## Independent Auditor's Report

Board of Directors  
Fulton County Medical Center Employees' Pension Plan  
McConnellsburg, Pennsylvania

### Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the financial statements of Fulton County Medical Center Employees' Pension Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of June 30, 2024, and the related statement of changes in net assets available for benefits for the year then ended and the statement of accumulated plan benefits as of June 30, 2023, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of Fulton County Medical Center Employees' Pension Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended June 30, 2024, stating that the certified investment information, as described in Note 8 to the financial statements, is complete and accurate.

### Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

### **Basis for Opinion**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Fulton County Medical Center Employees' Pension Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Fulton County Medical Center Employees' Pension Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Fulton County Medical Center Employees' Pension Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Fulton County Medical Center Employees' Pension Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## **Other Matters**

### ***Supplemental Schedules Required by ERISA***

The supplemental schedule H, line 4i – schedule of assets held at end of year, and schedule H, line 4j – schedule of reportable transactions as of or for the year ended June 30, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

***Auditor's Report on the 2023 Financial Statements***

Predecessor auditors performed an audit of the 2023 financial statements of Fulton County Medical Center Employees' Pension Plan. In accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the prior year audit did not extend to any statements or information related to assets held for investment of the plan that were certified by a qualified institution. Their report dated April 10, 2024 indicated that (a) the amounts and disclosures in the 2023 financial statements, other than those agreed to or derived from the certified investment information, were presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America, and (b) the information in the 2023 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C). Their report also indicated that the form and content of the 2023 supplemental schedules, other than the information in the 2023 supplemental schedules that agreed to or is derived from the certified investment information, were presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA; and the information in the 2023 supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determines meets the requirements of ERISA Section 103(a)(3)(C).

**Note 1 - Description of Plan**

The following brief description of the Fulton County Medical Center Employees' Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

**General**

The Plan is a noncontributory defined benefit plan that covers substantially all employees of Fulton County Medical Center (the Company) who have completed one year of service and provides for retirement, death and disability benefits. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Effective November 3, 2017, the Plan was amended to freeze benefit accruals and participation in the Plan for all participants except those employees of the Company covered by a collective bargaining agreement effective December 1, 2016 through November 30, 2019, between the Company and SEIU Healthcare Pennsylvania, CTW, CLD. The amendment to freeze benefit accruals was effective as of December 31, 2017.

The Plan is administered by the Company's Finance/Community Relations and Benefits Committee (the Committee). The Committee has overall responsibility for the operation and administration of the Plan.

On June 10, 2024, the Plan purchased a group annuity contract to buyout retired participants, which is effective August 1, 2024. As a result of the buyout, these participants will continue to receive their benefit payments as they did under the provisions of the Plan, but they will no longer be participants in the Plan. Also, the Plan will have no further obligation to make any benefit payments to these individuals. See Note 5.

**Pension Benefits**

Annual benefits under the Plan are based on the product of 0.75% of an employee's average compensation and years of service.

Normal retirement age for plan benefits is 65. Participants may elect to receive reduced benefits upon early retirement at ages 62-64, provided that they have at least 15 years of credited service with the Company.

The normal form of benefit payment is a 50% joint survivor annuity for married participants and a single life annuity for participants who are not married. Participants may elect to receive their benefit payment in the form of a single annuity, a life annuity with 10 years certain, or a 50%, 66.67%, 75%, or 100% joint and survivor annuity. Participants will receive a lump sum distribution if their vested accrued benefit is valued at \$5,000 or less.

**Death and Disability Benefits**

If a vested participant dies prior to their annuity starting date, a death benefit equal to the value of the participant's accumulated pension benefits is paid to the participant's beneficiary.

Active participants who become totally disabled receive annual disability benefits that are equal to the equivalent normal retirement benefits they have accumulated as of the time they become disabled reduced by 1/180th for each of the first 60 months and 1/360th for each of the next 60 months by which the commencement date of the disability retirement benefit precedes the participant's normal retirement date and reduced actuarially thereafter.

