We have audited the financial statements of Jardon and Howard Technologies, Inc. Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit] for the year ended December 31, 2023, and we have issued our report thereon dated February 4, 2025. As permitted by ERISA Section 103(a)(3)(C), our audit did not extend to any statements or information related to assets held for investment of the Plan (investment information) by Voya Retirement and Annuity Company (Voya), which is a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, that prepared and certified the statements or information regarding assets so held in accordance with 29 CFR 2520.103-5. Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements and ERISA-required supplemental schedules, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of generally accepted accounting principles. Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with generally accepted accounting principles. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated June 4, 2024. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Plan are described in Note 2 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2023.

We noted no transactions entered into by the Plan during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance

to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The methods and significant assumptions used to estimate fair values of financial instruments, including non-readily marketable securities, are as follows: Pooled Separate Accounts (PSAs), which invest directly in designated actively traded mutual funds are valued daily at their net asset values (NAV). The Plan holds units of participation in the PSAs which are valued daily at their accumulation unit value. Accumulation unit value is determined based on the NAV of the shares of the underlying mutual funds, the funds' dividends and the contract's separate account charges. We performed an ERISA Section 103(a)(3)(C) audit, accordingly, we did not evaluate the key factors and assumptions used to develop the estimate of the value of the PSAs, which was certified as complete and accurate by Voya.

The financial statement disclosures are neutral, consistent, and clear.

Form 5500 Procedures

We are required to obtain and read a substantially complete draft of Form 5500 prior to dating our auditor's report. The purpose of this procedure is to identify any material inconsistencies between the draft Form 5500 and the Plan's financial statements. We identified no material inconsistencies in performing and completing our audit.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. There were no uncorrected misstatements, other than those that are clearly trivial, identified during the audit.

The following misstatements detected as a result of audit procedures were corrected by management:

#	Account Description	Debit	Credit
1	Employer Contributions Receivable	\$ 38,845	
	Employer QNEC Receivable	\$ 9,950	
	Employer Contributions		\$ 38,845
	Employer QNEC Contributions		\$ 9,950
	<i>To record employer contributions receivable at December 31, 2023.</i>		
2	Employee Contributions	\$ 1,539	
	Employer Contributions		\$ 1,539
	<i>To reclassify corrective QNEC made during 2023 for missed deferrals for the 2021 – 2023 Plan years misclassified in the trust statement as employee contributions.</i>

Reportable Findings

For purposes of this letter, a reportable finding is a matter that includes one or more of the following: (1) non-compliance or suspected non-compliance with laws and regulations, (2) a finding that in our professional judgment is significant and relevant to you regarding your responsibility to oversee the financial reporting process, and (3) an indication of internal control deficiencies identified during the audit that have not been previously communicated to management by other parties and that we determined are sufficiently important to merit management's attention. Please refer to our separately issued letter on deficiencies in internal control and reportable findings for a discussion of reportable findings identified for the Plan year ended December 31, 2023.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated February 4, 2025.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Plan's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Plan's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

There were no significant changes to the planned audit strategy or significant risks initially identified and previously communicated to those charged with governance as part of our audit planning communications.

There were no matters noted relevant to the audit, including, but not limited to: violations or possible violations of laws or regulations; risk of material misstatements, including fraud risks; or tips or complaints regarding the Plan's financial reporting that we were made aware of as a result of our inquiry of those charged with governance.

During the 2020 through 2023 Plan years, the Company did not remit certain employee deferrals and loan payments within the appropriate time period prescribed by the Department of Labor. These transactions constitute prohibited transactions as defined by ERISA. The Company has corrected the late remittances for the 2020 through 2022 Plan years and is in the process of taking the appropriate steps to correct the 2023 late remittances.

Plan Management and Those Charged with Governance
Jardon and Howard Technologies, Inc. Retirement Plan
Orlando, Florida

We have evaluated whether the identified related-party relationships and transactions have been appropriately identified, accounted for and disclosed, and whether the effects of the related-party relationships and transactions, based on the audit evidence obtained, prevent the financial statements from achieving fair presentation.

Other Matters

Our responsibility for the ERISA-required supplemental schedules accompanying the financial statements is to perform adequate procedures to evaluate whether the form and content of the ERISA-required supplemental schedules, other than that agreed to or derived from the certified investment information, are presented in compliance with the DOL's Rules and Regulations for Reporting and disclosure under ERISA, and whether the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

This information is intended solely for the use of Plan management and those charged with governance of the Plan and is not intended to be, and should not be, used by anyone other than these specified parties.

