Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) Unmodified (2) Qualified (3) Disclaimer (4) Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) DOL Regulation 2520.103-8 (2) DOL Regulation 2520.103-12(d) (3) neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: MCNAIR, MCLEMORE, MIDDLEBROOKS & CO

(2) EIN: 58-1094351

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) This form is filed for a CCT, PSA, DCG or MTIA. (2) It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		X	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		X	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		X	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		X	
e Was this plan covered by a fidelity bond?	X		5000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		X	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	X		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)	X		
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		X	
l Has the plan failed to provide any benefit when due under the plan?		X	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)			
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? Yes No
 If "Yes," enter the amount of any plan assets that reverted to the employer this year 0.

5b If, during this plan year, any assets or liabilities were transferred from this plan to another plan(s), identify the plan(s) to which assets or liabilities were transferred. (See instructions.)

INDEPENDENT AUDITOR'S REPORT

Benefits Committee, Georgia Farm Bureau
Mutual Insurance Company Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of **Georgia Farm Bureau Mutual Insurance Company Retirement Plan**, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of June 30, 2024 (in liquidation) and 2023 (ongoing), and the related statements of changes in net assets available for benefits for the years ended June 30, 2024 (in liquidation) and 2023 (ongoing), and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Georgia Farm Bureau Mutual Insurance Company Retirement Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of June 30, 2024 and 2023, and for the year ended June 30, 2024, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Georgia Farm Bureau Mutual Insurance Company Retirement Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter – Plan Termination and Liquidation Basis of Accounting

As further discussed in Note 4 to the financial statements, the Plan Sponsor approved an amendment on December 20, 2023, to terminate the Georgia Farm Bureau Mutual Insurance Company Retirement Plan effective December 31, 2023 and management determined liquidation is imminent. As a result, the Plan changed its basis of accounting from the going concern basis of accounting used in presenting the fiscal year 2023 financial statements to the liquidation basis of accounting used in presenting the fiscal year 2024 financial statements. Our opinion is not modified with respect to that matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, and to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Georgia Farm Bureau Mutual Insurance Company Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters – Supplemental Schedules Required by ERISA

The supplemental schedule of assets (held at end of year) as of June 30, 2024 and schedule of reportable transactions for the year ended June 30, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

MUTUAL INSURANCE COMPANY RETIREMENT PLAN**

NOTES TO FINANCIAL STATEMENTS

(1) Description of Plan

The following brief description of the Georgia Farm Bureau Mutual Insurance Company Retirement Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General

The Plan is a noncontributory defined benefit pension plan covering substantially all employees of Georgia Farm Bureau Companies. These financial statements include only the Plan assets sponsored by the Georgia Farm Bureau Mutual Insurance Company (the Company) or (the Sponsor). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Company absorbs certain administrative costs of the Plan.

The Plan is administered by the Company's Benefits Committee (the Committee), which is a committee of the board of directors of the Company. The Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the board of directors.

The board of directors of the Company approved a redesign of the Plan that was effective January 1, 2007. The change included freezing the Plan to no longer allow participants with new hire dates after December 31, 2006. Participants with hire dates prior to January 1, 2007, continue to accumulate Plan benefits.

In February 2017, the Plan was amended so that no employee or former employee who was hired or rehired on or before December 31, 2006, and who has not already become an active participant on or before February 28, 2017, shall become an active participant. The Plan was also amended to freeze the average monthly pay and benefit service for purposes of figuring an employee's earned benefit as of February 28, 2017. No additional benefits shall accrue after that date.

On December 20, 2023, the Company signed an amendment to terminate the Plan effective December 31, 2023. See Note 4. The liquidation basis was adopted as of July 1, 2023.

Funding Policy

The Company's funding policy is to make annual contributions to the Plan in amounts sufficient for all employees' benefits to be fully provided for by the time the employees retire. The Company was not required to make contributions for the Plan years ended June 30, 2024 and 2023, respectively.