### **Vesting**

Participants become 100 percent vested in their normal monthly benefit upon completion of seven years of vesting service.

### **Plan Termination**

Although it has not expressed any intentions to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

## **Note 2 - Significant Accounting Policies**

### **Basis of Accounting**

The financial statements of the Plan are prepared on the accrual basis of accounting.

### **Use of Estimates**

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosures of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Accordingly, actual results may differ from those estimates.

### **Investment Valuation and Income Recognition**

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and custodians. See Note 7 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as those held during the year.

The classification of investment earnings reported in the statement of changes in net assets available for benefits may differ from the classification of earnings on Form 5500 due to different reporting requirements on Form 5500.

### **Payment of Benefits**

Benefit payments to participants are recorded upon distribution.

### **Expenses**

Administrative expenses are paid by the Plan Sponsor and from Plan assets as provided in the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan are paid by the Plan and are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

### **Note 3 - Actuarial Present Value of Accumulated Plan Benefits**

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are accumulated based on employees' compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

# Fulton County Medical Center Employees' Pension Plan

Notes to Financial Statements

June 30, 2024 and 2023

---

The significant actuarial assumptions used in the June 30, 2023 valuation are as follows:

	<u>June 30, 2023</u>
Actuarial Method	Actuarial Cost Method
Mortality Basis	Adjusted Pri-2012 Mortality Table with Scale MP-2021
Annual Rate of Return on Investments	7.22% per year
Discount Rate	6% per year
Retirement Age	65 years

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The computations of the actuarial present value of accumulated plan benefits were made as of July 1, 2023. Had the valuations been performed as of June 30, there would be no material differences.

## **Note 4 - Funding Policy**

The Company contributes such amounts as are necessary to provide assets sufficient to meet the benefit obligations to be paid to Plan participants. Annual contributions are made based on amounts required to at least meet the minimum funding provisions of ERISA. An actuarial valuation is used to determine whether anticipated benefits may reasonably be provided from anticipated contributions when combined with existing assets of the Plan. For the years ended June 30, 2024 and 2023, the Company was not required to make contributions to the Plan and met the minimum funding requirements of ERISA.

## **Note 5 - Annuity Contract from American National Insurance Company**

On June 10, 2024, the Plan entered into a contract with American National Insurance Company to buyout retired participants, which effectively removed 57 retiree benefits from the Plan by transferring benefit obligations to American National Insurance Company. Benefit obligations for these retirees were transferred from the Plan to American National Insurance Company, effective August 1, 2024. The criteria for retirees to be included in the annuity buyout was as follows:

- Participant or beneficiary was required to be receiving benefits prior to September 1, 2023
- Monthly benefit payment was required to be under \$1,250 per month

**Note 6 - Plan Termination**

In the event that the Plan terminates, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under the Plan provisions in effect at any time during the five years preceding the Plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (the PBGC) (a U.S. government agency) up to the applicable limitations.
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect at the date of the Plan's termination.

Whether all participants receive their benefits, should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations, and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

**Note 7 - Fair Value Measurements**

The framework for measuring fair value provides a fair value hierarchy that prioritized the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

# Fulton County Medical Center Employees' Pension Plan

Notes to Financial Statements

June 30, 2024 and 2023

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2024 and 2023.

Mutual funds (including money market mutual funds) - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the plan are deemed to be actively traded.

Common collective trust - Valued at fair value based on the NAV of units held of the collective trust. The NAV is based on the observable market prices of the underlying investments within the fund less liabilities. The NAV for the underlying assets of the fund is a readily determinable measure of their fair value and is the basis used by the fund for current transactions.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2024 and 2023:

	2024			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 15,983,433	\$ -	\$ -	\$ 15,983,433

Investments at fair value				
	2023			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 19,875,420	\$ -	\$ -	\$ 19,875,420
Common collective fund	-	1,699,759	-	1,699,759
	<u>\$ 19,875,420</u>	<u>\$ 1,699,759</u>	<u>\$ -</u>	<u>\$ 21,575,179</u>
Investments at fair value				

**Note 8 - Certified Information**

Certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplementary information, including investments held at June 30, 2024 and 2023, and net appreciation in fair value of investments and interest was obtained by management and agreed to or derived from information certified as complete and accurate by Matrix Trust Company (the custodian of the Plan).

