Independent Auditor's Report

To the Plan Administrator and Participants of
The Turelk, Inc. Employee Stock Ownership Plan:

Opinion

We have audited the financial statements of The Turelk, Inc. Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets (deficit) available for benefits as of June 30, 2024 and 2023, and the related statement of changes in net assets (deficit) available for benefits for the year ended June 30, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of The Turelk, Inc. Employee Stock Ownership Plan as of June 30, 2024 and 2023, and the changes in its net assets available for benefits for the year ended June 30, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of The Turelk, Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about The Turelk, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of The Turelk, Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about The Turelk, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule, Schedule H, Line 4i - Schedule of Assets (Held at End of Year), as of June 30, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplemental schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

The Turelk, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

June 30, 2024 and 2023

1. Description of Plan

The following description of the The Turelk, Inc. Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a leveraged employee stock ownership plan (ESOP) established effective July 1, 2019. The Plan covers all employees, excluding leased, non-resident aliens and union employees, of The Turelk, Inc (the "Company") who have completed one year of service and are age 21 or older. The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended ("IRC"), and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan administrator is responsible for oversight of the Plan. The Plan's investment committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan's Plan administrator.

The Plan purchased Company common shares by issuing a note payable to the Company and holds the stock in a trust established under the Plan. The note is to be repaid over a period of 20 years by fully deductible Company contributions to the Plan. As the Plan makes each payment of principal, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the code.

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock (allocated) and (b) stock not yet allocated to employees (unallocated).

Contributions

The "Company" is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Employee contributions are not permitted. Participants who are not employed on the last working day of a Plan year are generally not eligible for an allocation of "Company" contributions for such year.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited with, on the last day of each plan year, an allocation of the Company's common stock shares released from the unallocated accounts, as well as forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the "Company" as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, related to total eligible compensation. Plan earnings are allocated, as defined in the plan agreement, to each participant's account based on the ratio of the participant's account balance to all participants' account balances.

Vesting

If a participant's employment with the "Company" is terminated for any reason other than retirement, permanent disability, or death, vesting in their contributions is based on years of continuous service. A participant is 20% vested after one year of credited service and continues to vest in increments of 20% until 100% vested after five years of credited service.

The Turelk, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

June 30, 2024 and 2023

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by GreatBanc Trust Company, the trustee, prior to the time that such rights are to be exercised. The trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interests of Plan participants and beneficiaries.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant will receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or installment payments as provided in the plan document. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution. If a terminated participant's vested balance is less than or equal to \$5,000, the amount may be automatically distributed in the form of a lump sum cash payment. Distributions are made in cash. The amount to be distributed is based upon the immediately preceding valuation date.

Forfeitures

Plan forfeitures may be used by the Plan for several purposes including the payment of Plan expenses. Any forfeiture not used by the Plan will be allocated to participants who are eligible to share in discretionary employer contributions based on a participant's eligible compensation relative to total eligible compensation. During the year ended June 30, 2024, there were forfeitures of \$0 reallocated to eligible participant accounts. During the year ended June 30, 2023, no forfeitures were used to pay for plan expenses. At June 30, 2024 and 2023, there were no forfeited amounts to be allocated in future years.

Put Option

Under federal income tax regulations, the "Company" stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the "Company" buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The "Company" can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants who are at least 55 years old and have participated in the Plan for at least 10 years (a Qualified Participant). During each of the first five years of eligible diversification, a Qualified Participant may withdraw up to 25% of the value of their investment in "Company" common stock, less any shares previously diversified, and transfer the amount as a rollover into another qualified plan or as a cash withdrawal. In the sixth and subsequent years, the percentage amount that can be withdrawn increases to 50%. The election to diversify is made subsequent to year-end based upon the shares of "Company" stock in the participant's account at year-end.

