**HAMLIN ROBINSON SCHOOL DEFINED CONTRIBUTION RETIREMENT PLAN**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2024 AND 2023**

**NOTE 1 DESCRIPTION OF PLAN**

The following description of Hamlin Robinson School Defined Contribution Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

**General**

The Plan is a defined contribution plan originally effective October 11, 1997. The Plan has been amended throughout the years to comply with tax legislation. The most recent amendment was effective July 1, 2022. Nonresident aliens and student employees are excluded from the Plan. Substitutes and collective bargaining (union) employees are excluded from the matching component of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

**Eligibility**

Employees of Hamlin Robinson School (the Organization or Employer) are eligible to participate in the elective deferral component of the Plan as soon as administratively feasible on or after the employee's first day of employment. The Plan requires a participant to complete 1,000 hours of service in each Plan year in order to receive matching contributions. The allocation conditions do not apply in the first Plan year if there is a reasonable expectation that the employee will work 1,000 hours or more during the first computation period. The allocation conditions will not apply in the Plan year of severance from employment if at the beginning of the Plan year the employee was reasonably expected to work 1,000 hours or more during the Plan year.

**Contributions**

The Plan includes a salary deferral arrangement allowed under Section 403(b) of the Internal Revenue Code (IRC). Limited by Plan provisions, eligible participants are permitted to elect to have a fixed-dollar amount, or a percentage of their eligible compensation contributed as pre-tax 403(b) contributions to the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions.

The Employer may, at its discretion, elect to make a qualified matching contribution. For the year ended June 30, 2024, the Employer match contribution was 100% of the first 7% of eligible compensation deferred that a participant contributes to the Plan.

Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of contributions into various investment options offered by the Plan. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

**Participant Accounts**

Each participant's account is credited with the participant's contributions, the Organization's matching contribution, an allocation of the Plan earnings or losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings or account balances, or participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided by the participant's vested account.

**HAMLIN ROBINSON SCHOOL DEFINED CONTRIBUTION RETIREMENT PLAN**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2024 AND 2023**

**NOTE 1 DESCRIPTION OF PLAN (CONTINUED)**

**Vesting**

Participants are immediately vested in all contribution sources.

**Plan Loans**

Participants are eligible to borrow up to 50% of the vested balance in their account to a maximum of \$50,000. The IRS maximum aggregate dollar amount of outstanding loans is \$50,000 for each participant. Plan loans are issued directly from funds owned by TIAA and not directly from the participant's account. Adequate security is required and a portion of the participant's account is reserved, or held in collateral, to cover 110% of the outstanding loan in case of default. Accordingly, Plan loans are not included in the net assets available for benefits of the Plan; however, the collateral is reported as part of the net assets of the Plan. Collateral is held in the TIAA Traditional Annuity as either a part of a Group Savings Retirement Account (GSRA) contract or as a separate Retirement Loan (RL) contract.

If an employee defaults on a loan and has a triggering event such as separation from service, retirement, death, disability, or attainment of age 59½, the loan is treated as a deemed distribution and funds held as collateral in the Plan are paid to TIAA. When a loan default occurs prior to a triggering event, the funds are held as collateral in the Plan and are not paid to TIAA until a triggering event occurs. Until the triggering event occurs, the contingency associated with the amount of defaulted loans is reported as an asset on the statement of net assets available for benefits. For all Plan loans, interest is paid directly to TIAA. As of June 30, 2024 and 2023, Plan loans were \$2,625 and \$19,350, respectively with interest rates between 4.65%-6.50%.

**Notes Receivable from Participants**

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through payroll deductions. As of June 30, 2024 and 2023, outstanding notes receivable from participants were \$4,380 and \$6,393, respectively.

**Benefit Payments**

Upon termination of service due to retirement, death, or disability, a participant or the participant's beneficiary may request a distribution equal to the value of the vested interest in his or her account. Based on selected investments, participants may elect to receive a lump-sum amount or installment payments over a period of the life of the participant or spouse. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a distribution or rollover into another eligible retirement plan as permitted by the Plan. The Plan allows for in-service distributions if a participant reaches age 59½ and hardship distributions subject to Plan provisions.

**HAMLIN ROBINSON SCHOOL DEFINED CONTRIBUTION RETIREMENT PLAN**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2024 AND 2023**

**NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Basis of Accounting**

The financial statements of the Plan are prepared on the accrual basis of accounting.

**Use of Estimates**

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

**Investment Valuation and Income Recognition**

The Plan's investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

**Notes Receivable from Participants**

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of June 30, 2024 or 2023. Delinquent notes receivable are recorded as distributions on the basis of the terms of the Plan document.

**Benefit Payments**

Benefits are recorded when paid.

**Administrative Expenses**

The Plan's expenses are paid by the Employer. If they are not so paid, they may be paid from Plan assets, including a Revenue Credit Account, as provided by the Plan document. Expenses paid directly by the Employer are excluded from these financial statements. In addition, certain investment related expenses are included in net appreciation of fair value of investment presented in the accompanying statement of changes in net assets available for benefits.

**Subsequent Events**

The Plan has evaluated subsequent events through March 20, 2025, the date the financial statements were available to be issued.