**Note 9 - Tax Status**

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated September 22, 2020 that the Plan and related trust were designed in accordance with applicable regulations of the Internal Revenue Code (IRC). Subsequent to the issuance of this determination letter, the Plan was amended. However, the Company and Plan management believe that the Plan is currently designed and operated in compliance with applicable requirements of the IRC, and the Plan and related trust continue to be tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

**Note 10 - Related Party and Party-In-Interest Transactions**

As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. These transactions are exempt party-in-interest transactions under ERISA.

**Note 11 - Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

## Fulton County Medical Center Employees' Pension Plan

Notes to Financial Statements

June 30, 2024 and 2023

---

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

### **Note 12 - Subsequent Events**

Effective September 16, 2024, the Plan was amended to allow for an early retirement window for any participant that has attained 58 and one-half years of age and completed at least 10 years of vesting service, or normal retirement age as of July 1, 2024; is employed on October 31, 2024; has an annuity starting date that does not effectively commence before December 1, 2024; and elects to retire from employment on October 31, 2024.

The Company has evaluated subsequent events through April 11, 2025, the date which the financial statements were available to be issued.

**Schedule SB, Line 32 – Schedule of Amortization Bases**

---

The amount needed to amortize the Funding Shortfall to the Applicable Funding Target for the plan year beginning July 1, 2023 is determined below. The Funding Shortfall is amortized in fifteen level payments using the interest rates for determining the Applicable Funding Target for the current plan year.

1. Applicable Funding Target	\$18,437,637
2. Actuarial Value of Assets less Prefunding Balance	17,839,347
3. Funding Shortfall [(1) - (2), but not < \$0]	598,290
4. Amortization factor	10.919330
5. Shortfall Amortization for current plan year [(3) ÷ (4)]	54,792

**Fulton County Medical Center Employee's Pension Plan**  
**EIN/PN: 23-1401561/001**  
**Schedule SB, Part V – Statement of Actuarial Assumptions & Methods**

### **Summary of Actuarial Methods**

The ultimate cost of a pension plan is the excess of actual benefits and administrative expenses paid over actual net investment return on plan assets during the plan's existence until the last payment has been made to the last participant. A plan's "actuarial cost method" determines the expected incidence of actuarial costs by allocating portions of the ultimate cost to each plan year. The cost method is thus a budgeting tool to help ensure that a plan will be adequately and systematically funded and accounted for. Annual contributions and accounting expense are also affected by a plan's "asset valuation method" (as well as plan provisions, actuarial assumptions, and actual plan demographic and investment experience each year).

### **Actuarial Cost Method**

**Actuarial Cost Method:** Unit Credit.

The actuarial cost method used in the valuation is the accrued benefit (unit credit) cost method as prescribed by PPA. In this method, the regular plan cost arises from two sources: a Normal Cost and an amortization payment for the Funding Target Shortfall.

The Funding Target is determined as the actuarial present value of benefits as of the valuation date. The Shortfall is equal to the Funding Target less the Plan Assets (with adjustments for credit balances).

For the Plan's ERISA funding requirements, incremental Funding Shortfall amounts are amortized over a fifteen-year period, and the related shortfall amortization payment is determined on the first valuation date following the plan year in which it arises based on the segment rates used for ERISA minimum funding purposes on that date, as prescribed under IRC Section 430.

The Normal Cost is the actuarial present value of benefits expected to accrue during the valuation year plus anticipated administrative expense, if any.

