Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Independent Auditor's Report

To the Audit Committee
Hawaiian Host, Inc.

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audit of the financial statements of the Mauna Loa Macadamia Nut Corporation Pension Plan for Certain Hourly Employees (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of June 30, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended June 30, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of June 30, 2024 and 2023, and for the year ended June 30, 2024, stating that the certified investment information, as described in Note C to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section –

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

The supplemental schedule of Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of June 30, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion –

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Mauna Loa Macadamia Nut Corporation Pension Plan
For Certain Hourly Employees
Notes to the Financial Statements

NOTE A – DESCRIPTION OF THE PLAN

The following brief description of the Mauna Loa Macadamia Nut Corporation Pension Plan for Certain Hourly Employees (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information. The Plan is a noncontributory defined benefit plan that provides retirement, death, and disability benefits for eligible collectively bargained hourly employees of the Mauna Loa Macadamia Nut Corporation (the Company) manufacturing plant in Hilo, Hawaii. The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Employee Benefits Committee (the Committee) of the Company administers the Plan. The Plan's assets are held in trust and managed in Hawaii by First Hawaiian Bank (the Trustee).

Funding Policy

The Company's funding policy is to make periodic contributions to the Plan as necessary. The contribution amount is determined by the Committee based on the recommendations of Towers Watson, the Plan's actuary. The recommended contribution is within a range based on the ERISA minimum contribution and the maximum tax deduction allowed under the Internal Revenue Code (IRC) plus any additional amounts as might be deemed appropriate from time to time. The ERISA minimum funding requirements for the year ended June 30, 2024, in the amount of \$406,257, were satisfied during the year ended June 30, 2024 through combined cash contributions totaling \$263,161 and subsequent to June 30, 2024 through additional cash contributions totaling \$143,096. The ERISA minimum funding requirements for the year ended June 30, 2023, in the amount of \$379,704, were satisfied during the year ended June 30, 2023 through combined cash contributions totaling \$245,245 and subsequent to June 30, 2023 through additional cash contributions totaling \$134,459.

Eligibility

All regular hourly paid collectively bargained employees at the Company plant become participants as of the first day of the calendar month that coincides with, or immediately follows, the date he or she completes one year of eligible service, provided he or she is then an employee. Effective May 1, 2005, collectively bargained intermittent employees of the Company are also eligible to become participants. An intermittent employee is any nonregular employee who works full-time during the processing season and who worked (i) the number of days equal to at least 75% of the factory processing days during the previous off-season period and (ii) at least 27 days during the previous off-season period.

NOTE A – DESCRIPTION OF THE PLAN (continued)

Benefits and Distributions

The annual normal retirement pension payable upon retirement on a participant's normal retirement date, with respect to years of benefit service as a regular (non-intermittent) employee, shall be equal to the amount determined according to (i) or the amount determined according to (ii), whichever is greater, minus the amount determined according to (iii) described below. The annual normal retirement pension payable upon retirement on a participant's normal retirement date, with respect to years of benefit service as an intermittent employee beginning on or after May 1, 2005, shall be equal to the amount determined according to (ii) described below.

- (i) *Basic Retirement Income.* The annual amount of basic retirement income shall equal one percent of the participant's compensation during his or her period of benefit service as a regular employee, including benefit service after November 30, 1959 while the participant was eligible to participate in the C. Brewer and Company, Limited Pension Plan for Certain Hourly Employees, and benefit service credited after October 14, 2000 under this Plan.

