INDEPENDENT AUDITOR'S REPORT

Board of Trustees
Michigan BAC Pension Fund
700 Tower Drive, Suite 300
Troy, MI 48098

Board of Trustees:

Opinion

We have audited the accompanying financial statements of Michigan BAC Pension Fund, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of April 30, 2024 and 2023, and the related statement of changes in net assets available for benefits for the years then ended, the statement of accumulated plan benefits as of April 30, 2023 and 2022, the related statement of changes in accumulated plan benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Michigan BAC Pension Fund as of April 30, 2024 and 2023, and the changes in its net assets available for benefits for the years then ended, and the accumulated plan benefits as of April 30, 2023 and 2022, and changes in its accumulated plan benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Michigan BAC Pension Fund and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Michigan BAC Pension Fund's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Michigan BAC Pension Fund's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Michigan BAC Pension Fund's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

MICHIGAN BAC PENSION FUND
NOTES TO FINANCIAL STATEMENTS

Note A: **Description of the Plan**

The following brief description of the Michigan BAC Pension Fund, as in effect on April 30, 2024, is provided for general purposes only. For more complete information, refer to the Plan documents.

1. General – The Pension Fund was established effective May 1, 1989 as a result of collective bargaining. The Plan is a defined benefit pension plan covering all employees working under collective bargaining agreements which require contributions to the Fund. It is a multi-employer fund subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.
2. Retirement Benefits – Information about the Plan, the vesting and benefit provisions, is contained in the Summary Plan Description. Copies are available at the offices of each participating Local Union or the Fund Office.

Note B: **Summary of Significant Accounting Policies**

1. General – The accounting records of the Plan are maintained on the accrual basis of accounting. Revenue is recognized when earned and expenses are recognized when incurred. Contributions received subsequent to April 30, 2024 attributed to hours worked prior to May 1, 2024 have been reflected as contributions due from employers as of April 30, 2024 in accordance with the consistent policy of the Fund.
2. Estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.
3. Valuation of Investments – Quoted market prices, where available, are used to value investments at fair value. The change in the difference between cost and fair value from the beginning of the year to the end of the year, as well as the realized gains and losses during the year, is reflected as net appreciation (depreciation) in the fair value of investments. Investments with no quoted market value represent estimated fair value.

MICHIGAN BAC PENSION FUND
NOTES TO FINANCIAL STATEMENTS
(Continued)

Note B: **Summary of Significant Accounting Policies (Continued)**

4. Actuarial Present Value of Accumulated Plan Benefits – Accumulated plan benefits are those future periodic payments, including lump sum distributions, that are attributable under the Plan provisions to the service participants have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries, (b) beneficiaries of participants who have died and (c) present participants or their beneficiaries. Benefits under the plan are based on participants' service credit as described in the Summary Plan Description. The accumulated plan benefits for active participants are based on their service credit on the date as of which the benefit information is presented April 30, 2021 and 2020. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to participant service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by an actuary from United Actuarial Services, Inc. and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of April 30, 2023 and 2022 were (a) life expectancy of participants (110% of the PRI-2012 Blue Collar Mortality Tables for male employees and health annuitants and 105% of the PRI-2012 Blue Collar Mortality Tables for female employees and health annuitants. Projected forward using the MP-2021 projection scale was used for 2023 and 105% of the PRI-2012 Blue Collar Mortality Tables for male employees and health annuitants and 100% of the PRI-2012 Blue Collar Mortality Tables for female employees and health annuitants. Projected forward using the MP-2021 projection scale was used for 2022), (b) retirement age (based upon certain retirement probabilities) and (c) investment return. The 2023 and 2022 valuations included the assumed average rate of return of 7.5%. The administrative expenses associated with providing benefits for the 2023 and 2022 valuations were assumed at \$510,000 and \$475,000, respectively. The foregoing actuarial assumptions are based on the presumption that the plan will continue. Were the plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Note C: **Funding Policy**

The Plan is funded entirely by employer contributions as specified in the collection bargaining agreements. Contributions for the years ended April 30, 2024 and 2023 exceeded the minimum funding requirements of ERISA.