(1) Description of Plan (Continued)

Pension Benefits

A participant is 100 percent vested after five years of credited service. In February 2017, the Plan was amended so that all active participants in the Plan on February 28, 2017 are 100 percent vested. The Plan was also amended to freeze the average monthly pay and benefit service for purposes of figuring an employee's earned benefit as of February 28, 2017. No additional benefits shall accrue after that date.

A participant will be eligible for a normal retirement benefit at the later of age 65 or five years after plan entry. The Plan permits early retirement at ages 55-64. Participants who are age 55 with 15 years of vesting service as of June 30, 2013 are entitled to annual pension benefits as follows:

The sum of (a) and (b) multiplied by (c) and (d)

- (a) 53.2% of Final Average Monthly Compensation up to \$800
- (b) 70.0% of Final Average Monthly Compensation in excess of \$800
- (c) Years of career service divided by expected years of career service
- (d) Expected benefit service divided by 30, not to exceed 100%

Participants who have not reached age 55 and 15 years of vesting service as of June 30, 2013, are entitled to annual pension benefits as follows:

The sum of (a) and (b)

- (a) Accrued benefit based on benefit formula prior to June 30, 2013
- (b) The sum of (i) and (ii) multiplied by (iii) and (iv)
 - (i) 53.2 % of Career Average Monthly Compensation after July 1, 2013 up to \$800
 - (ii) 70.0% of Career Average Monthly Compensation after July 1, 2013 in excess of \$800
 - (iii) Years of career service after July 1, 2013 divided by expected years of career service
 - (iv) Expected benefit service divided by 30, not to exceed 100%

Employees may elect to receive the value of their accumulated Plan benefits as a lump-sum distribution upon retirement, or they may elect to receive their benefits in the form of a joint and survivor annuity.

Death and Disability Benefits

If an active employee dies at age 55 or older, a death benefit equal to the value of the employee's accumulated pension benefits is paid to the employee's beneficiary. Disabled participants begin receiving normal retirement benefits computed as though they had been employed to normal retirement age with their annual compensation remaining the same as at the time they became disabled.

(2) Summary of Accounting Policies

The accounting policies of the Plan are maintained in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). The Financial Accounting Standards Board (FASB) provides authoritative guidance regarding U.S. GAAP through the *Accounting Standards Codification (ASC)* and related Accounting Standards Updates (ASUs). The following describes the more significant of those policies:

Basis of Accounting

The accompanying financial statements are prepared on the liquidation basis of accounting and accrual basis of accounting for the years ended June 30, 2024 and 2023, respectively. FASB *ASC 960-40*, stipulate that employee benefit plans first report on the liquidation basis in year ends after the determination that liquidation is imminent.

Use of Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits as of the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value approximates the amount expected to be collected under the liquidation basis of accounting. The Plan's Benefits Committee determines the Plan's valuation policies utilizing information provided by the trustee and investment advisors. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Certain expenses incurred in connection with general administration of the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, investment-related expenses are included in net appreciation (depreciation) in fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

(2) Summary of Accounting Policies (Continued)

Reclassifications

Certain amounts included in the accompanying financial statements for the year ended June 30, 2023, have been reclassified from their original presentation to conform to the presentation for the year ended June 30, 2024. The reclassification had no effect on the net decrease in net assets available for benefits for the year ended June 30, 2023.

(3) Actuarial Present Value of Accumulated Plan Benefits

Accumulated Plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the years of service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are generally based on employees' compensation during their last five years of credited service. The accumulated Plan benefits for active employees are based on their average compensation during the five years ending on the date of which the benefit information is presented (the valuation date). Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated Plan benefits. Effective February 28, 2017, the Plan was amended to freeze the average monthly pay and benefit service for purposes of figuring an employee's earned benefit. No additional benefits shall accrue after that date.

