Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) ☒ Unmodified (2) ☐ Qualified (3) ☐ Disclaimer (4) ☐ Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) ☒ DOL Regulation 2520.103-8 (2) ☐ DOL Regulation 2520.103-12(d) (3) ☐ neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **WEAVER AND TIDWELL, LLP**

(2) EIN: **75-0786316**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) ☐ This form is filed for a CCT, PSA, DCG or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		☒	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		☒	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		☒	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		☒	
e Was this plan covered by a fidelity bond?	☒		15000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		☒	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	☒		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)	☒		
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		☒	
l Has the plan failed to provide any benefit when due under the plan?		☒	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)			
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? ☐ Yes ☒ No

Independent Auditor's Report

To the Participants and Plan Administrator of the
Wyle Inc. Retirement Plan
Houston, Texas

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Wyle Inc. Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statements of changes in net assets available for benefits for the years ended December 31, 2023 and 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2023 and 2022, and for the years ended December 31, 2023 and 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (US GAAP).
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter - 2022 Financial Statements Restated

As discussed in Note 10 to the financial statements, the 2022 statement of net assets available for benefits has been restated to correct a misstatement. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with US GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued (or when applicable, one year after the date that the financial statements are available to be issued).

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

The Participants and Plan Administrator of the
Wyle Inc. Retirement Plan

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of US GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with US GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter — Supplementary Information Required by ERISA

The supplementary information listed in the table of contents as of and for the year ended December 31, 2023 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplementary information, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS. For information included in the supplementary information that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplementary information, we evaluated whether the supplementary information, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplementary information, other than the information in the supplementary information that agrees to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplementary information related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Wyle Inc. Retirement Plan

Notes to Financial Statements

Note 1. Description of the Plan

The following description of the Wyle Inc. Retirement Plan (the Plan) provides only general information. Participants should refer to the *Plan document* for a more complete description of the Plan's provisions, which is available from Plan management.

General

The Plan is a noncontributory defined benefit pension plan providing retirement benefits to all eligible employees. The plan sponsor is Wyle Inc. (the Company) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Effective January 1, 1998, the Plan was frozen.

The KBR Benefits Committee (Benefits Committee) is responsible for oversight of the Plan. The KBR Investment Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Funding Policy

Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to make cash contributions to the Plan in amounts computed by the Plan's actuary using the projected-unit-credit-cost method. Under this actuarial method, the cost attributed to past service is determined on the valuation date as the present value of the benefits actually earned as of that date. It is the intention of the Company's funding policy, based on the actuarial assumptions referred to in Note 4, that all eligible participants' benefits will be fully provided for by the time they retire. Plan participants may not make contributions to the Plan. During 2023 and 2022, the Company made contributions of \$303,313 and \$0, respectively. The Company's contributions for 2023 and 2022 exceeded the minimum funding requirements of ERISA.

Pension Benefits

The Plan provides for normal retirement benefits upon reaching age 65 and five years of vesting service equal to 50 percent of a participant's final average compensation less 50 percent of the primary Social Security benefit multiplied by a fraction, as defined by the plan document. The Plan has provisions for early and late retirement, termination, and death benefits. Participants may elect to receive their pension benefits from various forms of joint and survivor annuities.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (US GAAP) requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Wyle Inc. Retirement Plan

Notes to Financial Statements

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded at the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

All administrative fees are paid by the Plan.

Plan Management's Review of Subsequent Events

The Plan has evaluated subsequent events through January 16, 2025, the date the financial statements were available to be issued.

Note 3. Certified Investments

Certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplementary information, including investments held at December 31, 2023 and 2022, and net appreciation (depreciation) in fair value of investments and investment income (loss) for the years ended December 31, 2023 and 2022, was obtained by management and agreed or derived from information certified as complete and accurate by Principal Life Insurance Company, the custodian of the Plan.

Note 4. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the services employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The accumulated plan benefits for active employees are based on years of service and the participants' average compensation for the five years ending December 31, 1999.

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary, and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The effect of plan amendments on accumulated plan benefits is recognized during the year in which such amendments become effective.

