Independent Auditors' Report

**To the Plan Administrators
Accurate Electric Construction, Inc.
Employee Stock Ownership Plan
Reynoldsburg, Ohio**

Opinion on 2023 Financial Statements

We have audited the financial statements of Accurate Electric Employee Stock Ownership Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2023, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2023, and the changes in its net assets available for benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion on 2023 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the 2023 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the 2023 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the 2023 Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2023, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Other Matter - Auditors' Report on the 2022 Financial Statements

The 2022 financial statements of the Plan were audited by predecessor auditors whose report dated October 10, 2023, expressed an unmodified opinion on those financial statements.

ACCURATE ELECTRIC EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2023

NOTE 1 - PLAN DESCRIPTION

The following description of the Accurate Electric Employee Stock Ownership Plan (the “Plan”) provides only general information. Plan participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan covering eligible employees of Accurate Electric Construction, Inc. (the “Company”). The Plan includes a tax exempt employee stock ownership plan (ESOP component) and a tax exempt 401(k) plan (non-ESOP component) under the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA) and sections 401(a) and 401(k) of the Internal Revenue Code of 1986, as amended (IRC). The Plan is administered by an officer of the Company and two other individuals, appointed by the Company’s Board of Directors. The trustee of the Plan is another officer of the Company, appointed by the Company’s Board of Directors. The Standard Insurance Company (Standard) is the Custodian for the non-ESOP portion of the Plan’s assets and executes all non-ESOP transactions under the direction of the Plan’s trustee. The Company is the asset custodian and executes all of the Plan’s transactions under the direction of the trustee for the ESOP related assets. The records of the Plan are maintained by a third-party administrator.

Eligibility

A non-leased employee of the Company becomes eligible as a participant in the Plan upon reaching age 21 and one year of service. Participants commence on the entry date, which is the earlier of the first day of the first month or the first day of the seventh month coincident with or next following attainment of entry eligibility during a Plan year. As to prevailing wage provisions of the Plan, entry shall be upon the employment commencement date.

Contributions

The Plan provides for ESOP contributions by the Company. The Company’s discretionary contributions are made to the trust fund annually by the Company sufficient to cover any stock obligations and any other liabilities of the Plan as due. At the discretion of the Company’s Board of Directors, additional annual contributions may be made which are subject to certain limitations. The annual contribution may be made in the form of a contribution of cash or the Company’s common stock. The Company made ESOP contributions of \$50,000 during the year ended December 31, 2023.

Each year, participants may contribute pre or after-tax contributions up to 100% of their annual eligible compensation as defined by the Plan. Participants may also contribute rollovers from other qualified plans. Participants who have attained age 50 prior to the end of the Plan year are eligible to make catch-up contributions.

The Company, at its sole discretion, may make matching contributions for a plan year as a match, in whole or in part, to the elective deferrals made by participants for such plan year. Participants are not permitted to make elective deferrals in the ESOP portion of the Plan. Matching contributions may be in the form of Company stock. There were no matching contributions made during the year ended December 31, 2023.

NOTE 1 - PLAN DESCRIPTION (CONTINUED)

Contributions (Continued)

The Company shall contribute as a prevailing wage contribution an amount equal to the product of (a) a specified amount or rate per hour of service, and (b) the hours of service for a covered participant during the payroll period. Both (a) and (b) shall be determined under and as required by (c) the Davis-Bacon Act, as amended, 40 U.S.C §276a(b) as determined by the Secretary of Labor, and/or (d) any applicable similar federal, municipal or state prevailing wage statute as determined by the appropriate government official or agency, but only insofar as the above laws and regulations apply to amounts contributed as bona fide fringe benefits to a plan, fund or program to provide for the pension, retirement or death of a Participant covered by the prevailing wage provision of the Plan Document. If a participant is eligible to receive both a prevailing wage contribution and a Company discretionary contribution, the discretionary contribution will be reduced by the prevailing wage contribution for the applicable period or plan year. Prevailing wage contributions may be in the form of Company stock. Prevailing wage contributions were \$0 during the year ended December 31, 2023.

Forfeitures

Forfeited balances from terminated participants' nonvested accounts are re-allocated annually to the **remaining** Plan participants in the ratio of each participant's eligible points to total eligible points of all participants. For the year ended December 31, 2023, there were ESOP forfeitures of 41.5229 shares and \$452 which were re-allocated to Plan participants. Unallocated forfeitures totaled \$0 for each of the years December 31, 2023 and 2022.

Participant Accounts

Each participant's account is credited with the participant's and Company's contributions, Plan earnings and charged with an allocation of administrative expenses. Company contributions and forfeitures are allocated based on participants' eligible points or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct their deferrals, rollovers and matching contributions into various investment options offered by the Plan.

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the trustee prior to the time that such rights are to be exercised. The trustee may vote as directed by the Plan committee if no direction is received from the participant. The trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

Investment Options

Each participant may direct their contributions and the Company's discretionary matching and safe-harbor contributions to any of the investment options available under the Plan, except for the Company's common stock.

Plan Termination

Although they have not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their account balances.

