INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees, Participants and Plan Administrator of the
Abramson Center for Jewish Life Defined Contribution Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of the Abramson Center for Jewish Life Defined Contribution Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets in liquidation available for benefits as of June 30, 2024 and 2023, and the related statement of changes in net assets in liquidation available for benefits for the year then ended June 30, 2024, and the related notes to the financial statements.

Plan management, having determined it is permissible in the circumstances, has elected to have the audits of the Abramson Center for Jewish Life Defined Contribution Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Plan management has obtained certifications from qualified institutions as of June 30, 2024 and 2023 and for the year ended June 30, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that Plan management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Abramson Center for Jewish Life Defined Contribution Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis-of-Matter – Plan Termination and Liquidation Basis of Accounting

As discussed in Notes 1, 2, 8 and 10 to the financial statements, the Madlyn and Leonard Abramson Center for Jewish Life terminated the Abramson Center for Jewish Life Defined Contribution Plan effective June 30, 2023, and Plan management determined liquidation is imminent. As a result, the Abramson Center for Jewish Life Defined Contribution Plan has changed its basis of accounting from the going concern basis to the liquidation basis which is used in presenting the financial statements as of June 30, 2024 and 2023 and for the year ended June 30, 2024. Our opinion is not modified with respect to that matter.

Responsibilities of Plan Management for the Financial Statements

Plan management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Plan management's election of the ERISA Section 103(a)(3)(C) audit does not affect Plan management's responsibility for the financial statements.

Plan management is also responsible for maintaining a current Plan instrument, including all Plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Abramson Center for Jewish Life Defined Contribution Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by Plan management, as well as evaluate the overall presentation of the financial statements.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Abramson Center for Jewish Life Defined Contribution Plan
Notes to Financial Statements
As of June 30, 2024 and 2023 and For the Year Ended June 30, 2024

1. Description of Plan

The following description of the Abramson Center for Jewish Life Defined Contribution Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan sponsored by the Madlyn and Leonard Abramson Center for Jewish Life (the “Center”) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The Plan is also a money purchase pension plan qualified under section 401(a) of the Internal Revenue Code of 1986, as amended (“IRC”) and is, therefore, exempt from federal income taxes under the provisions of section 501(a) of the IRC. The Plan has satisfied the minimum funding requirements of ERISA.

Prior to July 1, 2010, all Plan assets were administered under a contract with Teacher’s Insurance and Annuity Association of America-College Retirement Equities Fund (“TIAA-CREF”). Effective July 1, 2010, the Plan appointed a new Plan Trustee, and Lincoln Financial Group (“Lincoln”) was appointed to provide investment and recordkeeping services for the Plan. Currently, all new contributions are sent to Lincoln Financial Group Trust Company, Inc., the trustee. The Plan was amended and restated effective June 1, 2022, based on a Lincoln prototype defined contribution plan.

The Center terminated the Plan effective June 30, 2023, the “Termination Date” (see Notes 2, 8 and 10). No further contributions will be permitted or made under the Plan with respect to Plan compensation earned on or after the effective date. Plan management took actions to terminate the Plan and ensure the distribution of benefits occurred in an orderly and efficient manner. Plan management completed the distribution of benefits during 2024, with the Center communicating to the Plan’s custodian that the Plan’s custodian treat all amounts formerly held by the Plan as individually-owned by the participants outside of the Plan (see Note 2).

Eligibility

Prior to the Plan termination, the Plan covered substantially all employees of the Center, excluding employees covered by a collective bargaining agreement and leased employees. Employees could enter the Plan on the first day of the quarter after the employee had completed 1,000 hours of service within twelve consecutive months of employment and has attained age twenty-one.

Contributions

Prior to the Plan termination, the Center contributed for each plan year 3% of the participant’s compensation, as defined, for participants who had at least 1,000 hours of credited service during the Plan year with the exception of death, disability or attainment of normal retirement age (65). Contributions were subject to limitations imposed by the IRC. Contributions to the Plan by participants were not permitted.

Vesting

Prior to the Plan termination (see Note 8), participants were vested in employer contributions and earnings thereon over six years of credited service at the rate of:

| <u>Years of Vesting Service</u> | <u>Percentage of Compensation</u> |
|---------------------------------|-----------------------------------|
| After the first year | 0% |
| After the second year | 20% |
| After the third year | 40% |
| After the fourth year | 60% |
| After the fifth year | 80% |
| After the sixth year | 100% |

Participants also became fully vested upon death, disability or normal retirement age.