Wyle Inc. Retirement Plan

Notes to Financial Statements

The accumulated plan benefits information at January 1, 2023 were as follows:

Actuarial present value of accumulated plan benefits	
Vested benefits	
Participants currently receiving payments	\$ 5,438,586
Other participants	<u>1,964,309</u>
Total actuarial present value of accumulated plan benefits	<u><u>\$ 7,402,895</u></u>

The change in the actuarial present value of accumulated plan benefits from January 1, 2022 to January 1, 2023 is attributable to the following:

Actuarial present value of accumulated plan benefits	
at January 1, 2022	\$ 8,379,300
Increase (decrease) during the year attributable to	
Benefit payments	(646,956)
Decrease in discount period	410,847
Actuarial gains	(53,737)
Assumption changes	<u>(686,559)</u>
Net decrease	<u>(976,405)</u>
Actuarial present value of accumulated plan benefits	
at January 1, 2023	<u><u>\$ 7,402,895</u></u>

The significant actuarial assumptions used in the Plan valuations as of January 1, 2023 were as follows:

Assumed rate of return on investments	6.20%
Mortality	Pri-2012 Combined Mortality Tables, projected forward with Scale MP-2021

These actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Wyle Inc. Retirement Plan

Notes to Financial Statements

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Benefits attributable to employee contributions, taking into account those paid out before Plan termination.
2. Annuity benefits which former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
3. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC), a U.S. governmental agency, up to the applicable limitations.
4. All other vested benefits (that is, vested benefits not insured by the PBGC).
5. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits, should the Plan terminate at some future time, will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the level of benefits guaranteed by the PBGC.

Note 6. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2023 and 2022.

Pooled separate accounts: Valued at the net assets value (NAV) of units held by the Plan at year-end. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. The unit values are calculated based on the collective values of the underlying investments. Funds held in pooled separate accounts may be redeemed daily without restriction.

The following table summarizes the Plan's investments at fair value as of December 31, 2023 and 2022:

	2023	2022
Investments measured at net asset value		
Pooled separate accounts	\$ 6,718,511	\$ 6,943,149
Investments, at fair value	<u>\$ 6,718,511</u>	<u>\$ 6,943,149</u>

Notes to Financial Statements

Note 7. Risks and Uncertainties

The Plan invests in various investment securities that are exposed to various risks such as interest rates, market and credit risks. Market values of investments may decline for a number of reasons, including changes in prevailing market and interest rates, increases in defaults and credit rating downgrades. Market risks include global events, which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that some changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are determined, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimates and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would-be material to the financial statements.

Note 8. Tax Status

The Plan obtained its latest determination letter on August 13, 2013, in which the Internal Revenue Service stated that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code and therefore not subject to tax. The Plan has been amended since the date of the last amendment covered by the above-mentioned determination letter. However, Plan management believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9. Related-Party and Party-in-Interest Transactions

Certain Plan investments are held and managed by Principal Life Insurance Company, the custodian for the Plan. Willis Towers Watson US LLC provides actuarial and related services for the Plan. As described in Note 2, the Plan paid certain expenses related to plan operations and investment activity to various services providers. These transactions are party-in-interest transactions under ERISA.

Note 10. Prior Period Adjustment/Restatement

Net assets available for benefits as of December 31, 2022 was previously understated due to \$55,541 of Plan expenses being under-accrued by the Plan. Balances as of December 31, 2022 have accordingly been restated, and the net impact of the correction on amounts previously reported at December 31, 2022 was as follows:

	As Previously Stated	Adjustment	As Restated
Accrued Expenses	\$ -	\$ 55,541	\$ 55,541
Net Assets Available for Benefits	6,943,149	(55,541)	6,887,608
Administrative Expenses	219,469	55,541	275,010
Net Decrease	(2,053,735)	(55,541)	(2,109,276)

In addition, balances on the Note 11 Reconciliation of Financial Statements to Form 5500 are restated to show the net impact.

Note 11. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2023 and 2022 to Form 5500:

	2023	As restated 2022
Net assets available for benefits per the financial statements	\$ 7,004,059	\$ 6,887,608
Accrued expenses	17,765	55,541
Net assets available benefits per Form 5500	<u>\$ 7,021,824</u>	<u>\$ 6,943,149</u>

The following is a reconciliation of the changes in net assets available for benefits per the financial statements for the years ended December 31, 2023 and 2022, to Form 5500:

