Report of Independent Auditors

The Trustees of
First Northwest Bancorp Employee Stock Ownership Plan

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of First Northwest Bancorp Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of June 30, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended June 30, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of First Northwest Bancorp Employee Stock Ownership Plan as of June 30, 2024 and 2023, and the changes in its net assets available for benefits for the year ended June 30, 2024, in accordance with accounting principles generally accepted in the United States of America (GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of First Northwest Bancorp Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about First Northwest Bancorp Employee Stock Ownership Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of First Northwest Bancorp Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about First Northwest Bancorp Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, line 4(i) – schedule of assets (held at end of year) as of June 30, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

FIRST NORTHWEST BANCORP EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1 - Description of Plan and Basis of Presentation

The following description of the First Northwest Bancorp (the Company; the Employer) Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement, as amended, for a more complete description of Plan provisions.

General - The Company established the Plan effective January 1, 2015. It operates, in relevant part, as a leveraged employee stock ownership plan (ESOP) designed to comply with Section 4975(e)(7) of the Internal Revenue Code, as amended (the Code), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by the Human Resources Department of First Fed Bank (the Bank). During 2015, the Plan purchased 952,799 shares of the Company's common stock through a loan from the Company (Note 9) of \$11,798,599. In 2016, the Plan purchased 95,230 shares of the Company's common stock using additional borrowings of \$1,252,914 under the same credit facility. The stock is held in a trust established under the Plan. The borrowing is to be repaid over a period of 20 years by fully deductible Company contributions to the trust fund. As the Plan makes each payment of principal and interest, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the Code. Shares vest in accordance with the vesting schedule upon allocation.

The borrowing is collateralized by the unallocated shares of common stock and are guaranteed by the Company. The lender has no rights against shares of common stock once they are allocated under the ESOP. Accordingly, the financial statements of the Plan as of June 30, 2024 and 2023, and for the year ended June 30, 2024, present separately the assets and liabilities and changes therein pertaining to:

- a. the accounts of employees with vested rights in allocated common stock (allocated) and
- b. common stock not yet allocated to employees (unallocated).

Eligibility - Employees of the Company are eligible to participate in the Plan upon reaching age 21, providing they worked at least 1,000 hours during the Plan year and are employed at the end of the Plan year. Participants who do not have 1,000 hours of service during a Plan year or are not employed on the last working day of the Plan year, are not eligible for certain allocations for that year.

Contributions - Employer contributions to the Plan are at the discretion of the Company. The Plan allows the Employer to make contributions in the form of cash, stock, or a combination thereof, which when aggregated with the Plan's dividends and interest income equal the amount necessary to enable the Plan to make its regularly scheduled loan payment. The Employer contributions totaling \$568,500 in 2024 were made in cash. Employee contributions are not permitted.

FIRST NORTHWEST BANCORP EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS

Company dividends - The Company paid dividends to the ESOP totaling \$0.28 per share or \$262,063 during the year ended June 30, 2024. Dividends on allocated shares were applied to debt service. As required by the plan document, shares returned to participant accounts in exchange for the use of such dividends was at least equal to the current value of such dividends.

Participant accounts - The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with 1) Plan earnings, 2) forfeitures of terminated participants' nonvested accounts, and 3) an allocation of shares of the Company's common stock released by the trustee from the unallocated shares account. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation of forfeitures and common stock. Allocations of the Company's common stock and contributions are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings or losses are allocated to each participant's account based on the ratio of the participant's account balance, as defined by the Plan, to all participants' account balances.

The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Vesting in the Company's employee stock ownership plan contributions, plus actual earnings thereon, is based on years of continuous service. A participant is 100% vested after four years of credited service. Additionally, a participant is 100% vested upon reaching retirement age if employed, or upon termination as a result of disability or death.

Payment of benefits - No distributions from the Plan will be made until a participant retires, dies (in which case payment will be made to his or her beneficiary), or otherwise terminates employment with the Company. Each participant's vested account balance shall be distributed in a lump-sum payment in the form of Company common stock or cash, or a combination of Company common stock and cash, at the discretion of the Plan administrator. However, in the event that the Plan administrator must commence distributions with respect to a participant who has attained age 70½ and is still employed by the Company, if the participant does not elect a lump-sum distribution, payments shall be made in installments in such amounts as shall satisfy the minimum distribution rules.

Forfeited accounts - Forfeitures are the nonvested portion of a participant's account that is lost upon termination of employment. Forfeited, nonvested accounts will be used to pay or reimburse expenses of the Plan at the discretion of the Plan administrator. As of the last day of the Plan year, all forfeitures of terminated participants' nonvested accounts that have not been applied in accordance with the preceding sentence shall be added to the contribution, if any, and allocated among the participants' accounts, as appropriate. During the year ended June 30, 2024, 1,624 forfeited shares were reallocated to remaining participant accounts. There were no unallocated forfeited shares at June 30, 2024 or 2023.