Notes to Financial Statements
As of June 30, 2024 and 2023 and For the Year Ended June 30, 2024

Forfeitures

When certain terminations of participants in the Plan occur, the nonvested portion of a participant's account represents a forfeiture. As of June 30, 2024 and 2023, forfeited nonvested accounts totaled \$0 and \$200,279 respectively. Forfeitures were generally used to pay administrative expenses or to reduce future employer contributions. During the year ended June 30, 2024, forfeitures of \$198,779 were used to reduce the fiscal year 2023 employer contribution, \$0 were restored back to participants, and \$0 were used to pay administrative expenses.

Investment Options

Upon enrollment in the Plan, and throughout the Plan year, participants were able to direct the investment of their employer contribution in selected mutual funds offered by the Plan or a group fixed annuity contract issued by Lincoln Financial Group. If an investment mix or investment fund was not elected, the employer fixed contribution made on behalf of such participant was invested in a qualified default investment alternative. Prior to July 1, 2010, the Plan offered another service provider to which participants could contribute contributions (see "General" above).

Participant Accounts

Each participant's account was credited with allocations of the Center's contribution and Plan earnings. Participant accounts were charged with an allocation of administrative expenses that were paid by the Plan. Allocations were based on participant earnings, account balances, or specific participant transactions as defined by the Plan. The benefits to which a participant was entitled are the benefits that can be provided from the participant's vested account.

Payment of Benefits

Following retirement or termination of employment, a participant was eligible to receive a distribution from his or her vested account. Benefit payments were recorded as a deduction from Plan assets when paid. The normal form of benefit payment was a joint and survivor annuity for married participants and a single life annuity for participants who were not married. A participant could elect to receive other annuity options, installment payments or a lump sum payment. In circumstances when a terminated participant had a vested account balance less than \$1,000, the participant's vested account balance was to be distributed in a lump sum.

2. Summary of Significant Accounting Policies

The following are the significant accounting policies followed by the Plan:

Basis of Accounting

Effective June 30, 2023, the Plan Sponsor elected to terminate the Plan (see Notes 1, 8 and 10), and the Plan administrator determined liquidation was imminent. Accordingly, the accompanying statements of net assets in liquidation as of June 30, 2024 and 2023, and the statement of changes in net assets in liquidation for the year ended June 30, 2024 are prepared on the liquidation basis of accounting.

Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to a fully benefit-responsive investment contract because the contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The financial statements include the fully benefit-responsive investment contract and their related activity on a contract value basis (see Note 5).

Adjustment to the Liquidation Basis

Under the liquidation basis of accounting, an entity accrues costs and income that it expects to incur or earn through the end of its liquidation if and when it has a reasonable basis for the estimation. Adjustment to the liquidation basis can include estimated payments to participants upon liquidation, fees that will be incurred, interest expected to be earned on interest-bearing investments held at the statement of net assets date as a result of the Plan's termination, as well as estimated legal and audit fees. As of June 30, 2024, all amounts had

Abramson Center for Jewish Life Defined Contribution Plan
Notes to Financial Statements
As of June 30, 2024 and 2023 and For the Year Ended June 30, 2024

been distributed by the Plan and no further estimates of income or expenses were deemed necessary. The Plan administrator is expected to pay any remaining direct fees of the Plan. As of June 30, 2023, the Plan did not believe it has a reasonable basis to accrue costs, income or estimated payments to participants upon liquidation and no such adjustments were recorded.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities, changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for the fully-benefit responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by trustees, custodians, insurance companies and investment advisors. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation or depreciation in the fair value of investments consists of the realized gains or losses and the unrealized appreciation or depreciation of those investments bought and sold, as well as held during the year.

Administrative Expenses

All reasonable administrative expenses, including trustee, custodial and third-party administration fees necessary to operate and administer the Plan are paid by the Plan, unless otherwise paid by the Center. Expenses of maintaining the Plan that are paid directly by the Center are excluded from these financial statements. Certain investment related expenses are included in the net appreciation in fair value of investments. Certain other professional expenses of the Plan and its participants are partially offset through income generated from revenue sharing agreements (which is reported in the statement of changes in net assets in liquidation available for benefits as other investment income).

