Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) Unmodified (2) Qualified (3) Disclaimer (4) Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) DOL Regulation 2520.103-8 (2) DOL Regulation 2520.103-12(d) (3) neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **BONADIO & CO., LLP**

(2) EIN: **16-1131146**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) This form is filed for a CCT, PSA, DCG or MTIA. (2) It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		X	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		X	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		X	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		X	
e Was this plan covered by a fidelity bond?	X		6000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		X	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	X		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)	X		
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		X	
l Has the plan failed to provide any benefit when due under the plan?		X	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)		X	
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.		X	

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? Yes No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

5b If, during this plan year, any assets or liabilities were transferred from this plan to another plan(s), identify the plan(s) to which assets or liabilities were transferred. (See instructions.)

INDEPENDENT AUDITOR'S REPORT

January 6, 2025

To the Board of Trustees of
NYSUT Employees' Retirement Plan:

Opinion

We have audited the accompanying financial statements of NYSUT Employees' Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of August 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of NYSUT Employees' Retirement Plan as of August 31, 2024 and 2023, and the changes in its net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of NYSUT Employees' Retirement Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about NYSUT Employees' Retirement Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

INDEPENDENT AUDITOR'S REPORT

(Continued)

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of NYSUT Employees' Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about NYSUT Employees' Retirement Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

INDEPENDENT AUDITOR'S REPORT

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The schedule of assets (held at end of year) as of August 31, 2024 (Schedule I) and schedule of reportable transactions for the year ended August 31, 2024 (Schedule II) are presented for purposes of additional analysis and are not required parts of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NYSUT EMPLOYEES' RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS AUGUST 31, 2024 AND 2023

1. PLAN DESCRIPTION

The following brief description of NYSUT Employees' Retirement Plan (Plan) is provided for general information purposes only. Participants should refer to the Summary Plan Description for more complete information.

General

The Plan is a defined benefit pension plan covering substantially all full-time employees of the New York State United Teachers (NYSUT). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan was established to provide retirement benefits to those employees of NYSUT who meet specific requirements as to age and years of service. Contributions to provide the benefits are made by the employer at a rate determined by the Plan's consulting actuary in accordance with the funding policy. Effective January 1, 2019, employees contribute 2.5% of their salary to the Plan. Payroll deductions are made on a biweekly after-tax basis.

Benefits

The Plan provides that employees of NYSUT become participants on the date:

- a) Employed by NYSUT if the regularly scheduled hours of annual employment are at least 1,820; or
- b) After completing 910 hours during a year of employment

A participant is generally eligible to receive a pension under the Plan upon:

- a) Tier I - Retirement at age 62 OR age 50 with 20 years of service credit OR age 57 with 15 years of service credit

Tier II & III - Retirement at age 62 with at least 5 years of service credit or age 57 with at least 15 years of service credit
- b) Ordinary disability after completion of at least 10 years of service credit
- c) Accidental (occupational) disability

A Tier I participant becomes vested upon completion of 5 years of service credit OR age 55. A Tier II or III participant becomes vested upon completion of 5 years of service credit, regardless of age.

Death benefits for retired participants are dependent upon the form of pension benefit that was elected at retirement. The properly designated beneficiary of a nonretired participant is entitled to a death benefit upon the death of the participant.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of additions and deductions during the reporting period. Accordingly, actual results may differ from those estimates.

Valuation of Investments and Income Recognition

The Plan has financial instruments which are recorded at fair value in the accompanying statements of net assets available for benefits. The Plan makes estimates regarding the valuation of assets measured at fair value in the financial statements. The common collective trusts are measured using the net asset value per share practical expedient as determined by the issuer based on the current fair values of the underlying assets of the fund as of August 31, 2024 and 2023. This practical expedient would not be used if it is determined to be probable that the Plan will sell the investment for an amount different from reported net asset value. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan. See Note 8 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the plan's gains and losses on investments bought and sold as well as held during the year.

Financial Instruments Measured at Fair Value

The Plan has financial instruments which are recorded at fair value in the accompanying statements of net assets available for benefits. The Plan makes estimates regarding the valuation of assets and liabilities measured at fair value in the financial statements. These assets and liabilities include the investments in mutual funds. The common collective trusts are measured using the net asset value (NAV) per share practical expedient as determined by the issuer based on current fair values of the underlying assets of the fund as of August 31, 2024 and 2023.