The actuarial present value of accumulated Plan benefits is determined by an independent actuary and is the amount which results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements for events such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

(3) Actuarial Present Value of Accumulated Plan Benefits (Continued)

The significant actuarial assumptions used in determining accumulated plan benefits as of July 1, 2023 are as follows:

- (1) *Life expectancy of participants*: During the benefit payment period the Internal Revenue Service (IRS) Prescribed Mortality - Static Annuitant, male and female table is used. Before the benefit payment period the IRS Prescribed Mortality - Static Non-annuitant, male and female table is used. The Plan accounting mortality assumption is based on PRI-2012 Total dataset base rate mortality table projected generationally using the Principal Mortality Improvement Scale (Principal 2023).
- (2) *Retirement Age Assumptions*: Varies by age and service. All inactive participants are assumed to retire at age 62.
- (3) *Asset Return*: 5.50 percent. The asset return is developed as a weighted average rate based on the target asset allocation of the Plan and the long-term capital market assumptions.
- (4) *Annual Cost and Adjusted Funding Target Attainment Percentage (AFTAP)*: 5.31 percent effective interest rate. The segment interest rates used for liabilities in the calculation of annual cost and AFTAP reflect the MAP-21 interest rate corridor defined in Internal Revenue Code (IRC) §430(h)(2)(C)(iv).
- (5) *Interest Rate Used to Value Liabilities*: 5.00 percent. The interest rate used to value *ASC 960* liabilities is developed as long-term expected geometric return on Plan assets.
- (6) *Other Liabilities*: 3.90 percent effective interest rate. The effective interest rate used for liabilities in the determination of the calculated IRC §404 deduction, highly compensated employee benefit payment restrictions, Pension Benefit Guaranty Corporation (PBGC) variable rate premium, 4010 funded status and 4010 shortfalls.

For the June 30, 2023 valuation, the assumption regarding benefit form election is that 50 percent of participants are assumed to receive their benefit as a single lump sum payable immediately for retirement benefits and as a single lump sum payable at retirement for death, disability, and withdrawal benefits. The remaining participants are assumed to elect a monthly annuity at the assumed retirement age. Per IRS guidance, target normal cost must now include administrative expenses expected to be paid from Plan assets. For June 30, 2023, the expense estimate was assumed to be \$-0- due to excess assets.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of July 1, 2023. Had the valuation been performed as of June 30, there would be no material differences.

(4) Plan Termination

On December 20, 2023, the Company signed an amendment to terminate the Plan effective December 31, 2023. The net assets of the Plan will be allocated as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- 1) Benefits for Plan participants who retire, or were eligible to retire, three years or more before termination,
- 2) All other participants that were vested before termination of the Plan, and
- 3) Nonvested benefits that became vested on termination of the Plan.

Where a benefit falls in the priorities also depends on Plan provisions in effect five years prior to the termination date, a percentage of any increase in benefits due to changes in the Plan during the last five years, amounts guaranteed by the Pension Benefit Guaranty Corporation (a U.S. government agency), limitations for Plan participants who are classified as substantial owners, and dollar maximums on pensions, all as regulated by the PBGC.

Certain benefits under the Plan are insured by the PBGC when the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

Whether all participants receive their benefits should the Plan terminate will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

The Plan was fully distributed in February 2025.

(5) Information Prepared and Certified by the Trustee (Unaudited)

Principal Trust Company, the trustee of the Plan as of and for the years ended June 30, 2024 and 2023, has certified to the completeness and accuracy of the following data included in the accompanying financial statements.

- Investments at fair value as shown in the statements of net assets available for benefits as of June 30, 2024 and 2023.
- Net appreciation (depreciation) in fair value of investments, interest and dividend income, as shown in the statements of changes in net assets available for benefits for the years ended June 30, 2024 and 2023.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements, including related footnote disclosures and statements and supplemental information.

(6) Fair Value Measurements

The FASB issued a statement that defines fair value and establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

(6) Fair Value Measurements (Continued)

The following is a description of the valuation methodologies used for assets measured at fair value. The Plan believes the amounts expected to be collected under the liquidation basis approximates fair value; therefore, there have been no changes in the methodologies used as of June 30, 2024 and 2023.

Mutual Funds: Valued at the daily closing price as reported by the funds. The funds held by the Plan are open-end funds that are registered with the SEC. These funds are required to publish their daily net asset value and to transact at that price. The funds held by the Plan are deemed to be actively traded.