**Actuarial Asset Valuation Method:** The asset valuation technique determines valuation assets by the Asset Averaging Method as described in IRS Notice 2009-22, using 2-year (3-point) averaging period. The Actuarial Value of Assets is equal to the average of the Fair Market Value of Assets as of the valuation date and the expected Fair Market Value of Assets for each of the immediately preceding 2 years, but not less than 90% nor greater than 110% of the Fair Market Value of Assets as of the valuation date. The expected investment return for a plan year is based on the lesser of the expected rate of return on plan assets (currently 6.00% per year) or the applicable statutory interest rate for the year.

**EIN/PN: 23-1401561/001**  
**Schedule SB, Part V – Statement of Actuarial Assumptions & Methods**

## Summary of Actuarial Assumptions

### ECONOMIC ASSUMPTIONS

#### Interest Rates

The current funding and PBGC interest rates are as follows. The funding interest rates are prescribed under IRS regulations based on the Plan Sponsor's interest rate election. The PBGC interest rates are based on the Plan Sponsor's elected method for determining the premium funding target.

	Minimum Funding	Maximum Deductible	PBGC Premium
Segment 1 (0–5 years)	4.75%	2.50%	5.26%
Segment 2 (5–20 years)	5.00%	3.83%	5.23%
Segment 3 (20+ years)	5.74%	4.06%	5.16%

**FASB ASC Topic 960:** Discount rate of 6.00% per year. This is the assumed rate of return for the Plan's entire portfolio of assets, net of investment expenses and including inflation. This assumption represents an estimate of future experience and is based on both historical returns and projections.

**Rationale:** Chosen by Plan Sponsor

#### Compensation Increases

**Assumption:** Salaries are assumed to increase by 3.00% per year.

**Rationale:** The future expected salary increase assumption is based on client expectation of future salary increases.

#### Administrative Expenses

**Assumption:** Actual prior year expenses (net of PBGC premium paid) plus current year PBGC premium.

**Rationale:** This assumption is our best estimate of future administrative expenses payable from the plan's assets.

### DEMOGRAPHIC ASSUMPTIONS

#### Mortality

**ERISA minimum funding, Maximum Deductible Contribution, and PBGC premium:** Statutory static tables for 2023 with separate rates for non-annuitants and annuitants.

**Rationale:** The mortality table above is among those mandated for use under PPA for ERISA funding valuations and is appropriate for the given purpose.

**Fulton County Medical Center Employee's Pension Plan**  
**EIN/PN: 23-1401561/001**  
**Schedule SB, Part V – Statement of Actuarial Assumptions & Methods**

**FASB ASC Topic 960:** PRI-2012 Private Pension Plans Mortality Tables for males and females projected forward with Scale MP-2021.

**Rationale:** The plan is not large enough to develop a credible mortality table based exclusively on plan experience. We have relied on the above-mentioned published mortality table in which credible mortality experience was analyzed. We believe the mortality assumption selected is reasonable for the contingency it is measuring and is not anticipated to produce significant cumulative gains or losses over the measurement period.

### Termination

Active employees are assumed to terminate based on sample rates from the Table shown below:

Age	Males	Female
25	18.75%	26.25%
40	9.00%	13.50%
55	0.00%	0.00%

**Rationale:** We believe this assumption is reasonable for the contingency being measured and is not anticipated to produce significant cumulative gains and losses over the measurement period.

### Retirement

Age 65.

**Rationale:** This assumption was developed based on the plan's historical experience. We believe it is reasonable for the contingency being measured and is not anticipated to produce significant cumulative gains and losses over the measurement period.

### Marital Characteristics

**For participants not in pay status:** We have assumed 100% of participants are married with spouses of opposite gender and males three years older than females.

**For participants in pay status:** Actual birth dates of spouses are included in the census data, where relevant.

**Rationale:** This assumption is based on generally accepted industry standards. We believe the assumption selected is reasonable for the contingency it is measuring and is not anticipated to produce significant cumulative actuarial gains or losses over the measurement period.

### Participant Data

As of July 1, 2023.

