INDEPENDENT AUDITORS' REPORT

April 14, 2025

Trustees
Exhibit Works, Inc. Employee Stock Ownership Plan
Dearborn, Michigan

Opinion

We have audited the financial statements of **Exhibit Works, Inc. Employee Stock Ownership Plan** (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits as of June 30, 2024 and 2023, and the related statements of changes in net assets available for benefits for the year ended June 30, 2024, and the related notes to the financial statements (the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of June 30, 2024 and 2023, and the changes in net assets available for benefits for the year ended June 30, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the *Independent Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Independent Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The June 30, 2024, supplemental schedule of assets (held at end of year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the 2024 financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Notes to Financial Statements

1. DESCRIPTION OF THE PLAN

The following description of the *Exhibit Works, Inc. Employee Stock Ownership Plan* (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution stock bonus plan under Section 401(a) of the Internal Revenue Code (the "Code"), and is intended to be an employee stock ownership plan under Section 4975(e)(7) of the Code and the regulations thereunder. The Plan is subject to the provisions of the Employment Retirement Income Security Act of 1974 ("ERISA").

Employees of *Exhibit Works, Inc., d/b/a EWI Worldwide* (the "Company") who have completed 1,000 hours of service, are not included in a collective bargaining agreement, and have earned income within the United States are eligible to participate in the Plan.

Contributions

The Plan is noncontributory. Under the stock bonus provisions of the Plan, all contributions are made at the discretion of the Company's board of directors. The Company made contributions of \$105,887 during 2024. Future contributions will also be at the discretion of the Company's board of directors.

The Plan does not allow for rollover contributions.

Participant Accounts

Each participant's account is credited with an allocation of (a) the employer's discretionary contribution, if any, (b) Plan earnings, (c) forfeitures of terminated participants' nonvested accounts and (d) an allocation of loan proceeds, if any, and the corresponding shares of Company common stock acquired with such loan proceeds, and charged with an allocation of administrative expenses, if any. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

The Plan allows for segregation of the accounts of terminated participants by the trustees, where administratively feasible, from Company stock to other investment assets for the period remaining until they receive a distribution. A portion of certain terminated participant's balances have been segregated under this provision. The total segregated account balances were \$13,979 at June 30, 2024. There was no balance for segregated accounts for the year ended June 30, 2023.

EXHIBIT WORKS, INC. EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

Diversification

Participants age 55 and over and with at least 10 years of service under the Plan may elect to direct a portion of their account into alternative investments to diversify their retirement investments. These assets may be directed within the Plan by participants into certain approved alternative investment vehicles. Assets also may be distributed to participants under this self-directed provision of the Plan; there were no amounts distributed under this provision during 2024.

Vesting

Participant account balances vest with the following years of service. Under the Plan, a year of service is earned upon completion of 1,000 hours of service in a Plan year.

Number of Years' Service	Percent Vested
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

Participant Loans

The Plan does not provide for loans to participants.

Payment of Benefits

Upon termination of service due to death, disability, retirement or any other distributive event, as defined in the Plan agreement, participants or their beneficiaries may receive an amount equal to the value of the participant's vested interest in their account in a lump-sum payment.

Forfeited Accounts

Upon participant withdrawal from the Plan, nonvested amounts will be forfeited and held in suspense until the participant has incurred a five year break-in-service period. The forfeitures are then allocated to eligible participants. During 2024, forfeited nonvested accounts in the amount of \$6,086 were reallocated to eligible participants.

EXHIBIT WORKS, INC. EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

Employer Securities

The Plan's investments include common stock of Exhibit Works, Inc., which is primarily engaged in providing: (1) event services that involve on-site show services, business-to-business communications, and event marketing related to product launches, press programs, corporate training, event logistics, and rentals, and (2) production services involving the fabrication of custom transportable and permanent exhibits for auto shows, trade shows, corporate facilities, museums, and the retail market. The Company's services include planning, research, design, copy-writing, program management, engineering, shop production, graphics, audio-video services, show coordination, transportation, installation, dismantle, and the storage of displays. During the Plan years ended June 30, 2024 and 2023, the Company's customers were concentrated within the automotive industry.

