REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

To the Participants and Administrative Committee of the
Retirement Benefit Accumulation Plan For Employees Of PwC

Opinion

We have audited the financial statements of the Retirement Benefit Accumulation Plan For Employees Of PwC (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of June 30, 2024 and 2023 and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of June 30, 2024 and 2023, and the changes in its net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for opinion

We conducted our audits of the financial statements in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of management for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with

respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental schedules required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at year end) as of June 30, 2024 and schedule reportable transactions for the year ended June 30, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures. These additional procedures included comparing and reconciling such

information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplemental schedules are fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Retirement Benefit Accumulation Plan For Employees Of PwC

NOTES TO FINANCIAL STATEMENTS

June 30, 2024 and 2023

NOTE 1 - PLAN DESCRIPTION

The Retirement Benefit Accumulation Plan For Employees Of PwC (the Plan), is a noncontributory defined benefit plan covering those who at the time the Plan was frozen were partners, principals and employees of PricewaterhouseCoopers LLP. The Plan Sponsor is PwC US Group LLP (the Firm). It is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Effective July 1, 2008, the Plan became frozen such that each participant's benefit under the Plan was frozen as of that date, subject to continuing adjustment for deemed investment experience. However, participants who were not fully vested as of that date satisfied the vesting requirements by continuing employment with the Firm. Commencement of employment subsequent to July 1, 2008 excluded an employee from participation in the Plan. Management intends that the Plan will remain in existence as long as necessary to pay benefits accrued as of June 30, 2008.

The Plan's assets are held by the Bank of New York Mellon, the custodian of the Plan, with recordkeeping services provided by Alight Solutions LLC.

The following is a summary of the major provisions of the Plan. Participants should refer to the amended plan agreement for more complete information.

Pension Benefits

Participants are fully vested in their benefit at the earliest of (a) the date of the participant's death, if the participant dies while employed with the Firm, (b) age 62, if the participant attains age 62 while employed by the Firm, or (c) as follows:

- i. if a participant has an hour of service after June 30, 2008 and terminates employment or ceases to be active, other than by reason of death, the participant shall be vested after completing three years of service; and
- ii. If a participant does not have an hour of service after June 30, 2008 and terminates employment or ceases to be active, other than by reason of death, the participant shall be vested after completing five years of service.

Vested participants who were employees of Coopers & Lybrand LLP on June 30, 1998 under the legacy Coopers & Lybrand LLP Retirement Plan receive the greater of (a) their benefit accrued under the old formula through June 30, 1998, plus future benefits under the cash balance formula (5% - 8%, as applicable, of eligible compensation) or (b) their benefit accrued under the old formula as if that formula had continued in effect through their separation date from the Firm or June 30, 2008, whichever occurs first. Vested participants who were partners or principals on June 30, 1998, and subject to certain other conditions, under the legacy Coopers & Lybrand LLP Retirement Plan, receive the sum of (a) their benefit accrued under the old formula, plus (b) future benefits under the cash balance formula. All other vested participants are entitled to benefits determined by the cash balance formula.

Under the cash balance formula, the Firm credited each payday to eligible participants, who were not partners or principals, 5% - 8% of eligible compensation. Partner and principal participants were credited with an annual amount that cumulatively targeted an annuity payable at Social Security normal retirement age. All participants can direct the deemed investment of the credits to their cash balance accounts, for which deemed investment gains and losses are recorded in the participant's account, including for periods after June 30, 2008.

Effective July 1, 2008, due to the Plan being frozen, all credits and other benefit accruals were ceased, however, the cash balance amount of a participant's account continues to reflect earnings and/or losses thereon until payment.

Retirement Benefit Accumulation Plan For Employees Of PwC

NOTES TO FINANCIAL STATEMENTS - CONTINUED

June 30, 2024 and 2023

Contributions to this Plan are made entirely by the Firm. The Firm's contributions to the Plan are maintained in a trust account, which is invested according to the Plan's investment strategy approved by the Plan's trustees.