ACCURATE ELECTRIC EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2023

NOTE 1 - PLAN DESCRIPTION (CONTINUED)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's portion of their accounts, plus actual earnings, is based on years of continuous service. A participant is 100% vested after five years of credited service. Participants who have less than five years of eligible service and are terminated due to death, disability, or retirement at age 65 or over are 100% vested. Prevailing wage contributions are immediately 100% vested.

Participant Notes Receivable

On September 15, 2006, the Plan was amended to disallow loans. Prior to that date, participants could borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. Loan terms ranged from one to five years or up to fifteen years for the purchase of a primary residence. The loans are collateralized by the participant's vested account and bear interest at a reasonable rate for loans of a similar nature made from financial institutions. Principal and interest is paid ratably through payroll deductions. Should the participant terminate, the balance of the outstanding loan becomes due and payable, and the participant's vested account will be used to repay the loan. A participant may have no more than one loan outstanding at any time. Participant loans are valued at their unpaid principal balance plus accrued but unpaid interest.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a 6-year period. In each of the first 5 years, a participant may diversify up to 25% of their shares allocated to his or her account, less any shares previously diversified. In the 6th year, the percentage changes to 50%.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Payment of Benefits

Payment will either be paid as a single lump sum or installments over a period of time up to five years. A single lump sum will be paid to a terminated participant if their account balance is \$5,000 or less on the date of distribution. If the vested balance of the participant's account is greater than \$5,000 on the date of distribution, the account will be distributed in five annual installments. Distributions due to conflict of interest or death will be paid in a single lump sum.

All distributions are subject to the applicable provisions of the Plan document. Benefit payments are recorded when paid.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Plan's financial statements are prepared on the accrual method of accounting.

Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates. The fair value of Accurate Electric Construction, Inc. common stock is particularly subject to change in the near term.

Contributions

Contributions from Plan participants and the matching contributions from the Employer are recorded in the year in which the employee contributions are withheld from compensation.

Investments Valuations and Income Recognition

The Plan's investments are stated at fair value. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Fair Value Measurements

ASC 820 defines fair value, establishes a framework for measuring fair value and enhances disclosures about fair value measurements. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (or exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. Observable inputs are inputs that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Plan.

Unobservable inputs are inputs that reflect the Plan's assumptions about the inputs that market participants would use in pricing the asset or liability and are developed based on the best information available in the circumstances.

ACCURATE ELECTRIC EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2023

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair Value Measurements (Continued)

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Management Evaluation of Subsequent Events

The Plan has evaluated subsequent events through February 5, 2025, the date on which the financial statements were available to be issued.

NOTE 3 - NONPARTICIPANT-DIRECTED INVESTMENTS

The significant components of the changes in net assets relating to the nonparticipant-directed investments for the year ended December 31, 2023, are as follows:

Changes in net assets:

Contributions	\$ 50,000
Investment income	622
Net depreciation in investment value	(35,460)
Distributions	(254,964)
Administrative expenses	<u>(16)</u>
Net Decrease	<u><u>\$ (239,818)</u></u>

NOTE 4 - PARTY-IN-INTEREST TRANSACTIONS

Certain Plan assets are investments sponsored by Standard. Other assets are invested in the stock of Accurate Electric Construction, Inc., the Plan sponsor. Transactions in these investments qualify as exempt party-in-interest transactions.

The Company provides certain accounting, administrative and investment management services to the Plan for which it receives no compensation.

ACCURATE ELECTRIC EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2023

NOTE 5 - TAX STATUS

The Plan has adopted a non-standardized form of a prototype plan sponsored by Standard. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and has no income subject to unrelated business income tax. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Authoritative accounting standards require the Plan to examine its tax positions for uncertain positions. Management is not aware of any tax positions that are more likely than not to change in the next 12 months or that would not sustain an examination by applicable taxing authorities.

The Plan's policy is to recognize penalties and interest as incurred in its statement of changes in net assets available for benefits.

NOTE 6 - PLAN EXPENSES

Administrative expenses paid from the Plan represent recordkeeping and administrative fees which amounted to \$7,732 for the year ended December 31, 2023.

NOTE 7 - FAIR VALUE MEASUREMENTS

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following are a descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in valuation methodologies at December 31, 2023, compared to December 31, 2022. The Company's policy is to recognize transfers between levels at the end of each reporting period, if applicable. There were no transfers in or out of Level 3 assets or liabilities during the year ended December 31, 2023.

Accurate Electric Construction, Inc. common stock: Valued at fair value as determined by a third-party independent appraiser, which has been reviewed and approved by the Plan trustee and management.

Money market fund: Valued at the net asset value of shares held by the Plan at year-end.

Registered investment companies: Valued at the daily closing price as reported by the underlying fund, which is traded on a national exchange.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 8 - GROUP ANNUITY CONTRACT

The Plan has a fully benefit-responsive guaranteed investment contract with The Standard Insurance Company ("The Standard"). The Standard maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer. The crediting interest rate is reviewed on a quarterly basis for resetting. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if there were to initiate permitted transactions under the Plan. Contract value, as reported to the Plan by The Standard, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendment to the Plan document (including complete or partial termination or merger with another plan.), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that would limit the ability of the Plan to transact at contract value with the participants.

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.
