We have performed an audits of the accompanying financial statements of Nasdaq Pension Plan, an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits in liquidation as of April 30, 2024 and December 31, 2023, and the related statement of changes in net assets available for benefits in liquidation for the period January 1, 2024 through April 30, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Nasdaq Pension Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended April 30, 2024 and December 31, 2023, and for the period ended January 1, 2024 through April 30, 2024 stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion on the Financial Statements

In our opinion, based on our audits and on the procedures performed as described in the "Auditor's Responsibilities for the Audits of the Financial Statements" section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the Financial Statements

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the “Auditor’s Responsibilities for the Audit of the Financial Statements” section of our report. We are required to be independent of Nasdaq Pension Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter – Plan Termination and Liquidation Basis of Accounting

As discussed in Note 1 to the financial statements, the plan sponsor of Nasdaq Pension Plan elected to terminate the Plan, and management determined liquidation is imminent as of April 30, 2024. As a result, the Plan has used the liquidation basis of accounting in presenting the April 30, 2024 and December 31, 2023 financial statements. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management’s election of the ERISA Section 103(a)(3)(C) audit does not affect management’s responsibility for the financial statements.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan’s transactions that are presented and disclosed in the financial statements are in conformity with the plan’s provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor’s Responsibilities for the Audit of the Financial Statements

Except as described in the “Scope and Nature of the ERISA Section 103(a)(3)(C) Audit” section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Nasdaq Pension Plan’s internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Notes to Financial Statements April 30, 2024 and December 31, 2023

1. Description of Plan

The following description of Nasdaq Pension Plan (the "Plan") provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan was established to provide benefits to eligible employees of NASDAQ, Inc. (the "Exchange") and its subsidiaries. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* ("ERISA"), as amended. All investments of the Plan as of April 30, 2024, are held by Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company ("Principal").

Plan Freeze/Plan Amendments

As of July 1, 2006, the Plan was frozen for new employees hired after June 30, 2006. Employees hired after this date were not eligible to participate in the Plan.

In an amendment to the Plan effective on May 1, 2007, the Plan was frozen for all employees. Future service and salary for all participants is no longer counted toward an accrual of benefits under the Plan, after April 30, 2007. However, participants will continue to receive credit for future service for vesting their Plan benefits and for eligibility for an existing retirement subsidy under the Plan. All other features of the Plan remained unchanged.

Plan Termination

The Board has authorized the termination of the Plan effective June 30, 2023. Upon termination all participants will become fully vested in their accounts. Any participant, beneficiary, or alternate payee under a qualified domestic relations order who is receiving monthly payments from the plan as of the distribution date, shall have a nontransferable annuity contract purchased on their behalf as soon as administratively practicable. Any participant, beneficiary, or alternate payee under a qualified relations order who is not receiving monthly payments from the Plan as of the distribution date, and whose sum amount does not exceed \$5,000 as of the distribution date shall receive a lump sum distribution.

Effective February 12, 2024, the Company entered into a single premium group annuity contract with Principal Life Insurance Company ("Principal") to purchase 565 annuities for a total premium amount of \$56,997,351 for retirees of the Plan.

Payment of Benefits

The Plan is a noncontributory defined benefit plan. Employees were generally eligible after the completion of one year of service. Accrued benefits are based on average earnings using base pay subject to Internal Revenue Service ("IRS") limits as well as years of service. Average earnings are generally the average of base pay from the period beginning January 1, 2004, through the date of determination, but not less than 60 months. The basic formula is 1.25% of average earnings plus .5267% of average earnings in excess of covered compensation for each year of service.

Benefits are available for eligible participants at normal retirement (age 65 with 5 years of participation), early retirement (age 55 with 10 years of service), and disability or death at any age. Employees with 5 years of service are fully vested in their accrued benefit. Early retirement benefits are reduced 3% for each year prior to age 62 to reflect early payment. However, the early retirement reduction is less than the true actuarial equivalent. Employees can choose to have their benefits paid in either one of several different annuity options (including joint and survivor, period certain, and life or fixed installment) or a lump sum. Death benefits are equal to 100% of the present value of the employee's accrued benefit as of the date of death.

2. Summary of Significant Accounting Policies

Basis of Accounting

The Exchange approved the termination of the Plan effective June 30, 2023. As a result, the Plan has changed its basis of accounting as of the date the termination was approved.

Investment Valuation and Income Recognition

Plan investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by the investment advisors and custodian. See Note 8 for discussion of fair value measurements.

Realized gains and losses on investments sold and the unrealized appreciation and depreciation of investments held are reported on an average current cost basis, based on fair market value of the investments at the beginning of the Plan year or at the time of purchase during the Plan year.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

Administrative Expenses

The Exchange pays certain professional fees related to the plan; therefore, such expenses are not included in the accompanying financial statements. The Plan pays certain administrative expenses which are charged to the Plan.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Fair Value

Accounting standards provide a common definition of fair value and establish a framework to make the measurement of fair value in generally accepted accounting principles more consistent and comparable. Accounting standards also require expanded disclosures to provide information about the extent to which fair value is used to measure certain financial and non-financial assets and liabilities, the methods and assumptions used to measure fair value, and the effect of fair value measurements on earnings. The Plan's financial assets reflected in the financial statements at fair value include its investments (see Note 8).