	2023	As restated 2022
Increase (decrease) in net assets available for benefits per the financial statement	\$ 116,451	\$ (2,109,276)
Administrative Expenses at December 31, 2022	-	55,541
Administrative Expenses at December 31, 2023	<u>(37,776)</u>	<u>-</u>
Increase (decrease) in net assets available for benefits per Form 5500	<u>\$ 78,675</u>	<u>\$ (2,053,735)</u>

Demographic Assumptions

Inclusion date	The valuation date coincident with or next following the date on which the employee becomes a participant.
New or rehired employees	It was assumed there will be no new or rehired employees.
Mortality for funding	Separate rates for non-annuitants (based on RP-2014 "Employees" table without collar on amount adjustments, adjusted backward to 2006 with MP-2014, and then projected forward with static projection as specified in the regulations under §1.430 (h)(3)-1 using Scale MP-2021) and annuitants (based on RP-2014 "Healthy Annuitants" table without collar or amounts adjustments, adjusted backward to 2006 with MP-2014, and then projected forward with static projection as specified in the regulations under §1.430 (h)(3)-1 using Scale MP-2021).
Termination	The rates at which participants are assumed to leave the Company by service per 100 employees are shown below:

Retirement For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), it is assumed that participants will retire upon becoming eligible for normal retirement.

Benefit commencement date:

- Preretirement death benefit The later of the death of the active participant or the date the participant would have attained age 65.
- Deferred vested benefit The later of age 65, or the age at the valuation date.
- Disability benefit Upon disablement.
- Retirement benefit The later of age 65 or the age at valuation date.

Form of payment For those commencing payments, the following payment forms are assumed, based on selection behavior observed from other retirees:

- 50% Single Life Annuity
- 15% 50% Joint and Survivor Annuity
- 35% 100% Joint and Survivor Annuity

Percent married 75% of active and terminated participants are assumed to be married to an eligible spouse.

Spouse age Wives are assumed to be 3 years younger than husbands.

At-risk assumptions For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan, which is usually the life-only form of payment.

Timing of benefit payments Annuity payments are payable monthly at the beginning of the month.

Maximum benefits and plan compensation limitations

Accrued benefits projected to be paid in future years are limited to the maximum presently allowed under IRC §415. Plan compensation is limited to the maximum presently allowed under IRC §401(a)(17). No provision is made for future increases in the maximum annual benefit or compensation limit.

Methods

Valuation date

First day of plan year.

Funding target

Present value of accrued benefits as required by regulations under IRC §430.

Target normal cost

Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.

Actuarial value of assets

Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2010-23). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued. WTW has reviewed the plan provisions with Wyle Inc. and based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

The Principal Financial Group furnished participant data as of 1/1/2023 and information on assets. Contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Plan-related expenses	As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were based on prior tables in use by Wyle. Given the small active population, this table will not materially affect plan costs. Assumed termination rates differ by service because of expected differences in termination rates by service.
Disability	Disability rates were based on a published table for pension participants believed to have reasonably similar characteristics participating in pension plans with similar disability provisions.

SCHEDULE SB ATTACHMENTS

Retirement

Retirees are assumed to retire at age 65 given the extremely small active population and lack of retiree healthcare.

Benefit commencement date for deferred benefits:

- Preretirement death benefit Age 65 was selected due to the small population.
- Deferred vested benefit Age 65 was selected due to the small population.

Form of payment

The percentage of retiring participants assumed to take joint and survivor annuities, and the assumed survivor percentages, are based on observed experience.

Marital assumptions

- Percent married The assumed percentage married is based on historically used rates. Given the small active population, this assumption will not materially affect cost.
- Spouse age The assumed age difference for spouses is based on historically used rates. Given the small active population, this assumption will not materially affect cost.

Source of Prescribed Methods

Funding methods

The methods used for funding purposes as described in Statement of Actuarial Assumptions/Methods, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation

- The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430 and reflected the interest rate corridors of ARPA.
- The mortality table used to calculate the funding target and target normal cost was updated to use the MP-2021 projection scale as specified in the regulations under §1.430(h)(3)-1.

Plan Name	Wyle Inc. Retirement Plan
Valuation Date	January 1, 2023
Enrolled Actuary	Richard P. Weaver
Enrollment Number	23-05950

The actuarial assumptions that are not mandated by IRC § 430 and regulations, represent the enrolled actuary's best estimate of anticipated experience under the plan, subject to the following conditions:

The actuarial valuation, on which the information in this Schedule SB is based, has been prepared in reliance upon the employee and financial data furnished by the plan administrator and the trustee. The enrolled actuary has not made a rigorous check of the accuracy of this information but has accepted it after reviewing it and concluding it is reasonable in relation to similar information furnished in previous years. The amounts of contributions and dates paid shown in Item 18 of Schedule SB were listed in reliance on information provided by the plan administrator and/or trustee.