Fair Value Measurement - Definition and Hierarchy

The Plan uses various valuation techniques in determining fair value and classifies into a three level hierarchy based on the nature of the inputs. Level 1 valuations are based on quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access. Level 2 valuations are based on inputs, other than quoted prices included within Level 1 that are observable either directly or indirectly. Level 3 valuations are based on inputs that are unobservable and significant to the overall fair value measurement. The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at August 31, 2024 and 2023.

Money market fund: Valuations rely on quoted prices in markets that are not active or observable inputs over the full term of the asset or liability.

Registered investment companies: Valued at the fair market value of shares held by the Plan at year end based on quoted market prices in an active market.

Common collective trusts: Valued based on the fair value using the NAV practical expedient as determined by the issuer based on the current fair values of the underlying assets of the funds.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

There have been no changes in valuation methodologies for the years ended August 31, 2024 and 2023.

A description of where the Plan's investments fall within the fair value hierarchy is provided in Note 8.

Risks and Uncertainties

The actuarial present value of accumulated plan benefits is determined based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in this process, it is at least reasonably possible that changes in these estimates and assumptions will occur in the near term and that such changes could materially affect the amounts disclosed in the accompanying financial statements.

Investment securities are exposed to various risk, such as interest rate risk, financial market risk and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Payment of Benefits

Benefit payments to participants and beneficiaries are recorded when paid.

Administrative Expenses

Certain administrative expenses were paid by NYSUT on behalf of the Plan and amounted to approximately \$151,000 and \$130,000 in 2024 and 2023, respectively. Expenses related to retirees services, trustee service fees, and certain other administrative costs were paid by the Plan during 2024 and 2023 and have been recorded as administrative expenses in the accompanying statements of changes in net assets available for benefits.

Actuarial Present Value of Accumulated Benefits

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to retired, terminated and present participants, and beneficiaries of present or former participants. Benefits for employees or their beneficiaries are based on employees' years of service (as defined in the Plan).

The actuarial present value of accumulated Plan benefits as of September 1, 2023 was determined by Milliman Inc., the Plan's current actuary. The actuarial present value of accumulated Plan benefits is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions are described in Note 3.

3. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments that are attributable under the plan's provisions to the service employees have rendered.

The actuarial present value of accumulated plan benefits is the sum of the present value of:

- Benefits expected to be paid with respect to former employees, or their beneficiaries, who have terminated service with vested rights,
- Benefits expected to be paid to beneficiaries of employees who have died, and
- Accrued benefits based on service rendered and compensation earned prior to the date of determination, which are expected to become payable with respect to present employees, whether or not such benefits are vested.

The actuarial present value of accumulated plan benefits is determined by the Plan's consulting actuary and takes into account the regular valuation assumptions as to investment return and mortality and, in the case of present employees, withdrawal, disability, and retirement, as well as the effect of future service accrual for benefit eligibility.

3. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (Continued)

Actuarial and Demographic Assumptions

The significant actuarial assumptions used in the valuation as of September 1, 2023 and September 1, 2022 for expense purposes are as follows:

Long-term Interest rate: 6.25% and 6.25%, respectively.

Long-term Inflation rate: 2.30% and 2.30%, respectively.

Long-term Investment Return: 6.25% and 6.25%, respectively.

Increase in Maximum Benefit and Compensation Limit: Compensation for pension benefits were assumed to increase by 2% on each September 1. In addition, step and longevity increases apply during the initial years of service and vary by bargaining unit.

Normal Retirement Age: Assumed rates of retirement are based on years of service at retirement as follows:

Age	Tier I		Tier II and Tier III*
	< 20 Years	20 + Years	
50 - 54	2%	5%	n/a
55 - 56	5%	10%	n/a
57	5%	10%	10%
58 - 61	5%	10%	5%
62	20%	40%	40%
63 - 64	20%	20%	20%
65 - 69	20%	40%	40%
70	100%	100%	100%

* Tier II and Tier III employees were not assumed to retire before age 57

Mortality: As of September 1, 2023 and September 1, 2022, PRI-2012 Total Dataset Sex-distinct Employee/Retiree Mortality Tables, with contingent Survivor Table for current beneficiaries and Disabled Table for current disabled participants, with full generational projection using Scale MP-2021.

Withdrawal: Assumed rates of withdrawal represent an estimate of future experience in the plan as follows:

Age	Rate
25	5.29%
30	5.07%
35	4.70%
40	0.00%
45	0.00%
50	0.00%
55	0.00%

Percent Married: 80% of participants assumed to be married. For the purpose of valuing the death benefit, 100% of participants are assumed to have a beneficiary. Males are assumed to be 3 years older than females.

3. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (Continued)

Asset Valuation Method

The asset valuation method is adjusted fair market value over two years using three data points as permitted under IRS Notice 2009-22 (averaging the values as of the valuation date and the previous two valuation dates), not less than 90% nor greater than 110% of market value of assets on the valuation date.

Actuarial Cost Method

The actuarial cost method used in this valuation is the "Unit Credit Actuarial Cost Method." In this method, the regular Plan cost arises from two sources: a Target Normal Cost and an Amortization Payment for the Funding Target Shortfall. The Funding Target is determined as the actuarial present value of benefits as of the valuation date. The Shortfall is equal to the Funding Target less the present value of benefits as of the valuation date.

The Normal Cost is the Actuarial Present Value of benefits expected to accrue during the valuation year plus anticipated administrative expense, if any. The plan sponsor elected the 15-year shortfall amortization schedule under PRA 2010 for the 2009 and 2011 plan years.

The actuarial present value of accumulated plan benefits is as follows as of September 1, 2023:

Vested benefits of participants and beneficiaries currently receiving payments	\$349,227,070
Other vested benefits	<u>125,738,447</u>
Total vested benefits	474,965,517
Nonvested benefits	<u>3,301,358</u>
Total	<u><u>\$478,266,875</u></u>

A summary of changes in accumulated plan benefits is as follows as of September 1, 2023:

Actuarial present value of accumulated plan benefits - beginning of year	\$471,450,290
Increase (decrease) during the plan year attributable to:	
Accumulation of benefits, including experience gains and losses	11,361,249
Change in average discount period	28,458,034
Change in actuarial assumptions	(263,048)
Benefit payments	<u>(32,739,650)</u>
Actuarial present value of accumulated plan benefits - end of year	<u><u>\$478,266,875</u></u>

4. FUNDING POLICY

At a minimum, NYSUT intends to contribute the actuarially determined minimum contribution amount to the Plan which is sufficient to pay the normal cost. There is no unfunded actuarial accrued liability. Therefore, all plan costs will be funded over the future and the Plan will be funded in a manner consistent with the Unit Credit Actuarial Cost Method.

For the years ended August 31, 2024 and 2023, the Plan actuary determined that minimum required contributions of \$19,292,593 and \$16,660,752 respectively were required to be made into the Plan, if made on September 1. For both the years ended August 31, 2024 and 2023, contributions of \$21,500,004 were made on an annual basis, which exceeded the minimum required contribution.

Beginning January 1, 2019, as a condition of participation, employees are required to contribute 2.5% of their salary to the Plan. Active employees' annual contributions for the years ended August 31, 2024 and 2023 were \$1,303,127 and \$1,235,890, respectively.

5. PLAN TERMINATION

In the event the Plan terminates, the net assets of the Plan, after providing for any administrative expenses, will be allocated among the pensioners, beneficiaries, and participants in the following order:

- a) Pension benefits
- b) Benefits guaranteed by the Pension Benefit Guaranty Corporation up to applicable limitations
- c) All other vested benefits under this Plan
- d) All other benefits under this Plan

Should the assets of the Plan be more than sufficient to meet all liabilities of the Plan for benefits, any surplus funds arising on account of an erroneous actuarial computation shall be returned to NYSUT.

6. TAX STATUS

The Plan obtained its latest determination letter on February 25, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving that determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

7. RELATED PARTY TRANSACTIONS

Certain Plan investments are shares in common collective trusts and registered investment companies managed by SEI Investments Management Corporation (SEI) who is the ERISA 3(38) Investment Manager designated by the Plan. Investment fees and administrative expenses were paid by the Plan to SEI. These transactions qualified as party-in-interest transactions.

NYSUT, a related party, pays various administrative expenses on behalf of the Plan.