Pooled Separate Accounts: Fair value is measured by the net asset value (NAV) of the underlying investment assets. The NAV is the basis for current transactions and the investments can be redeemed at NAV as of the measurement date. Therefore, investments have a readily determinable value. Underlying assets may include, but are not limited to stocks, bonds, mortgages, real estate, mutual funds, and cash or cash equivalents.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30:

2024	Level 1	Level 2	Level 3	Total
Pooled Separate Accounts	\$ 303,142	\$ -	\$ -	\$ 303,142
Mutual Funds	<u>79,996,056</u>	<u>-</u>	<u>-</u>	<u>79,996,056</u>
Total Assets in the Fair Value Hierarchy	<u>\$ 80,299,198</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 80,299,198</u>
2023				
Pooled Separate Accounts	\$ 2,025,069	\$ -	\$ -	\$ 2,025,069
Mutual Funds	<u>87,285,612</u>	<u>-</u>	<u>-</u>	<u>87,285,612</u>
Total Assets in the Fair Value Hierarchy	<u>\$ 89,310,681</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 89,310,681</u>

(7) Income Tax Status

The Plan has received a favorable opinion letter from the IRS, dated March 10, 2014, which states that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan administrator maintains that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. The Plan administrator also maintains that the Plan has been administered in accordance with all applicable laws, and accordingly, no provision for income taxes has been made in the accompanying financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of June 30, 2024, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(8) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate risk, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

(9) Related Party and Party-in-Interest Transactions

Certain Plan investments are managed by Principal Trust Company. Principal Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. For the years ended June 30, 2024 and 2023, fees paid to parties-in-interest for administrative and investments advisory services, including withdrawal charges, totaled \$263,651 and \$192,930, respectively.

Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

(10) Concentrations of Credit Risks

Financial instruments which subject the Plan to significant concentrations of credit risk consist primarily of investments in mutual funds. As of June 30, 2024, two investments comprised 91 percent of total net assets available for benefits.

(11) Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits, as determined by the Plan's actuary, is as follows:

	<u>June 30, 2023</u>
Actuarial Present Value of Accumulated Plan Benefits	
Vested Benefits	
Participants in Pay Status	\$ 28,329,715
Inactive Participants	19,836,172

Nonvested Benefits	<u>4,552,295</u>
Total Actuarial Present Value of Accumulated Plan Benefits	<u><u>\$ 94,303,803</u></u>

The change in accumulated Plan benefits, as determined by the Plan's actuary, are as follows:

	<u>Year Ended</u> <u>June 30, 2023</u>
Actuarial Present Value of Accumulated Plan Benefits, Beginning	\$ 100,401,494
Increases (Decreases) During the Year Attributable to	
Increase for Interest Due to Decrease in Discount Period	4,980,100
Benefits Paid	(11,228,514)
Benefits Accumulated and Plan Experience	145,282
Change in Assumptions	<u>5,441</u>
Actuarial Present Value of Accumulated Plan Benefits, Ending	<u><u>\$ 94,303,803</u></u>

(12) Subsequent Events

In preparing the financial statements, the Plan Sponsor has evaluated events and transactions for potential recognition through April 7, 2025, the date the financial statements were available to be issued.

As of February 13, 2025, the Plan was measured and an insufficiency of approximately \$789,000 was noted. The Plan sponsor remitted a deposit on February 14, 2025, to correct the insufficiency.

[During benefit payment period](#)
 IRS Prescribed Mortality - Static Annuitant, male and female.

Assumptions selected by actuary

Inflation 2.40% increase per year.
 Our long-term inflation assumption considered the current economic environment, recent and historical data, and forecasts from Federal Reserve Bank FOMC, Congressional Budget Office, and Survey of Professional Forecasters. See Long-Term Capital Market Assumptions link.

Asset return 5.50% for the current plan year.
 The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link.

Expected expense The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets. This is the best estimate available of upcoming year's expenses.

Retirement Active participants

Age	Probability of retirement (by years of service)	
	Less than 30 years	30 or more years
55-59	2%	1%
60	10%	60%
61	5%	5%
62	50%	50%
63-64	10%	10%
65-69	50%	50%
70	remaining participants	remaining participants

Inactive participants are assumed to retire at age 62.