Payments of Benefits

Benefit payments are recorded when paid. As part of the Plan's termination procedures, the Center communicated to the Plan's custodian that the Plan's custodian treat all amounts formerly held by the Plan as individually-owned by the participants outside of the Plan. Benefits paid to participants during the year ended June 30, 2024 include approximately \$3.0 million transferred as of July 1, 2023 to these individually-owned participant accounts at the custodian, TIAA-CREF, which was a service provider offered by the Plan prior to July 1, 2010.

Subsequent Events

The Plan has evaluated subsequent events through April 15, 2025, the date the financial statements were available to be issued.

3. Information Certified by Qualified Institutions

The Plan administrator having determined that it is permissible in the circumstances elected to have the audits of the Plan performed in accordance with ERISA section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information included in the accompanying financial statements was obtained or derived from information obtained by the Plan administrator and certified as complete and accurate by Lincoln Financial Group Trust Company, Inc. and Teachers' Insurance Annuity Association-College

| Variable annuities | 2,168,707 |

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset’s or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used as of June 30, 2024 and 2023.

Abramson Center for Jewish Life Defined Contribution Plan
Notes to Financial Statements
As of June 30, 2024 and 2023 and For the Year Ended June 30, 2024

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (“NAV”) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Variable annuities: Valued based on year-end unit values of each account, which are calculated daily. Unit values of variable annuities are quoted and are listed on the NASDAQ’s website. These variable annuity accounts invest principally in equity securities, fixed-income instruments and short-term investments in accordance with each portfolio's investment objectives. The variable annuities are primarily valued using market quotations or prices obtained from independent pricing sources, which may employ various pricing methods to value the investments including matrix pricing. CREF Money Market Account holdings are generally valued at amortized cost.

Pooled separate accounts: Pooled separate accounts are valued at the net asset value (NAV) or equivalent based on units of the pooled separate accounts. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. The NAV is generally based on the fair value of the underlying investments held by the pooled separate account less its liabilities. This practical expedient is not used when it is determined to be probable that the pooled separate account will sell the investment for an amount different than the reported NAV.

Fixed annuity contracts: The non-fully benefit responsive fixed annuity contracts are composed entirely of TIAA Traditional Annuity contracts. The non-fully benefit responsive fixed annuity contracts are reported at contract value, which utilizes a cost based approach as significant inputs (observable or unobservable) are not available. The contract value of the TIAA Traditional Annuity equals the accumulated cash purchases and interest credited to the plan’s contracts, less any withdrawals. The TIAA Traditional Annuity is not available for sale or transfer on any securities exchange. Accordingly, transactions in similar investment instruments are not observable. While transactions involving the purchases/sales of individual TIAA Traditional Annuity contracts are not observable in a public marketplace, contract value provides a good approximation of fair value as supported by the following:

Participants have the option to allocate their balances between the TIAA Traditional Annuity and a number of investment choices for which fair values are readily observable. Participants typically allocate their funds between several investment choices and all transactions are executed at current market value with the assumption being that objective, unbiased transactions regularly occur and participants deem the value of the TIAA Traditional Annuity contract to be no less than the participant’s accumulation balance and that each investment purchase is made at fair value since these purchases are not distressed and are conducted between willing buyers and sellers in open market conditions where a participant has a variety of investment choices. When participants change employers, they oftentimes enroll in a new plan with very similar investment options, including the TIAA Traditional Annuity. Because these transactions continue to occur with continued participant purchases at current stated contract values, the market-observable presumption is that the contract value of current funding represents a good approximation of fair value based on the willingness of the participant to continue such transactions. For each purchase, TIAA continues to record a contractual liability for the current purchase and does not consider such liability to have any embedded gain or loss. Upon a distributable event, the participant surrenders the future

Abramson Center for Jewish Life Defined Contribution Plan
Notes to Financial Statements
As of June 30, 2024 and 2023 and For the Year Ended June 30, 2024

accumulation of benefits in exchange for a cash payout based on the contract value, demonstrating the contract value can be monetized when a distributable event occurs. The crediting rate is supported by the investment performance of a large, diversified portfolio (TIAA’s General Account), is correlated with the highest quality debt security yields, and is adjusted for contract liquidity. A twenty-year analysis of crediting rates for TIAA Traditional Annuity contracts suggests a rate of return that is representative of a market rate for this type of product; thus application of observed rates would yield a discounted cash flow which approximates contract value. As of June 30, 2023, TIAA has received among the highest possible insurance financial strength ratings for claims paying ability by major rating agencies.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Due to the termination of the Plan, there were no assets with fair value measurements held by the Plan as of June 30, 2024.