8. FAIR VALUE MEASUREMENTS

At August 31, 2024, the Plan's investments are measured at fair value on a recurring basis and are valued within the fair value hierarchy as follows:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Money market fund	\$ -	\$ 488,016	\$ -	\$ 488,016
Registered investment companies	<u>437,628,822</u>	<u>-</u>	<u>-</u>	<u>437,628,822</u>

Common collective trust funds measured at NAV as a practical expedient				<u>23,276,734</u>
Total investments at fair value				<u>\$ 413,973,435</u>

8. FAIR VALUE MEASUREMENTS (Continued)

In accordance with ASC 820, certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

Investments Measured using the Net Asset Value (NAV) per Share Practical Expedient

The following tables summarize investments for which fair value is measured using the NAV per share practical expedient as of August 31, 2024 and 2023. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

<u>August 31, 2024</u>	<u>Fair Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency (If Eligible)</u>	<u>Redemption Notice Period</u>

Total common collective trust funds	<u>\$ 27,439,442</u>			

<u>August 31, 2023</u>	<u>Fair Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency (If Eligible)</u>	<u>Redemption Notice Period</u>
SEI Core Property Collective Trust	\$ 18,638,742	N/A	Quarterly	95 Days
SEI Global Private Assets VI Collective Investment Trust	1,410,504	13,552,543	N/A	N/A
SEI Secondary Opportunity Fund I Collective Investment Trust	<u>3,227,488</u>	12,115,385	N/A	N/A
Total common collective trust funds	<u>\$ 23,276,734</u>			

SEI Core Property Collective Trust: The Core Property Collective Trust is valued at NAV of underlying units of a multi-asset fund invested mainly in real estate partnerships. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Were the Plan to initiate a full redemption of the Core Property Collective Trust, the investment adviser reserves the right to temporarily hold back 10% of the total redemption in escrow until completion of the fund's audit to ensure that securities liquidations will be carried out in an orderly business manner.

8. FAIR VALUE MEASUREMENTS (Continued)

SEI Global Private Assets VI Collective Investment Trust – The SEI Global Private Assets VI Collective Investment Trust is valued at NAV of underlying assets. The Trust invests substantially all of its assets in the SEI Global Private Assets VI, L.P., a Partnership, which provides a means for eligible investors to participate in investments in various private investment funds. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. The Trustee does not anticipate allowing any withdrawals from the Trust prior to termination and liquidation of the Partnership, except with respect to distributions made from the Partnership to the Trust. In order to participate in the Trust, a minimum commitment amount of \$1,000,000 was required. The NYSUT Employees' Retirement Plan committed to contribute \$15,000,000, of which \$10,773,425 remains unfunded at August 31, 2024.

SEI Secondary Opportunity Fund I Collective Investment Trust - The SEI Secondary Opportunity Fund I Collective Investment Trust is valued at NAV of underlying assets. The Trust invests substantially all of its assets in the SEI Secondary Opportunity Fund I, L.P., a Partnership, which provides a means for eligible investors to participate in investments in various private investment funds. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. The Trustee does not anticipate allowing any withdrawals from the Trust prior to termination and liquidation of the Partnership, except with respect to distributions made from the Partnership to the Trust. In order to participate in the Trust, a minimum commitment amount of \$1,000,000 was required. The NYSUT Employees' Retirement Plan committed to contribute \$15,000,000, of which \$9,688,645 remains unfunded at August 31, 2024.

9. SUBSEQUENT EVENTS

The Plan has evaluated subsequent events and transactions through January 6, 2025, the date that the financial statements were available to be issued.

NYSUT EMPLOYEES' RETIREMENT PLAN

EIN 14-1584772 / PN 001

Attachment to 2023 Form 5500
Schedule SB, Part V – Summary of Plan Provisions

This summary of plan provisions is intended to only describe the essential features of the Plan. All eligibility requirements and benefit amounts shall be determined in strict accordance with the plan document itself.

Basic Information

Plan Name: NYSUT Employees' Retirement Plan

Effective Date of Plan: September 1, 1974; amended and restated September 1, 2007.

EIN/PN: 14-1584772/001.

Effective Date of Last Amendment: January 1, 2019. This amendment reflects the merger of the Former NEA-NY Plan.

Plan Year: September 1 – August 31.

Employees: Any person who is employed by NYSUT. The following individuals are ineligible to participate in this Plan: (1) per diem and/or temporary workers; (2) leased employees; (3) consultants; (4) independent contractors; or (5) any other type of contingent worker.

Eligibility: All NYSUT employees whose regularly scheduled hours of annual employment are at least 1,820 are eligible for participation from date of hire. All other employees are eligible to participate after completing 910 hours during a year of employment.

Credited Service: One full year for completion of 910 hours. Fractional credit for less than 910 hours based on ratio of hours of service to 1,820. Also counts for vesting purposes.

Compensation: Compensation is defined in the Plan as regular or basic annual pay excluding bonuses, premium pay, overtime, expenses or any other extra compensation.

