INDEPENDENT AUDITORS' REPORT

To the Trustee and Participants of
the Integrus Holdings, Inc. Employee Stock Ownership Plan:

Opinion

We have audited the financial statements of the Integrus Holdings, Inc. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits – liquidation basis as of October 7, 2024 and December 31, 2023, and the related statement of changes in net assets available for benefits in liquidation for the period from January 1, 2024 through October 7, 2024, and the related notes to the financial statements – liquidation basis.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits – liquidation basis of the Integrus Holdings, Inc. Employee Stock Ownership Plan as of October 7, 2024 and December 31, 2023, and the changes in its net assets available for benefits in liquidation for the period from January 1, 2024 through October 7, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Integrus Holdings, Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Integrus Holdings, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Integrus Holdings, Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Integrus Holdings, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Basis of Accounting

As described in Notes 1, 2, and 5 to the financial statements, the Plan was terminated in 2022. The Plan presented the financial statements as of October 7, 2024 and December 31, 2023 and for the period from January 1, 2024 through October 7, 2024 on the liquidation basis of accounting. Our opinion is not modified with respect to this matter.

1. DESCRIPTION OF THE PLAN

The following brief description of the Integrus Holdings, Inc. Employee Stock Ownership Plan (the Plan or ESOP) is provided for general information purposes only. Participants should refer to the Plan agreement for complete information.

General

Integrus Holdings, Inc. (the “Plan Sponsor” or the “Company”) established the Plan as a leveraged employee stock ownership plan effective as of January 1, 2012. As described below and in Note 5, the Plan was terminated effective October 4, 2022. The Plan was a defined contribution plan covering all eligible employees of the Company and was subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended.

On December 26, 2012, Integrus Holdings, Inc., Employee Stock Ownership Trust (the “Purchaser” or the “Trust”), First Banker Trust Services, Inc. (the “Trustee”) and the Company’s common shareholders (“sellers”), entered into a Stock Purchase Agreement (“SPA”). With the establishment of the ESOP, the sellers sold 3,798 shares of common stock and 17,530 shares of preferred stock to the Trust for an aggregate purchase price of \$6,144,414 (“Purchase Transaction”). The purchase transaction was evidenced by an SPA between the Trust and the sellers, and financed through the Company’s cash contribution to the Trust of \$375,000 and issuance of the ESOP promissory notes (“ESOP Promissory Note”) for the remaining balance. The Trust executed an ESOP Promissory Note to the sellers concurrent with the SPA to acquire certain shares (16,267 preferred shares and 3,798 common shares) from the sellers for the remaining purchase price of \$5,769,414 and held the preferred and common stock in a Trust established under the Plan. As the Plan made payments on the ESOP Promissory Note, an appropriate percentage of the stock is allocated to eligible employees’ accounts in accordance with applicable regulations under the Internal Revenue Code (“IRC”).

The ESOP Promissory Note was collateralized by the unallocated shares of Company stock and guaranteed by the Company. The sellers, or its assignee, have no rights against shares once they are allocated to participants in accordance with the terms of the ESOP. The ESOP Promissory note was paid in full on January 2, 2018.

Plan Termination

Effective October 4, 2022, the Company sold the majority share of ownership of its outstanding stock to a related party who formerly held a minority ownership share. As part of this transaction, the Company made the decision to redeem all outstanding stock held by the Plan and terminate the Plan (Note 5). The Company began the process to distribute all assets to respective participants subsequent to December 31, 2022, and concluded this process during the period from January 1, 2024 through October 7, 2024.

Notes to the Financial Statements – Liquidation Basis As of October 7, 2024 and December 31, 2023 and For the Period from January 1, 2024 through October 7, 2024

1. DESCRIPTION OF THE PLAN – cont'd.

Eligibility

Employees of the Company became eligible to participate in the Plan on the first entry date (January 1 or July 1) immediately after the employee attained age 21 and completed one year of service in which the employee worked 1,000 hours or more. One year of service is defined as the twelve consecutive month period beginning when the employee first performs an hour of service or any anniversary thereof.

If an employee who met the eligibility requirement separates from service prior to the next entry date and returns to service without incurring a one-year break-in service, then the employee could commence participation immediately upon return.

Contributions

The Company was obligated to make monthly contributions to the Plan. The Company contributions were made in shares of Company stock or in cash, as determined by the Board of Directors. Employee contributions were not permitted under this Plan. There were no contributions required to be made to the Plan upon the termination that occurred October 4, 2022.