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Jardon and Howard Technologies, Inc. Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year ended December 31, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2023 and 2022, and for the year ended December 31, 2023, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

INDEPENDENT AUDITOR'S REPORT

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

To the Plan Administrator and Participants
Jardon and Howard Technologies, Inc. Retirement Plan
Orlando, Florida

INDEPENDENT AUDITOR'S REPORT

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

The supplemental Schedule H, Line 4 a- Schedule of Delinquent Participant Contributions for the year ended December 31, 2023, and supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2023, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used

To the Plan Administrator and Participants

INDEPENDENT AUDITOR'S REPORT

to prepare the financial statements, or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

JARDON AND HOWARD TECHNOLOGIES, INC. RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS

Note 1 - Plan Description

The following description of the Jardon and Howard Technologies, Inc. Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document and adoption agreement for a more comprehensive description of the Plan's provisions.

General

The Plan, originally effective January 1, 1995, and most recently amended and restated January 1, 2021, is a defined contribution plan covering all eligible employees, as defined, of Jardon and Howard Technologies, Inc. (the Company, Plan Sponsor, or Employer). The Plan is intended to satisfy all of the requirements for a qualified retirement plan under the provisions of the Internal Revenue Code (IRC). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Participants become eligible to make elective salary deferrals and receive Company matching contributions on the first day of the calendar month following, or coinciding with, their completion of 90 days of service and attaining age 21. In order for participants to become eligible to receive Company non-elective profit-sharing contributions, they must also complete 1,000 hours of service during the Plan year and be employed on the last day of the Plan year. If the participant dies, becomes disabled or terminates employment due to retirement or early retirement, as defined, the participant will still be eligible to receive an allocation of the Company's profit-sharing contributions. For purposes of receiving Company prevailing wage contributions, participants working under a prevailing wage contract, as determined by the Company, are eligible to participate on the date the participant's employment is covered under the contract.

Contributions

Employees participating in the Plan may elect to contribute either pre-tax or after-tax Roth deferrals up to the maximum of \$22,500 allowed under the Internal Revenue Service (IRS) limitation for calendar year 2023. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions to the Plan, up to \$7,500 for calendar year 2023. Participants may also contribute amounts representing distributions from other qualified retirement plans (rollovers). Participants may change their elective deferral percentage rate or amount at any time.

The Company may contribute a discretionary matching contribution based on a uniform percentage, as determined annually by the Employer, of each eligible participant's applicable contributions. Additional non-elective profit-sharing contributions, including prevailing wage contributions, may be made at the discretion of the Company. The Company made a discretionary match of 100% of employee deferrals up to 3% of compensation, as defined, for 2023. The Company did not make any additional non-elective contributions during 2023.

Participants' Accounts

Each participant's account is credited with the participant's contributions and Company contributions and allocations of Plan earnings and charged with benefit payments and an allocation of Plan losses and administrative expenses. Plan earnings and losses are allocated based on account balances while contributions are credited based upon elective deferrals and compensation, as defined. Participant transaction fees are charged directly to the accounts of the participants who incur those fees. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

JARDON AND HOWARD TECHNOLOGIES, INC. RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS

Investment Options

Participants direct the investment of their accounts into various options offered by the Plan. Participants may change their investment elections periodically, as permitted by the Plan Sponsor.

Vesting

Participants are immediately vested in elective contributions, rollover contributions, Company prevailing wage contributions, and earnings thereon. Vesting in Employer matching and profit-sharing contributions is based upon years of service with the Plan Sponsor. Participants vest at a rate of 20% per year and are fully vested after five years of service. Upon Plan termination, participant death or disability, or participant reaching early retirement date, as defined, Company contributions vest immediately.

Payment of Benefits

On termination of service due to death, disability, retirement, or termination of employment, a participant with a vested balance greater than \$5,000 may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or a series of installments over time. If the amount of the participant's vested balance is less than or equal to \$5,000, a single lump-sum payment will be made to the participant. Hardship withdrawals may be requested and are paid in one lump-sum upon approval.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000, up to a maximum equal to the lesser of \$50,000 or 50% of the participant's vested account balance. The \$50,000 maximum loan amount is reduced by the highest loan balance during the past 12 months minus the loan balance on the date a new loan is made. Interest rates are at the prime rate plus 1%. A participant may have one loan outstanding at any given time. Loans have a maximum term of five years unless the loan is for the purchase of a primary residence, in which case the Plan Sponsor may permit a longer repayment term. The loans are collateralized by a security interest in the participant's vested account balance and are repayable via payroll deductions.

