Independent Auditors' Report

Plan Administrator and Participants

Guy C. Lee Manufacturing Company Defined Benefit Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Guy C. Lee Manufacturing Company Defined Benefit Pension Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of June 30, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, the statement of accumulated plan benefits as of June 30, 2023, the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Guy C. Lee Manufacturing Company Defined Benefit Pension Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of June 30, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Guy C. Lee Manufacturing Company Defined Benefit Pension Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Guy C. Lee Manufacturing Company Defined Benefit Pension Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Guy C. Lee Manufacturing Company Defined Benefit Pension Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Guy C. Lee Manufacturing Company Defined Benefit Pension Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter — Supplemental Schedules Required by ERISA

The supplemental schedule H, line 4i – schedule of assets (held at end of year) as of June 30, 2024 and supplemental schedule H, line 4j – schedule of reportable transactions for the year ended June 30, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to Financial Statements
June 30, 2024 and 2023

1. DESCRIPTION OF PLAN

The following description of Guy C. Lee Manufacturing Company Defined Benefit Pension Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

- a. General - The Plan is a defined benefit plan that covers substantially all employees of Lampe and Malphrus Lumber Company (the "Company") who have fulfilled the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1976, as amended (ERISA). Employees are eligible for participation on January 1 or July 1, following completion of one year of service (1,000 hours or more) and attainment of age 21.

Effective January 1, 2021 the plan was amended to transfer assets for the employees of Guy C. Lee Headquarters into a separate new plan, the Guy C. Lee Headquarters Defined Benefit Pension Plan.

- b. Funding - The Employer's contribution to the Plan as determined by the Plan's actuary is an amount necessary to fund the Plan in accordance with the minimum funding standards of ERISA. The Plan does not provide for employee contributions.
- c. Vesting – Participants are vested in their accumulated benefits according to the following schedule.

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than five	0%
Five or more	100%

- d. Pension Benefits - Participants with 5 or more years of service are entitled to annual pension benefits beginning at normal retirement age (the later of age 65 or the fifth year of Plan participation). The Plan permits early retirement at ages 55-64, but benefits are actuarially reduced for early commencement. If participants terminate before rendering 5 years of service, they forfeit the right to receive the accumulated plan benefits.

Participants may elect to receive their accumulated plan benefits as a lump-sum distribution upon termination of employment if the value of their vested benefits is \$20,000 or less. If the value of a participant's vested benefit is greater than \$20,000, unmarried participants will receive their pension benefits as a single life annuity. If the participant is legally married, he/she will receive an adjusted monthly retirement benefit in the form of a Qualified Joint and Survivor Annuity over the life of the participant and the life of the spouse, if he/she survives him. The participant may also elect one of the actuarially equivalent optional forms of settlement upon written authorization and pending agreement from the spouse, if applicable. Normal Annual Retirement is the sum of (a) plus (b), multiplied by (c) where: (a) is .45% of Average Annual Compensation not exceeding the lesser of \$10,000 or the Social Security taxable wage base in effect for the Plan year, (b) is .90% of Average Annual Compensation in excess of the lesser of \$10,000 or the Social Security taxable wage base in effect for the Plan year, and (c) is years of credited service not to exceed 35 years.

1. DESCRIPTION OF PLAN (Continued)

- e. Death and Disability Benefits - If an active participant dies, a death benefit equal to the value of the participant's vested accumulated pension benefits is paid to the participant's beneficiary. Active participants who become totally disabled may elect to receive a single lump-sum payment or annual disability benefits that are equal to the normal vested retirement benefits they have accumulated as of the time they become disabled.

If the participant is under normal retirement age, the disability retirement benefits will be reduced for such early commencement. Disability benefits are paid for the participant's life unless a lump-sum settlement is elected. If the participant is legally married on their annuity starting date, the benefit shall be adjusted and paid in the form of Qualified Joint and 50% Survivor Annuity over the life of the participant and the life of the participant's spouse, if he/she survives the participant. The participant may also elect one of the actuarially equivalent optional forms of settlement upon written authorization and pending agreement from the spouse, if he/she survives the participant.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements are prepared using the accrual method of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See the Fair Value Measurements note for further discussion. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Concentration of Credit Risk

The Plan maintains cash deposits in a commercial bank that at times exceeds amounts covered by insurance provided by the U.S. Federal Deposit Insurance Corporation (FDIC). The Plan believes that there is no significant risk with respect to these deposits.

Payment of Benefits

Benefit payments are recorded upon distribution.

