MALLORY SAFETY AND SUPPLY EMPLOYEES RETIREMENT PLAN
Notes to Financial Statements
December 31, 2019 and 2018

Note 1 - Description of Plan

The following description of the Mallory Safety and Supply Employees Retirement Plan, (the “Plan”), provides only general information. Participants should refer to the Plan agreement or the summary plan description for a more complete description of the Plan’s provisions.

General

The Plan, established January 1, 2011, is a defined contribution plan covering substantially all employees of Mallory Safety and Supply Employees Retirement Plan (the “Company” or “Plan Sponsor”) who are aged twenty-one or older and have completed six months of service. Once eligibility requirements are met, participants can enter the plan in January or July. The plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The plan was amended December 7, 2017.

Contributions

The Plan provides for pre-tax participant contributions up to the amount permitted by law, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company may make matching contributions in an amount determined by the Company’s board of directors. The Company also has the option to make a discretionary non-matching contribution, as determined by the Company’s Board of Directors. Employer contributions are made in cash. Contributions are subject to certain limitations. The discretionary employer matching contribution for 2019 and 2018 was 50% of participant contributions up to 6% of annual compensation. The Company made discretionary employer matching contributions of \$181,469 and \$129,857 for the years ending December 31, 2019 and 2018, respectively.

Participant accounts

Each participant’s account is credited with the participant’s contributions and allocations of (a) the Company’s contribution and, (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined in the Plan. Forfeited balances of terminated participants’ non-vested accounts can be used to restore forfeitures, to reduce future Company contributions, or pay Plan expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company’s discretionary contributions and matching contributions plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service.

Investment options

Upon enrollment in the Plan, participants may direct the custodian of the Plan as to the investment of their account balances in accordance with guidelines established by the Plan.

Participant Loans

Participant loans are not permitted.

Payment of benefits

Distribution of the vested portion of a participant’s account will occur upon the participant’s termination, death, disability, hardship withdrawal or retirement, as defined in the Plan. A participant is entitled to receive a lump sum payment in an amount equal to the vested value of their account.

MALLORY SAFETY AND SUPPLY EMPLOYEES RETIREMENT PLAN
Notes to Financial Statements
December 31, 2019 and 2018

Note 1 - Description of Plan (continued)

Forfeitures

Forfeitures are used to pay plan administrative expenses or to offset the employer contribution. For the years ending December 31, 2019 and 2018, there were forfeitures of terminated participants' non-vested accounts of \$-0- and \$3,358, respectively. As of December 31, 2019 and 2018, forfeitures available to restore forfeitures, to reduce future Company contributions, or pay Plan expenses totaled \$-0- and \$-0-, respectively. For the years ending December 31, 2019 and 2018, \$1,570 and \$9,457, respectively, of forfeitures were used to pay administrative expenses.

Note 2 - Summary of Accounting Policies

Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment valuation and income recognition

The Plan's investments are stated at fair value. Shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. If quoted prices are unavailable, estimated fair values are based on comparable investment of other issues with similar credit ratings. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of benefits

Benefits are recorded when paid.

Administrative expenses

Plan administrative expenses may be paid by either the plan or the Company on a discretionary basis.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Credit risk

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 3 – Fair Value Measurements

FASB ASC 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include <ul style="list-style-type: none"> • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p style="text-align: center;">If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.</p>
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Registered investments – Valued at the quoted prices in active market of shares held by the Plan at year-end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2019 and 2018:

	Assets at Fair Value as of December 31, 2019	
	Fair Value	Level 1
Registered investments	\$ 6,108,538	\$ 6,108,538
Total	\$ 6,108,538	\$ 6,108,538
	Assets at Fair Value as of December 31, 2018	
	Fair Value	Level 1

Total	\$ 3,529,406	\$ 3,529,406

Notes to Financial Statements
December 31, 2019 and 2018

Note 4 – Related Party Transactions

The Plan paid administrative fees of \$13,304 and \$14,419 for the years ending December 31, 2019 and 2018, respectively. The Company paid administrative fees of \$-0- and \$2,735 for the plan for the years ending December 31, 2019 and 2018, respectively.

The owners of the Company and the trustee of the Plan are also participants in the Plan with an account balance that amounted to approximately 5.01% and 5.32% of the net assets of the Plan as of December 31, 2019 and 2018, respectively.

Note 5 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Note 6 – Tax Status

The Internal Revenue Service has determined by letter dated March 31, 2014, that the adopted prototype plan is qualified under the appropriate sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan’s tax counsel believe that the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC and that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the Department of Labor. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2019 and 2018, no uncertain positions are taken or are expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