The Plan allows for the automatic distribution of benefits in the amount of \$1,000 or less.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Plan expenses are paid by both the Plan and the Firm.

Subsequent Events

Management has evaluated subsequent events for potential disclosure in or adjustment to the financial statements through April 11, 2025, the date the accompanying financial statements were available to be issued.

Effective July 1, 2024, the custody of the Plans' assets moved to State Street Bank and Trust Company.

NOTE 3 - FUNDING POLICY

The Firm contributes amounts as necessary, which are determined on an actuarial basis, to provide the Plan with sufficient assets to meet the benefits to be paid to participants by the time they retire. The required contributions cannot be lower than the minimum required contribution required under ERISA and are calculated using the unit credit actuarial cost method. The Plan met the minimum funding requirements for the plan years 2024 and 2023.

NOTES TO FINANCIAL STATEMENTS - CONTINUED

June 30, 2024 and 2023

Although it has not expressed any intention to do so, the Firm has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

On July 1, 2012, the Plan was amended to comply with Section 436 of the Internal Revenue Code (IRC) and the final regulations issued thereunder. Section 436 refers to the applicable funding-based limits on benefits and benefit accrual.

NOTE 4 - PLAN TERMINATION

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations (discussed below).
- c. All other vested benefits (that is, vested benefits not insured by the PBGC).
- d. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward. Benefit improvements attributable to certain Plan amendments may not be fully guaranteed even though total benefit entitlements fall below the aforementioned ceilings.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

NOTE 5 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated participants or their beneficiaries; (b) beneficiaries of participants who have died; and (c) present participants or their beneficiaries. Benefits payable under all circumstances (retirement, death and vested termination of employment) are included to the extent they are deemed attributable to participant service rendered to the valuation date.

NOTES TO FINANCIAL STATEMENTS - CONTINUED

June 30, 2024 and 2023

The actuarial present value of accumulated plan benefits is determined by an actuary from the Firm and reviewed by an actuary independent of the Firm and is that amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The computation of the actuarial present value of accumulated plan benefits was made as of July 1, had the valuations been performed as of June 30, there would be no material difference.

The significant actuarial assumptions used in the valuations as of June 30, 2023 were as follows:

- a. Life expectancy of participants based on 80% of Pri-2012 Mortality Table with White Collar adjustment and generational projection with MP-2021 improvement scale for partners, and 100% of Pri-2012 Mortality Table with White Collar adjustment and generational projection with MP-2021 improvement scale for staff.
- b. All employees are assumed to terminate or retire by age 71. All partners and principals are assumed to retire by age 60; and
- c. An annual rate of return on investments of 6.50% for cash balance liabilities and 6.00% for career average liabilities, to reflect the investment policy applicable to the respective asset pools.

The significant actuarial assumptions used in the valuations as of June 30, 2022 were as follows:

- a. Life expectancy of participants based on 80% of Pri-2012 Mortality Table with White Collar adjustment and generational projection with MP-2021 improvement scale for partners, and 100% of Pri-2012 Mortality Table with White Collar adjustment and generational projection with MP-2021 improvement scale for staff.
- b. All employees are assumed to terminate or retire by age 71. All partners and principals are assumed to retire by age 62; and
- c. An annual rate of return on investments of 6.75% for cash balance liabilities and 6.50% for career average liabilities, to reflect the investment policy applicable to the respective asset pools.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits at June 30, 2023 is summarized as follows:

Vested benefits:

Participants currently receiving payments	\$ 62,104,005
Other participants	<u>1,851,333,877</u>

Total vested benefits	<u>1,913,437,882</u>
-----------------------	----------------------

NOTE 6 - FAIR VALUE MEASUREMENTS

According to authoritative guidance for accounting for fair value measurements of financial assets and liabilities that are recognized or disclosed at fair value on a recurring basis, the definition of fair value is the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date (that is, an exit price). The exit price is based on the amount that the holder of the asset or liability would receive or need to pay in an actual transaction at the measurement date. In some circumstances, the entry and exit price may be the same; however, they are conceptually different.