The maximum salary used to determine Plan benefits is limited as required by IRC Section 401(a)(17).

Final Compensation: Average of the 36 highest consecutive month's compensation. For Tier I employees, for benefits earned prior to January 1, 2019, compensation in the last 12-month period in which the participant was employed.

Employee Contribution: Effective January 1, 2019, each Member shall contribute 2.5% of their Compensation on an after-tax basis, to the Plan.

Tier II and Tier III Employees: PSA and Management/Confidential employees hired on or after April 16, 2013, CWA employees hired on or after November 15, 2013, and LSA employees hired on or after April 1, 2015 are Tier II employees, if hired prior to September 1, 2018. All employees hired on and after September 1, 2018 are Tier III employees. All other employees are Tier I, including active participants in the former NEA-NY Plan as of January 1, 2019.

Benefit Formulas and Eligibilities

Benefits for active participants in the Former NEA-NY Plan as of January 1, 2019 are based on the Tier I formulas and special rules apply for Credited Service earned prior to September 1, 2006.

Service Retirement 1 – Tier I

Retirement Date: A Tier I participant who retires after remaining in employment until at least age 55 or who retires with 20 years of credited service.

Retirement Benefit: The amount of the pension is equal to the benefit earned prior to January 1, 2019, plus the benefit earned after December 31, 2018. If the participant retires prior to age 57 with fewer than 20 years of credited service, or retires prior to age 62 with fewer than 15 years of credited service, then the benefit earned after December 31, 2018 shall be actuarially equivalent to that described below. Actuarial equivalence shall be based on the 1983 GAM tables (50% Male, 50% Female) and eight percent (8%) annual compound interest.

Retirement Benefit Earned Prior to January 1, 2019: The amount of the pension is equal to the greater of:

- A. Participant with less than 20 years of Credited Service: 1.53% of Final Compensation for each year of Credited Service earned prior to January 1, 2019.

Participant with at least 20 years of Credited Service: The sum of:

- (1) 2.65% of Final Compensation multiplied by Credited Service earned prior to January 1, 2019 not in excess of 20 years, plus
- (2) 2.00% of Final Compensation multiplied by Credited Service earned prior to January 1, 2019 in excess of 20 years.

- B. Participant with less than 10 years of Credited Service: 1-2/3% of Final Compensation for each year of Credited Service earned prior to January 1, 2019.

Participant with 10 but less than 15 years of Credited Service: 2.00% of Final Compensation for each year of Credited Service earned prior to January 1, 2019.

Participant with at least 15 years of Credited Service: The sum of:

- (1) 2.50% of Final Compensation multiplied by Credited Service earned prior to January 1, 2019 not in excess of 15 years, plus
- (2) 2.00% of Final Compensation multiplied by Credited Service earned prior to January 1, 2019 in excess of 15 years.

- C. The benefit the employee would have had at age 62 if he continued in employment until then at the same rate of compensation multiplied by a fraction, where the numerator is the total years of membership earned prior to January 1, 2019 at termination and the denominator is the total years of membership at age 62 if he had continued in employment until then.

Retirement Benefit Earned After December 31, 2018: The Total Retirement Benefit described below, minus the Retirement Benefit Earned Prior to January 1, 2019, but not less than zero.

Vested Termination

Vested Termination Date: A Tier I participant who terminates employment after completing at least 5 years of service and prior to age 55 is entitled to deferred vested benefit beginning at age 55. A Tier II or Tier III participant who terminates employment after completing at least 5 years of service and prior to age 62 is entitled to deferred vested benefit beginning at age 62.

Termination Benefit – Tier I: The amount of the pension is equal to the benefit earned prior to January 1, 2019, plus the benefit earned after December 31, 2018. If the participant retires prior to age 57 with fewer than 20 years of credited service, or retires prior to age 62 with fewer than 15 years of credited service, then the benefit earned after December 31, 2018 shall be actuarially equivalent to that described below. Actuarial equivalence shall be based on the 1983 GAM tables (50% Male, 50% Female) and eight percent (8%) annual compound interest.

Termination Benefit Earned Prior to January 1, 2019: The amount of the pension is equal to the greater of:

- A. 1-1/6% of Final Compensation for each year of Credited Service earned prior to January 1, 2019.
- B. The benefit the employee would have had at age 55 if he continued in employment until then at the same rate of compensation multiplied by a fraction, where the numerator is the total years of membership earned prior to January 1, 2019 at termination and the denominator is the total years of membership at age 55 if he had continued in employment until then.
- C. The benefit the employee would have had at age 62 if he continued in employment until then at the same rate of compensation multiplied by a fraction, where the numerator is the total years of membership earned prior to January 1, 2019 at termination and the denominator is the total years of membership at age 62 if he had continued in employment until then.