Plan Termination

Although it has not expressed any intent to do so, the "Company" reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the Plan administrator directs the Trustee to pay all liabilities and expenses of the Plan and to sell shares of financed common stock held as collateral to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan agreement and the IRC. In the event of Plan termination, participants would become 100% vested.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan's investments consist primarily of the "Company"'s common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets (deficit) available for benefits.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Administrative Expenses

Administrative expenses may be paid from the assets of the Plan and allocated among all Plan participants. The Company may, at its discretion, pay any or all of such expenses. For the year ended June 30, 2024, no administrative expenses were paid from the Plan's assets.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company, as applicable. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

Subsequent events were evaluated through April 14, 2025, the date the financial statements were available to be issued. Based on that evaluation, the Plan has determined that no material subsequent events require recognition or disclosure in these financial statements.

3. Common Stock

The Plan's investments in the "Company"'s common shares at June 30, 2024 and 2023 are presented in the following table:

	2024		2023	
	Allocated	Unallocated	Allocated	Unallocated
Number of shares	80,000	242,000	64,000	256,000
Cost	\$ 3,400,000	\$ 10,285,000	\$ 2,720,000	\$ 10,880,000
Estimated fair value	\$ 1,712,800	\$ 51,384,000	\$ 1,149,440	\$ 4,597,760

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820, *Fair Value Measurement*, are described as follows:

Level 1 - Inputs to the valuation technique are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation technique include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation technique are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the techniques used at June 30, 2024 and 2023.

Turelk, Inc. Common Stock. Valued at estimated fair value based on an independent third-party appraisal using a combination of widely used valuation approaches, including the market and income valuation techniques. The appraiser considered inputs such as historical and projected cash flow and net income, return on assets, return on equity, market comparables, and estimated fair value of "Company" assets and liabilities, along with a discount for lack of marketability where appropriate.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2024 and 2023:

June 30, 2024	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Common stock in Turelk, Inc.	\$ -	\$ -	\$ 6,851,200	\$ 6,851,200
Total investments at fair value	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 6,851,200</u>	<u>\$ 6,851,200</u>
June 30, 2023	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Common stock in Turelk, Inc.	\$ -	\$ -	\$ 5,747,200	\$ 5,747,200
Total investments at fair value	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 5,747,200</u>	<u>\$ 5,747,200</u>

There were no purchases or sales of the common stock in Turelk, Inc. during the year ended June 30, 2024.

5. Tax Status

Plan management is required to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

The IRS has determined and informed the "Company" by a letter dated October 1, 2020, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

6. Loan Payable

In January 2020, the Plan purchased 320,000 shares of the "Company"'s common stock with a loan from the "Company" in the amount of \$13,600,000. The lender has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the Plan. The note matures in June 2039 and bears interest at 2.07%. The borrowing is collateralized by the unallocated shares of common stock. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, multiplied by the ratio of the current year payments divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 16,000 shares being released and allocated for the plan year ended June 30, 2024.

The scheduled amortization of the loan for subsequent years is as follows:

2025	\$	608,582
2026		621,180
2027		634,038
2028		647,163
2029		660,559
Thereafter		7,406,328
		<u>\$ 10,577,850</u>

7. Employer Contributions

The Company is obligated to make contributions in cash to the Plan which at least equals the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its note payable to the Company. During the year ended June 30, 2024, the Company made a contribution of \$892,148 to the Plan.

8. Party-In-Interest

The Plan's assets, which consist solely of the Company common shares, are held by the Trustee of the Plan.

Company contributions are held and managed by the Trustee, which also makes distributions to participants. The Trustee also administers the payment of interest and principal on the loan, which is reimbursed through contributions as determined by the Company.

Certain administrative functions of the Plan are performed by officers or employees of the "Company". No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustee's fees were paid directly by the Company during the year ended June 30, 2024.

The Plan invests in "Company" common stock. These are related party and party in interest transactions. As described in Note 2, the "Company" may pay plan expenses. The Plan has a number of service providers. Such providers are parties in interest under ERISA.
