INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees
Voorhees College Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Voorhees College Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits and of accumulated plan benefits as of June 30, 2024 and 2023, and the related statements of changes in net assets available for benefits and of changes in accumulated plan benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of and for the years ended June 30, 2024 and 2023, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America ("GAAP").

- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (“GAAS”). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management’s election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan’s ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan’s transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor’s Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are

considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of June 30, 2024 is presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1. Description of Plan:

The following description of Voorhees College Pension Plan (the “Plan”) provides only general information. Participants should refer to the plan document for a more complete description of the Plan’s provisions.

General – The Plan is a defined benefit pension plan providing retirement, disability, and death benefits to all eligible employees. The Plan sponsor is Voorhees University (the “University”) and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). The Plan is administered by the University’s Benefits Committee (the “Committee”), which is a committee of the board of trustees of the University. The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan’s investment offerings and monitors investment performance.

Eligibility – Effective July 1, 2004, the Plan was amended to cease benefit accruals. Prior to that date, all full-time employees of the University who had attained the age of 21 and completed a six-month period of employment regardless of the number of hours of service or had completed at least 1,000 hours of service during an eligibility period, were eligible to participate in the Plan. As a result of the amendment, no additional employees are eligible to participate in the Plan.

Funding Policy – The Plan’s funding policy is for the University to contribute an amount that will meet or exceed the annual ERISA minimum funding requirement. During the years ended June 30, 2024 and 2023, the University made contributions of \$61,649 and \$0, respectively. The University’s contributions for both years met or exceeded the minimum funding requirements of ERISA. The University may also contribute additional amounts that its actuarial consultants advise to be appropriate.

Although it has not expressed any intention to do so, the University has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA

Pension Benefits – Employees with 5 or more years of service are entitled to annual pension benefits beginning at normal retirement age (65) equal to 1% of their final average annual compensation for each year of service provided prior to July 1, 2004, when benefit accruals were frozen. The Plan permits early retirement at ages 55 to 64. Employees receive their pension benefits in the form of a life annuity or with the spouse’s option, which provides an employee’s spouse with a partial adjusted benefit following an employee’s death. Employees may also select from a variety of payment options which vary the term and duration of their annual pension benefit payments. If employees terminate before rendering 5 years of service, they forfeit the right to receive the portion of their accumulated plan benefits attributable to the University’s contributions.

Note 1. Description of Plan (continued):

Pension Benefits (continued) – Retirement benefits initiated prior to 1995 are guaranteed by the insurance company. However, retirement benefits initiated on or after January 1, 1995 are not guaranteed by the insurance company.

Death and Disability Benefits – If an employee is married and dies before retirement, the employee's spouse will be eligible to receive a spousal benefit as long as the employee and spouse have been married for at least one year and the employee was vested in the Plan at the time of death.

Active employees who become totally disabled after 10 years of service receive annual disability benefits that are equal to the normal retirement benefits they have accumulated as of the time they become disabled. Disability benefits are paid until normal retirement age at which time disabled participants begin receiving normal retirement benefits computed as though they had been employed to normal retirement age with their annual compensation remaining the same as the amount at the time they became disabled.

Note 2. Summary of Significant Accounting Policies:

The following are the significant accounting policies of the Plan:

Basis of Accounting – The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates – The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note 2. Summary of Significant Accounting Policies (continued):

Payment of Benefits – Benefits payments to participants are recorded upon distribution.

Administrative Expenses – The Plan's expenses are paid either by the Plan or the University, as provided by the plan document. Expenses that are paid directly by the University are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation in fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Note 3. Actuarial Present Value of Accumulated Plan Benefits:

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The accumulated plan benefits for active employees are based on their average compensation during the highest consecutive 3 years out of 5 years, subject to a maximum limit of \$35,000. Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal, or retirement) between the valuation date and expected date of payment. The significant actuarial assumptions used in the valuations as of June 30, 2024 and 2023 were (a) life expectancy of participants (the 2024 and 2023 Internal Revenue Service ("IRS") Combined Mortality Tables, respectively), (b) disability (the 1955 United Auto Workers ("UAW") Disability Table), (c) retirement age assumptions (later of age 65, or the 5 year anniversary of Plan participation), (d) pre-retirement spouse's benefit (90% men married, 75% women married; husbands 4 years older than wives), and (e) investment return. The interest rate used to discount the obligation for 2024 and 2023 was 5.23% and 4.85%, respectively. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of July 1, 2024 and 2023. Had the valuations been performed as of June 30, there would be no material differences.