Demographic Assumptions

Inclusion date	The valuation date coincident with or next following the date on which the employee becomes a participant.
New or rehired employees	It was assumed there will be no new or rehired employees.
Mortality for funding	Separate rates for non-annuitants (based on RP-2014 "Employees" table without collar on amount adjustments, adjusted backward to 2006 with MP-2014, and then projected forward with static projection as specified in the regulations under §1.430 (h)(3)-1 using Scale MP-2021) and annuitants (based on RP-2014 "Healthy Annuitants" table without collar or amounts adjustments, adjusted backward to 2006 with MP-2014, and then projected forward with static projection as specified in the regulations under §1.430 (h)(3)-1 using Scale MP-2021).
Termination	The rates at which participants are assumed to leave the Company by service per 100 employees are shown below:

Representative Termination Rates

Years of Service	Percentage leaving during the year
0 - 4	21.0%
5 - 9	10.0%
10 - 19	5.0%
20+	2.5%

Disability

The rates at which participants become disabled by age and gender based upon Wyatt's Disability Study – Class 2 are shown below:

Retirement For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), it is assumed that participants will retire upon becoming eligible for normal retirement.

Benefit commencement date:

- Preretirement death benefit The later of the death of the active participant or the date the participant would have attained age 65.
- Deferred vested benefit The later of age 65, or the age at the valuation date.
- Disability benefit Upon disablement.
- Retirement benefit The later of age 65 or the age at valuation date.

Form of payment For those commencing payments, the following payment forms are assumed, based on selection behavior observed from other retirees:

- 50% Single Life Annuity
- 15% 50% Joint and Survivor Annuity
- 35% 100% Joint and Survivor Annuity

Percent married 75% of active and terminated participants are assumed to be married to an eligible spouse.

Spouse age Wives are assumed to be 3 years younger than husbands.

At-risk assumptions For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan, which is usually the life-only form of payment.

Timing of benefit payments Annuity payments are payable monthly at the beginning of the month.

Maximum benefits and plan compensation limitations

Accrued benefits projected to be paid in future years are limited to the maximum presently allowed under IRC §415. Plan compensation is limited to the maximum presently allowed under IRC §401(a)(17). No provision is made for future increases in the maximum annual benefit or compensation limit.

Methods

Valuation date

First day of plan year.

Funding target

Present value of accrued benefits as required by regulations under IRC §430.

Target normal cost

Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.

Actuarial value of assets

Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2010-23). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued. WTW has reviewed the plan provisions with Wyle Inc. and based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

The Principal Financial Group furnished participant data as of 1/1/2023 and information on assets. Contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Plan-related expenses	As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were based on prior tables in use by Wyle. Given the small active population, this table will not materially affect plan costs. Assumed termination rates differ by service because of expected differences in termination rates by service.
Disability	Disability rates were based on a published table for pension participants believed to have reasonably similar characteristics participating in pension plans with similar disability provisions.

SCHEDULE SB ATTACHMENTS

Retirement

Retirees are assumed to retire at age 65 given the extremely small active population and lack of retiree healthcare.

Benefit commencement date for deferred benefits:

- Preretirement death benefit Age 65 was selected due to the small population.
- Deferred vested benefit Age 65 was selected due to the small population.

Form of payment

The percentage of retiring participants assumed to take joint and survivor annuities, and the assumed survivor percentages, are based on observed experience.

Marital assumptions

- Percent married The assumed percentage married is based on historically used rates. Given the small active population, this assumption will not materially affect cost.
- Spouse age The assumed age difference for spouses is based on historically used rates. Given the small active population, this assumption will not materially affect cost.

Source of Prescribed Methods

Funding methods

The methods used for funding purposes as described in Statement of Actuarial Assumptions/Methods, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation

- The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430 and reflected the interest rate corridors of ARPA.
- The mortality table used to calculate the funding target and target normal cost was updated to use the MP-2021 projection scale as specified in the regulations under §1.430(h)(3)-1.

