Resources for the Future, Inc. 403(b) Retirement Plan

Notes to Financial Statements

For the Years Ended September 30, 2023, 2022 and 2021

1. Description of Plan

The following description of the Resources for the Future, Inc. 403(b) Retirement Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established effective October 1, 1975, as restated January 1, 2010. The Plan covers all employees who have attained an age of 21 years and have been in service for two consecutive months, excluding (1) employees compensated exclusively on an hourly rate basis, (2) salaried employees who work seventeen or less hours per week, (3) limited employees, who are hired to perform or carry out a special project or assignment and whose term of appointment is not for more than one year, and (4) research assistants, who are hired to assist a researcher or research team on specific assigned tasks, and (5) post-doctoral fellows. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Board of Directors is responsible for oversight of the Plan. The Plan's administrator determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan's Board of Directors.

Annuity and Custodial Accounts Prior to October 1, 2009

Prior to October 1, 2009, TIAA and CREF maintained records at a contract, not plan, level. TIAA and CREF and the plan administrator did not maintain, and have only been able to provide to a limited extent, accounting records and supporting documentation at the participant or plan level relating to certain annuity and custodial accounts issued to current and former employees prior to October 1, 2009. As a result, the completeness and the accuracy of the annuity accounts, custodial accounts, and contributions and distributions issued to current and former participants prior to October 1, 2009, could not be ascertained. Accounting principles generally accepted in the United States of America (GAAP) requires that these accounts and related income and distributions be included in the accompanying financial statements.

Contributions

Each year, participants may contribute a percentage of pretax annual compensation or specified amount, as defined in the plan document, up to the maximum limits of the Internal Revenue Code (IRC). Participants also may designate all or a portion of their deferral contributions as after-tax contributions into a Roth account. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants also may contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants

Notes to Financial Statements

For the Years Ended September 30, 2023, 2022 and 2021

1. Description of Plan (Continued)

direct the investment of their contributions into various investment options offered by the Plan. Additional discretionary amounts may be contributed by Resources for the Future, Inc. (Organization) at the option of the Board of Directors. For the years ended September 30, 2023, 2022 and 2021, there were no discretionary contributions to the Plan. The Plan requires a participant to be employed as of year end to be eligible to receive employer contributions. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

For the years ended September 30, 2022 and 2021, the Plan allowed contributions in excess of amounts permitted by the Internal Revenue Service (IRS) totaling to \$11,640 and \$6,566, respectively, as reflected in the excess contribution payable in the accompanying statements of net assets available for benefits. The same is yet to be corrected, including the payment of an excise tax of 10% by the Plan.

Participant Accounts

Each participant's account is credited with the participant's contributions, allocations of the Organization's discretionary contributions and an allocation of the Plan's earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions and the Organization's contributions plus actual earnings thereon.

Plan Loans

Participants may borrow directly from Teachers Insurance and Annuity Association of America and College Retirement Equities Fund (TIAA-CREF), a plan custodian, subject to certain limitations, by using a portion of their plan account as security for the plan loan. These loans do not occur directly within a participant's account but rather through a designated custodial account. There were no plan loans outstanding as of September 30, 2023, 2022, 2021 and 2020.

Resources for the Future, Inc. 403(b) Retirement Plan

Notes to Financial Statements

For the Years Ended September 30, 2023, 2022 and 2021

1. Description of Plan (Continued)

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account. The loan interest rate, determined as needed, is set at 1% percent above the prime rate, as defined. Principal and interest are paid ratably through payroll deductions. Terms range up to 5 years years or greater for the purchase of a primary residence. There were no notes receivable outstanding from participants as of September 30, 2023, 2022, 2021 and 2020.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or installment payments as provided in the plan document. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution. If a terminated participant's vested balance is less than or equal to \$5,000, the amount may be automatically distributed in the form of rollover to an individual retirement account (IRA) if a participant makes no distribution election. In addition, the Plan allows for hardship distributions if certain criteria are met.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Resources for the Future, Inc. 403(b) Retirement Plan

Notes to Financial Statements

For the Years Ended September 30, 2023, 2022 and 2021

2. Summary of Accounting Policies (Continued)

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's administrator determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company, as applicable. See Note 3 for discussion of fair value measurements.

The Plan's investments in fully benefit-responsive investment contracts are reported at contract value. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed as incurred.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Organization. Expenses that are paid by the Organization are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820, *Fair Value Measurement*, are described as follows:

Level 1 - Inputs to the valuation technique are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation technique include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation technique are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the techniques used at September 30, 2023, 2022, 2021 and 2020.