Note D: **Fair Value Measurements**

FASB Accounting Standards Codification (ASC) 820 Fair Value Measurements and Disclosures provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement. These level 3 fair value measurements are based primarily on management's own estimates, using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the assets. Significant level 3 inputs include information provided by fund managers, third-party appraisals, year-end audited financial statements, projected discounted cash flows, and net asset value with adjustments related to certain restrictions. Management assesses the valuation of these investments through the engagement of a third-party investment advisor and periodic meetings to review these investments.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Fund's assessment of the significance of particular inputs to these fair value measurements requires judgement and considers factors specific to each asset.

MICHIGAN BAC PENSION FUND
NOTES TO FINANCIAL STATEMENTS
(Continued)

Note D: **Fair Value Measurements (Continued)**

The following valuation methodologies have been used to value the Fund's investments:

Exchange traded notes – Exchange traded notes are types of unsecured debt securities that track an underlying index of securities and traded on active markets.

Common stocks – Common stocks, which are primarily comprised of U.S. common stocks, are valued at closing quoted prices reported in active markets.

Mutual funds – Mutual funds are valued at closing quoted prices reported in active markets.

Common collective trust funds and 103-12 investment entity – Common collective trust funds and 103-12 investment entity are valued at net asset value per shares (or its equivalent) of the funds, which is based on the fair value of the Fund's underlying net assets.

Limited partnerships – Limited partnerships are valued based on the Fund's percentage ownership of the net assets of each entity or at net asset value per share (or its equivalent) based on audited investee financial statements, with adjustments to account for partnership activity and other applicable valuation adjustments, where applicable.

Hedge fund of funds - Hedge fund of funds is valued at net asset value per share (or its equivalent) of the Hedge fund which is based on the fair value of the Hedge fund's underlying net assets.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Fund believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to estimate fair value could result in a different fair value measurement at the reporting date.

Note F: **Limited Partnerships**

The Plan's investments include ownership interests in limited partnerships as follows:

American Core Realty Fund, L.P.

The Plan has invested in this limited partnership and holds an ownership interest proportionate to the ratio of its capital contribution to total capital contributed by all partners.

The limited partnership's purpose is to invest in core stable institutional quality office, retail, industrial and multi-family residential properties that are substantially leased and have minimally deferred maintenance or functional obsolescence.

The methodology by which gains and losses, net of expenses of the limited liability partnership are to be allocated in proportion to the members' capital accounts.

Tri-Con XI, B.L.P.

The Plan has invested in this limited partnership and holds an ownership interest proportionate to the ratio of its capital contribution to total capital contributed by all partners.

The limited partnership is a distressed residential real estate fund that primarily invests in land development, home building, condominium development and to a lesser extent, the multi-family, rental apartment, and retail sectors.

The methodology by which gains and losses, net of expenses of the limited liability company are to be allocated in proportion to the members' capital accounts.

Adam Street Partners 2014 Global Fund, L.P.

The Plan has invested in this limited partnership and holds an ownership interest proportionate to the ratio of its capital contribution to total capital contributed by all partners.

The limited partnership invests in private markets, limited partnerships, or similar pooled investments vehicles and privately held portfolio companies.

The limited partnership was formed to acquire global equity and alternative assets through a full range of negotiated secondary market transactions including portfolio acquisitions, balance sheet spinouts, equity co-investments, hedge fund private equity purchases, and fund recapitalizations. It also has the ability to invest in new private investment funds.

The methodology by which gains and losses, net of expenses of the limited liability company are to be allocated in proportion to the members' capital accounts.

The limited partnerships provide liquidity solutions to private marker LPs and GPs

The methodology by which gains and losses, net of expenses of the limited liability partnership are to be allocated in proportion to the members' capital accounts.

Note G: **Tax Status**

The trust established under the Plan to hold the Plan's assets is qualified and exempt from income taxes pursuant to Sections 401(a) and 501(a) respectively, of the Internal Revenue Code. The Plan has obtained a favorable tax determination letter from the Internal Revenue Service and the Plan sponsor believes the Plan, as amended, continues to qualify and to operate as designed.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Fund and recognize a tax liability (or asset) if the Fund has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authorities. The Fund is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

MICHIGAN BAC PENSION FUND
NOTES TO FINANCIAL STATEMENTS
(Continued)

Note H: **Plan Termination**

In the event the Plan terminates, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan is terminated. Generally, PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivors' pension benefits. However, PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations.