Participant Accounts

The Plan was a defined contribution plan under which a separate individual account is established for each participant. Each participant's account was credited as of the last day of each Plan year with an allocation of shares of the Company's stock released by the Trustee from the unallocated account, forfeitures of terminated participants' nonvested accounts, and Plan interest and dividends. Plan earnings were allocated to each participant's account based on the ratio of the total participants' account balances.

Contributions and forfeitures were allocated to each participant's account based on two categories. Category A was made up of 50% of the contributions and forfeitures and was allocated to each participants' account in the proportion of the individual participant's compensation to total participants' compensation. Category B was made up of 50% of the contributions and forfeitures and was allocated based on the proportion of the individual participant's length of service to total participants' length of service. A participant must be employed at the end of the year or terminated during the Plan year due to death, disability, or retirement to receive the contribution and forfeiture allocations.

1. DESCRIPTION OF THE PLAN – cont’d.

Vesting

If a participant’s employment with the Company ended for any reason other than normal retirement, permanent disability or death, the participant would vest in his or her balance based on the total years of service with the Company. If the participant terminated, resulting in a break-in service, the vested portion was determined as follows:

Years of Service	Vesting Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

During 2020, the Company experienced events that triggered a partial Plan termination. As a result of the partial Plan termination, affected participants became 100% vested in their accounts. All remaining participants became 100% vested in their accounts as a result of the Plan termination in October 2022 (Note 5).

Payment of Benefits

On termination of service due to death, disability, retirement or separation from service, a participant will receive a benefit equal to the value of the participant’s vested interest in their account, as specified in the Plan. Participants who meet the vesting requirements and have terminated employment with the Company (other than death, disability or attainment of normal retirement age) are entitled to receive distribution payments over five years beginning in the sixth Plan year following the Plan year after the employee termination, as determined by the Company. During the period from January 1, 2024 through October 7 2024, distributions of cash totaled \$3,670,739.

Forfeitures

Plan forfeitures were allocated to each remaining participant’s account on the same basis as employer contributions are allocated for the Plan year. No forfeitures were allocated to participant accounts during the period from January 1, 2024 through October 7, 2024.

Notes to the Financial Statements – Liquidation Basis As of October 7, 2024 and December 31, 2023 and For the Period from January 1, 2024 through October 7, 2024

1. DESCRIPTION OF THE PLAN – cont'd.

Voting Rights

Prior to October 4, 2022, each participant was entitled to exercise voting rights attributable to the shares allocated to his or her account. The Trustee was to vote all employer stock held by it as part of the Plan assets with respect to all corporate matters upon which the employer's shareholders are entitled or permitted to vote. All employer stock held in the Trust was to generally be voted in the manner determined by the Trustee, however, with respect to any corporate matter which involves the voting of such shares with respect to the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets of a trade or business, or such similar transaction as may be prescribed in Treasury Regulations, each participant who had employer stock allocated to his account was to be entitled to direct the Trustee as to the manner in which voting rights on shares of employer stock are to be exercised as to the aforementioned transactions. Each participant was to have one vote for each share of employer stock in his account. The Trustee was to vote such allocated shares of the employer stock as instructed by participants. Allocated shares for which no direction is received was to be voted as the Trustee in its sole discretion deems appropriate. The Trustee was required to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

Put Option

Under federal income tax regulations, the employer stock that was held by the Plan and its participants, was not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option was a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price was representative of the fair market value of the stock.

The employer was to issue a put option to each participant receiving a distribution of employer stock from the Trust. The put option permitted the participant to sell the employer stock to the employer at any time during two option periods, at the current fair market value. The first option was to run for a period of at least 60 days commencing on the date of distribution of employer stock to the participant. If the put option was not exercised during the first option period, then the second put option period was to run for a period of at least 60 days in the following Plan year (as provided in Internal Revenue Service ("IRS") regulations). Fair market value was the value of the employer stock (i) determined as of the date of the exercise of an option if exercised by a disqualified person or (ii) in all other cases, determined as of the most recent valuation date.

If the employer (or the Trustee) exercised an option to purchase a participant's employer stock pursuant to an offer given on the options above, and if the distribution constitutes a total distribution, then the purchaser was to pay 20% of that total purchase price in cash at the closing. The balance was to be paid for substantially equal periodic payments (not less frequently than annually) over a period not exceeding five years, through an interest-bearing promissory note.

