INDEPENDENT AUDITOR'S REPORT

To The Board of Trustees:

Opinion

We have audited the financial statements of International Association of Machinists Motor City Health and Welfare Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits and of benefit obligations as of June 30, 2024 and 2023, and the related statements of changes in net assets available for benefits and of changes in benefit obligations for the years ended June 30, 2024 and 2023 and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits and of benefit obligations of International Association of Machinists Motor City Health and Welfare Plan as of June 30, 2024 and 2023, and the changes in its net assets available for benefits and changes in benefit obligations for the years ended June 30, 2024 and 2023, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of International Association of Machinists Motor City Health and Welfare Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Responsibilities of Management for the Financial Statements, continued

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about International Association of Machinists Motor City Health and Welfare Plan's ability to continue as a going concern for twelve months beyond the issuance of the financial statements.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users made on the basis of these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of International Association of Machinists Motor City Health and Welfare Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about International Association of Machinists Motor City Health and Welfare Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets held for investment is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

International Association of Machinists Motor City Health and Welfare Plan

Notes to Financial Statements

1. Description of the Plan

The following description of the International Association of Machinists Motor City Health and Welfare Plan provides general information about the Plan's provisions. Participants should refer to the plan agreement for a complete description of the Plan's provisions.

General

The Plan is a multiemployer defined benefit health and welfare plan that was established in 1952 pursuant to a collective bargaining agreement (CBA) for providing medical and other benefits to participants of the Plan. The Plan is governed by the Board of Trustees and managed by BeneSys, Inc., a Third Party Administrator. The Plan's Third Party Administrator administers the collection and investment of funds received from participating employers for providing of medical and other benefits to participants of the Plan. The Plan provides benefits for eligible participants and their dependents and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) as amended.

Eligibility

To become initially eligible for benefits, a participant and their dependents are eligible on the first day of the month following ninety days after their hire date. To continue eligibility, the Plan must receive two weeks of employer contributions made on behalf of the participant.

Generally, a participant will remain eligible as long as actively employed with a participating employer. Participants may also continue to remain eligible for benefits through the use of accumulated eligibility credits for times of unemployment (less than full time) and upon termination of employment through the Consolidated Omnibus Budget Reconciliation Act (COBRA). After initial eligibility, participants must work a minimum of four weeks for each month to maintain eligibility in the following month.

Retired participants are eligible for similar benefits on a self-pay basis if they are receiving a pension or granted a disability benefit.

Contributions

Employer contribution rates are specified in the collective bargaining agreements between the Union and Employers, and are fixed for the duration of the agreements. The monthly self-pay contribution rates for active participants are \$3.25 to \$4.00 per hour short of amounts needed for coverage. Retiree self pay rates range from \$331.00 to \$625.00 per month.

International Association of Machinists Motor City Health and Welfare Plan

Notes to Financial Statements

1. Description of the Plan -continued

Benefits

The Plan provides health benefits (medical, vision, dental, prescription drugs), life insurance, accidental death and dismemberment and short term disability benefits. Retired employees are entitled to similar health benefits (in excess of Medicare coverage). However, they do not have dental coverage. The Plan also provides continuation of certain benefits upon termination of employment through the Consolidated Omnibus Budget Reconciliation Act (COBRA).

Insured Benefits

The Plan fully insures the life insurance benefit. The Plan purchases a contract for the insurance benefit which is paid from the general assets of the Plan.

Self Insured Benefits

All other plan benefits are self-insured. The claims for the self-insured benefits are processed by the Plan's third-party administrator under administrative services only (ASO) arrangements. The claims processors pay claims directly to or on behalf of participants and are then reimbursed by the general assets of the Plan. Despite the Plan's utilization of third-party claims processors, ultimate responsibility for payments to providers and participants is retained by the Plan. The Plan utilizes a pharmacy benefit manager (PBM) which periodically makes refunds to the Plan based on the Plan's actual utilization pattern of specific drugs.