The following table sets forth by level, within the fair value hierarchy, the Plan’s fair value measurements as of June 30, 2023:

| | <u>Total</u> | <u>Level 1</u> | <u>Level 2</u> | <u>Level 3</u> |
|----------------------------------|---------------------|---------------------|----------------|-------------------|
| Investments, at fair value: | | | | |
| Mutual funds | \$ 3,833,488 | \$ 3,833,488 | \$ - | \$ - |
| Fixed annuity contracts | 716,266 | - | - | 716,266 |
| Variable annuities | 2,168,707 | 2,168,707 | - | - |
| Pooled separate accounts (*) | 90,695 | - | - | - |
| Total investments, at fair value | <u>\$ 6,809,156</u> | <u>\$ 6,002,195</u> | <u>\$ -</u> | <u>\$ 716,266</u> |

*In accordance with fair value measurement guidance, certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented as investments in the statements of net assets in liquidation available for benefits.

The Plan evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended June 30, 2024, there were no transfers in or out of levels 1, 2, or 3.

Variable annuities are available through the College Retirement Equities Fund (“CREF”), which is registered with the Securities and Exchange Commission under the Investment Company Act of 1940 as an open-end management investment company. CREF consists of eight investment portfolios: the Stock, Global Equities, Growth, Equity Index, Bond Market, Inflation-Linked Bond, Social Choice and Money Market Accounts. These are variable annuities. Accumulation units in these variable annuities are available for transactions at the closing accumulation unit value on any day the New York Stock Exchange is open for business. In an effort to reduce market timing and excessive trading, shareholders will not be permitted to make electronic transfers back into the same account through a purchase or exchange for 90 calendar days, if a purchase, sale and repurchase within that account is made within a sixty-day period, other than for the CREF Money Market Account.

Abramson Center for Jewish Life Defined Contribution Plan
Notes to Financial Statements
As of June 30, 2024 and 2023 and For the Year Ended June 30, 2024

The table below sets forth a summary of changes in the fair value of the Plan’s level 3 assets for the year ended June 30, 2024:

| | |
|--|------------------------------------|
| | <u>Fixed Annuity Contracts</u> |
| Balance, end of year 2023 | \$ 716,266 |
| Realized gains/(losses) | - |
| Unrealized gains/(losses) relating to instruments still held at the reporting date | - |
| Purchases | - |
| Sales/Transfers (see Note 2) | <u>(716,266)</u> |
| Balance, end of year 2024 | <u>\$ -</u> |

Gains and losses (realized and unrealized) included in changes in net assets for the periods above are reported in the net appreciation in fair value of investments in the statement of changes in net assets in liquidation available for benefits.

For those assets with fair value measured using Level 3 inputs, the Plan’s investment committee determines the fair value measurement policies and procedures in consultation with investment advisors, trustee, custodians and insurance companies (subject to oversight by the Center’s audit and risk committee). Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements, if any, are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

As discussed in Notes 1 and 5, Plan participants had been able to direct contributions into the TIAA Traditional Annuity, a fixed annuity contract that is fully and unconditionally guaranteed by Teachers Insurance and Annuity Association of America (“TIAA”). Certain contract types of the TIAA Traditional Annuity, contain liquidity restrictions on the redemption of TIAA Traditional Annuity accumulations, which could impact the value realized upon exiting the contract. In particular, the TIAA Traditional Annuity Retirement Annuities (“RA”) contracts do not allow lump-sum cash withdrawals and transfers must be spread out over a minimum of ten annual installments. TIAA Traditional Annuity Group Retirement Annuities (“GRA”) contracts allow lump-sum cash withdrawals within 120 days following termination subject to a 2.5% surrender charge and transfers must be spread out over a minimum of ten annual installments (5 annual installments following termination). TIAA Traditional Annuity Retirement Choice (“RC”) contracts allow lump-sum cash withdrawals within 120 days following termination subject to a 2.5% surrender charge and transfers must be spread out over 84 monthly installments. TIAA Traditional Annuity holdings with liquid contracts, including the TIAA Traditional Annuity Group Supplemental Retirement Annuities (“SRA”) are benefit responsive. TIAA Traditional Annuity holdings with illiquid contracts (RA, GRA and RC) are not considered to be fully benefit-responsive investment contracts because the liquidity restrictions restrict participants’ reasonable access to their contract balances. As of June 30, 2024 and 2023, the Plan had approximately \$0 and \$716,266, respectively, in illiquid contracts (see Notes 1, 2, 8 & 10).