Under provisions of the Plan, shares of Exhibit Works, Inc. common stock held by the Plan are voted by the Plan Trustee using his or her informed judgment and in the best interests of Plan participants and beneficiaries. For certain corporate matters such as merger, consolidation, recapitalization, liquidation and other matters prescribed by the Secretary of the Treasury, each participant in the Plan may direct the Trustee by proxy as to voting of shares held in his or her individual account within the Plan.

Under Federal income tax regulations, employer stock that is held by the Plan and its participants, which is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can finance any common stock repurchase with interest over a period of up to five years. The purpose of the put option is to ensure that the participants have the ability to ultimately obtain cash for the value of their shares.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

The estimate of fair value of the Exhibit Works, Inc. common stock is based on management's best knowledge of current events and actions the Company may undertake in the future. This significant estimate, for which changes in the near term are considered reasonably possible and that may have a material impact on the financial statements, is addressed in Note 3 to the financial statements.

EXHIBIT WORKS, INC. EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

Cash

Cash consists of interest-bearing demand deposits maintained in one local financial institution, which at times may exceed the federally insured limits. Management does not believe the Plan is exposed to any significant interest rate or other financial risk as a result of these deposits.

Investment Valuation and Income Recognition

The Plan's assets are comprised of interest-bearing cash, mutual funds, and common stock of Exhibit Works, Inc.

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a description of fair value measurements.

Purchases and sales are generally recorded on a trade-date basis.

Dividend income on Exhibit Works, Inc. common stock is recorded on the date of record, and is allocated to eligible participants based on shares held in participant accounts at the beginning of the Plan year in which the dividend is recorded, less any shares distributed or forfeited during the Plan year.

Dividend income on mutual fund shares is recorded on the ex-dividend date and allocated to eligible participants based on shares held in participant accounts in accordance with Plan provisions.

Realized gains and losses from security transactions are reported on the average cost method. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Interest income on interest-bearing cash is recorded in the period earned, and allocated to eligible participants based on balances held in participant accounts at the beginning of the Plan year, less any cash distributed or forfeited during the Plan year.

Management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction or addition to net appreciation in the aggregate fair value of such investments.

Contributions

Employer contributions are recorded in the period in which they become the obligations of the Company.

Payment of Benefits

Benefit payments to participants are recorded when paid.

EXHIBIT WORKS, INC. EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

Administration Expenses

The Plan's assets, which consist principally of the Company common shares, are held by the Trustee of the Plan. Company contributions are held and managed by the Trustee. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain expenses for the Plan's administration are paid directly by the Company. Participants are charged directly for fees related to certain distributions.

Subsequent Events

In preparing these financial statements, Plan management has evaluated, for potential recognition or disclosure, significant events or transactions that occurred during the period subsequent to the most recent statement of net assets available for benefits presented herein, through the date these financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under Accounting Standards Codification 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurements. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. For financial assets recorded at fair value, the description includes an indication of the level of the fair value hierarchy in which the assets are classified. There have been no changes in the methodologies used at June 30, 2024 and 2023.

EXHIBIT WORKS, INC. EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

Mutual funds: Shares held in mutual funds are valued at quoted market prices that represent the net asset value (“NAV”) of shares held by the Plan at year end and are classified as Level 1. The NAV is based on the value of the underlying assets owned by the fund, less its liabilities then divided by the number of shares outstanding. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily NAV and to transact at that price and, therefore, are deemed to be actively traded.

Exhibit Works, Inc. common stock: The common stock is privately held and is not publicly traded, and is classified as Level 3. Accordingly, the fair value of the common stock owned by the Plan has been estimated with the assistance of an independent appraiser. The value was based upon a discounted cash flow income valuation technique, consistent with prior years. The appraiser also took into account historical and projected cash flow and net income, return on assets, return on equity, market comparable, and estimated fair value of Company assets and liabilities.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments measured at fair value at June 30:

2024	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 13,979	\$ -	\$ -	\$ 13,979
Exhibit Works, Inc. common stock	-	-	1,332,498	1,332,498
Total investments, at fair value	\$ 13,979	\$ -	\$ 1,332,498	\$ 1,346,477

2023	Level 1	Level 2	Level 3	Total
Exhibit Works, Inc. common stock	\$ -	\$ -	\$ 1,033,751	\$ 1,033,751
Total investments, at fair value	\$ -	\$ -	\$ 1,033,751	\$ 1,033,751

EXHIBIT WORKS, INC. EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. Plan management evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. There were no transfers of assets between levels for 2024.