Termination Benefit Earned After December 31, 2018: The Total Termination Benefit described below, minus the Termination Benefit Earned Prior to January 1, 2019, but not less than zero.

Total Termination Benefit: The amount of the pension is equal to the greater of:

- A. The sum of:
 - (1) 1-1/6% of Final Compensation for each year of Credited Service earned prior to January 1, 2019, plus
 - (2) 1-1/6% of Final Compensation for each year of Credited Service earned after December 31, 2018.
- B. The benefit the employee would have had at age 55 if he continued in employment until then at the same rate of compensation multiplied by a fraction, where the numerator is the total years of membership earned at termination and the denominator is the total years of membership at age 55 if he had continued in employment until then.
- C. The benefit the employee would have had at age 62 if he continued in employment until then at the same rate of compensation multiplied by a fraction, where the numerator is the total years of

membership earned at termination and the denominator is the total years of membership at age 62 if he had continued in employment until then.

Termination Benefit – Tier II: The amount of the Tier II benefit is the amount determined under the Service Retirement – Tier II described above.

Termination Benefit – Tier III: The amount of the Tier III benefit is the amount determined under the Service Retirement – Tier III described above.

Disability Retirement – Ordinary (Non-occupational)

Disability Retirement Date: A Tier I Participant who becomes disabled after completing at least 20 years of Credited Service is entitled to receive a pension. A Tier II or Tier III Participant is entitled to receive a pension after completing at least 10 years of Credited Service.

Disability Retirement Benefit: The amount of the Tier I pension is 1.53% of Final Compensation multiplied by years of Credited Service and Prior Service but not less than 20% of Final 5 year Average Compensation reduced for amounts payable under the New York State Disability Benefits Law. The amount of the Tier II benefit is the amount determined under the Service Retirement – Tier II described above. The amount of the Tier III benefit is the amount determined under the Service Retirement – Tier III described above.

Disability Retirement – Accidental (Occupational)

Disability Retirement Date: A participant who becomes disabled from a job related cause is entitled to receive a pension.

Disability Retirement Benefit: The amount of the pension is equal to 75% of final five year average compensation reduced by payments from New York State Workmen's Compensation Law.

Increase in Benefit Amount

Benefits for retirees have been increased by plan amendment from time to time. The most recent increase was effective January 1, 2003.

Preretirement Surviving Spouse Coverage

Preretirement Surviving Spouse Benefit Eligibility: Five years of Vesting Service; not receiving a benefit and married at least one year.

Preretirement Surviving Spouse Benefit: The benefit is computed as if the participant had retired immediately preceding the date of his death, and had elected a 50% Joint and Survivor Annuity. Such benefit will commence immediately or on the earliest date such deceased member could have elected to retire under the Plan.

Preretirement Other Death Benefits

A participant who is not married or, if married, with permission of the spouse (who must waive the Spouse's Pension) will have lump sum death benefits payable to their beneficiary of 10% of Final Compensation per year of Credited Service up to a maximum of 150% of Final Compensation or, for an employee with 15 years of Credited Service a lump sum equal to the present value of the pension.

Schedule SB, Part V – Summary of Plan Provisions

Forms of Payment

Normal Forms: Single Life Annuity. A participant that is married must take the benefit in the form of a Joint and 50% Survivor benefit unless the spouse provides written consent to waive the Joint & 50% Survivor benefit.

Optional Forms: Single Life Annuity, Joint and Survivor Annuity (25%, 50%, 75% and 100%), Pop Up Joint and Survivor Annuity (25%, 50%, 75% and 100%), 15 Year Certain and Life Annuity and 100% Cash Refund Pension/Decreasing Death Benefit.

For lump sums, the applicable IRC Section 417(e)(3) mortality table and the first, second, and third segment rates under IRC Section 417(e)(3) published during May of the preceding year are used.

Maximum Benefit

The maximum benefit used to determine Plan benefits is limited as required by IRC Section 415(b).

Changes in Plan Provisions since Prior Valuation

There have been no changes in plan provisions since the prior valuation.