Voorhees College Pension Plan
Notes to Financial Statements

Note 4. Plan Termination:

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least 3 years, or that employees eligible to retire for that 3 year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those 3 years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the 5 years preceding Plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (“PBGC”) (a U. S. government agency) up to the applicable limitations (discussed below).
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor’s pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan’s termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan’s net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

Note 5. Fair Value Measurements:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (“level 1”) and the lowest priority to unobservable inputs (“level 3”). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (“contractual”) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2024 and 2023.

Mutual funds: Valued at the net asset value (“NAV”) of shares held at year end. The NAV is based on the closing price reported on the active market on which the shares are traded.

Voorhees College Pension Plan
Notes to Financial Statements

Note 5. Fair Value Measurements (continued):

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2024 and 2023:

Assets at Fair Value as of June 30, 2024

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual funds	\$ 4,712,538	\$ -	\$ -	\$ 4,712,538
Totals	<u>\$ 4,712,538</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 4,712,538</u>

Assets at Fair Value as of June 30, 2023

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual funds	\$ 4,283,134	\$ -	\$ -	\$ 4,283,134
Totals	<u>\$ 4,283,134</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 4,283,134</u>

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. The Plan evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. There were no transfers between levels during the years ended June 30, 2024 and 2023.

Gains and losses (realized and unrealized) included in changes in net assets for the periods above are reported in net appreciation (depreciation) in fair value of investments in the statements of changes in net assets available for benefits.

Note 6. Certified Investments:

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedule, including investments held at June 30, 2024 and 2023, and net appreciation in fair value of investments, interest and dividends for the years ended June 30, 2024 and 2023, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Matrix Trust Company ("Matrix"), trustee of the Plan.

Voorhees College Pension Plan
Notes to Financial Statements

Note 7. Risks and Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

Note 8. Tax Status:

The Plan obtained its latest determination letter on November 27, 2002, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (“IRC”). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of June 30, 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Generally, the Plan’s returns remain open for three years for federal tax examinations.

Note 9. Related Party and Party-In-Interest Transactions:

As described in Note 2, the Plan paid certain expenses related to plan operations and investment activity to Matrix and other service providers. These transactions are party in interest transactions under ERISA. Certain officers of the University who participate in the Plan also serve as plan administrators.

Note 10. Reconciliation of Financial Statements to Form 5500:

The following is a reconciliation of net assets available for benefits per the financial statements at June 30, 2024 and 2023, to Form 5500:

	<u>2024</u>	<u>2023</u>
Net assets available for benefits per the financial statements	\$ 4,790,342	\$ 4,380,379
Difference in employer contribution receivable	-	(61,649)
Net assets available for benefits per Form 5500	\$ 4,790,342	\$ 4,318,730

The following is a reconciliation of employer contributions per the financial statements for the years ended June 30, 2024 and 2023, to Form 5500:

	<u>2024</u>	<u>2023</u>
Employer contributions per the financial statements	\$ 39,282	\$ 61,649
Difference in employer contribution receivable	61,649	(61,649)
Employer contributions per Form 5500	\$ 100,931	\$ -

The deadline for submitting minimum required contributions to a defined benefit pension plan is eight and one-half months after the end of the plan year. The University's contribution for the plan year ended June 30, 2023 was not received by the Plan until after the expiration of this period. The instructions for Form 5500, Schedule SB indicate that only contributions received within eight and one-half months after the end of the plan year should be included in contributions made to the plan. Since the contributions reported on Form 5500, Schedule H must correlate with the contribution information on Schedule SB, there is a difference in reporting contributions received and receivable as of and for the year ended June 30, 2024 and 2023.

Note 11. Subsequent Events:

The Plan has evaluated events and transactions occurring subsequent to June 30, 2024, for items that should potentially be recognized or disclosed in these financial statements. The evaluation was conducted through December 13, 2024, which is the date these financial statements were available to be issued and did not identify any matters that required further disclosure in these financial statements.

Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Effective Date of Restatement	July 1, 2019
Plan Year	July 1 to June 30
Employer Fiscal Year	July 1 to June 30
Employer ID Number	57-0329786
Plan Administrator	Employer

Eligibility Requirements

Each employee becomes a Participant on the Plan Entry Date on or next following the attainment of age 21 years and the completion of 1 Year of Service.