Notes to Financial Statements
June 30, 2024 and 2023

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Expenses

The Plan's expenses are paid by either the Plan or the Company, as provided by the plan document. Expenses paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation/depreciation of fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

3. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are accumulated based on employees' compensation during the highest five consecutive years of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances – retirement, death, disability and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The significant assumptions used in the valuations as of June 30, 2024 and 2023, were (a) life expectancy of participants (the IRC 1.430(h)(3)-1(a)(3) Static Mortality Tables were used), (b) retirement age assumptions (the assumed average retirement age was 65), and (c) investment return. The 2024 and 2023 valuations included assumed average rates of return of 6.70% and 6.80%, respectively.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of July 1, 2023 and 2022. Had the valuations been performed as of June 30th, there would be no material differences.

4. PLAN TERMINATION

Although it has not expressed any intention to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its regulated regulations, generally to provide the following benefits in the order indicated:

1. Benefits attributable to employee contributions, taking into account those paid out before termination.

Guy C. Lee Manufacturing Company Defined Benefit Pension Plan
Notes to Financial Statements
June 30, 2024 and 2023

4. PLAN TERMINATION (Continued)

2. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding plan termination.
3. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations.
4. All other vested benefits (that is, vested benefits not insured by the PBGC).
5. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

5. TRUSTEE AGREEMENT

The appointed trustee of the Plan's assets is U.S. Bank National Association, for the years ended June 30, 2024 and 2023. The trustee has been given the authority and power to purchase and sell securities and other investments at their discretion.

6. INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by U.S. Bank National Association, the trustee of the Plan, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedules.

	<u>2024</u>	<u>2023</u>
Investments	\$ 9,270,313	\$ 9,033,664
Net investment gain (loss)	664,409	662,315

Notes to Financial Statements

7. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2024 and 2023.

Money market funds: Cash equivalents valued at \$1 per share.

Mutual Funds-Equity: Valued at the daily closing price reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price.

Mutual Funds-Fixed: Valued at the daily closing price reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price.

7. FAIR VALUE MEASUREMENTS (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2024:

	Fair Value Measurement at Reporting Date Using			
	Level 1	Level 2	Level 3	Total
Money market funds	\$ 144,231	\$ -	\$ -	\$ 144,231
Mutual Funds-Equity	-	4,670,959	-	4,670,959
Mutual Funds-Fixed	-	<u>4,455,123</u>	-	<u>4,455,123</u>
Total	<u>\$ 144,231</u>	<u>\$ 9,126,082</u>	<u>\$ -</u>	<u>\$ 9,270,313</u>

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2023:

	Fair Value Measurement at Reporting Date Using			
	Level 1	Level 2	Level 3	Total
Money market funds	\$ 132,776	\$ -	\$ -	\$ 132,776
Mutual Funds-Equity	-	4,665,246	-	4,665,246
Mutual Funds-Fixed	-	<u>4,235,642</u>	-	<u>4,235,642</u>
Total	<u>\$ 132,776</u>	<u>\$ 8,900,888</u>	<u>\$ -</u>	<u>\$ 9,033,664</u>

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluate the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended June 30, 2024 and 2023, there were no transfers in or out of level 3.

8. TAX STATUS

The Plan is a volume submitter document sponsored by AccuDraft, who received a favorable determination letter dated June 21, 2002, in which the Internal Revenue Service Stated that the Plan, as designed, is qualified under Code 401(a) and the trust established under the Plan is tax-exempt. The Plan was restated on April 25, 2012 due to a required EGTRRA restatement. The Plan sponsor and tax counsel believe the Plan is currently designed and being operated in accordance with applicable requirements of the Internal Revenue Code to retain its tax-exempt status.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the taxing authority. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Guy C. Lee Manufacturing Company Defined Benefit Pension Plan
Notes to Financial Statements
June 30, 2024 and 2023

9. PARTY-IN-INTEREST TRANSACTIONS

The Plan pays administrative and investment management fees to U.S. Bank National Association. U.S. Bank National Association is a service provider of the Plan and, therefore, these transactions qualify as party-in-interest transactions.

10. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

11. CONCENTRATIONS

At June 30, 2024, 50% and 48% of investments were held in the Wilmington Collective Investment Trust and Vanguard Fixed Income fund, respectively.

At June 30, 2023, 52% and 47% of investments were held in the Wilmington Collective Investment Trust and Vanguard Fixed Income fund, respectively.

12. SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through March 27, 2025, the date the financial statements were available to be issued.

 EIN: 56-1533996 PN: 001

Disability Rates	None
Decrement Timing	Middle of year decrements (except that retirement is assumed to occur at the beginning of the year for ages where the assumed retirement rate is 100%)
Surviving Spouse Benefit	It is assumed that 75% of males and 75% of females have an eligible spouse, and that males are three years older than their spouses.
Valuation Compensation	2022 pensionable earnings rolled forward one year with the salary increase assumption.
Benefit and Compensation Limits	Projected benefits and compensation are limited by the current IRC section 415 maximum benefit of \$265,000 and the compensation limit of \$150,000.
Valuation of Plan Assets	<p>Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.</p> <p>A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).</p>
Expected Return on Assets	
2021 Plan Year	5.50%