NYSUT EMPLOYEES' RETIREMENT PLAN

EIN 14-1584772 / PN 001

Attachment to 2023 Form 5500
Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

Summary of Actuarial Methods

The ultimate cost of a pension plan is the excess of actual benefits and administrative expenses paid over actual net investment return on plan assets during the plan's existence until the last payment has been made to the last participant. A plan's "actuarial cost method" determines the expected incidence of actuarial costs by allocating portions of the ultimate cost to each plan year. The cost method is thus a budgeting tool to help ensure that a plan will be adequately and systematically funded. Annual contributions are also affected by a plan's "asset valuation method" (as well as plan provisions, actuarial assumptions, and actual plan demographic and investment experience each year).

Actuarial Cost Method

The actuarial cost method used for determining the Plan's ERISA funding requirements and the FASB ASC Topic 960 values is the Unit Credit method. Under this method, an accrued benefit is determined at each active participant's assumed retirement age based on compensation and service at both the beginning and the end of the current year. The Plan's normal cost is the sum of the present value of the excess of each active participant's accrued benefit at the end of the current year over that at the beginning of the current year. The Plan's accrued liability is the sum of (a) the present value of each active participant's accrued benefit at the beginning of the current year plus (b) the present value of each inactive participant's benefits.

Asset Valuation Method

The Actuarial Value of Assets used for determining the Plan's ERISA funding requirements is equal to the Adjusted Fair Market Value over two years using three data points as permitted under IRS Notice 2009-22 (averaging the values as of the valuation date and the previous two valuations), not less than 90% nor greater than 110% of the Market Value of Assets on the valuation date.

Changes in Actuarial Methods Since Prior Valuation

None.

Summary of Actuarial Assumptions

Interest Rates

The current funding interest rates are as follows. The funding interest rates are prescribed under IRS regulations based on the Plan Sponsor's interest rate election.

	Minimum Funding	Maximum Deductible	PBGC Premium
Segment 1 (0-5 years)	4.75%	3.62%	3.62%
Segment 2 (5-20 years)	5.00%	4.46%	4.46%
Segment 3 (20+ years)	5.74%	4.52%	4.52%
Effective Interest Rate	5.28%	4.44%	4.44%

ERISA minimum funding: 24-month average segment rates, using no lookback period, adjusted to reflect the applicable segment rate stabilization corridor.

EIN 14-1584772 / PN 001

Attachment to 2023 Form 5500
Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

This assumption is permitted under IRC Section 430. The sponsor has elected to utilize no look-back, with rates averaged over a 24-month period, limited to applicable minimum and maximum values in accordance with ARPA and IIJA. These rates are utilized for purposes of calculating the Plan's Funding Target and Target Normal Cost for minimum funding purposes under ERISA and related tax codes.

Maximum Deductible Contribution and PBGC Premium: 24-month average segment rates, using no lookback period, but not adjusted to reflect segment rate stabilization.

This assumption is permitted under IRC Section 430. The sponsor has elected to utilize no look-back, with rates averaged over a 24-month period. These rates are utilized for purposes of calculating the Plan's Maximum Deductible Contribution. The plan sponsor has also made an election to use these rates to develop the liability used in the calculation of the PBGC variable rate premium.

FASB ASC Topic 960: 6.25% per year. This assumption was selected by the plan sponsor in consultation with their investment advisor.

Compensation Increases

Assumption: This assumption represents an estimate of future experience.

Salaries (aside from Step and Longevity increases) are assumed to increase by 2% on each September 1. In addition, step and longevity increases apply during the initial years of service and vary by bargaining agreement. The details are enumerated in the specific bargaining agreements. As an approximation to the step and longevity increases we assumed the following:

NYSUT EMPLOYEES' RETIREMENT PLAN

EIN 14-1584772 / PN 001

Attachment to 2023 Form 5500
Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

Mortality

ERISA minimum funding, Maximum Deductible Contribution:

Assumption: Generational Mortality Tables.

Rationale: This is a prescribed assumption under IRC Section 430.

FASB ASC Topic 960:

Assumption: PRI-2012 Total Dataset Sex-distinct Employee/Retiree Mortality Tables, with Contingent Survivor Table for current beneficiaries and Disabled Table for current disabled participants, with full generational projection using Scale MP-2021. The mortality assumption changed to reflect recent updates to mortality published by the Society of Actuaries.

Rationale: The plan is not large enough to develop a credible mortality table based exclusively on plan experience. We have relied on the above-mentioned published mortality table in which credible mortality experience was analyzed.