Subsequent Events

The Plan has evaluated subsequent events through February 14, 2025, which is the date the financial statements were available to be issued. All subsequent events requiring recognition or disclosure have been incorporated in these financial statements.

3. Investment Information Certified by the Plan's Trustee

The Plan Administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal, a qualified institution, has certified the following investment information included in the accompanying financial statements and ERISA-required supplemental schedule(s) is complete and accurate:

- Investments as shown in the statements of net assets available for benefits as of April 30, 2024 and December 31, 2023
- Investment income as shown in the statement of changes in net assets available for benefits for the period ended April 30, 2024 and year ended December 31, 2023

Nasdaq Pension Plan

The Plan's independent auditors did not perform auditing procedures with respect to this certified information, except for comparing such certified investment information to the related investment information included in the financial statements and ERISA-required supplemental schedule.

4. Tax Status

The IRS has determined and informed the Company by a letter dated July 8, 2013, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended and restated since the IRS made its determination, to reflect recently revised Internal Revenue Service regulations. Although the Plan has been restated since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC, and therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

The Financial Accounting Standards Board has issued a standard regarding the accounting and recognition of income tax positions taken or expected to be taken by the Plan. The plan administrator assesses the tax positions taken by the Plan and has concluded that as of April 30, 2024, there are no uncertain tax positions taken or expected to be taken that would require recognition or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2021.

5. Related Party Transactions and Party-in-Interest Transactions

Beginning January 21, 2020, certain Plan investments are units of pooled separate accounts managed by Principal. Principal is the trustee, as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions which are exempt from the prohibited transaction rules.

6. Risks and Uncertainties

Prior to the final liquidation and termination of the plan, contributions to the Plan and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee compensation, and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. The Plan invests in various investment securities. These securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with the investments, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

7. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future payments that are attributable, under the Plan's provisions, to the service employees have rendered as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Generally, benefits for retired or terminated employees or their beneficiaries are based on employees' compensation in the 60 consecutive-month period of credited service when such compensation was the highest. The accumulated plan benefits for active employees are based on their average compensation during the 60 consecutive-month period preceding the valuation date. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included to the extent they are deemed attributable to employee service rendered to the valuation date. The effect of Plan amendments on accumulated plan benefits is recognized during the year in which such amendments become effective.

Nasdaq Pension Plan

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal, or retirement), between the valuation date and the expected date of payment.

The Plan's actuary calculated the actuarial present value of accumulated plan benefits as of January 1, 2023. These actuarial valuations as of January 1, 2023 are not materially different than what the valuations would be as of April 30, 2024 and December 31, 2023, respectively, and have therefore been used to disclose the accumulated plan benefits as of December 31, 2023.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue since the plan was not yet amended to terminate as of January 1, 2023. Upon amendment, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2023, and does not reflect the subsequent purchase of group annuity contracts for participants of the Plan (see Note 1 for purchase of group annuity contract).

Significant assumptions underlying the actuarial computation of the actuarial present value of accumulated plan benefits as of January 1, 2023 are as follows:

Actuarial cost method	Standard unit credit cost method
Rate of return on investments	4.00%
Retirement age	Age 65
Mortality	RP-2022 mortality table for employees and healthy annuitants

8. Fair Value Measurements

Accounting standards require that financial and non-financial assets and liabilities, recognized or disclosed in financial statements on a recurring basis (at least annually), be measured at fair value. These standards define fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date.

These standards also establish a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. These standards describe three levels of inputs that may be used to measure fair value:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities that are accessible at the measurement date.

Level 2 – Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities in active markets; quoted prices for similar assets or liabilities in markets that are not active; or model-derived valuations or other inputs that are observable or can be corroborated by observable market data for the assets or liabilities.

Level 3 – Unobservable inputs for the asset or liability. These inputs reflect the Plan's assumptions about the assumptions a market participant would use in pricing the asset or liability.

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 and Level 3 inputs are only used when higher level inputs are not available. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurements.

Nasdaq Pension Plan

The following is a description of the valuation methodologies used for assets measured at fair value.

There have been no changes in the methodologies used.

Pooled separate accounts: Valued based on the published value of the underlying assets adjusted for distributions, reinvested dividends, and expenses. The NAV of the units of the accounts is used as a practical expedient to estimate fair value. This practical expedient would not be used if it was determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily.

Government bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes determining value based on yields currently available on comparable securities with similar durations.

Corporate debt: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes determining value based on yields currently available on comparable securities of issuers with similar credit ratings.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

There were no Plan assets as of April 30, 2024.

The following table summarizes the valuation of the Plan's financial assets at December 31, 2023:

	Level 1	Level 2	Level 3	Total
Governments bonds	\$ 12,250,202	\$ -	\$ -	\$ 12,250,202
Corporate debt	-	14,675,872	-	14,675,872
				26,926,074
Investments measured at NAV practical expedient (a)				28,151,420
Total assets at fair value				\$ 55,077,494

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) as a practical expedient to fair value have not been classified within the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefit.

There were no investments as of April 30, 2024.

The following table summarize the investments measured at NAV practical expedient per share as of December 31, 2023.