FIRST NORTHWEST BANCORP EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS

Put option - Under federal income tax regulations, in the event the Employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, the participant is entitled to a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification - Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution.

Voting rights - Each participant is entitled to direct the trustee as to the manner in which the Plan shares are to be voted. Such shares shall be voted by the trustee on each issue with respect to which shareholders are entitled to vote in the same proportion as the participants who timely directed the trustee as the manner of voting their shares in their account with respect to such issue.

Note 2 - Summary of Significant Accounting Policies

Basis of accounting - The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

Use of estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Allocations - The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock (“allocated”) and (b) stock not yet allocated to employees (“unallocated”), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment valuation - Investments are stated at fair value.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (i.e., the “exit price”) in an orderly transaction between market participants at the measurement date (Note 4).

FIRST NORTHWEST BANCORP EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS

Income recognition - Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net depreciation in fair value of investments consists of both the realized gains or losses and unrealized appreciation and depreciation of those investments.

Payment of benefits - Benefits are recorded when paid.

Expenses - All expenses of maintaining the Plan are paid by the Company.

Subsequent events - Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statements of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statements of net assets available for benefits and before the financial statements are available to be issued.

The Plan has evaluated subsequent events through April 15, 2025, which is the date the financial statements were available to be issued.

Note 3 - Investments

The Plan's investments in common stock at June 30, 2024 and 2023, are as follows:

	2024		2023	
	Allocated	Unallocated	Allocated	Unallocated

Note 4 - Fair Value Measurements

FASB ASC 820, *Fair Value Measurement*, provides the framework for measuring fair value. That framework provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Basis of fair value measurement

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Quoted prices in markets that are not considered to be active or financial instruments without quoted market prices, but for which all significant inputs are observable, either directly or indirectly.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value at June 30, 2024 and 2023.

Common stock - The fair value of the Employer common stock held by the Plan is valued at the closing price reported on the active market on which the individual securities are traded.

The valuation methods used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with those of other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table discloses, by level, the fair value hierarchy of the Plan's assets at fair value as of June 30, 2024 and 2023:

	Fair Value Measurement at June 30, 2024			
	Level 1	Level 2	Level 3	Total

	Fair Value Measurement at June 30, 2023			
	Level 1	Level 2	Level 3	Total
Common stock	\$ 10,760,750	\$ —	\$ —	\$ 10,760,750

Note 5 - Tax Status

The Internal Revenue Service has determined and informed the Company, by a letter dated July 25, 2016, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes (ASC 740-10), the Plan administrator has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 - Risks and Uncertainties

The Plan invests primarily in Company common stock but may, as needed, invest in other investment securities such as mutual funds. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is at least reasonably possible, given the level of risk associated with investment securities, that changes in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.

Note 7 - Administration of Plan Assets and Party-in-Interest Transactions

Plan investments consist of shares of the Company's common stock, which are held by the trustee of the Plan. Company contributions are held and managed by the trustee, who make scheduled loan payments; invest excess cash received, plus interest; and make distributions to participants. The trustee may purchase Company common stock with excess cash. If no shares of common stock are available for purchase, contributions are invested by the trustee in a money market account until shares become available.

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officers or employees receive compensation from the Plan. All administrative expenses of the Plan are paid by the Company.

Note 8 - Plan Termination

Although it has not expressed any intention to do so, the Company has the right to terminate the Plan and discontinue its contributions at any time. If the Plan is terminated, amounts allocated to a participant's account become fully vested and will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC. Upon termination of the Plan, the trustee is to pay all

liabilities and expenses of the Plan and to sell shares of unallocated common stock held in the Plan to the extent it determines such sale to be necessary in order to repay the loan.

Note 9 - Loans Payable

In 2015, the Plan entered into a term loan agreement with First Northwest Bancorp that bears interest at 2.46% per annum. The loan was initially collateralized with 1,048,029 unallocated shares of Company common stock held in the Plan through purchases of common stock on the open market beginning in January 2015 until the maximum number of shares were purchased in December 2015. During the year ended June 30, 2015, the Company purchased 952,799 shares. An additional 95,230 shares were purchased during the year ended June 30, 2016. The agreement provides for the loan to be repaid over 20 years. The unpaid principal balance on the loan is \$7,717,659 as of June 30, 2024.

The scheduled principal amortization of the loan for the next five years, and thereafter, is as follows:

2025	\$	650,366
2026		666,794
2027		683,643
2028		702,859
2029		718,679
Thereafter		<u>4,295,318</u>