Interest-bearing cash: These investments are stated at cost, which approximates fair value.

3. Fair Value Measurements (Continued)

Money market funds: Valued at the quoted net asset value (NAV) of shares held by the Plan at year end.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Investment contracts at fair value: Non-benefit-responsive annuities - These investment contracts are reported at contract value, which approximates fair value. The contract value equals the accumulated cash contributions and interest credited to the contracts, less any withdrawals. The contracts guarantee both principal and interest. Liquidity restrictions apply to certain types of contracts that could impact the value realized upon exiting the contracts. When converted to an annuity based on life expectancy, the present value of the stream of payments is equal to the accumulation in the account.

Variable annuities valued at net asset value (NAV): This category invests in equity securities, fixed-income instruments, real estate, and short-term investments, in accordance with each portfolio's investment objectives. Shares are available for transactions at the closing NAV per share on any day the New York Stock Exchange (the NYSE) is open for business. In an effort to reduce market timing and excessive trading, shareholders will be locked out of an account for 90 days if a purchase, sale and repurchase within the account is made within a 60-day period, except for the CREF Money Market Account, which is not subject to such a lockout restriction.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of September 30, 2023, 2022, 2021 and 2020:

4. Fully Benefit-Responsive Investment Contracts

The Plan holds a traditional fully benefit-responsive guaranteed investment contract, for which contributions are maintained in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by the sponsoring trustee, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The traditional investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and interest at the specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 3 percent. The crediting rate is reviewed on a quarterly basis for resetting. The contract cannot be terminated before the scheduled maturity date. The crediting rates for the years ended September 30, 2023, 2022 and 2021 are 4.85%, 4.24% and 3.58% respectively.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. These events may be different under each contract. Such events include:

1. amendments to the Plan documents (including complete or partial Plan termination or merger with another plan);
2. changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions;
3. bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan;
4. the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA; or,
5. premature termination of the contract.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers that also would limit the ability of the Plan to transact at contract value with the participants.

4. Fully Benefit-Responsive Investment Contracts (Continued)

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. These events may be different under each contract. Such events include:

1. an uncured violation of the Plan's investment guidelines;
2. a breach of material obligation under the contract;
3. a material misrepresentation; or,
4. a material amendment to the agreement without the consent of the issuer.

5. Information Certified by Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2023, 2022 and 2021. Accordingly, Teachers Insurance and Annuity Association of America and College Retirement Equities Fund (TIAA-CREF), the Custodian of the Plan, Charles Schwab Trust Bank (from October 31, 2020) and Wells Fargo Bank, National Association (until October 31, 2020), the Trustees of the Plan, have certified to the completeness and accuracy of all investments reported in the accompanying Statements of Net Assets Available for Benefits and the supplemental Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) as of September 30, 2023, 2022 and 2021, and the related investment activity reported in the Statements of Changes in Net Assets Available for Benefits for the years then ended.

6. Related-Party and Party In Interest Transactions

Certain Plan investments are managed by the Custodian and Trustees, and therefore, these transactions qualify as party in interest transactions. Other transactions that may be considered party in interest transactions relate to normal management and administrative services and the payment of expenses related thereto.

Certain administrative functions of the Plan are performed by officers or employees of the Organization. No such officer or employee receives compensation from the Plan.

7. Plan Termination

Although it has not expressed any intent to do so, the Organization has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

8. Tax Status

The Plan adopted a volume submitter plan offered by USI Consulting Group stating that the written form of the underlying specimen plan is qualified under Section 403(b) of the Internal Revenue Code. The volume submitter plan received an IRS Opinion Letter dated March 31, 2017, that the Plan is designed in accordance with the applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the IRS Opinion Letter, the plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC, and, therefore believes that the Plan is qualified, and the related trust is tax exempt.

Plan management is required to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. Delinquent Participant Contributions

For the years ended September 30, 2023, 2022 and 2021, the Organization did not remit certain participant contributions to the Plan on a timely basis as defined by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Untimely remittances identified on the Schedule of Delinquent Participant Contributions were \$135,295, \$94,916 and \$259,174 for the years ended September 30, 2023, 2022 and 2021 respectively. Untimely remittances of \$210,867 were identified on the Schedule of Delinquent Participant Contributions in previous years and were not corrected prior to October 1, 2020. The Organization has remitted the late contributions to the Plan and intends to correct the untimely remittances, as reported on Schedule H, Line 4a - Schedule of Delinquent Contributions totaling \$700,252, through a Voluntary Fiduciary Correction Program filing to compensate participants for lost earnings resulting from the delay in contributions.
