Schedule SB, line 25 - Change in Method

B&J Tree Service, Inc. Defined Benefit Pension Plan

39-1373035 / 002

For the plan year 10/01/2023 through 9/30/2024

A change in funding method can occur when both the enrolled actuary and business organization providing actuarial services for a plan are changed and the new enrolled actuary uses different valuation software than the prior enrolled actuary or otherwise applies the overall funding method in a different manner. It also occurs if the valuation date is changed from the beginning of the year to the end of the year. Section 4.01 of Rev. Proc. 2017-56 provides automatic approval for changes in funding method that occurred with respect to "takeover plans" (that is, plans for which both the enrolled actuary and the business organization providing actuarial services are changed).

For a plan subject to the requirements of IRC §430, automatic approval is granted for a change in funding method that results from a change in enrolled actuary if all the conditions set forth in paragraphs (1) through (4) below are satisfied:

(1) Both the enrolled actuary for the plan and the business organization providing actuarial services to the plan have changed.

(2) The new method is substantially the same as the method used by the prior enrolled actuary and is consistent with the description of the method contained in the prior actuarial report or prior Schedule SB (disregarding any difference attributable to a change in funding method for which automatic approval is otherwise provided).

(3) The funding target and target normal cost (without regard to any adjustments for employee contributions and plan-related expenses), as determined by the new enrolled actuary as of the valuation date for the prior plan year (using the actuarial assumptions of the prior enrolled actuary and using the data elements and valuation software of the new enrolled actuary), are both within 3% of those values as determined for that prior plan year by the prior enrolled actuary.

(4) The actuarial value of plan assets, as determined by the new enrolled actuary as of the valuation date for the prior plan year (using the actuarial assumptions of the prior enrolled actuary), is within 2% of the value for that prior plan year as determined by the prior enrolled actuary

Alternatively, the comparisons described in paragraphs (3) and (4) above may be made on the basis of the current plan year, provided that the prior enrolled actuary has issued an actuarial report that includes the results for the current plan year (or has provided a signed Schedule SB to the new enrolled actuary for the current plan year, to the extent guidance issued by the IRS would permit the new enrolled actuary to revise those entries on that Schedule SB).

The Plan Administrator, by indicating on Form 5500, Schedule R, or if no Schedule R is required, by signature of the applicable version of Form 5500 for which this statement is attached, indicates approval of this change.

For this Plan Year, the above requirements have been satisfied, and automatic approval has been assumed.

Description of Weighted Average Retirement Age**

B&J Tree Service, Inc. Defined Benefit Pension Plan

39-1373035 / 002

For the plan year 10/01/2023 through 09/30/2024

The age reported is the weighted average of the assumed retirement ages for all active participants as of the valuation date based on their funding target or target normal cost should the funding target of the plan be zero rounded to the nearest whole age. For an active late retiree, the assumed retirement age may be later than the Plan's normal retirement age. Each participant's rate of retirement is assumed to be 100% of his/her assumed retirement age.

Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