Forfeitures

Any non-vested amounts remaining after the distribution of a terminated participant's vested account balance are forfeited. If a participant is rehired within five years, he or she may restore his or her non-vested account by repaying vested matching contributions previously paid to the participant. Amounts forfeited by participants who terminate their employment or withdraw from the Plan may be used to reduce Company matching contributions or pay Plan expenses. The balance of the forfeiture account was approximately \$3,400 and \$1,300 at December 31, 2023 and 2022, respectively. During 2023, \$3,337 of forfeitures were used to reduce Company contributions.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America.

JARDON AND HOWARD TECHNOLOGIES, INC. RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments in pooled separate accounts are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See additional discussion on fair value measurements at Note 3.

The Plan invests in the Voya Fixed Account, which is considered to be fully benefit-responsive. The primary objective of the fixed account is stability of principal. Voya Retirement Insurance and Annuity Company (Voya) maintains the contributions governed by the contract in a general account that is managed by Voya. Voya may impose restrictions on the ability to move Plan assets into or out of this investment option or among investment options in general under the contract.

The contract meets the fully benefit-responsive contract criteria and, therefore, is reported at contract value. Contract value is the relevant measurement attribute for that portion of net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Voya, represents contributions made to the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events may limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (i) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (ii) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions, or (iii) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. Plan management believes that the occurrence of events that would cause the Plan to transact at less than contract value with the participant is not probable.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received primarily through payroll deductions and the notes are collateralized by the participants' account balances. Delinquent notes receivable from participants are recorded as distributions based on terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

**JARDON AND HOWARD TECHNOLOGIES, INC. RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS**

Administrative Expenses

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the Plan document. Expenses paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan are included in administrative expenses and certain investment-related expenses are included in net appreciation in fair value of investments in the accompanying statement of changes in net assets available for benefits. Transaction fees for loan issuances and distributions are charged directly to the accounts of the participants who incur those fees. Any costs associated with the investment of a participant's account are charged to that participant.

Subsequent Events

The Plan has evaluated events and transactions occurring subsequent to December 31, 2023, as of February 4, 2025, which is the date the financial statements were available to be issued. No material events have occurred since December 31, 2023, that require recognition or disclosure in the financial statements except as discussed below.

In February 2024, the Plan Sponsor elected to terminate the Plan effective February 15, 2024, and to distribute the Plan assets as soon as administratively practicable. Participants became 100% vested in their accounts as of the Plan termination date.

Note 3 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1—Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2—Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3—Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

JARDON AND HOWARD TECHNOLOGIES, INC. RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS

The following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2023 and 2022.

Pooled Separate Accounts (PSAs): Invest directly in designated actively traded mutual funds which are valued daily at their net asset values (NAV). The Plan holds units of participation in the PSAs, which are valued daily at their accumulation unit value. Accumulation unit value is determined based on the NAV of the shares of the underlying mutual funds, the funds' dividends, and the contract's separate account charges. There are no redemption restrictions or unfunded commitments on these investments. The underlying mutual funds include: (i) bond funds, which invest primarily in securities issued by the U.S. Treasury and certain U.S. Government agencies that provide fixed income with the goal of income growth; (ii) asset allocation funds, which invest in a combination of assets, such as aggressive stocks, international stocks, large-company stocks, government bonds, foreign bonds or money markets and seek to provide capital appreciation and income consistent with asset allocation; (iii) balanced funds which seek to balance growth of principal and current income by investing in a combination of stocks and bonds; (iv) equity funds, which invest in common stocks and consist of various investment options for various levels of risk tolerance; and (v) stability of principal funds, which invest in conservative investment options that seek to hold the principal value of the investment stable through all market conditions.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2023 and 2022:

The following is a summary of the Plan's financial information and data included in the Plan's financial statements and supplemental schedule of assets (held at end of year), which was certified by Voya as of December 31, 2023 and 2022, and for the year ended December 31, 2023, as complete and accurate, as permitted by 29 CFR 2520.103 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The Plan's independent accountants did not perform auditing procedures with respect to the information certified by Voya, except for comparing such information to the related information included in the financial statements and supplemental schedule of assets (held at end of year).

Note 5 - Plan Termination

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, participants will become fully vested in their account balances.

Note 6 - Tax Status

The Plan adopted a non-standardized defined contribution pre-approved Plan, which received a favorable opinion letter from the IRS dated June 30, 2020, in which the IRS stated that the pre-approved plan, as designed, was in compliance with applicable requirements of the IRC. The Plan has been amended since receiving the opinion letter; however, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, and the related trust is tax exempt. Accordingly, no provision for taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2023, there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7 - Related Party and Party-In-Interest Transactions

All Plan investments are held and managed by Voya as of December 31, 2023 and 2022. These transactions qualify as party-in-interest transactions. Administrative fees paid to Voya totaled \$1,761 for the year ended December 31, 2023. Notes receivable from participants also qualify as exempt party-in-interest transactions.

