INDEPENDENT AUDITORS' REPORT

To the Plan Sponsor of NAHS Employee Stock Ownership Plan
Mission Viejo, California

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of NAHS Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year then ended December 31, 2023, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of NAHS Employee Stock Ownership Plan as of December 31, 2023 and 2022, and the changes in its net assets available for benefits for the year then ended December 31, 2023, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of NAHS Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about NAHS Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of NAHS Employee Stock Ownership Plan‘s internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about NAHS Employee Stock Ownership Plan‘s ability to continue as a going concern for a reasonable period of time.

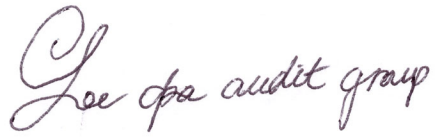

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of reportable transactions as of and for the year ended December 31, 2023 is presented for purposes of additional analysis and is not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTE 1: DESCRIPTION OF PLAN

The following description of the NAHS Employee Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

NAHS Holding, Inc. (the Company) established the Plan effective June 29, 2018.

The Plan is a defined contribution plan intended to constitute an employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (IRC). The Plan covers all employees of the Company who have completed the eligibility requirements including attaining the age of 21, completing 1,000 hours of service, and being employed on the last day of the plan year. The Plan excludes leased employees and certain employees covered under a collective bargaining agreement. The Plan is designed to invest primarily in securities issued by the Company and is authorized to borrow money for such investments. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan is governed by the Trustees.

The Plan purchased Company common stock using the proceeds of notes payable to former stockholders and the Company and holds the stock in a trust established under the Plan (see Note 6). As the Plan makes debt payments, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC.

The borrowings are collateralized by the unallocated shares of common stock and are guaranteed by the Company. The lenders have no rights against shares of common stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to:

(a) the accounts of employees with vested rights in allocated common stock (Allocated); and

(b) common stock not yet allocated to employees (Unallocated).

Contributions

Contributions may be in the form of shares of common stock or cash. Contributions for each year are never less than the amount required to enable the Plan to discharge its current obligations, without regard to whether some or all of such contribution may fail to qualify for an income tax deduction by the Company. In order to receive an allocation of Company contributions, a participant must be employed on the last day of the Plan year unless termination is due to death, disability, or retirement. Contributions by Plan participants are not permitted by the Plan.

NOTE 1: DESCRIPTION OF PLAN (CONTINUED)

Contributions (continued)

Employer contributions for the years ended December 31, 2023 and 2022, were $230,827 and $262,840, respectively, and were deposited to the Plan under the provisions above, with the balance contributed to the NAHS Employee Stock Ownership Plan.

Contributions are subject to Internal Revenue Service (IRS) limitations.

Vesting

Vesting of participant's accounts is based on years of credited service with the Company. A year of credited service is defined as 1,000 hours. A participant's account becomes fully vested after six years of credited service with the Company, under a graded vesting schedule.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account only with respect to certain extraordinary transactions such as corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, or sale of substantially all the assets of the business. All other corporate matters requiring a vote of the shareholders, including election of the Board of Directors, will be voted by the Trustees. The Trustees shall vote any unallocated shares held by the Trust as well as any allocated shares for which a participant has failed to give timely voting direction.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation service in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%.

Put Option

Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

NOTE 1: DESCRIPTION OF PLAN (CONTINUED)

Payment of Benefits

For participants who terminate employment due to normal retirement, death, or total and permanent disability, distributions of account balances of $5,000 or less will occur on or before the end of the plan year following the plan year in which employment terminates. For account balances exceeding $5,000, distributions may occur in a lump sum, partial payment or in five substantially equal annual installments. A special rule may spread the distribution of the Company Stock in the account of participants with large account balances over an even longer period of time. Distributions under $5,000 may be made without the consent of the participant.

For participants who terminate employment for reasons other than normal retirement, death, or total and permanent disability, distributions of vested account balances of $5,000 or less will occur on or before the end of the plan year following the plan year in which employment terminates. For vested account balances exceeding $5,000, funds are eligible for distribution commencing during the fourth plan year following the plan year in which the participant's employment terminates.

Distributions will be made in the form of cash or Company common stock. If a distribution is made in the form of Company common stock, the Company will repurchase the common stock (such ESOP participants are required to immediately sell such stock). Upon termination of employment, inactive participants who have shares of Company Stock shall have their Company Stock exchanged for other investments upon termination or as soon as administratively feasible. Under the Plan's account segregation policy, the Trustees make the exchange determination on an annual basis.

Allocation of Contributions, Forfeitures, and Earnings

Contributions, stock released from suspense, and forfeitures are allocated to active participants each year in proportion of the participant's eligible compensation to total eligible compensation. Plan earnings and dividends on allocated shares are allocated to each participant's account based on the ratio of the participant's account balance. Each participant's account is credited as of the last day of each plan year with an allocation of employer contributions, shares of the Company's common stock released by the ESOP Independent Trustee (Trustee) from the unallocated account, and forfeitures of terminated participants' non-vested accounts. Forfeited accounts are allocated to participants in the year the forfeiture occurs. There were $11 in forfeitures allocated to participant's accounts for the year ended December 31, 2022.