This assumption is based on the results of recent experience analysis and anticipated future experience.

Disability 1987 Commissioner's Group Disability Table, six month elimination period, male and female.
 We rely on a publicly published table due to the limited size of the plan. The 1987 CGDT was recommended by the Society of Actuaries for pension valuation purposes.

Marriage	<p>75% married; husbands are 3 years older than wives.</p> <p>This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.</p>
Withdrawal	<p>2003 Society of Actuaries Small Plan Age Table, multiplied by 0.50.</p> <p>We rely on a publicly published table due to the limited size of the plan. The SOA Small Plan Age Table is the most recent withdrawal experience table published by the Society of Actuaries. A multiplier of 0.50 is applied to this table to reflect the results of the most recent experience analysis and anticipated future experience.</p>
Form of benefit and basis	<p>50% of active and inactive participants will elect a benefit payable immediately in a lump sum for retirement benefits and as a lump sum payable at retirement for death, disability, and withdrawal benefits. The remaining participants will elect a monthly annuity on the normal form at the assumed retirement age.</p> <p>This assumption is based on the results of recent experience analysis and anticipated future experience.</p> <p>The single sum benefit is based on the applicable mortality and the plan's funding target interest rates, as prescribed.</p>
Methods prescribed by law	
Liability measure	<p>Funding target is the present value of the benefits accrued on the valuation date.</p> <p>Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.</p>
Lump sum payments	<p>Lump sum payments are valued using the plan's funding target interest rates as required, per IRS guidance. These rates are currently higher than the actual rates used to determine lump sum distributions. Therefore, plan liabilities do not currently recognize this additional cost and this may result in the plan not accumulating adequate assets. You may wish to consider additional contributions.</p>

Methods selected by plan sponsor

Asset method

The asset valuation method is prescribed by law for plans that elect to use a value other than market value.

For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years.

The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value.

When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.

Segment rates

24-month average with no weighting to prior law basis. Use rates where February is the last month included in the average.

PBGC premium basis

Variable rate premiums are calculated using census, market value of assets and the one-month average of corporate bond rates in effect on the valuation date. You elected this Standard interest method for the 07/01/2022 plan year and the method must be used for five years before a change can be made.

Segment 1 years 0-5	Segment 2 years 5-20	Segment 3 years 20+
5.26%	5.23%	5.16%

Methods elected by actuary

Retirees

Assets and liabilities for current and future retirees are included.

Vested benefits

A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date.

The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.

Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

Mortality Based on Pri-2012 Total dataset base rate mortality table projected generationally using the using the Principal Mortality Improvement Scale (Principal 2023).

Mortality base rates **Before benefit payment period**
 Employee amount-weighted, male and female

During benefit payment period
 Retiree amount-weighted, male and female

The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The Total dataset base rate table was selected based on information provided by the plan sponsor.

Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 1" is reasonable for this plan.

Mortality improvement Principal 2023 MI scale is based on MIM-2021-v4 application tool issued by SOA in October 2023 with the following parameters:

Parameter	Principal 2023
Historical dataset	SSA
Whittaker-Henderson Graduation	Order 3
Interpolation Structure	Basic
Graduated MI data last year ("jumping off" point)	2017
H/D transition ultimate year by age/cohort	2029/2029
Weight placed on interpolation by cohort	50%
Initial Slope periods (constraint)	2016-2017 (0.000)
LTR	SSA LTR 2023
COVID-19 or Excess load	None ¹

¹Based on the sponsor's input, plan experience does not show a need for long-term excess death or Covid death load adjustments.

See [Mortality Documentation](#) for rationale and additional information.

Interest rate used to value liabilities	5.00% The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.
Treatment of administrative expenses	No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses. Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer. Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.

Schedule SB, Line 22 - Description Of Weighted Average Retirement Age
 Georgia Farm Bureau Mutual Insurance Company Retirement Plan
 EIN 58-0707657 Plan No. 001

The weighted average retirement age is weighted by the expected percentage of active participants retiring at each age. The retirement rate reflects only those participants who meet retirement eligibility. An active participant working past assumed retirement age is expected to retire at current age.
