Report of Independent Auditors

To the Plan Participants and the Plan Administrator of
F.N.B. Corporation Progress Savings 401(k) Plan

Opinion on the 2023 Financial Statements

We have audited the financial statements of F.N.B. Corporation Progress Savings 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2023, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes (collectively referred to as the “financial statements”).

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2023, and the changes in its net assets available for benefits for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion on the 2023 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the 2023 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the 2023 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan’s ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan’s transactions that are presented and disclosed in the financial statements are in conformity with the Plan’s provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2023 Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion of the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2023 (referred to as the "supplemental schedule"), is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audit of

the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the supplemental schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Progress Savings 401(k) Plan

Notes to Financial Statements

December 31, 2023

1. Description of Plan

The following description of the F.N.B. Corporation Progress Savings 401(k) Plan (the Plan) provides only general information. Participants should refer to the summary plan description for a more complete description of the Plan's provisions.

General

The Plan is a qualified 401(k) defined contribution plan, covering all eligible employees of F.N.B. Corporation (the Corporation), and eligible affiliates, as defined by the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

All non-temporary employees are eligible to participate in the Plan. An eligible employee may enroll in the Plan the day following the date the employee commences employment. An eligible employee who does not enroll in the Plan will be automatically enrolled in the Plan following 30 days of employment, unless the employee opts out of the Plan before then.

The Plan is administered by F.N.B. Pension Committee (Committee) which is a committee of executives of the Corporation. The Committee has the overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Trustees.

In June 2022, the appointed trustee for all Plan assets was changed from T. Rowe Price Trust Company to Fidelity Management Trust Company.

In January 2022, the Corporation completed an acquisition of Howard Bancorp, Inc. ("Howard"). In connection with the acquisition, employees who were active participants in the defined contribution plan sponsored by Howard were permitted to immediately participate in the Plan. In December 2022, the Corporation completed an acquisition of UB Bancorp & Subsidiaries ("Union"). In connection with the acquisition, employees who were active participants in the defined contribution plan sponsored by Union were permitted to immediately participate in the Plan.

Corporation Stock Fund

The Plan invests in common stock of the Corporation through its F.N.B. Corporation Common Stock Fund. The F.N.B. Corporation Common Stock Fund may also hold cash or other short-term securities, although these are expected to be a small percentage of the fund. The Corporation has implemented a dividend pass-through election for its participants.

Each participant is entitled to exercise voting rights attributable to the shares allocated to their account and is notified by the Corporation prior to the time that such rights may be exercised. The trustee is not permitted to vote any allocated shares for which instructions have not been given by a participant. The trustee votes any unallocated shares in the same proportion as those shares that were allocated, unless the Committee directs the trustee otherwise. Participants have the same voting rights in the event of a tender or exchange offer.

1. Description of Plan (continued)

Contributions

Participants may contribute up to 50% of their pre-tax annual compensation excluding tuition reimbursements, signing bonuses, severance pay and non-cash transactions. Contributions are subject to certain limitations imposed by the Internal Revenue Code (IRC). An eligible employee who is automatically enrolled in the Plan will be deemed to have elected to have 3% of his or her compensation contributed on a pre-tax basis to the Plan. Participants who have attained age 50 by the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans (rollovers). Participants direct the investment of their vested contributions into various investment options offered by the Plan. Participants can also designate some or all of the participants' elective deferral as Roth elective deferrals.

The Corporation matched 100% of a participant's elective pre-tax contribution, up to 6% of the participant's compensation in 2023 and 2022. The Plan also provides for a discretionary performance-based contribution determined annually by the Corporation. The discretionary performance-based contribution to the Plan can be up to 3% of a participant's compensation, based on the extent to which the Corporation achieved its performance goals for the year. The discretionary performance-based contribution will only be made on behalf of eligible participants who are employed by the Corporation on the last day of the Plan year. Discretionary performance-based contributions amounted to 0.6% of eligible compensation for 2023 or \$1,870,912. Discretionary performance-based contributions amounted to 1.3% of eligible compensation for 2022 or \$3,988,581.

Matching contributions and discretionary performance-based contributions are made in the form of either shares of F.N.B. Corporation common stock or cash used to acquire shares of F.N.B. Corporation common stock.

Dividends on F.N.B. Corporation common stock are automatically reinvested in the Plan for all participants. However, participants may make a special request to receive a cash distribution of dividend payments on F.N.B. Corporation common stock.

Participant Accounts

Each participant's account is credited with their voluntary contribution, the Corporation's matching contributions, discretionary performance-based contributions, and an allocation of the Plan's net earnings, as defined by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. The voluntary contribution and employer match is paid biweekly at the end of each payroll period. The discretionary performance-based contributions, if any, are paid after the end of the plan year.

Vesting

Participants are immediately vested in their voluntary contribution, Corporation's matching contribution, and cash dividends paid on F.N.B. Corporation common stock, plus actual earnings thereon. Participants are 100% vested in the Corporation's discretionary performance-based and actual earnings thereon after three years of service.

Participants also become 100% vested in all discretionary contributions when attaining the age of 65 or in the event of death or permanent disability.

1. Description of Plan (continued)

Forfeitures

Upon a participant's separation from service, the non-vested portion of the participant's account will be forfeited upon the earlier of the date the participant receives an account distribution or the date the participant incurs a five-year break in service. Forfeited amounts are used to reduce the Plan's administrative expenses or to reduce future Corporation contributions. The following table includes forfeiture related information.

