Schedule SB, line 22 - Description of Weighted Average Retirement Ag

Name of Plan: Twenty Four Seven Sales Cash Balance Plan

EIN: 46-3789710

PN: 002

Plan Year: 1/1/2024 - 11/22/2024

The description of weighted average retirement age is contained in the first page of the attached Schedule SB, Part V - Statement of Actuarial Assumptions/ Methods.

Schedule SB, Part V - Summary of Plan Provisions
Twenty Four Seven Sales Cash Balance Plan
EIN: 46-3789710
Plan Number: 002

Twenty Four Seven Sales Cash Balance Plan
Valuation as of January 1, 2024
Summary of Plan Provisions

Eligibility To Participate

An employee becomes a participant in the Plan on the January 1 or July 1 after the date he meets the following requirement(s):

- Completes 24 months of employment.
- Attains age 21.

Provided he is a member of the following eligible class of employees:

- Not an independent contractor
- Not a leased employee

Participation under the Plan is frozen. Employees with a first day of employment on or after January 1, 2018 are not eligible to participate.

Normal Retirement Benefit

Normal Retirement Date

A participant is eligible for his normal retirement pension as of the first day of the month on or after the participant satisfies the following condition:

- Attainment of age 65.

Normal Retirement Benefit

The normal retirement pension is payable as a lump sum.

Normal Retirement Pension Formula

This is a cash balance plan. Eligible participants are participants who are credited with a year of benefit service for the plan year. The eligible participant's hypothetical account is credited in accordance with the following allocation formula based upon his classification:

Classification	Allocation Credit
I	lesser of \$125,000 or 70% of compensation
II	lesser of \$115,000 or 70% of compensation
III	\$0
IV	lesser of \$15,000 or 100% of compensation
V	5% of compensation

Hypothetical accounts are credited with 4% interest per annum compounded annually.

Twenty Four Seven Sales Cash Balance Plan
Valuation as of January 1, 2024
Summary of Plan Provisions

Compensation

For the purposes of the Plan, "compensation" means the participant's earnings for the plan year. The Plan takes into account W-2 wages for federal income tax withholding purposes including 401(k) and similar contributions, but subject to the Code section 401(a)(17) dollar limitation. Compensation excludes wages payable after employment termination under a severance agreement

Accrued Benefit

The accrued benefit on any date equals the participant's hypothetical account balance.

Retirement Payment Options

A participant may elect to receive his monthly pension in one of these optional forms of payment:

- **Lifetime Pension**
- **Joint and Survivor Pension** with 100%, 75%, or 50% survivor pension
- **Lump Sum Payment** – If the present value of the vested pension does not exceed \$5,000, this is the only payment option. This payment option is not available if the Plan does not meet certain Internal Revenue Code funding requirements.

If the present value of the vested pension does not exceed \$1,000, the Plan will automatically distribute the benefit in cash if there is no election

If the participant is married at the time payments are to begin, the automatic form of payment will be a Joint and 50% Survivor Pension with the spouse named as survivor annuitant. If the participant is not married at the time payments are to begin, the automatic form of payment will be a Lifetime Pension.

Employment after Retirement. If a participant in pay status returns to employment, retirement benefits will be suspended for each calendar month during which the employee receives payment for services performed on 8 separate days.

Other Retirement Benefits

Late Retirement

If a participant continues working after his normal retirement date, his pension will not commence until he actually retires. The late retirement benefit is the normal retirement benefit determined under the pension formula using compensation and benefit service to date.

Death Benefit

Preretirement Death Benefit

If a participant dies before he begins to receive a retirement pension benefit, the Plan will pay the named beneficiary a preretirement death benefit equal to the present value of the participant's benefit accrued to date.

Twenty Four Seven Sales Cash Balance Plan
Valuation as of January 1, 2024
Summary of Plan Provisions

Termination Of Employment Benefits

Vesting in Accrued Pension

The participant is 100% immediate vesting upon participation in the Plan.

Time of Payment

No pension payment is available under the Plan prior to normal retirement or death, with one exception. If the present value of the vested accrued benefit does not exceed \$5,000, the lump sum value can be paid following termination of employment. If the present value of the participant's vested accrued benefit does not exceed \$1,000, the Plan will automatically distribute the amount in cash, if the participant does not elect a rollover to an IRA or another qualified plan.

Service Rules

Eligibility Service Rules

Eligibility service is determined using the elapsed time method.

Benefit Service Rules

A participant is credited with a year of benefit service for each 12-month period he participates in the Plan and is employed by the employer. Fractional years of benefit service will be credited to the completed month. If a participant terminates employment in the middle of a plan year, no service for benefit purposes will be credited at all for that plan year if he does not complete at least 3 consecutive months.

For the purpose of determining years of benefit service, the Plan excludes the following service:

- Service before participation in the Plan.
- Service before January 1, 2017, the date the Plan was adopted.

Actuarial Equivalence

Actuarial equivalence is determined based on the following mortality and interest rate assumptions:

Mortality table: The Code section 417 mortality table

Interest rate: 4%

For the purpose of determining the amount of a lump sum payment, the actuarial equivalence determination uses the Code section 417 mortality table and the Code section 417 interest rates.

Code Section 417 Mortality Table

The Code section 417 mortality table is the Applicable Mortality Table released annually by the Internal Revenue Service.

Code Section 417 Interest Rates

The Code section 417 interest rates are the Transitional Segment Rates for the second month preceding the first day of the plan year that contains the annuity starting date.