NOTE 1: DESCRIPTION OF PLAN (CONTINUED)

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability, or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Participants vest 20 percent per year of service, after two years, and are 100-percent vested after six years of service.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock (allocated) and (b) stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition

The Plan’s investments are reported at estimated fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Realized gains and losses from security transactions are reported on the average cost method. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan’s gains and losses on investments bought and sold as well as held during the year.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Administrative Expenses

Expenses paid directly by the Company are excluded from these financial statements and include expenses related to the design, establishment, or termination of the Plan. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits.

Payment of Benefits

Benefits are recorded when paid.

NOTE 3: INVESTMENT IN NAHS HOLDING, INC. COMMON STOCK

The cost and fair value of NAHS Holding, Inc. common stock held by the Plan at December 31 are as follows:

	2023		2022	
	Allocated	Unallocated	Allocated	Unallocated
DECEMBER 31, 2023 AND 2022				
Common stock:				
Number of Shares	300,000	700,000	250,000	750,000
Original cost	$ 1,014,000	$ 2,362,800	$ 845,000	2,531,800
Fair Market Value	$ 1,998,993	$ 4,661,007	$ 110,070	$ 329,930

NOTE 4: FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;

- quoted prices for identical or similar assets or liabilities in inactive markets;

NOTE 4: FAIR VALUE MEASUREMENTS (CONTINUED)

- inputs other than quoted prices that are observable for the asset or liability;

- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2023 and 2022.

NAHS Holding, Inc. common stock: Valued at estimated fair value based on an independent third-party appraisal. This appraisal is based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables and estimated fair value of Company assets and liabilities. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of:

	2023		2022	
	Level 3	Total	Level 3	Total
DECEMBER 31, 2023 AND 2022	$ 6,660,000	6,660,000	$ 440,000	$ 440,000

The following table represents certain changes in the Plan's Level 3 financial instruments for the year ended December 31, 2023:

	Investment in NAHS Holding, Inc. Common Stock
Balance, beginning of year	$ 440,000
Unrealized appreciation in estimated fair value	6,220,000
Balance, end of year	$ 6,660,000

NOTE 5: NOTES PAYABLE

In June 2018, the Plan entered into four loan agreements totaling $3,376,800, the proceeds of which were used to purchase 100% of the Company's common stock. Unallocated shares are collateral for the loans. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 49,989 shares being released and allocated for the plan year ended December 31, 2023.

The agreements provide for the loans to be repaid over nineteen and a half years, including interest at 3.05%. The outstanding amount of the notes payable as of December 31, 2023 and 2022 was $2,529,036 and $2,672,244, respectively. Future minimum payments to be repaid on the loans are as follows:

Year Ending December 31,		
2024	$	147,514
2025		152,014
2026		156,650
2027		161,428
2028		166,352
Thereafter		1,745,078
Total	$	2,529,036

NOTE 6: PLAN TERMINATION

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC. Upon termination of the Plan, the Trustees will pay all liabilities and expenses of the trust fund and to sell shares of financed stock held in the loan suspense account to the extent it determines such a sale to be necessary in order to repay the loan. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 7: PLAN TAX STATUS

The IRS has determined and informed the Company, by a letter dated November 25, 2019, that the Plan and related trust are designed in accordance with the applicable requirements of the IRC and, therefore, the related trust is exempt from taxation. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan is qualified, and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 8: RELATED PARTY TRANSACTIONS

Plan investments include shares of NAHS Holding, Inc. common stock managed by the Company. The loan agreements entered into (Note 5) are all payable to the Company and former stockholders of the Company. Argent Trust Company is the trustee for its investment in the Company's common stock and Principal Life Insurance Company is the recordkeeper of the Plan.

NOTE 9: RISKS AND UNCERTAINTIES

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumption process, it is at least reasonably possible that changes in the value of common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

NOTE 10: SUBSEQUENT EVENTS

Events subsequent to December 31, 2023 have been evaluated through March 14, 2025, which is the date the financial statements were available to be issued. Management did not identify any events that required disclosure.

Effective January 1, 2025, the Plan was amended to (1) disregard years of service for vesting purposes prior to January 1, 2018; (2) modify the timing of forfeiture of the nonvested portion of a participant's account balance following termination of employment; (3) increase the mandatory cashout threshold from $5,000 to $7,000; (4) incorporate statutorily mandated changes with respect to designated beneficiaries as prescribed by the Setting Every Community Up for Retirement Enhancement Act of 2019 ("SECURE"); and (5) increase the required beginning age for required minimum distributions as prescribed by the SECURE 2.0 Act of 2022.