Due to the termination of the Plan, there were no assets with additional disclosure requirements for the fair value measurement of investments in certain entities that calculate net asset value per share (or its equivalent) as of June 30, 2024.

The following table sets forth additional disclosures for the fair value measurement of investments in certain entities that calculate net asset value per share (or its equivalent) as of June 30, 2023.

| <u>Investment Type</u> | <u>June 30, 2023</u> | | | |
|--------------------------|----------------------|---------------------------------|---------------------------------|-------------------------------------|

The TIAA Real Estate Account is an insurance company separate account of TIAA investing mainly in real estate and real estate related investments. Accumulation units in the TIAA Real Estate Account are available for transactions at the closing accumulation unit value on any day the New York Stock Exchange is open for business. Transfers out of the TIAA Real Estate Account are limited to one per calendar quarter. Although the underlying assets cannot be quickly sold and converted to liquid assets, the TIAA general account provides the TIAA Real Estate Account with a liquidity guarantee to ensure that the TIAA Real Estate Account has funds available to meet participant redemption, transfer or cash withdrawal requests executed at quoted unit values.

5. Fully Benefit-Responsive Investment Contract

Investment options of the Plan included the Lincoln Stable Value Account, a fully benefit-responsive investment contract available through the insurance company, Lincoln National Life Insurance Company. As of June 30, 2024 and 2023 the contract value amount of the fully-benefit responsive investment contract was \$0 and \$540,404, respectively. The fully benefit-responsive investment contract is invested in the general asset account of the insurance company and is considered a traditional investment contract. The interest guarantee under the fully benefit-responsive investment contract is subject to the claims paying ability of the insurance company. Generally, the guaranteed interest rates reflect a number of factors including mortality and expense risks, interest rate guarantees, the investment income earned on invested assets and the amortization of any capital gains and/or losses realized on the sale of invested assets. Current rates are subject to change, but will never fall below the guaranteed minimum indicated by the insurance company.

More specifically, the Lincoln Stable Value Account has crediting rates based on an external index and backed by the general account of the Lincoln National Life Insurance Company. Participants do not have contracts; instead, they have a beneficial interest in the group annuity contract of the Plan. The Lincoln Financial Group Stable Value Account provides a guaranteed interest rate. The Lincoln Stable Value Account had a minimum crediting rate that was 1.75% as of June 30, 2024 and 2023. The credited rate for the Lincoln Stable Value Account is based on the three-year average of the Barclays Capital Intermediate U.S. Government/Credit Index. For any particular calendar quarter, the credited rate is based on the 36-month average plus or minus a factor for that particular contract. The 36-month average is computed through the end of the month that ends one month prior to the beginning of the quarter. The Lincoln Stable Value Account contract contains provisions for computing the market-to-book ratio in the event that the contract is terminated. The assets backing this contract include all of the assets of the life insurance company's general account. No specific general account assets are set aside to support this contract. Lincoln National Life Insurance Company's annual report provides the fair value of those assets and the amortized cost, which is maintained to match the contract values. However, the ratio of fair value to amortized cost may not be a good indicator of what the policyholders would receive in the event of insolvency since many contracts have surrender charges, market value adjustments, and installment payout provisions which absorb many of the potential losses. The contract provides three options upon termination. One option is to pay out the balance in six installments over five years, with 20% the first year, then 20%, 25%, 33%, 50%, and 100% thereafter. During that time, interest will continue to be credited to the balance. The second option is a market value payout based on a formula in the contract, which may result in an amount lower than the current account balance, but will never be lower than the principal accumulated at the guaranteed interest rate. The third option is a 12-month put, which is a book value (principal plus accumulated interest) payout with 12-months' notice.

As described in Note 2, the investment contract is fully benefit-responsive, and therefore, contract value is the relevant measurement attribute for that portion of net assets available for benefits. Contract value represents contributions made plus interest accrued at the contract rate less withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The Plan

Abramson Center for Jewish Life Defined Contribution Plan
Notes to Financial Statements
As of June 30, 2024 and 2023 and For the Year Ended June 30, 2024

owns a promise to pay interest at crediting rates which are announced in advance and guaranteed for a specific period.