Marital Characteristics

Assumption:

For participants not in pay status: 80% of participants are assumed to be married. For the purpose of valuing the death benefit, 100% of participants are assumed to have a beneficiary. Males are assumed to be 3 years older than females. This assumption represents an estimate of future experience.

For participants in pay status: Actual birth dates of spouses are included in the census data, where relevant.

Rationale: This assumption was developed based on a review of the plan’s historical experience. In addition, sponsor input and economic conditions that might have influenced prior experience or may impact future experience were considered.

Form of Payment

Assumption: Future retirees were assumed to elect optional forms at the following rates:

Optional Form	Percent Electing
100% Joint & Survivor	50%
75% Joint & Survivor	15%
50% Joint & Survivor	15%
Single Life Annuity	20%

This assumption represents an estimate of future experience.

Rationale: This assumption was developed based on a review of the plan's historical experience. In addition, sponsor input and economic conditions that might have influenced prior experience or may impact future experience were considered.

Retirement

Assumption: Terminated vested participants are assumed to retire at the later of age 55 (age 57 for Tier II and Tier III) and attained age. Active participants are assumed to retire based on the following set of rates:

Age	Tier I with under 20 Years of Service	Tier I with 20+ Years of Service	Tier II and Tier III*
50-54	2.00%	5.00%	n/a
55-56	5.00%	10.00%	n/a
57	5.00%	10.00%	10.00%
58-61	5.00%	10.00%	5.00%
62	20.00%	40.00%	40.00%
63-64	20.00%	20.00%	20.00%
65-69	20.00%	40.00%	40.00%
70	100.00%	100.00%	100.00%

*Tier II and Tier III employees were not assumed to retire before age 57

This assumption represents an estimate of future experience.

Rationale: This assumption was developed based on the plan's historical experience. In addition, sponsor input and economic conditions that might have influenced prior experience or may impact future experience were considered.

Decrement Timing

Decrements are assumed to occur at the middle of the year, except that 100% retirement (see above) is assumed to occur at the beginning of the year.

Disability

Assumption: Disability rates varying by age. The disability rates assumed represent an estimate of future experience in the plan. Sample rates:

Age	Rate
20	0.03%
25	0.03%
30	0.03%
35	0.03%
40	0.05%
45	0.09%
50	0.20%
55	0.43%
60	0.87%

Rationale: This assumption was developed based on the plan's historical experience. In addition, sponsor input and economic conditions that might have influenced prior experience or may impact future experience were considered.

Termination

Assumption: 100% of the Sarason T-2 table with 0% after age 40. The termination rates assumed represent an estimate of future experience in the plan. Sample rates:

Age	Rates
25	5.29%
30	5.07%
35	4.70%
40	0.00%
45	0.00%
50	0.00%
55	0.00%

Rationale: This assumption was developed based on industry standard termination rates (Sarason T tables) as well as the plan's historical experience.

Schedule SB, Line 32 – Schedule of Amortization Bases

The amount needed to amortize the Funding Shortfall to the Applicable Funding Target, in combination with prior Shortfall Amortizations, for the plan year beginning September 1, 2023 is determined below. The net Funding Shortfall for a plan year is amortized in fifteen level payments. The present value and amortization factors shown below are based on the interest rates for determining the Applicable Funding Target for the current plan year.

1. Present value of remaining prior Shortfall Amortizations					
	<u>Date</u> <u>Established</u>	<u>Amortization</u> <u>Amount</u>	<u>Years</u> <u>Remaining</u>	<u>Present Value</u> <u>Factor</u>	<u>Present</u> <u>Value</u>
a.	9/1/2021	\$4,297,985	13	9.883941	\$42,481,031
b.	9/1/2022	<u>2,537,312</u>	14	10.414262	<u>26,424,233</u>
c.	Total	6,835,297			68,905,264
2. Shortfall Amortization for current plan year					
a.	Applicable Funding Target				521,850,566
b.	Actuarial Value of Assets less Prefunding Balance				440,549,521
c.	Is the plan exempt from establishing a Shortfall Amortization for the current year?				No
d.	Funding Shortfall [(a) - (b), but not < \$0]				81,301,045
e.	Net Funding Shortfall [If (d) > \$0, (d) - (1c), otherwise n/a]				12,395,781
f.	Amortization factor				10.919330
g.	Shortfall Amortization for current plan year [(e) + (f)]				1,135,214
3. Total Shortfall Amortizations [(1b) + (2g), but not < \$0]					7,970,511

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