- (ii) *Minimum Retirement Income.* The annual amount of minimum retirement income of a participant shall equal twelve (12) multiplied by the applicable amount specified in (I) through (VIII) below, multiplied by the number of his or her years of benefit service (as a regular employee or intermittent employee, as applicable) determined in accordance with Section 3.02 of the Plan document (as of the applicable date of the participant's death, late retirement date, normal retirement date, early retirement date, or termination of employment as an employee):
 - (I) \$11.50 for employees retiring before May 1, 2001;
 - (II) \$12.00 for employees retiring on or after May 1, 2001 but before May 1, 2005;
 - (III) \$13.00 for years of benefit service as a regular employee, for employees retiring on or after May 1, 2005 but before January 1, 2012;
 - (IV) \$14.00 for years of benefit service as a regular employee, for employees retiring on or after January 1, 2012 but before January 1, 2015;
 - (V) \$15.00 for years of benefit service as a regular employee, for employees retiring on or after January 1, 2015;
 - (VI) \$10.00 for years of benefit service as an intermittent employee beginning on or after May 1, 2005, for employees retiring on or after May 1, 2005 but before January 1, 2012;
 - (VII) \$11.00 for years of benefit service as an intermittent employee, for employees retiring on or after January 1, 2012 but before January 1, 2015;
 - (VIII) \$12.00 for years of benefit service as an intermittent employee, for employees retiring on or after January 1, 2015.

NOTE A – DESCRIPTION OF THE PLAN (continued)

Benefits and Distributions (continued)

- (iii) *C. Brewer Benefit Offset (Former Plan)*. If a participant was a participant of the Former Plan as of October 14, 2000 and is credited with benefit service and compensation for periods prior to October 15, 2000, the annual amount of the C. Brewer benefit offset is the annual vested accrued benefit under the Former Plan based on service under the Former Plan as of October 14, 2000.

However, the annual normal retirement pension shall never be less than the greatest annual amount of reduced early retirement pension which participants could have received before their normal retirement date.

Vesting

A participant who has completed five years of eligible service at date of termination of employment shall be entitled to receive a retirement pension benefit as described above. Participants who are age 55 or older shall also be entitled to receive a retirement pension benefit as described above. Participants who die while actively employed, and who have five years of eligible service or are age 55 or older, shall qualify for a pre-retirement death benefit to their spouse, provided they were married for the one-year period ending with the date of the participant's death.

Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event the Plan terminates, the rights of participants to their benefits accrued under the Plan as of the date of the termination, to the extent then funded or protected by law, if greater, shall be nonforfeitable. The funds of the Plan shall be used for the exclusive benefit of persons entitled to benefits under the Plan as of the date of termination. However, any funds not required to satisfy all liabilities of the Plan for benefits because of erroneous actuarial computation shall be returned to the Company.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of individual's monthly benefit that the PBGC guarantees. For 2024, the maximum guaranteed amount is \$7,108 per month for workers who begin receiving payments from the PBGC at age 65. The maximum guarantee is lower if an individual begins receiving payments from the PBGC before age 65 or if an individual receives their pension benefits in a form

NOTE A – DESCRIPTION OF THE PLAN (continued)

Plan Termination (continued)

that provides benefits for a surviving spouse or other beneficiary. The maximum guarantee is higher if an individual is over age 65 when they begin receiving benefits from the PBGC.

Whether all participants receive their benefits, should the Plan terminate at some future time, will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations. Benefits may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

Administrative Expenses

Brokerage commissions are included in the cost basis when investments are purchased, and deducted from the proceeds of investments when sold. Actuarial fees amounting to approximately \$11,400 and \$19,000 was paid by the Company for the year ended June 30, 2024 and 2023, respectively.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Concentration of Risks and Uncertainties

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for plan benefits.

Mauna Loa Macadamia Nut Corporation Pension Plan
For Certain Hourly Employees
Notes to the Financial Statements

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Concentration of Risks and Uncertainties (continued)

The Plan may indirectly invest in securities with contractual cash flows, such as asset backed securities, collateralized mortgage obligations, and commercial mortgage backed securities, including securities backed by subprime mortgage loans. The value, liquidity, and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Investment Valuation and Income Recognition

The Plan's assets are stated at fair value. Investments in money market funds are stated at fair value as determined by the investment manager based on the fair value of the underlying securities. Shares of registered investment companies are valued at the net asset value of shares held by the Plan at year-end, which are generally based on quoted market values. Purchase and sales of securities are recorded on a trade-date basis. Interest income is recorded when earned. Dividends are recorded on the ex-dividend date.