Schedule SB, Part V Summary of Plan Provisions

Plan Provisions

The plan was originally effective January 1, 1995. The plan was amended and restated effective January 1, 2007. The latest amendment reflected herein is the seventh amendment.

Coverage and participation Non-union Employees. Participation is frozen as of December 31, 1997.

Plan year The twelve-month period ending December 31.

Definitions

Vesting service Years of service (plan year in which participant completes at least 1,000 hours) from date of hire. Participants are 100% vested after obtaining 5 years or more of service.

Credited service The sum of (i) and (ii):

- (i). The total of an Employee's service before January 1, 1995, determined according to the provision of the Retirement Plan maintained by Wyle Electronics as in effect on December 31, 1994.
- (ii). The total of an Employee's Periods for Service on and after January 1, 1995 and before December 31, 1997, expressed as whole years and fractional parts of a year (to two decimal places) on the basis that 365 days equal one year.

Final average compensation The monthly average of total pay received for the five years out of the ten latest years prior to retirement date which gives the highest average.

The average compensation is frozen as of December 31, 1999.

Normal retirement date (NRD) Attained age 65.

Plan Name: Wyle Inc. Retirement Plan

Accrued benefit	The difference between i and ii: i) The greater of (1) or (2): (1) The difference between a) and b), multiplied by c), a) 50% of Average Compensation b) 50% of the Social Security Benefit c) Accrued Benefit Adjustment (credited service up to 30 years divided by 30 years) (2) Minimum benefit of \$50 ii) Accrued benefit under the Wyle Electronics Retirement Plan. Benefits are frozen as of December 31, 1999.
Normal form of benefit	Monthly annuity payable for life (optional forms may be elected in advance of retirement).

Eligibility for Benefits

Normal retirement	Retirement or NRD.
Early retirement	Retirement before NRD and on or after both attaining age 55 and 10 years of vesting service.
Late retirement	Retirement after NRD.
Vested termination	Termination for reasons other than death or retirement after completing five years of vesting service.
Death benefits for participants in active service	Qualified married participant fully or partially vested in an accrued benefit.

Benefits Paid Upon the Following Events

Normal retirement	Accrued benefit determined as of NRD.
Early retirement	Accrued Benefit on Early Retirement Date reduced by 5% for each year that the Early Retirement Date precedes NRD.

Plan Name:	Wyle Inc. Retirement Plan
EIN / PN:	80-0432031/001
Plan Sponsor:	Wyle Inc.
Valuation Date:	January 1, 2023

SCHEDULE SB ATTACHMENTS

Late retirement	Accrued Benefit on Late Retirement Date.
Vested termination	Accrued Benefit on date of termination multiplied by the Vesting Percentage.
Death benefits for participants in active service	Monthly annuity payable to spouse, deferred to participant's Earliest Retirement Date if later than the date of death. If death occurs, the amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his earliest retirement age, retired with a qualified joint and 50% survivor annuity in effect, then died the next day.

Other Plan Provisions

Forms of payment	Death benefits are payable only as described above. Monthly pension benefits are paid as described above as a life annuity, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of 50% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. Optional forms are a 66% and 2/3%, 75%, or 100% joint and survivor annuity, or (for married participants) a life annuity. Actuarial equivalence is based on the 1983 Group Annuity Mortality Table for males and 7.00% interest.
Plan participants' contributions	No participant contributions are allowed.
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are not assumed for determining contributions.

Future Plan Changes

No future plan changes were recognized in determining minimum and maximum contributions.

Late retirement	Accrued Benefit on Late Retirement Date.
Vested termination	Accrued Benefit on date of termination multiplied by the Vesting Percentage.
Death benefits for participants in active service	Monthly annuity payable to spouse, deferred to participant's Earliest Retirement Date if later than the date of death. If death occurs, the amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his earliest retirement age, retired with a qualified joint and 50% survivor annuity in effect, then died the next day.

Other Plan Provisions

Forms of payment	Death benefits are payable only as described above. Monthly pension benefits are paid as described above as a life annuity, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of 50% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. Optional forms are a 66% and 2/3%, 75%, or 100% joint and survivor annuity, or (for married participants) a life annuity. Actuarial equivalence is based on the 1983 Group Annuity Mortality Table for males and 7.00% interest.
Plan participants' contributions	No participant contributions are allowed.
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are not assumed for determining contributions.