Plan Entry Dates

An eligible employee will participate in the Plan on the July 1 on or next following completion of the eligibility requirements.

Credited Service

Definition

Prior to June 30, 1977, full years of continuous service.

After July 1, 1977 to July 1, 2004, all Plan Years with 1,000 or more Hours of Service.

Benefit accruals were frozen as of July 1, 2004.

Compensation

Definition

Compensation is the total compensation received by the Participant for the prior calendar year, including bonuses, overtime and commissions and any amounts deferred under a qualified 401(k), 403(b) or 125 Plan. Excluded are amounts for other fringe benefits, moving expenses, automobile allowances, taxable values of employer--paid group term life insurance, and any other special forms of payment.

Final Average

Highest three (3) out of the last five (5) years of compensation.

Vesting

100% vested after 5 years of service.

Vesting Benefit

The vested benefit shall be the vested portion of the Accrued Benefit as of the date of determination.

Normal Retirement

Eligibility

The normal retirement date for each Participant is the first of the month on or next following the later attainment of age 65, and the 5-year anniversary of Plan participation.

Benefit

The amount of annual retirement benefit payable according to the normal form of payment is calculated as follows:

- 1.0% of Final Average Compensation (FAC) multiplied by Years of Credited Service

Benefit accruals were frozen as of July 1, 2004.

Accrued Benefit

The Monthly Accrued Benefit, with respect to the formula above, as of any date, is calculated using actual service and compensation as of the date of determination.

Delayed Retirement

Eligibility is the first of the month on or next following the actual date the Participant terminates employment after Normal Retirement Date. The Benefit is based on service and final average compensation as of the actual retirement date or actuarial equivalent of Normal Retirement Benefit, if greater.

Early Retirement

Eligibility

Eligibility is contingent upon the attainment of age 55 and the completion of 10 years of Vesting Service.

Benefit

A Participant may retire on the first day of any month following attainment of eligibility. The amount of the monthly early retirement benefit is the Participant's Accrued Benefit reduced to reflect the early commencement of payments.

An actuarial reduction for each year which the benefit commences prior to Normal Retirement Date.

Disability Retirement

Eligibility

10 Years of Service and eligible for and receiving disability benefits under the Social Security Act or permanently disabled due to a job-related injury or disease and receiving Workman's Compensation.

Benefit

Accrued Benefit, payable immediately without reduction.

Payments

The first day of the month on or next following the date a Participant meets the disability requirements established in the Plan.

Death Benefit

Eligibility

Eligibility is contingent upon the vesting date and a minimum of 1 year of marriage.

Benefit Definition

A benefit computed assuming the Participant had terminated on date of death and had elected a 50% Joint and Survivor Annuity.

Payment

Monthly benefit at what would have been the Participant's Earliest Retirement Date, in the case of the 100% Joint and Survivor Annuity.

Post-retirement Death Benefits

Post-retirement Death Benefits are dependent upon the form of payment selected.

Methods of Payments

Under the Normal Form of payment, a Participant's retirement annuity is payable monthly for life, without further payments after death. A Participant may elect to receive the benefit under one of the following actuarially-equivalent optional modes:

- A reduced benefit is paid to the Participant for life, with such benefit (50%, 67% or 100% of such benefit thereof) continued after death for the subsequent lifetime of the eligible spouse. The same benefit forms are also available with 10 years of guaranteed payments.
- A reduced benefit is paid to the Participant for life, with 60, 120, 180 or 240 monthly payments guaranteed. If the Participant dies within the guarantee period, the payments continue to a beneficiary until 60, 120, 180 or 240 monthly payments have been paid.
- A lump sum payment of the actuarial equivalence of the participant's retirement benefit, provided the amount does not exceed \$10,000.

Unless the Participant has elected an option above, it is automatically assumed that a Participant, who has been married for at least one year, has elected a Joint and Survivor option with one-half of the initial amount continuing to the surviving spouse as contingent annuitant.

Contributions

The entire cost of the plan is borne by the Employer.

Amendments

The employer reserves the right to amend the Plan at any time.

Generally, the Pension Benefit Guaranty Corporation reserves the right to terminate the Plan if the Employer fails to meet the minimum funding standards, or is unable to pay benefits when due. If the Plan is terminated, the plan assets will be distributed among the plan participants based upon a priority allocation procedure, and the Employer shall be liable for any unfunded vested benefits to the extent required by law.