**HAMLIN ROBINSON SCHOOL DEFINED CONTRIBUTION RETIREMENT PLAN**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2024 AND 2023**

**NOTE 3 CERTIFICATION OF INVESTMENT INFORMATION**

Teachers Insurance and Annuity Association of America (TIAA) and College Retirement Equities Fund (CREF), the insurance companies of the Plan, (collectively the insurance companies) (qualified institutions) have supplied the Plan administrator with a certification as to the completeness and accuracy of all investment information and notes receivable from participants reflected on the accompanying statement of net assets available for benefits as of June 30, 2024 and 2023, the statement of changes in net assets available for benefits for the year ended June 30, 2024, and the supplemental schedule of assets (held at end of year) as of June 30, 2024.

**NOTE 4 FAIR VALUE OF INVESTMENTS**

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

*Level 1* – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

*Level 2* – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; or
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

*Level 3* – Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2024 AND 2023**

**NOTE 4 FAIR VALUE OF INVESTMENTS (CONTINUED)**

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at June 30, 2024 and 2023.

*Pooled Separate Accounts:* Valued at the net asset value (NAV) of units as determined by the insurance company. NAV is a readily determinable fair value and is the basis for current transactions.

*Interest in Sub-Accounts of Variable Annuity Contracts:* Fair values of accumulation units held by the Plan in the Interest in Sub-Accounts of Variable Annuity Contracts are based on each account's daily NAV, which is considered by Plan management to be the best approximation of fair value. The accounts are not exchange traded. NAV is a readily determinable fair value and is the basis for current transactions.

*Investment Contracts with TIAA:* Investments in the insurance company general account deemed nonfully benefit-responsive are comprised of guaranteed funds and fixed accounts and are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30:

	2024			
	Level 1	Level 2	Level 3	Total

**Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements**

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs:

2024				
Instrument	Fair Value	Valuation Technique	Significant Unobservable Inputs	Range
TIAA Traditional Annuity	\$ 464,697	Discounted Cash Flow	Risk-Adjusted Discount Rate	GRA - 4.00%- 6.75%
		Theoretical Transfer (Exit Value)	Applied	

  

2023				
Instrument	Fair Value	Valuation Technique	Significant Unobservable Inputs	Range
TIAA Traditional Annuity	\$ 456,044	Discounted Cash Flow	Risk-Adjusted Discount Rate	GRA - 3.70%- 6.25%
		Theoretical Transfer (Exit Value)	Applied	

**NOTE 5 ANNUITY CONTRACTS WITH INSURANCE COMPANY**

The Plan has annuity contracts with TIAA and CREF that are individually owned. TIAA may maintain a portion of the contributions in general accounts, which are known as the TIAA Traditional Benefit Responsive, TIAA Traditional Benefit Non Responsive, and Plan Loan Default Fund. The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The issuer of the guaranteed investment contracts is contractually obligated to repay the principal and a specified interest rates that are guaranteed to the Plan. The crediting rates are based on a formula established by the contract issuer and provide a minimum guaranteed interest rate of 1% to 3%. The crediting rate is reviewed on a quarterly basis for resetting. The guaranteed investment contracts do not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The contracts that meet the fully benefit-responsive investment contract criteria are reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by TIAA and CREF, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2024 AND 2023**

**NOTE 5 ANNUITY CONTRACTS WITH INSURANCE COMPANY (CONTINUED)**

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, and (4) a material amendment to the agreement without the consent of the issuer.

As part of the contracts, TIAA and CREF also maintain a portion of the contributions in guaranteed accounts, which are called the TIAA Traditional Non Benefit Responsive. The accounts are credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses charged by TIAA and CREF. The guaranteed accounts are included in the financial statements at fair value because they are nonbenefit responsive. Nonbenefit-responsive investment contracts have liquidity restrictions. Upon termination of the investment contract, the lump-sum liquidation value of the general account portion of the portion of the participant's accumulation value shall be equal to the product of (a) the participant's general account accumulation value on the liquidation date, reduced by the liquidation charge applicable on the liquidation date and (b) a market value adjustment percentage.

**NOTE 6 RISKS AND UNCERTAINTIES**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

**NOTE 7 PLAN TERMINATION**

Although it has not expressed any intent to do so, the Organization has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the participants would remain 100% vested in their Employer contributions.

**NOTE 8 PLAN TAX STATUS**

403(b) plans are not required to receive a favorable determination letter from the IRS indicating that the Plan is tax-exempt under present income tax law. The Plan is required to operate in conformity with the IRC to maintain the tax-exempt status for Plan participants under Section 403(b). The Plan Sponsor adopted a volume submitter document effective January 1, 2010, with a favorable opinion letter dated August 7, 2017, in which the IRS stated the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

**NOTE 9 HISTORICAL PLAN ADMINISTRATION**

Prior to 2009, TIAA and CREF, tracked contributions, investment earnings, distributions, and other activity on a “contract” basis. Each participant was setup as having a separate “contract” and Plan level activity was not captured. This method of administration was utilized prior to January 1, 2009 as the regulations governing 403(b) plans did not require Plan level reporting. The Plan administrator believes a good faith effort was made to obtain all relevant information prior to January 1, 2009. However, as a result of the method of administration and lack of historical Plan level financial reporting, the Plan administrator is unable to obtain Plan level information prior to January 1, 2009.

This is deemed a prohibited transaction in accordance with ERISA and the IRC. The Plan administrator will take appropriate corrective action and intends to deposit lost earnings to the Plan.