2. Summary of Accounting Policies

Basis of Accounting and Use of Estimates

The accompanying financial statements are prepared on the accrual basis of accounting. The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Payment of Benefits

Premiums paid are recorded as premium payments in the accompanying consolidated statement of changes in net assets available for benefits. Claim payments are recorded when submitted to the Plan by the third-party claims processor for reimbursement. Claims paid by the claims processor prior to year-end or claim payments submitted to the Plan by the third-party claims processor that are not yet paid are recorded as an amount currently payable in the accompanying statements of benefit obligations.

2. Summary of Accounting Policies

- continued

Refunds and Rebates

Prescriptions refunds from the Plan's Pharmacy Benefit Manager are recorded when earned. Pharmacy rebates totaling \$ 534,542 and \$353,933 for the years ended June 30, 2024 and 2023, respectively, have been netted against claims paid in the accompanying statements of changes in net assets available for benefits.

Stop Loss

Premiums for stop-loss insurance are included in premium payments in the accompanying statements of changes in net assets available for benefits. Stop-loss refunds totaling \$105,205 and \$529,1282 for the years ended June 30, 2024 and 2023, respectively, have been netted against claims paid in the accompanying statements of changes in net assets available for benefits.

Medicare Subsidy

The Plan's postretirement benefit obligation does not reflect an amount associated with the Medicare subsidy allowed under the Medicare Prescription Drug Improvement and Modernization Act of 2003 because the Plan is not directly entitled to the Medicare subsidy.

Employers' Contributions and Related Receivables

Contributions receivable are reported at their outstanding balances and are primarily composed of balances due from employers. As of June 30, 2024 and 2023, all amounts were deemed to be collectible.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Subsequent Events

The Plan has evaluated subsequent events through the date of the independent auditors report, the date the financial statements were available to be issued

Benefit Obligations**

A postretirement benefit obligation has been recognized for future benefits expected to be paid to or for (1) currently retired participants and their beneficiaries and dependents, and (2) active participants and their beneficiaries and dependents after retirement from service with the participating employers. These benefit obligations represent the actuarial present value of the cost of those estimated future benefits that are attributed by the terms of the Plan to participant service rendered to the date of the financial statements, reduced by the actuarial present value of contributions expected to be received in the future from current retirees of the Plan. The obligations represent the amounts that are expected to be funded by contributions from the participating employers self pays and from existing assets of the Plan. Prior to an active Participant's full eligibility date, the postretirement benefit obligation is the portion of the expected postretirement benefit obligation that is attributable to that employee's service with a participating employer or employers rendered to the valuation date.

The actuarial present value of the expected postretirement benefit obligation is determined by an actuary and is the amount that results from applying actuarial assumptions to historical claims cost data to estimate future annual incurred claims costs per participant and to adjust such estimates for the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as those for death, disability, withdrawal, or retirement) between the valuation date and expected date of payment.

The Plan is required to provide benefits to certain members, if such members have accumulated credit amounts (expressed in dollars) in excess of that required for current coverage. Participants draw on their accumulated credits whenever they fail to meet the annual requirement. The estimated future liability represents the present value of an extension of future benefits that occurs prior to eligibility for retirement with medical benefits per the rules specified in the Plan agreement. The calculation of the accumulated eligibility credit reserves at June 30, 2024 and 2023, have been based on the estimated cost of coverage. The weighted-average discount rate was 5.50% and 5.00% in 2024 and 2023 respectively.

In addition, a postemployment obligation is recognized for individuals on disability and COBRA. The obligation for COBRA benefits is estimated by an actuary based on the actual number of participants using COBRA benefits as of the measurement date and claim payment history and includes an estimate for claims incurred by COBRA participants that have not been reported.

**3. Postretirement,
Accumulated
Eligibility Credits
and Postemployment
Benefit Obligations**
- continued

For measurement purposes, a 7.20% annual rate of increase in the average per capita cost of covered health care benefits was assumed for 2024; the rate was assumed to decrease gradually to 4.0% for 2040 and to remain at that level thereafter. These assumptions are consistent with those used to measure the benefit obligation at June 30, 2024.