Fair Value Measurement of Investments

Financial Accounting Standards Board (FASB), Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

Mauna Loa Macadamia Nut Corporation Pension Plan For Certain Hourly Employees

Notes to the Financial Statements

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fair Value Measurement of Investments (continued)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Various valuation methodologies are used to value assets measured at fair value. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

These methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE C – INVESTMENT INFORMATION CERTIFIED BY THE TRUSTEE

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA. Accordingly, as permitted under such election, the Plan Administrator has obtained a certification from the Trustee that all of the information provided by the Trustee is complete and accurate.

The following information as of and for the years ended June 30, 2024 and 2023 included in the accompanying financial statements and supplemental schedule, was obtained from information that has been certified as accurate and complete by the Trustee:

Notes to the Financial Statements

NOTE D – ACCUMULATED PLAN BENEFITS AND ACTUARIAL COMPUTATIONS

Accumulated plan benefits are those estimated future periodic payments, including lump sum distributions that are attributable under the Plan’s provisions to services rendered by eligible employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees, or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits (benefit obligation) is estimated by the actuaries by applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The accumulated plan benefit obligations as of June 30, 2023 are as follows:

Vested benefits	
Participating employees	\$ 1,657,022
Participants with deferred benefits	534,109
Participants receiving benefits	2,816,467
Total vested benefits	5,007,598
Nonvested benefits	11,348
Total	\$ 5,018,946

The changes in the actuarial present value of accumulated plan benefits for the most recent valuation are as follows:

Actuarial present value of accumulated plan benefits as of June 30, 2022	\$ 4,702,738
Increase (decrease) during the year attributable to:	
Benefits accumulated	162,277
Actuarial losses	141,192
Decrease in the discount period	253,829
Actual benefits paid	(241,090)
Change in actuarial assumptions	-
Plan amendments	-
Actuarial present value of accumulated plan benefits as of June 30, 2023	\$ 5,018,946

Mauna Loa Macadamia Nut Corporation Pension Plan
For Certain Hourly Employees
Notes to the Financial Statements

NOTE D – ACCUMULATED PLAN BENEFITS AND ACTUARIAL COMPUTATIONS
(continued)

Significant assumptions used for the computation of the actuarial present value of accumulated plan benefits as of June 30, 2023:

Investment return	5.35%
Mortality	RP-2014 “Employees” table without collar or amount adjustments, set back to base year 2006, Scale MP-2021 with generational projections
Termination	None
Retirement age	Continued employment until the end of the plan year, and thereafter retired at age 65

Compared with the assumptions used for the computation of the actuarial present value of accumulated plan benefits as of June 30, 2022, the above assumptions used the same mortality table and projection scale and the same investment return rate to reflect changes in asset allocation.

The above actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the benefit obligation.

The computation of the actuarial present value of accumulated plan benefits was made as of July 1, 2023. Had the valuation been performed as of June 30, 2023, there would be no material differences.

NOTE E – INCOME TAX STATUS

The Plan obtained its determination letter on August 10, 2012, in which the Internal Revenue Service (IRS) stated that the Plan and the related trust, as then designed, were in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC; therefore, no provision for income taxes has been included in the financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of June 30, 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. The Plan Administrator believes that the Plan is no longer subject to income tax examinations for the years prior to 2020.

NOTE F – RELATED-PARTY TRANSACTIONS

Certain Plan investments are managed by First Hawaiian Bank. First Hawaiian Bank is the Trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. There were no investment management fees paid by the Plan for the years ended June 30, 2024 and 2023.

NOTE G – SUBSEQUENT EVENTS

Subsequent events have been evaluated through April 14, 2025, the date the financial statements were available to be issued.

