## Actuarial Valuation at 10/1/2023 for Plan Year 10/1/2023 to 9/30/2024

### 2023 Form 5500 Schedule SB, Part V - Statement of Actuarial Assumptions/Methods (EIN: 23-0739565/PN: 001)

#### Actuarial Cost Method

Liabilities shown in this report are computed in accordance with the Pension Protection Act of 2006 and subsequent guidance issued by the Internal Revenue Service. The target normal cost is the present value of all benefits that have accrued or have been earned (or that are expected to accrue or to be earned) under the plan during the plan year. The funding target of the plan for the plan year is the present value of all benefits that have been accrued or earned under the plan as of the first day of the plan year.

The benefits taken into account in determining the funding target and target normal cost are all benefits earned or accrued under the plan, including retirement-type and ancillary benefits. The determination of the funding target and target normal cost is based on plan provisions that are adopted no later than the valuation date for the plan year and that become effective during that plan year.

#### Asset Valuation Method

Two-year smoothed value of plan assets determined in accordance with IRS Notice 2009-22.

#### Actuarial Assumptions

The actuarial assumptions summarized below are either prescribed by law, or when not prescribed by law, selected by the plan's actuary as the best predictor of future experience, based on all available prior experience and future expectations. For any assumption not prescribed by law or selected by the plan's actuary, the individual or organization selecting such assumption is identified separately, and the report will note if the actuary has any disagreement with the appropriateness of the assumption.

### 2023 Form 5500 Schedule SB, Part V - Statement of Actuarial Assumptions/Methods (EIN: 23-0739565/PN: 001)

Assumption Bias	In the actuary's professional judgment, the combined effect of the assumptions herein is expected to have no significant bias (i.e., it is not significantly optimistic or pessimistic). This statement applies to assumptions and methods other than 1) those set by law and 2) those that the actuary has not selected and is unable to assess for reasonableness for the purpose of the measurement.
Changes Since Prior Year	
Method Changes	There have been no method changes in the funding valuation since the prior year.
Assumption Changes - Funding	<p>The valuation interest rates were changed to the 24-month segment rates for October 2023 from the 24-month segment rates for October 2022, each adjusted as applicable to fall within the 25-year average interest rate stabilization corridor.</p> <p>The mortality assumption was changed to the 2023 male and female static mortality tables for non-annuitants and annuitants per section 430(h)(3) from the 2022 male and female static mortality tables for non-annuitants and annuitants per section 430(h)(3).</p>
Other Assumption Changes - Funding	None.
Assumption Changes - ASC960	<p>The valuation interest rate remained the same at 5.00%.</p> <p>The Society of Actuaries kept mortality improvement rates unchanged from last year. Therefore, this plan's mortality assumption did not change and the mortality table used to value plan benefits remained as: Pri-2012 male and female white collar worker tables for annuitants and non-annuitants projected generationally using scale MP-2021.</p>
Other Assumption Changes - ASC960	None.

#### **2023 Form 5500 Schedule SB, Part V - Summary of Plan Provisions (EIN: 23-0739565/PN: 001)**

Jonestown Bank & Trust Company Pension Plan is a defined benefit pension plan that was established February 5, 1963, and was last amended and restated effective as of October 1, 2010. The plan year begins October 1 and ends September 30. Effective December 31, 2012, benefit accruals under the plan were frozen.

#### **ELIGIBILITY TO PARTICIPATE**

Participation under this Plan was frozen effective February 1, 2006, with respect to employees with a first day of employment on or after that date.

An employee becomes a participant in the Plan on the earlier of the following dates:

October 1 nearest the date on which the employee has attained age 20.5 and completes 1 year of service.

October 1 coinciding with or next following the date on which the employee has attained age 20.5 and completed 6 full months of employment.

#### **NORMAL RETIREMENT BENEFIT**

##### **Normal Retirement Date**

A participant is eligible for his normal retirement pension as of the first day of the month on or after the participant attains age 65.

##### **Normal Retirement Benefit**

The normal retirement pension is payable monthly as long as the participant lives, with payments ceasing upon the participant's death.

## **2023 Form 5500 Schedule SB, Part V - Summary of Plan Provisions (EIN: 23-0739565/PN: 001)**

### **Normal Retirement Pension Formula**

If the participant retires as of his normal retirement date, his monthly pension will equal the sum of his monthly pension credits plus his frozen accrued benefit as of September 30, 2003. The monthly benefit accrued is 1/12 of 1.6% of compensation for each year of benefit service after September 30, 2003. Effective December 31, 2012, benefit accruals under the plan were frozen.

### **Compensation**

For the purpose of the Plan, "compensation" means the participant's earnings for the plan year. The Plan takes into account W-2 wages for federal income tax withholding purposes including 401(k) and similar contributions, but subject to the Code section 401(a)(17) dollar limitation. Compensation excludes wages payable after employment termination under a severance agreement.

Compensation under the plan was frozen as of December 31, 2012.

### **Accrued Benefit**

The accrued benefit on any date other than the normal retirement date is determined according to the normal retirement pension formula, but based upon the participant's compensation and benefit service date.

### **Retirement Payment Options**

A participant may elect to receive his monthly pension in one of these optional forms of payment:

#### **Lifetime Pension**

**Lifetime Pension with Guaranteed Period** with guaranteed payments for 60, 120 or 180 months.

**Joint and Survivor Pension** with 100%, 75%, or 50% survivor pension.

#### 2023 Form 5500 Schedule SB, Part V - Summary of Plan Provisions (EIN: 23-0739565/PN: 001)

**Lump Sum Payment** - If the present value of the vested pension does not exceed \$5,000, this is the only payment option. This payment option is not available if the Plan does not meet certain Internal Revenue Code funding requirements.

If the present value of the vested pension does not exceed \$1,000, the Plan will automatically distribute the benefit in cash if there is no election. If the present value of the vested pension is greater than \$1,000 but does not exceed \$5,000, the Plan will automatically roll over the benefit to an IRA if there is no election.

If the participant is married at the time payments are to begin, the automatic form of payment will be a Joint and 50% Survivor Pension with the spouse named as survivor annuitant. If the participant is not married at the time payments are to begin, the automatic form of payment will be a Lifetime Pension.

**Employment after Retirement.** If a participant in pay status returns to employment, retirement benefits will not be suspended.

#### OTHER RETIREMENT BENEFITS

##### Postponed Retirement

An active participant may elect to commence his benefits after qualifying for normal retirement, even if he remains in active employment. This postponed retirement benefit is the greater of:

##### Early Retirement
