Equifax Inc. U.S. Retirement Income Plan**

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the financial statements of Equifax Inc. U.S. Retirement Income Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, the related statements of changes in net assets available for benefits for the years then ended and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2023 and 2022, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America ("GAAP").
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued (or within one year after the date that the financial statements are available to be issued when applicable).

Management is also responsible for maintaining a current plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules, Schedule of Assets (Held at End of Year), Schedule of Assets Acquired and Disposed within the Year, and Schedule of Reportable Transactions as of and for the year ended December 31, 2023, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTE 1 – PLAN DESCRIPTION

The following brief description of the Plan is provided for informational purposes only. Participants should refer to the Plan document for more complete information.

General

The Equifax Inc. Pension Plan (“EIPP”) was a noncontributory defined benefit plan which covered substantially all salaried U.S. employees of Equifax Inc. and participating subsidiaries (the “Company”) who were 21 years of age, had one year of credited service, and were employed on the next following entry date, as defined by the EIPP plan document. The Equifax Inc. U.S. Retirement Income Plan (“USRIP”) is a noncontributory defined benefit plan which covers any participant with a vested benefit who terminated service with the Company prior to January 1, 2005. The Group Plans Administrative Committee approved the merger of the EIPP with and into the USRIP (“Merger”), effective as of the last instant of the day on December 31, 2009 (“Effective Time”). All of the assets, liabilities and participants of the EIPP were transferred to the USRIP as of the Effective Time. The merged Plan (defined as the “Plan”) is subject to the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended. Effective December 31, 2008, the Plan was frozen as to new entrants and no additional employees were allowed to participate. Benefits of existing participants were frozen in three separate instances, with the final freeze of remaining benefits occurring effective December 31, 2014. Effective December 1, 2023, the Plan was amended and restated to include the 2023 Special Early Payout Program which offered a 2023 Lump Sum Window Eligible Participant a limited one-time opportunity to make an election to receive an accrued benefit in the form of a single lump sum payment or immediate annuity.

Pension Benefits

The Plan provides for monthly retirement benefits based on attained age, years of credited service (subject to a maximum), and average earnings, as defined by the Plan. The Plan also contains options relative to early retirement and provisions related to benefits payable upon disability or death of participants.

Participants are 100% vested upon completion of five years of vesting service or if participant attains the normal retirement age, dies, or becomes disabled while still in service as an employee of the Company.

The normal form of benefit for a married participant is a fifty percent (50%) joint and survivor annuity. The normal form of benefit for an unmarried participant is a life annuity. Other options are available with the consent of the participant’s spouse, if applicable.

Trust Administration

The members of the Group Plans Administrative Committee (the “GPAC”) are responsible for administration of the Plan. U.S. Bank, N.A. is the trustee of the Plan.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2023 AND 2022

NOTE 1 – PLAN DESCRIPTION (Continued)

Funding Policy

Contributions to the Plan are made by the Company based, in part, on the advice of its actuary. Factors considered in determining the contributions include the minimum funding requirements of ERISA, the maximum tax-deductible contribution for the year, the funded status of the Plan, the anticipated cash flow required to provide Plan benefits, and external factors affecting the Company's cash management. The Company did not make contributions to the plan during 2023 or 2022. The minimum funding requirement for the 2023 plan year is \$8,768,558 and was satisfied with funding balance credits. The Plan has met ERISA's minimum funding requirements for 2023 and 2022.

401(h) Account

The Plan includes a medical benefit component (in addition to the normal retirement benefits) to fund a portion of the postretirement obligations for retirees and their beneficiaries in accordance with Section 401(h) of the Internal Revenue Code (the "Code"). A separate liability account has been established in the Plan for the net assets related to the 401(h) component.

The asset balance at December 31, 2023 and 2022 and the respective change in the 401(h) account for the year ended December 31, 2023 is as follows:

Balance at December 31, 2022	\$ 10,737,653
Net appreciation in fair value of investments	684,037
Dividend and interest income	377,923
Distribution	(1,033,050)
Administrative expenses	<u>(74,179)</u>
Balance at December 31, 2023	<u>\$ 10,692,384</u>

In accordance with Code Section 401(h), the Plan's investment in the 401(h) account may not be used for, or diverted to, any purpose other than providing health and welfare benefits for retirees and participants. The related obligations for health benefits are not included in the Plan's obligation in Note 6, but are reflected as obligations in the financial statements of the Company's health and welfare benefit plan.

EQUIFAX INC. U.S. RETIREMENT INCOME PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2023 AND 2022

NOTE 1 – PLAN DESCRIPTION (Continued)

Plan Termination

In the event that the Plan terminates the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- (1) Benefits attributable to employee contributions, taking into account those paid out before termination.
- (2) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
- (3) Other vested benefits insured by the PBGC up to the applicable limitations, discussed below.
- (4) All other vested benefits (that is, vested benefits not insured by the PBGC).
- (5) All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefits protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, a statutory ceiling exists, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2023 and 2022 that ceiling is \$6,750 and \$6,205, respectively, per month. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2023 AND 2022

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements of the Plan were prepared using the accrual basis of accounting. The Plan follows accounting standards set by the Financial Accounting Standards Board (“FASB”). The FASB sets accounting principles generally accepted in the United States of America (“GAAP”).

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statement of net assets available or benefits.

At December 31, 2023, two investments represent 25% of the Plan’s total investments.

Contributions

Employer contributions are recorded when such contributions are authorized by the Company’s Group Plans Administrative Committee and are recorded in the Plan year based on the annual minimum funding requirements.

Benefits Paid

Benefits are recorded in the period in which they are paid to participants and beneficiaries.