Whether all participants receive their benefits should the Plan terminate at some time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the Pension Benefit Guaranty Corporation.

Note I: **Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would-be material to the financial statements.

In addition to investments and cash equivalents, financial instruments which potentially subject the Plan to concentrations of credit risk consist principally of cash. The Plan places its cash with tier I financial institutions. At times, the amount of cash on deposit in banks may be in excess of the respective financial institution's FDIC insurance limit.

Note J: **Employer Withdrawal Liability**

The Fund complies with provisions of the Multi-Employer Pension Plan Amendments Act of 1980 that require imposition of "Withdrawal Liability" on a contributing employer that partially or totally withdraws from the Fund. The Fund uses the presumptive method, as described in ERISA 4211 (b), to allocate unfunded vested benefits to employers that withdraw. This is the method by statute for use by construction industry plans.

(Continued)**

Note K: **Reportable Transactions**

The United States Department of Labor requires all transactions in excess of 5% of the current value of the Plan's net assets for non-participant-directed investments to be disclosed separately in the financial statements as a reportable transaction.

Note L: **Party-in-Interest Transactions**

Plan investments are held at several companies in their capacities as custodians. The transactions of both the custodian and the sweep account qualify as party-in-interest transactions.

Fees paid during the year for legal, auditing, investment advisors, and other professional services rendered by parties-in-interest were based on customary and reasonable rates for such services.

Note M: **Derivative Financial Instruments**

The Board of Trustees has established an investment policy which permits the use of derivative instruments by investment managers. The investment policy identifies the permissible use of derivative instruments; and also, expressly identifies those types of derivatives to be avoided. The Fund has entered into contractual arrangements classified as derivatives in carrying out its investment strategy, principally to hedge a portion of the Fund's portfolio to limit or minimize exposure to certain risks.

Note N: **Subsequent Events**

The date to which events occurring after April 30, 2024, the date of the most recent Statement of Net Assets Available for Benefits, have been evaluated for possible adjustment to the financial statements or disclosures is January 29, 2025, which is the date on which the financial statements were available to be issued.

**INDEPENDENT AUDITOR'S
REPORT ON SUPPLEMENTAL INFORMATION**

Board of Trustees
Michigan BAC Pension Fund
700 Tower Drive, Suite 300
Troy, MI 48098

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets held for investments and the schedule of reportable transactions for the year ended April 30, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

PLAN HISTORY

Employer Contributions

The Pension Plan is financed entirely by contributions from the employers as specified in the Collective Bargaining Agreement. Following is a listing of hourly pension contribution rates as of August 1, 2023 (most rates go into effect on August 1st). Tier A contributions are 55% credited at the 1% accrual rate. Tier B contributions are 100% credited at the 2% accrual rate and represent contribution rate increases in excess of those required by past Funding Improvement Plans.

ACTUARIAL ASSUMPTIONS

The following assumptions are used throughout this report except as specifically noted herein.

Valuation date	May 1, 2023
Interest rates	
<i>ERISA rate of return used to value liabilities</i>	7.50% per year net of investment expenses
<i>Unfunded vested benefits</i>	7.50% per year net of investment expenses.
<i>Current liability</i>	2.32% (in accordance with Section 431(c)(6) of the Internal Revenue Code)
Operational expenses	
<i>Funding</i>	\$510,000 in the 2023-24 plan year excluding investment expenses, increasing 2.50% each year.
<i>ASC 960</i>	A 4.25% load was applied to the accrued liabilities for 2023 (4.25% for 2022).
Mortality	
<i>Assumed plan mortality</i>	110% of the PRI-2012 Blue Collar Mortality Tables for male employees and healthy annuitants and 105% of the PRI-2012 Blue Collar Mortality Tables for female employees and healthy annuitants. Projected forward using the MP-2021 projection scale.
<i>Current liability</i>	Separate annuitant and non-annuitant rates based on the RP-2000 Mortality Tables Report developed for males and females as prescribed by Section 431(c)(6) of the Internal Revenue Code.

Based on individual's average rate received for the most recent plan year, limited to the highest negotiated rate in effect for both Tier A and Tier B rates.

ACTUARIAL ASSUMPTIONS (CONT.)