The authoritative guidance establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Retirement Benefit Accumulation Plan For Employees Of PwC

NOTES TO FINANCIAL STATEMENTS - CONTINUED

June 30, 2024 and 2023

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2024 and 2023.

- *Registered investment companies* - Mutual funds valued at the quoted net asset value (NAV) of shares held by the Plan at year end.
- *Collective trust funds* - Valued at the NAV as a practical expedient of participation units held by the Plan. The value of these units is determined by the investment manager based on current fair values of the underlying investments in the respective trust funds.
- *Futures contracts* - Valued at the closing prices as published by the principal active market on which the futures contracts are traded.
- *Government securities and other* - Valued on the basis of valuations furnished by a pricing service approved by the custodian, which determines valuations using methods based on active market transactions for identical securities.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2024 and 2023:

	Assets (Liabilities) at Fair Value as of June 30, 2024

- (a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Fair Value of Investments in Entities that Use NAV

The following table summarizes investments measured at fair value based upon NAV per share as a practical expedient as of June 30, 2024 and 2023.

Investment	Fair Value at June 30		Unfunded Commitments	Redemption Frequency	Redemption Notice Period
	2024	2023			
Collective trust funds:					
Corporate debt securities (principally domestic) ^(a)	\$ -	\$ 16,965	\$ -	Daily	2 business days
Domestic equity securities and other short-term investments ^(b)	993,600,254	965,380,416	-	Daily	N/A
U.S. government debt securities and other short-term investments ^(c)	-	17,823,469	-	Daily	N/A
International equity securities and other short-term investments ^(d)	70,607,270	106,816,786	-	Daily	Up to 2 business days
Lifetime moderate funds ^(e)	375,297,591	269,766,569	-	Daily	N/A

- (a) The strategy of the corporate debt securities is to approximate the overall performance of an index of a specific financial market, such as the Barclay's Capital U.S. Long-Term Credit Index.
- (b) The strategy of the domestic equity securities is to approximate the risk and return of an index of a specific financial market, such as the Russell 2000 Growth Index or the Standard & Poor's' (S&P) 500 index. To achieve this strategy, a replication technique is used which generally seeks to hold each index constituent in its proportional index weight.
- (c) The strategy of the U.S. government debt securities and other short-term investments is to approximate the overall performance of an index of a specific financial market, such as the Barclay's Capital Short-Term Government Bond Index, the Barclay's Capital Long-Term Government Bond Index, and the Barclay's Capital U.S. Treasury Inflation-Protected Securities Index.

- (d) The strategy of the international equity securities and other short-term investments is to provide investment results that approximate the overall performance of an index of a specific financial market, such as the Morgan Stanley All Country World Index (MSCI ACWI) Ex-US Index and the Morgan Stanley Europe, Australasia, and Far East (MSCI EAFE) Index.
- (e) The strategy of the Lifetime moderate funds is to provide investment results that approximate the risk and return of a volatile index consisting of global equities, bonds, and traditional inflation hedges such as commodities and TIPS.

NOTE 7 - INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Firm, by a letter dated March 22, 2004, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, and the Plan and trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the organization has taken an uncertain position that would not more likely than not be sustained upon examination by taxing authorities. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of June 30, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 8 - PARTIES-IN-INTEREST TRANSACTIONS

The Plan Sponsor performs the actuarial present value calculation for the Plan. This calculation is reviewed by a third-party actuarial firm. The Firm pays fees on behalf of the Plan for which the Firm is reimbursed by the Plan. These transactions qualify as party-in-interest transactions which are exempt from the prohibited transaction rules of ERISA.