Note 8 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, changes in the values of investment securities could occur in the near-term, and such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

Note 10 - Non-Exempt Transactions

During the 2020 through 2023 Plan years, the Company did not remit certain employee deferrals and loan payments within the appropriate time period prescribed by the Department of Labor. These transactions constitute prohibited transactions as defined by ERISA. The Company has corrected the late remittances for the 2020 through 2022 Plan years and is in the process of taking the appropriate steps to correct the 2023 late remittances.

We have audited the financial statements of Jardon and Howard Technologies, Inc. Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit] for the year ended December 31, 2023, and we have issued our report thereon dated February 4, 2025. As permitted by ERISA Section 103(a)(3)(C), our audit did not extend to any statements or information related to assets held for investment of the Plan (investment information) by Voya Retirement and Annuity Company (Voya), which is a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, that prepared and certified the statements or information regarding assets so held in accordance with 29 CFR 2520.103-5. Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements and ERISA-required supplemental schedules, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of generally accepted accounting principles. Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with generally accepted accounting principles. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated June 4, 2024. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Plan are described in Note 2 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2023.

We noted no transactions entered into by the Plan during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance

to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The methods and significant assumptions used to estimate fair values of financial instruments, including non-readily marketable securities, are as follows: Pooled Separate Accounts (PSAs), which invest directly in designated actively traded mutual funds are valued daily at their net asset values (NAV). The Plan holds units of participation in the PSAs which are valued daily at their accumulation unit value. Accumulation unit value is determined based on the NAV of the shares of the underlying mutual funds, the funds' dividends and the contract's separate account charges. We performed an ERISA Section 103(a)(3)(C) audit, accordingly, we did not evaluate the key factors and assumptions used to develop the estimate of the value of the PSAs, which was certified as complete and accurate by Voya.

The financial statement disclosures are neutral, consistent, and clear.

Form 5500 Procedures

We are required to obtain and read a substantially complete draft of Form 5500 prior to dating our auditor's report. The purpose of this procedure is to identify any material inconsistencies between the draft Form 5500 and the Plan's financial statements. We identified no material inconsistencies in performing and completing our audit.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. There were no uncorrected misstatements, other than those that are clearly trivial, identified during the audit.

The following misstatements detected as a result of audit procedures were corrected by management:

#	Account Description	Debit	Credit
1	Employer Contributions Receivable	\$ 38,845	
	Employer QNEC Receivable	\$ 9,950	
	Employer Contributions		\$ 38,845
	Employer QNEC Contributions		\$ 9,950

Reportable Findings

For purposes of this letter, a reportable finding is a matter that includes one or more of the following: (1) non-compliance or suspected non-compliance with laws and regulations, (2) a finding that in our professional judgment is significant and relevant to you regarding your responsibility to oversee the financial reporting process, and (3) an indication of internal control deficiencies identified during the audit that have not been previously communicated to management by other parties and that we determined are sufficiently important to merit management's attention. Please refer to our separately issued letter on deficiencies in internal control and reportable findings for a discussion of reportable findings identified for the Plan year ended December 31, 2023.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated February 4, 2025.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Plan's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Plan's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

There were no significant changes to the planned audit strategy or significant risks initially identified and previously communicated to those charged with governance as part of our audit planning communications.

There were no matters noted relevant to the audit, including, but not limited to: violations or possible violations of laws or regulations; risk of material misstatements, including fraud risks; or tips or complaints regarding the Plan's financial reporting that we were made aware of as a result of our inquiry of those charged with governance.

During the 2020 through 2023 Plan years, the Company did not remit certain employee deferrals and loan payments within the appropriate time period prescribed by the Department of Labor. These transactions constitute prohibited transactions as defined by ERISA. The Company has corrected the late remittances for the 2020 through 2022 Plan years and is in the process of taking the appropriate steps to correct the 2023 late remittances.

Plan Management and Those Charged with Governance

We have evaluated whether the identified related-party relationships and transactions have been appropriately identified, accounted for and disclosed, and whether the effects of the related-party relationships and transactions, based on the audit evidence obtained, prevent the financial statements from achieving fair presentation.

Other Matters

Our responsibility for the ERISA-required supplemental schedules accompanying the financial statements is to perform adequate procedures to evaluate whether the form and content of the ERISA-required supplemental schedules, other than that agreed to or derived from the certified investment information, are presented in compliance with the DOL's Rules and Regulations for Reporting and disclosure under ERISA, and whether the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

This information is intended solely for the use of Plan management and those charged with governance of the Plan and is not intended to be, and should not be, used by anyone other than these specified parties.