Vesting service and hours adjustment	Expected future hours and vesting service for active participants are multiplied by the weighted probability that represents the possibility that the participant gets either no accrual/service from working less than 300 hours, ½ accrual/service from working 300 to 599 hours, or full accrual/service from working 600 hours or more. The analysis was completed separately for vested and non-vested active participants. The probabilities are as follows: <table><tr><td></td><td><u>Weight</u></td><td><u>Non-Vested</u></td><td><u>Vested</u></td></tr><tr><td>No service/accrual</td><td>0.0</td><td>6.93%</td><td>0.54%</td></tr><tr><td>½ service/accrual</td><td>0.5</td><td>9.37%</td><td>1.20%</td></tr><tr><td>Full service/accrual</td><td>1.0</td><td><u>83.70%</u></td><td><u>98.26%</u></td></tr><tr><td>Weighted probability</td><td></td><td>88.38%</td><td>98.86%</td></tr></table>		<u>Weight</u>	<u>Non-Vested</u>	<u>Vested</u>	No service/accrual	0.0	6.93%	0.54%	½ service/accrual	0.5	9.37%	1.20%	Full service/accrual	1.0	<u>83.70%</u>	<u>98.26%</u>	Weighted probability		88.38%	98.86%

ACTUARIAL ASSUMPTIONS (CONT.)

Benefits not valued

- Disability lump sum benefit for current active members with less than 10 years of service at decrement; immediate reduced early retirement benefit for current active members who become disabled with 5-9 years of service
- Optional pre-retirement death benefits (the surviving spouse benefit is assumed to be the most valuable)
- 24-month pop-up provision

Benefits vested

- No death benefits are vested.
- Disability benefits are considered vested only in relation to corresponding retirement benefit.
- Early retirement subsidies are considered vested when participant reaches age 56 and has 10 years of vesting service.

RATIONALE FOR SELECTION OF ACTUARIAL ASSUMPTIONS

The non-prescribed actuarial assumptions were selected to provide a reasonable long term estimate of developing experience. The assumptions are reviewed annually, including a comparison to actual experience. The following describes our rationale for the selection of each non-prescribed assumption that has a significant effect on the valuation results.

ERISA rate of return used to value liabilities

Future rates of return were modeled based on the Plan's current investment policy asset allocation and composite, long-term capital market assumptions taken from Horizon Actuarial's 2023 survey of investment consultants.

Based on this analysis, we selected a final assumed rate of 7.50%, which we feel is reasonable. This rate may not be appropriate for other purposes such as settlement of liabilities.

Due to the special rules related to withdrawal liability for a construction industry plan and the nature of the building trades industry, we believe the valuation interest rate is also appropriate for withdrawal liability purposes.

Mortality

The PRI-2012 Blue Collar Mortality Tables for employees and healthy annuitants projected forward using the MP-2021 projection scale was chosen as the base table for this population.

The blue collar table was chosen based on the industry of plan participants.

Finally, a 110% multiplier for males and a 105% multiplier for females was applied in order to more closely match projected deaths to actual post-retirement death experience. The period of actual data studied to develop this multiplier was from May 1, 2018 to April 30, 2023 for this plan, blended with a study of deaths for larger plans in similar industries. Based on information from the CDC on COVID-19 deaths through June 7, 2023, this study was adjusted to reflect an ongoing expectation of slightly higher deaths due to COVID-19 by 1) including an increase in deaths due to COVID-19 for the study period prior to March 15, 2020 and 2) excluding the high increase in deaths due to COVID-19 for the study period March 15, 2020 to March 15, 2022.

RATIONALE FOR SELECTION OF ACTUARIAL ASSUMPTIONS (CONT.)

Retirement	Actual rates of retirement by age were last studied for the period May 1, 2015 to April 30, 2020. The assumed future rates of retirement were selected based on the results of this study. No adjustments were deemed necessary at this time.
Withdrawal	Actual rates of withdrawal by age were last studied for the period May 1, 2015 to April 30, 2020. The assumed future rates of withdrawal were selected based on the results of this study. No adjustments were deemed necessary at this time.
Future hours worked	Based on review of recent plan experience.