Administrative Expenses

Trustee and investment manager fees, PBGC insurance premiums, and other plan related expenses are paid out of the assets of the Plan at the discretion of the Plan Administrator. All other administrative expenses of the Plan are paid by the Company. In addition, certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

EQUIFAX INC. U.S. RETIREMENT INCOME PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2023 AND 2022

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income (Loss) Recognition

The investments of the Plan are reported at fair value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price).

Purchases and sales of securities are recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated Plan benefits are those future periodic payments that are attributable under the Plan's provisions based on employees' years of service. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated Plan benefits is determined by the Plan's actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment.

The following actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions, and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

NOTE 3 – INVESTMENTS (Unaudited)

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, U.S. Bank N.A., the Plan trustee, has provided certification that the financial information included in the financial statements and supplemental schedules as of December 31, 2023 and 2022 and for the years then ended provided to the Plan is complete and accurate. The information as to investment assets and transactions therein, and investment income included in the accompanying financial statements and supplemental schedules as of December 31, 2023 and 2022, and for the years then ended, is covered by such certification and has not been audited by independent auditors.

NOTE 4 – FAIR VALUE MEASUREMENTS

GAAP establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs in which little or no market data exists (Level 3 measurements). The three levels of the fair value hierarchy under GAAP are described below:

Basis of Fair Value Measurement

Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 - Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;

Level 3 - Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

The assets' fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2023 AND 2022

NOTE 4 – FAIR VALUE MEASUREMENTS (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value.

Common Collective Trust Funds

Common collective trust funds are valued at the net asset value based on the last reported sales price of the underlying investments held. The Plan's interest in the common collective trust funds are based on information reported by the investment advisor using the audited financial statements of the common collective trusts at year-end.

Investments in Traded Active Markets

Common stock, preferred stock, and corporate and government debt securities traded in active markets on national and international securities exchanges are valued at closing prices on the last business day of each period presented. Securities traded in markets that are not considered active are valued based on quoted market prices, broker or dealer quotations, or alternative pricing sources with reasonable levels of price transparency. Securities that trade infrequently and therefore have little or no price transparency are valued using the Plan's investment manager's best estimates.

Venture Capital Partnership Funds

The Plans' interest in venture capital partnership funds are stated at appraised market value, as determined by independent appraisers, plus the fund's reinvested income and earnings.

Hedge Funds and Other

Hedge funds and other investments consist of, among other things, real estate funds and hedge funds. Real estate funds and hedge funds are valued at net asset value per share based upon the fair value of the underlying investments, as determined by the Plan's investment managers.

NOTE 4 – FAIR VALUE MEASUREMENTS (Continued)

The investment objective for the above investment funds which are not direct filing entities are as follows:

- (a) This fund's stated investment objective is to generate current income and achieve capital preservation primarily through investments in secured debt. The funds will also invest some of their capital in second and third lien loans, and senior and subordinated corporate debt securities.
- (b) This fund's investment strategy is broadly defined as European long/short credit and event driven. The principal investment objective is to produce attractive risk-adjusted returns in all types of market environments by capitalizing on mispriced investment opportunities, primarily in European companies or assets, companies with significant European operations, or securities issued in European markets. A shareholder may not redeem any portion of its shares attributable to a purchase until the redemption date falling on or after the date immediately preceding the first anniversary of the relevant purchase of share. A notice of redemption provided by a shareholder will be irrevocable unless revocation is permitted by the fund in its sole discretion. Any permitted revocation of a notice of redemption will subject the shares to a revocation fee in an amount equal to .5% of the amount of redemption request so revoked.
- (c) This fund pursues an opportunistic, multi-strategy approach to investing that is guided by a strong value bias, global macroeconomic views and consideration of market psychology and sentiment. The fund has a more narrow focus than many other multi-strategy funds and tactically allocates capital among a more limited number of strategies. Underlying strategies include long/short equity (with a particular focus on energy/natural resources, real estate, technology/telecommunications and transportation), bankruptcy/distressed, fixed income macro and commodities. There is a one-year lockup period on redemptions from the investment anniversary date.
- (d) This fund's stated objective is to generate current returns and long-term appreciation through investments which are fixed-income investments, such as debt or preferred stock, typically purchased in conjunction with an equity component such as common stock, warrants or options. The fund also invests in senior loan investments which are typically fixed and/or floating-rate debt instruments and generally represent the most senior portion of the issuer's capital structure, and other opportunistic investments. The fund will continue in existence until March 15, 2024, unless the fund is dissolved at an earlier date.
- (e) This fund is a Cayman Islands exempted limited partnership which commenced operations on April 1, 2013. This fund is a special purpose vehicle whose sole purpose is to provide investors an opportunity to make an indirect investment in PEG Secondary Private Equity Investors II L.P., PEG Secondary Private Equity Investors II AIV L.P and any parallel investment vehicles established under the Partnership's Limited Partnership Agreement. The fund is expected to terminate six months after the last date of termination of the Partnership, unless terminated earlier or extended in accordance with the provisions of the agreement.

Methods

Valuation date	First day of plan year.
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Actuarial value of assets for determining minimum required contributions	Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2022 plan year). The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.
Late retirement increases	<i>Deferred vested participants:</i> Current deferred vested participants over normal retirement age are valued including the late retirement increases to account for the value of missed payments since normal retirement age.
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued. WTW has reviewed the plan provisions with Equifax Inc. and, based on that review, is not aware of any significant benefits required to be valued that were not.

In consultation with the plan sponsor, there were no significant issues found with missing or inconsistent data. We are aware of no adjustments made by the data provider. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.