The following table sets forth a summary of changes in the fair value of the Exhibit Works, Inc. common stock, the Plan's Level 3 investment for the year ended June 30:

	2024
Balance, beginning of year	\$ 1,033,751
Total unrealized income included in changes in net assets	<u>298,747</u>
Balance, end of year	<u>\$ 1,332,498</u>

In estimating fair value of the investments classified as Level 3, Plan management utilizes an independent appraiser. In substantiating the reasonableness of the pricing data provided by third parties, Plan management evaluates a variety of factors including review of methods and assumptions used by external sources, economic conditions, and industry and market developments.

4. INVESTMENT IN EXHIBIT WORKS, INC. COMMON STOCK

At the end of each Plan year, the Plan hires an independent third party to value the shares of Exhibit Works, Inc. common stock. The value of the common stock as of June 30, 2024 was \$71.32 per share or \$1,332,498 (cost of \$2,557,803) for the 18,683 shares held by the Plan. The value of the common stock as of June 30, 2023 was \$55.33 per share or \$1,033,751 (cost of \$2,557,803) for the 18,683 shares held by the Plan. All shares held by the Plan have been allocated to the participants of the Plan.

5. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Company and the Trustee have been identified as parties-in-interest. The Plan's investment in Exhibit Works, Inc. common stock is considered an investment with a party-in-interest. The Plan received no dividends on Exhibit Works, Inc. common stock during 2024. Certain administrative functions are also performed by officers or employees of the Company, who do not receive compensation from the Plan.

EXHIBIT WORKS, INC. EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

6. INCOME TAX STATUS

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated July 26, 2017 that the Plan and related trust are designed in accordance with the applicable sections of the Code. Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's legal counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code and, therefore, believe the Plan is qualified and the related trust is tax-exempt.

During fiscal 2022, Plan management determined its loan payable due to the Company and the related allocation of the loan to Plan participants' accounts represented prohibited transactions to the Plan. As a result, Plan management calculated a voluntary corrective contribution to be made to the Plan totaling approximately \$326,000. The voluntary corrective contribution has been submitted to the IRS through the Voluntary Fiduciary Correction Program totaling \$326,000, and is currently awaiting final approval.

GAAP requires Plan management to evaluate and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. While the Plan may be subject to routine audits by taxing jurisdictions, there are currently no audits for any tax periods in progress.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time or to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts, and any unallocated assets in the Plan will be allocated to participants and beneficiaries in accordance with Plan provisions.

8. NET ASSETS AVAILABLE FOR BENEFITS

A portion of the net assets available for benefits are related to nonvested participant accounts of former employees of the Company, in the amount of \$6,086 and \$8,549 at June 30, 2024 and 2023, respectively. These participant accounts are held in suspense until the participants' break-in-service periods have elapsed.

A portion of the net assets available for benefits are also related to vested participant accounts of former employees of the Company, in the amount of \$226,414 and \$233,829 at June 30, 2024 and 2023, respectively. These participant accounts are held in suspense until the participants' break-in-service periods have elapsed.

There are approximately 4,021 and 4,262 shares held by the Plan at June 30, 2024 and 2023, respectively, related to the participant accounts held in suspense as described above.

EXHIBIT WORKS, INC. EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

9. RISKS AND ECONOMIC UNCERTAINTIES

The Plan's investment in the Company's common stock is exposed to various risks, such as interest rate, market and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Market risks include global events which could impact the value of the common stock, such as international conflict, including trade wars. Due to the level of interest rate, market, and credit risks inherent with the Plan's investment in common stock and uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the fair values of the common stock will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the changes in net assets available for benefits.