The weighted-average health care cost-trend rate assumption has a significant effect on the amounts reported in the accompanying financial statements. If the assumed rates increased by 1 percentage point in each year, it would increase the obligation as of May 31, 2024 and 2023 by \$4,091,261 and \$4,557,388 respectively.

The following were other significant assumptions used in the valuations as of May 31, 2024 and 2023.

Weighted-average discount rate	5.50% in 2024; 5.00% in 2023
Average retirement age	67
Mortality	100% of the PRI-2012 Blue Collar Mortality Tables for employees and healthy annuitants projected forward using the MP-2021 projection scale. For female annuitants the contingent survivor table was used.
Administrative expense load	3%

Changes in actuarial assumptions from June 30, 2023 and incorporated into this valuation were as follows:

- Weighted average discount rate was changed to 5.50% from 5.00%.
- Medical and self-payment trend rates were changed to reflect the best projection for future medical inflation.
- The assumed retirement rates were changed. These rates are the same rates as used in the July 1, 2023 pension valuation.

The foregoing assumptions are based on the presumption that the plan will continue. Were the plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the post-retirement benefit obligation.

**4. Claims Incurred
But Not Reported
and Accumulated
Eligibility
Reserve**

Plan obligations at June 30 for accumulated eligibility of participants are estimated. Such estimated amounts are reported in the accompanying statements of the Plan's benefit obligations at present value, based on a 5.50% discount rate. Health claims incurred by retired participants but not reported at year end are included in post-retirement benefit obligations.

5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used at June 30, 2024 and 2023.

Money Market Mutual Fund:

Valued at the daily closing price as reported by the fund. The money market fund is an open-end mutual fund that is registered with the Securities and Exchange Commission. This fund is required to publish its daily net asset value (NAV) and to transact at that price. The money market fund is deemed to be actively traded.

Mutual Funds:

Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at the price. The mutual funds held by the Plan are deemed to be actively traded.

5. Fair Value Measurements - continued

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value.

Assets at Fair Value as of June 30, 2024:

	<u>Level 1</u>
Money Market Fund	\$ 119 326
Mutual Funds	<u>9 260 913</u>
	<u>\$ 9 380 239</u>

Assets at Fair Value as of June 30, 2023:

	<u>Level 1</u>
Money Market Fund	\$ 135 335
Mutual Funds	<u>8 456 868</u>
	<u>\$ 8 592 203</u>

6. Administrative Expenses

The Plan pays administrative expenses that consist primarily of administrative fees to the third party administrator, actuary, legal and audit. These expenses are reported on the statement of changes in net assets available for benefits as administrative expenses.

7. Tax Status

The Plan received an exemption letter from the Internal Revenue Service stating that the trust is tax-exempt under the provisions of Section 501(c)9 of the IRC.

In addition, the Plan and the trust are required to operate in conformity with the IRC to maintain the tax-exempt status of the trust. The plan administrator believes that the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service, state or local taxing authorities. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress.

8. Priorities Upon Termination of the Plan

Although it has not expressed any intention to do so, the Trustees have the right under the Plan to modify the benefits provided to, and contributions required of, participants at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, remaining assets will be applied in a uniform and nondiscriminatory manner toward the provision of benefits for or on account of the participants. No assets of the Plan may revert to any employer or be used for purposes other than for the exclusive benefit of the Plan's participants.

9. Party in Interest and Transactions

As described previously, in Note 6, the Plan pays fees for several arrangements with service providers and affiliated entities. Also, certain Plan assets are invested in the Institutional Liquid Reserves Fund managed by the custodian of the Plan. These transactions are considered exempt party in interest transactions under ERISA.

10. Reconciliation to Form 5500

The following is a reconciliation of net assets available for plan benefits per the financial statements to form 5500.

11. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

The actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Cash consists of monies held in non-interest bearing transaction accounts. The Plan places its cash with a financial institution deemed to be creditworthy. Balances are insured by the FDIC up to \$250,000. At June 30, 2024 and 2023, the Plan's cash exceeded federally insured limits by approximately \$975,000 and \$830,000 respectively.
