result of the plan amendment on September 14, 2022 to freeze the entry of new participants; to cease all contributions; and to cease all future benefit accruals.

Put Option -- Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants upon termination for which there is no market. The put price is representative of the current appraised value of the stock. The payment for the purchase of the Company stock shall be in a single sum payment if the participant's entire vested account does not exceed $10,000 or in up to five (5) substantially annual payments if the participant's entire vested account exceeds $10,000. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification -- Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a 6-year period. In each of the first 5 years, a participant may diversify up to 25 percent of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. The election to diversify is made subsequent to year-end based upon the shares of employer stock in the participant's account at year-end.

2. Summary of Significant Accounting Policies

Basis of Accounting -- The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates -- The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Allocations -- The financial statements of the Plan previously presented separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares were released from collateral and become allocated generally in the period in which debt service was actually paid. As of March 31, 2023, the Plan's term loan was paid off, and all collateralized shares of common stock were allocated to employees.

Investments Valuation and Income Recognition -- Shares of Company common stock are reported at fair value. See Note 5 for a discussion of the fair value measurements.

Purchase and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits -- Benefits are recorded when paid.

3. Risks and Uncertainties

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of common stock will occur in the near term and that such changes could affect the amounts reported in the statement of net assets available for benefits.

4. Investments

The Plan's investments, on March 31, 2024 and 2023 are presented in the following table:

	2024	2023
Company common stock:		
Number of shares	32,978	34,895
Cost	$ 8,499,074	$ 8,992,954
Estimated fair value	$29,308,796	$ 25,084,523

5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

The three levels of the fair value hierarchy under *FASB ASC 820* are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include: a) quoted prices for similar assets or liabilities in active markets; b) quoted prices for identical or similar assets or liabilities in inactive markets; c) inputs other than quoted prices that are observable for the asset or liability; and d) inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of March 31, 2024 and 2023:

	Assets at Fair Value as of March 31, 2024			
	Level 1	**Level 2**	**Level 3**	**Total**
Company common stock	$ -	$ -	$29,308,796	$ 29,308,796
Investments at fair value	$ -	$ -	$29,308,796	$ 29,308,796

	Assets at Fair Value as of March 31, 2023			
	Level 1	**Level 2**	**Level 3**	**Total**
Company common stock	$ -	$ -	$25,084,523	$ 25,084,523
Investments at fair value	$ -	$ -	$25,084,523	$ 25,084,523

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended March 31, 2024:

	March 31, 2024 Level 3 Assets Company Common Stock
Balance, beginning of year	$25,084,523
Realized gains/losses	-
Unrealized appreciation in estimated fair value	5,602,555
Share distributed (1,917 shares)	(1,378,282)
Balance, end of year	$29,308,796
The amount of total gains or losses for the period included in changes in net assets are attributable to the change in unrealized gains or losses relating to assets still held at the reporting date	$ 5,602,555

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at March 31, 2024 and 2023.

Company common stock: Valued at fair value based upon an appraisal. This appraisal was based upon a combination of the market, income, and asset valuation techniques consistent with prior years as illustrated in the following table.

Instrument	Fair Value	Principle Valuation Technique	Unobservable Inputs
Company common stock	$29,308,796	Market Approach	Public company comparables Merged and acquired company comparables EBITDA multiple Revenue multiple EBIT multiple Discount for lack of marketability
		Income Approach	EBITDA Weighted average cost of capital Discount rate Working capital Capital expenditures Discount for lack of marketability

The valuation process involves the selection of an appraiser under contract each year. Plan management accumulates the data for the appraiser from historical and projected financial information of the Company. The appraiser prepares a report of estimated per share value that a participant will receive upon distribution.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

6. Related Party and Party in Interest Transactions

The Plan invests in Company common stock, which represents a party in interest transaction. The Plan has a number of service providers. Such providers are also parties in interest under ERISA.

7. Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the trustees will pay all liabilities and expenses of the Plan and to sell shares of financed common stock held as collateral to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

8. Income Tax Status

The Plan has received a determination letter from the IRS dated July 11, 2018, stating that the Plan is qualified under the IRC and therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator believes that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service or any other tax agencies. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Subsequent Events

The Plan's management evaluated subsequent events through January 10, 2025, the date on which the financial statements were available to be issued and noted no subsequent events which would have an impact on the Statements of Net Assets Available for Benefits and the related Statement of Changes in Net Assets Available for Benefits or require disclosure in the notes to financial statements.