ACTUARIAL METHODS

Funding method	
<i>ERISA Funding</i>	Traditional unit credit cost method, effective May 1, 2004.
<i>Funding period</i>	Individual entry age normal with costs spread as a level dollar amount over service
Population valued	
<i>Actives</i>	Eligible employees with at least one hour during the preceding plan year.
<i>Inactive vested</i>	Vested participants with no hours during the preceding plan year.
<i>Retirees</i>	Participants and beneficiaries in pay status as of the valuation date.
Asset valuation method	
<i>Actuarial value</i>	Smoothed market value method with phase-in effective May 1, 2021. Each year's gain (or loss) is spread over a period of 5 years. The actuarial value is limited to not less than 80% and not more than 120% of the actual market value of assets in any plan year.
<i>Unfunded vested benefits</i>	For the presumptive method, actuarial value, as described above, is used

Re: 2023 Actuarial Certification Under the Pension Protection Act

Dear Trustees:

The following information is intended to comply with the annual certification requirements of IRC section 432, with respect to the funded status of the Michigan BAC Pension Plan.

Identifying Information

Plan Name: Michigan BAC Pension Plan
EIN/Plan #: 38-2895943/001
Plan year of Certification: year beginning May 1, 2023
Plan Sponsor: Board of Trustees of Michigan BAC Pension Plan
Sponsor Address: 6525 Centurion Drive, Lansing, Michigan, 48917-9275
Sponsor Telephone: (517) 321-7502
Enrolled Actuary Name: Angela L. Jeffries
Enrollment Number: 23-08511
Actuary Address: 11590 N. Meridian St., Suite 610, Carmel, IN 46032
Actuary Telephone: (317) 580-8668

Certification of Plan Status

I certify that the above-named Plan is in the following status(es) as of May 1, 2023 (all that apply are checked):

Safe--Neither Endangered nor Critical Status	<u> X </u>
Safe--Neither Endangered nor Critical Status Due to Special Rule	<u> </u>
Endangered Status	<u> </u>
Seriously Endangered Status	<u> </u>
Projected to be in Critical Status within 5 years	<u> </u>
Critical Status	<u> </u>
Critical and Declining Status	<u> </u>

This certification is based on the following results:

- Projected funded ratio as of May 1, 2023: 87.3%
- Previously emerged from critical status using IRC Section 432(e)(4)(B)(ii)(I) special emergence rule?: No
- First projected deficiency: None projected
- At least 8 years of benefit payments in plan assets?: Yes

Basis for Result

The certification utilizes the assumptions, methods, plan provisions and demographic data as disclosed in the May 1, 2022 actuarial valuation report with the following exceptions:

- Based on the April 30, 2023 unaudited financial statements provided by the plan administrator, the asset return for the 2022-23 plan year is assumed to be 2.03%. We also updated the contributions, benefit payments, and expenses for the 2022-23 plan year based on these financial statements.
- No adjustments were made to the contribution rate assumption.
- Based on information provided by the Trustees regarding projection of future industry activity, the following hours were assumed: 950,000 for the plan year beginning in 2023 and for each plan year thereafter. For the 2022-23 plan year, our projections used actual hours of 964,720.

I am a member of the American Academy of Actuaries and meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained herein. This certification is intended to be in good faith compliance with the necessary disclosures for certification and represents my best estimate of the Plan's funded position. We are available to answer questions regarding this certification.

Sincerely,

Angela L. Jeffries, FCA, EA, MAAA

STATEMENT BY ENROLLED ACTUARY

Schedule MB, line 11 - Justification for Change in Actuarial Assumptions

The assumptions and methods differ from those used the preceding year in the following respects:

- The adjustment factor applied to the PRI-2012 Blue Collar Mortality Table for males was changed from 105% to 110%. The adjustment factor applied to the PRI-2012 Blue Collar Mortality Table for females was changed from 100% to 105%. This change was made to more closely match projected deaths to actual post-retirement death experience.
- We changed the assumed hourly contribution rates to reflect the most recent plan year's individual averages.
- The assumed operational expenses were increased from \$486,875 to \$510,000 for the 2023-24 plan year. The assumed annual increase remains at 2.5%. This reflects our best estimate of future expenses based on recent plan experience and expected inflationary increases.
- The current liability interest rate was changed from 1.90% to 2.32%. The new rate is within established statutory guidelines.

Actuary's Statement of Reliance

In completing this Schedule MB, the enrolled actuary has relied upon the correctness of the financial information presented in the pension fund audit and upon the accuracy and completeness of participant census data provided by the plan administrator.