Actuarial value of assets

Average of the fair market value of assets on the valuation date and 12 and 24 months before the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, based on the plan's current asset allocation, over the long term under PPA's smoothing rules, the method has a bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued based on discussions with Hawaiian Host Group regarding the likelihood that these benefits will be paid. Willis Towers Watson has reviewed the plan provisions with Hawaiian Host Group and, based on that review, is not aware of any significant benefits required to be valued that were not.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Plan-related expenses	As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).
Rates of increase in:	
■ Compensation	The resulting salary increase assumption is a composite rate that reflects both current conditions and future expectations.

Assumptions Rationale – Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Retirement	Retirement rates are based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by retirement patterns different than assumed.
Benefit commencement date for deferred benefits:	
■ Preretirement death benefit	Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value, and experience indicates that most spouses do take the benefit as soon as it is available.

SCHEDULE SB ATTACHMENTS

- **Deferred vested benefit** Deferred vested participants are assumed to begin benefits at age 65 (or current age if later) because the plan's experience is not considered to be credible, but it has been observed and it is expected that many participants will retire and begin benefits when Social Security benefits are first available.

Source of Prescribed Methods

- Funding methods** The methods used for funding purposes as described here, including the method of determining plan assets, are "prescribed methods set by law". These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

- Change in assumptions and methods since prior valuation**
- The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430.
 - The required mortality table used to calculate the funding target and target normal cost was updated to reflect the tables prescribed by the IRS for 2023.
 - The expected plan related expenses added to the target normal cost were changed from \$185,000 for the prior valuation to \$233,000 for the current valuation.

The actuarial assumptions that are not mandated by IRC § 430 and regulations, represent the enrolled actuary's best estimate of anticipated experience under the plan, subject to the following conditions:

The actuarial valuation, on which the information in this Schedule SB is based, has been prepared in reliance upon the employee and financial data furnished by the plan administrator and the trustee. The enrolled actuary has not made a rigorous check of the accuracy of this information but has accepted it after reviewing it and concluding it is reasonable in relation to similar information furnished in previous years. The amounts of contributions and dates paid shown in Item 18 of Schedule SB were listed in reliance on information provided by the plan administrator and/or trustee.

Schedule SB, Line 22 Description of Weighted Average Retirement Age as of July 1, 2023

See Part V for retirement rates. The weighted average retirement for Line 22 was calculated by creating a hypothetical life table with retirement as the only decrement and then computing the average retirement age from the table.

The assumed rates of retirement at each age are as follows:

Age of Retirement (A)	Lives at Beginning of Year	Rate of Retirement	Number Retiring (B)	Number Remaining	Weight (A x B) ÷ 1000
55	1000.00	2.00%	20.00	980.00	1.1000

Schedule SB, Part V Summary of Plan Provisions

Plan Provisions

The plan was most recently restated July 1, 2016 and the most recent amendment was effective July 1, 2016 to incorporate the proposed amendments referred to by the Internal Revenue Service in its favorable determination letter dated May 16, 2018.

Covered employees Regular or intermittent hourly employees who are members of a collective bargaining unit to whom the plan is extended.

Participation date Covered employees become eligible to participate after the completion of one year of eligibility service.

Definitions

Vesting service Elapsed time between date of hire and date of termination. Service includes service earned prior to October 15, 2000 under the C. Brewer and Company, Limited Pension Plan for Certain Hourly Employees.

Benefit service 1/12th of a year is earned for each month of compensated covered employment beginning with the date the employee begins membership in the Plan. Benefit service includes benefit service earned prior to October 15, 2000 under the C. Brewer and Company, Limited Pension Plan for Certain Hourly Employees.

For intermittent employees, benefit service is credited from the later of the date the employee begins membership in the Plan or May 1, 2005.

Compensation Total wages paid to an employee, including amounts excluded from taxation under a 401(k) or 125 plan. Compensation excludes bonuses and severance payments. Compensation includes compensation earned prior to October 15, 2000 under the C. Brewer and Company, Limited Pension Plan for Certain Hourly Employees.