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 10 - CONTINGENCIES

In a 2006 class action complaint filed in federal district court of New York, certain former Firm personnel alleged that the design of the Plan violated ERISA and asserted a claim for additional benefits on behalf of employees covered by the Plan. In December 2019, the Second Circuit vacated a prior dismissal of plaintiffs' claims by the district court, which the Firm and the Plan applied for certiorari to the U.S. Supreme Court. The U.S. Supreme Court declined to hear the appeal, and on September 30, 2021, the federal district court of New York granted summary judgment in the plaintiffs' favor. On October 14, 2021, the Firm moved for reconsideration of the summary judgment. The Firm and the Plan denied that the provisions of the Plan violated ERISA and contested the claim for additional benefits.

The parties reached an agreement in August 2022. On September 19, 2022, the Class Action Settlement Agreement was submitted to the District Court for preliminary approval. A fairness hearing of final settlement was held within 90 days and on January 27, 2023, the Court granted final approval of the settlement. The total settlement was \$267,000,000 in consideration for total dismissal of all claims. The amounts paid as additional participant benefits were net of class counsel's fees and settlement administration costs, which were paid by the Firm and not from Plan assets. Approximately one-third of the settlement was paid in class counsel's fees and settlement administration costs directly by the Plan sponsor with the remaining amounts paid to participants by the Plan. On March 15, 2023, the Plan sponsor funded approximately \$126 million into the Plan and was recorded as a contribution receivable as of July 1, 2022. During the plan year ended June 30, 2023, approximately \$177 million in payments were made to participants. The remaining payments made subsequent during the plan year ended June 30, 2024 were approximately \$3,765,000.

Actuarial Cost Method	The actuarial cost method is the Unit Credit Actuarial Cost Method. Under this cost method, the target liability is defined as the present value of the accrued benefits on the valuation date. The funding shortfall is the excess, if any, of the amount by which the target liability exceeds the adjusted plan assets (actuarial value of assets less carryover balance and less prefunding balance). The target normal cost, determined on the valuation date, is the amount required to fund the benefit expected to be earned in the current year, plus expected Plan administrative expenses.
Asset Valuation Method	Fair value method. Under this method, the Plan assets equal the fair value on the valuation date, adjusted to reflect contributions for the prior Plan Year made after the end of the prior Plan Year, discounted with interest to the valuation date.

Plan Name	Retirement Benefit Accumulation Plan for Employees of PwC	EIN:	92-0400838
Plan Sponsor's Name	PwC US Group LLP	PN:	002

(continued)

Actuarial Cost Method	The actuarial cost method is the Unit Credit Actuarial Cost Method. Under this cost method, the target liability is defined as the present value of the accrued benefits on the valuation date. The funding shortfall is the excess, if any, of the amount by which the target liability exceeds the adjusted plan assets (actuarial value of assets less carryover balance and less prefunding balance). The target normal cost, determined on the valuation date, is the amount required to fund the benefit expected to be earned in the current year, plus expected Plan administrative expenses.
Asset Valuation Method	Fair value method. Under this method, the Plan assets equal the fair value on the valuation date, adjusted to reflect contributions for the prior Plan Year made after the end of the prior Plan Year, discounted with interest to the valuation date.

Schedule SB, Part V – Summary of Plan Provisions*

Plan Name	Retirement Benefit Accumulation Plan for Employees of PwC	EIN:	92-0400838
Plan Sponsor's Name	PwC US Group LLP	PN:	002

The Plan has been amended to cease all benefit accruals after June 30, 2008.

Eligible employee	All employees hired on or before June 1, 2008 other than leased employees, temporary foreign exchange employees, temporary faculty from United States universities, temporary student interns, temporary office staff, and union employees.
-------------------	---

Eligibility	First day of the month coincident with or next following the date an employee becomes an eligible employee. Partners directly admitted after September 1 are eligible the following July 1. No new participants after June 30, 2008.
-------------	--

Plan Compensation	For partners and principals, net earned income. For all others, total compensation includible for Federal income tax purposes, but including salary reduction amounts under IRC sections 401(k), 125, and 132, and excluding referral and "sign-on" bonuses.
-------------------	--

Deemed Payroll Period Allocation	No new allocations for plan years beginning after June 30, 2008.
----------------------------------	--

Previously, the annual allocation for a participant is the allocation rate multiplied by Plan compensation, where the allocation rate is based upon classification.