	Forfeitures	
	2023	2022
Forfeiture balance at end of year	\$ 48,002	\$ 10,932
Forfeitures used to reduce Corporation contributions	110,985	260,000
Forfeitures used to reduce administrative expenses	—	41,250

Payment of Benefits

Upon separation of service, vested account balances of less than \$1,000 will be paid in a single lump sum as soon as practicable after separation. Vested account balances greater than \$1,000 will be distributed when requested by the participant.

The Plan permits withdrawals before separation of service under certain circumstances. Voluntary pre-tax contributions may be withdrawn provided the participant has an immediate and heavy financial need (as defined by the IRC). Also, after reaching age 59 and 1/2, participants may withdraw all or a portion of a vested account balance.

Notes Receivable from Participants

Participants who remain actively employed by the Corporation may borrow from their accounts up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms may not exceed five years, unless the participant uses the proceeds of the loan to acquire a principal residence, in which case the repayment period must be reasonable as determined by the Plan Administrator. Loans are secured by the balance in the participant's account and bear an interest rate of prime plus 1%, set at the time of the loan request. The loan rates at December 31, 2023 range from 4.25% to 9.50%. Principal and interest are paid ratably through payroll deductions.

Plan Termination

Although it has not expressed any intent to do so, the Corporation has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, the participants will become 100% vested in their accounts.

2. Summary of Significant Accounting Policies

Basis of Presentation

The financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition

Investments held by a defined contribution plan are required to be carried at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Dividend income is recorded on the ex-dividend date. Interest income from other investments is recorded as earned on an accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Purchases and sales of securities are recorded on a trade-date basis.

Administrative Expenses

Administrative expenses are paid by the Plan, if not paid by the Corporation. Expenses paid by the Corporation generally consist of audit, custody and recordkeeping services. Administrative expenses paid by the Corporation on behalf of the Plan totaled \$35,000 for plan year 2023.

Contributions

Participant contributions are recorded in the month withheld from participants' wages. Corporation matching contributions are paid and recorded in the same month as participant contributions. Other annual Corporation contributions are made after the end of the plan year.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are recorded when they are incurred.

2. Summary of Significant Accounting Policies (continued)

Distributions to Participants

Distributions to participants are recorded when paid by the trustee.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investments. These investments are exposed to various risks such as interest rate, market, liquidity and credit risks. Market risks include global events which could impact the value of investment securities, such as pandemic or international conflict. Due to the level of risk associated with certain investments and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

As of December 31, 2023 and December 31, 2022 the Plan had one significant investment, consisting solely of an investment in the Corporation's common stock fund further described in Note 5, in the amount of \$117,374,177 and \$101,991,817, respectively.

3. Fair Value Measurements

The *Fair Value Measurement* topic of the Financial Accounting Standards Board *Accounting Standards Codification* (Topic 820) provides the framework for measuring fair value. That framework provides for a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | <p>Inputs to the valuation methodology include:</p> <ul style="list-style-type: none">-quoted prices for similar assets or liabilities in active markets;-quoted prices for identical or similar assets or liabilities in inactive markets;-inputs other than quoted prices that are observable for the assets or liability, and;-inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.</p> |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. The unobservable inputs reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability. |

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used must maximize the use of observable inputs and minimize the use of unobservable inputs.

3. Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the valuation methodologies used during 2023 and 2022.

F.N.B. Corporation Common Stock Fund: The common stock of the Corporation is traded on a national exchange and is valued using last trading price on the last business day of the plan year.

Mutual funds: Shares of mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year end, based upon published market quotations on national exchanges.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain instruments could result in a different fair value measurement at the reporting date.

4. Income Tax Status

The Plan received a determination letter from the Internal Revenue Service dated August 17, 2017, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the Internal Revenue Service, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2023 and 2022 there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax years in progress.

5. Parties-in-Interest Transactions

Certain mutual funds were managed by Fidelity Management Trust Company. Fidelity Management Trust Company was appointed the trustee for all Plan assets in July 2022, therefore, these transactions qualify as party-in-interest transactions. Fees paid to Fidelity Management Trust Company for administration services, included in administrative expenses in the accompanying statements of changes in net assets available for benefits, were \$288,004 during 2023. Additionally, an affiliate of the Corporation provides certain investment advisory services to the Plan. Fees related to these services, included in administrative expenses in the accompanying statements of changes in net assets available for benefits were \$82,500 in 2023. Additionally, certain administrative functions of the Plan are performed by officers or employees of the Corporation. No such officer or employee receives compensation from the Plan.

One of the investment options in the Plan is F.N.B. Corporation common stock. Notes receivable from participants are also considered party-in-interest transactions. At December 31, 2023 and 2022, the Plan held an aggregate of 8,523,360 and 7,815,287 shares of F.N.B. Corporation common stock valued at \$117,374,177 and \$101,991,817, respectively. The following table summarizes the F.N.B. Corporation common stock activity.

F.N.B. Corporation Common Stock Plan Data

	2023
F.N.B. Corporation common stock dividends received	\$ 3,975,932
F.N.B. Corporation common stock shares purchased by the Plan	2,575,539
F.N.B. Corporation aggregate cost of purchased common stock	\$ 30,794,371

F.N.B. Corporation proceeds from sale of common stock	\$ 22,154,292

6. Subsequent Events

The Secure 2.0 Act of 2022 was signed into law on December 29, 2022. This legislation includes a vast array of provisional changes to retirement plans, becoming effective in 2023 and beyond. Plan management is evaluating the impact of the adoption and implementation of this legislation on the Plan.