Plan Expenses

As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. During the period from January 1, 2024 through October 7, 2024, the Plan paid direct expenses of \$74,589.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Diversification

Diversification was offered to participants close to retirement so that they could have the opportunity to move part of the value of their investment in Company common stock into investments that are more diversified. Participants who were at least age 55 with at least 10 years of participation in the Plan could elect to diversify a portion of their account. Diversification was offered to each eligible participant over a 6-year period. In each of the first 5 years, a participant could diversify up to 25 percent of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage increased to 50 percent.

Basis of Accounting

As described in Notes 1 and 5, the Plan terminated effective October 4, 2022. The Plan's financial statements are presented using the liquidation basis of accounting as of October 7, 2024 and December 31, 2023 and for the period from January 1, 2024 through October 7, 2024 in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to net assets available for benefits in liquidation and deductions from net assets available for benefits in liquidation during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

Prior to October 2022, the Plan investments consisted primarily of the Company's common stock, which was exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it was at least reasonably possible that changes in the value of the common stock could occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Interest income is recorded on an accrual basis.

Subsequent Events

The Plan evaluated for disclosure any subsequent events through February 26, 2025, the date the financial statements were available to be issued, and no material subsequent events have occurred requiring disclosure in or adjustment to the financial statements.

3. FAIR VALUE MEASUREMENT

Accounting Standards Codification 820, *Fair Value Measurement*, defines fair value and establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Level 3 inputs were only used when Level 1 or Level 2 inputs were not available. The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value.

Interest bearing cash: Valued at amortized cost, which approximates fair value.

3. FAIR VALUE MEASUREMENT – cont’d.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain instruments could result in a different fair value measurement at the reporting date. There have been no changes in the methodologies used at October 7, 2024 and December 31, 2023. There were no investments held as of October 7, 2024.

The following table sets forth by level, within the fair value hierarchy, the Plan’s investments at fair value as of December 31, 2023:

	Level 1	Level 2	Level 3	Total
Interest bearing cash	\$ 3,706,528	\$ -	\$ -	\$ 3,706,528
Total investments, at fair value	\$ 3,706,528	\$ -	\$ -	\$ 3,706,528

4. TRANSACTIONS WITH PARTIES-IN-INTEREST

Integrus Holdings, Inc. was the sponsor of the Plan, and as such, executed the normal duties associated therewith. The Plan invested in the common stock of the Company. The Company paid a portion of Plan expenses. The Company redeemed all stock held by the Plan as of October 4, 2022 as part of the sale of majority ownership of the Company to a related party (Note 5). The Plan had a number of service providers. Such transactions qualified as parties-in-interest transactions under ERISA.

5. PLAN TERMINATION

The Company had the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Effective October 4, 2022, the Company’s board of directors unanimously approved the sale of additional ownership interests in the Company to Zwiesel Kristallglas AG (ZK), increasing ZK’s ownership percentage of the Company from 17% to 70%. The acquisition occurred in two simultaneous, but sequential, steps. As part of the first step, the Company purchased, via redemption, the all outstanding common stock equivalents held by the Plan as of the acquisition date. As such, the Plan held the cash from the redemption of the stock totaling \$3,706,528 as of December 31, 2023. As of October 7, 2024, the Plan had concluded the process of distributing the cash to the participants.

6. TAX STATUS

The Plan received a determination letter from the Internal Revenue Service dated April 28, 2015, stating that the Plan was qualified under Section 401(a) of the Code and therefore, the related trust was exempt from taxation. Subsequent to the issuance of the determination letter, the Plan was amended. Effective January 31, 2024, the Company received an updated determination letter from the Internal Revenue Service stating the Plan remained qualified in conjunction with the Plan termination (Note 5). Once qualified, the Plan was required to operate in conformity with the Code to maintain its qualification. The Plan administrator believes that the Plan was designed and operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

ASC 740, *Income Taxes*, prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return as well as guidance on de-recognition, classification, interest and penalties and financial statement reporting disclosures. For these benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. Given the Plan was tax exempt and had no unrelated business taxable income, the provisions of ASC 740 do not have an impact on the Plan's financial statements. The Plan recognized interest and penalties accrued on any unrecognized tax exposures as a component of income tax expense. The Plan does not have any amounts relating to interest and penalties for the period from January 1, 2024 to October 7, 2024 and as of December 31, 2023.

The Plan is subject to routine audits by the IRS and Department of Labor; however, there are currently no audits for any tax periods in progress.