<u>Classification</u>	<u>Allocation Rate</u>
Managing Directors	8%
Directors*	7%
All other employees	5%

* Designated Director before November 1, 2004, otherwise 5%.

For partners and principals, the Deemed Payroll Period Allocation is determined actuarially.

* Special provisions may apply to employees and partners who were participants in the Coopers & Lybrand Retirement Plan on June 30, 1999.

Schedule SB, line 24 – Change in Actuarial Assumptions

Plan Name	Retirement Benefit Accumulation Plan for Employees of PwC	EIN:	92-0400838
Plan Sponsor's Name	PwC US Group LLP	PN:	002

The July 1, 2023 valuation reflects the following changes in non-prescribed actuarial assumptions as a result of an experience study performed in 2023.

- Optional payment forms
- Rates of turnover and retirement
- Benefit commencement timing

The new assumptions are shown in *Schedule SB, Part V – Statement of Actuarial Assumptions & Methods*.

Additionally, based on the current participants' notional account investment allocations, and based on current capital market assumptions, the interest crediting rate was changed from 6.75% subject to the cap specified in section 2.1 of the Plan, to 6.50% subject to the cap specified in section 2.1 of the Plan.

Interest Rate:

Pursuant to Treasury Regulation 1.430(h)(2)-1(e)(1), the following change made for the 2023 plan year does not require IRS approval. The method used to determine the interest rate was changed from the 24-month average of the PPA segment rates applicable for the lookback of March preceding the valuation date (final averaging month of February), reflecting the provisions of ARPA, to the full corporate bond yield curve.

-------------	--

Plan Compensation	For partners and principals, net earned income. For all others, total compensation includible for Federal income tax purposes, but including salary reduction amounts under IRC sections 401(k), 125, and 132, and excluding referral and “sign-on” bonuses.
-------------------	--

Deemed Payroll Period Allocation	No new allocations for plan years beginning after June 30, 2008.
----------------------------------	--

Previously, the annual allocation for a participant is the allocation rate multiplied by Plan compensation, where the allocation rate is based upon classification.

<u>Classification</u>	<u>Allocation Rate</u>
Managing Directors	8%
Directors*	7%
All other employees	5%

* Designated Director before November 1, 2004, otherwise 5%.

For partners and principals, the Deemed Payroll Period Allocation is determined actuarially.

* Special provisions may apply to employees and partners who were participants in the Coopers & Lybrand Retirement Plan on June 30, 1999.

Interest Rate:

Pursuant to Treasury Regulation 1.430(h)(2)-1(e)(1), the following change made for the 2023 plan year does not require IRS approval. The method used to determine the interest rate was changed from the 24-month average of the PPA segment rates applicable for the lookback of March preceding the valuation date (final averaging month of February), reflecting the provisions of ARPA, to the full corporate bond yield curve.

Schedule SB, line 24 – Change in Actuarial Assumptions

Plan Name	Retirement Benefit Accumulation Plan for Employees of PwC	EIN:	92-0400838
Plan Sponsor's Name	PwC US Group LLP	PN:	002

The July 1, 2023 valuation reflects the following changes in non-prescribed actuarial assumptions as a result of an experience study performed in 2023.

- Optional payment forms
- Rates of turnover and retirement
- Benefit commencement timing

The new assumptions are shown in *Schedule SB, Part V – Statement of Actuarial Assumptions & Methods*.

Additionally, based on the current participants' notional account investment allocations, and based on current capital market assumptions, the interest crediting rate was changed from 6.75% subject to the cap specified in section 2.1 of the Plan, to 6.50% subject to the cap specified in section 2.1 of the Plan.