**Fulton County Medical Center Employee's Pension Plan**  
**EIN/PN: 231401561/001**  
**Schedule SB, Part V – Summary of Plan Provisions**

---

The following is a summary of the major provisions included in the actuarial valuation of the Fulton County Medical Center Employees' Pension Plan. The formal plan document provides additional details regarding the administration of the plan, and the benefits, rights, and features provided. In case of any conflict between this summary and the plan document, the plan document will control.

### **Basic Information**

**Plan Name:** Fulton County Medical Center Employees' Pension Plan

**Effective Date of Plan:** July 1, 1971.

**Effective Date of Latest Amendment:** April 1, 2021. Early retirement window for certain participants.

**EIN/PN:** 23-1401561 / 001.

**Plan Year:** July 1 – June 30.

**Participation:** Any employee who meets the eligibility requirements may participate in the Plan on the July 1 coincident or preceding completion of the eligibility requirements.

**Maximum Benefit:** The maximum annual benefit is limited as required by IRC Section 415(b).

### **Benefit Formulas and Eligibilities**

#### **Normal Retirement**

**Normal Retirement Date:** The first day of the month coincident with or next following the later of the Participant's attainment of age 65, or the Participant's 5th anniversary of joining the Plan, if later.

**Normal Retirement Benefit:** Equal to 0.75% of Average Compensation times Years of Benefit Service, or a minimum benefit as defined below, if greater:

Hours of Service Within Calendar Year	Monthly Benefit Earned in that Year
1,800 or more	\$3.00
1,300 to 1,799	\$2.50
1,000 to 1,299	\$1.75

**Years of Service:** The computation period of twelve (12) consecutive months during which an Employee has at least 1000 Hours of Service.

**Vesting Service:** All Plan Years in which 1,000 hours of Service is completed.

**Fulton County Medical Center Employee's Pension Plan**  
**EIN/PN: 231401561/001**  
**Schedule SB, Part V – Summary of Plan Provisions**

---

**Average Monthly Earnings:** The monthly Compensation of a Participant averaged over 5 consecutive years which produce the highest monthly average within the last ten completed years of employment.

**Compensation:** Total calendar year wages reportable on Federal W-2, Box 10, excluding severance payments.

### **Deferred Retirement**

**Deferred Retirement Date:** The first day of any month subsequent to the Participant's Normal Retirement Date.

**Deferred Retirement Benefit:** The amount of the Late Retirement Benefit payable to a Participant or Former Participant who retires on their Late Retirement Date shall be equal to the greater of the Actuarial Equivalent of the Normal Retirement Benefit and their benefit based on Years of Benefit Service and Average Compensation as of the actual retirement date.

### **Early Retirement**

**Early Retirement Date:** A participant may retire on the first day of any month following the attainment of age 62, and completion of 15 Years of Service.

**Early Retirement Benefit:** The amount of the Early Retirement Benefit payable to a Participant or Former Participant who retires on their Early Retirement Date shall equal their Accrued Benefit reduced by 1/180th for each month by which the starting date of early retirement precedes the Participant's Normal Retirement Date.

### **Vesting**

**Vesting:** 7-year graded vesting. 100% vested if employed on or after Normal Retirement Age.

### **Forms of Payment**

**Normal Forms:** Life Annuity. A participant that is married must take the benefit in the form of a Joint and Survivor benefit with a continuation of at least 50%, unless the spouse provides written consent to receive an alternate form of payment.

**Optional Forms:** Optional forms of payment include ten year certain and life annuity, 50% joint and survivor annuity, 66.67% joint and survivor, 75% joint and survivor, 100% joint and survivor annuity and a lump sum payment of the Actuarial Equivalence of the Participant's retirement benefit, provided the amount does not exceed \$5,000.

**Disability Benefits:** If a Participant terminates employment with the Employer because of a total and permanent disability and they qualify for and begin to receive a permanent and total disability benefit from the United States Government under the Social Security Act, they will be eligible to receive disability retirement benefits from the Plan. The Participant shall be entitled to receive their Accrued Benefit reduced by 1/180th for each of the first 60th months and 1/360th for each of the next sixty

 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