The fully benefit-responsive investment contract is intended to be a long-term investment, and therefore, the insurance company may impose restrictions on the ability to move funds into and out of this investment option. Withdrawals from the fully benefit-responsive investment contract for other than payment of benefits to participants may be subject to a market adjustment and a surrender charge. Specifically, certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (i) amendments to the Plan document (including complete or partial Plan termination or merger with another Plan); (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash options; or (iii) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemptions under ERISA. The Plan administrator does not believe that the occurrence of any such event which would limit the Plan's ability to transact at contract value with participants is probable.

As detailed in Note 4, the Plan's TIAA Traditional Annuity contract types contain liquidity restrictions on redemption which could impact the value realized upon exiting the contract and therefore are considered not benefit responsive.

6. Risks and Uncertainties

The Plan provided for various investment options monitored by the trustee and custodian. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets in liquidation available for benefits and the statement of changes in net assets in liquidation available for benefits.

7. Related Party Transactions and Party-In-Interest Transactions

Certain Plan investments were shares of mutual funds managed by Lincoln Financial Group Trust Company, Inc., trustee of the Plan, and/or its affiliates. An available investment option also included a group fixed annuity contract managed by Lincoln National Life Insurance Company, a subsidiary of Lincoln Financial Group. Lincoln National Life Insurance Company served as recordkeeper of the Plan. Additional investment options of the Plan included variable annuities, a pooled separate account and a fixed annuity contract managed by TIAA-CREF, a custodian of the Plan, and/or its affiliates. These transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA. Fees incurred by the Plan for investment management services are included in the net appreciation in fair value of investments. Fees paid directly from participant accounts are included in administrative expenses. Fees paid by the Plan for the administrative services were \$23,862 for the year ended June 30, 2024. The Plan is interpreted, administered and operated by an administrative committee comprised entirely of representatives of the Center.

Lincoln National Life Insurance Company or its affiliates generate income to the Plan through revenue sharing agreements. More specifically, Lincoln National Life Insurance Company or its affiliates may receive revenue from mutual funds and the group fixed annuity contract service providers for services Lincoln National Life Insurance Company or its affiliates provide to the mutual funds. This revenue may be used to offset certain amounts owed to Lincoln National Life Insurance Company or its affiliates for administrative services to the Plan. If the revenue received by Lincoln National Life Insurance Company or its affiliates from such mutual funds or group fixed annuity contract service providers exceeds the amount owed as agreed to by Lincoln National Life Insurance Company and the Plan for administrative services, Lincoln National Life Insurance Company or its affiliates is to remit the excess to the Plan. Such amounts may be applied to pay Plan administrative expenses or allocated to the accounts of the participants. During the year ended June 30, 2024,

Abramson Center for Jewish Life Defined Contribution Plan
Notes to Financial Statements
As of June 30, 2024 and 2023 and For the Year Ended June 30, 2024

the related amounts deposited into the Plan were approximately \$5,126 and the amount of \$6,315 was used to pay plan expenses. The Plan or Plan Sponsor may make a payment to Lincoln National Life Insurance Company or its affiliates for administrative expenses not covered by revenue sharing. As of June 30, 2024 and 2023, there was approximately \$0 and \$961, respectively, in such unallocated accounts.

8. Plan Termination

The Center had the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become 100 percent vested in their employer contributions. The Plan sponsor, effective June 30, 2023, terminated the Plan (see Notes 1, 2 and 10). As a result of the termination, all participants became fully vested in any balances in which they were not previously vested.

9. Tax Status

Effective June 1, 2022, the Plan was amended and restated by adopting a pre-approved nonstandardized money purchase plan sponsored by Lincoln Retirement Services Company, LLC. The Internal Revenue Service (“IRS”) issued an opinion letter dated June 30, 2020, stating that the pre-approved nonstandardized money purchase plan was designed in accordance with applicable IRC requirements as of that date. Although the Plan has subsequently been amended, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes the Plan, as amended, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of June 30, 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to June 30, 2021.

10. Plan Amendments

Effective June 30, 2023, the Plan was amended for the following:

- To freeze and terminate the Plan. No further contributions will be permitted or made under the Plan with respect to Plan compensation earned on or after the effective date.
- Other general administrative changes.
