Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) Unmodified (2) Qualified (3) Disclaimer (4) Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) DOL Regulation 2520.103-8 (2) DOL Regulation 2520.103-12(d) (3) neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **SIKICH CPA LLC**

(2) EIN: **54-1172176**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) This form is filed for a CCT, PSA, DCG or MTIA. (2) It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		X	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		X	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		X	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		X	
e Was this plan covered by a fidelity bond?	X		2000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		X	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	X		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)	X		
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		X	
l Has the plan failed to provide any benefit when due under the plan?		X	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)			
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? Yes No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

INDEPENDENT AUDITOR'S REPORT

To the Pension Committee of
Plymouth Tube Company Winamac
Hourly-Rated Employees' Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Plymouth Tube Company Winamac Hourly-Rated Employees' Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of August 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, the statement of accumulated plan benefits as of August 31, 2023, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended August 31, 2024 and 2023, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters - Supplemental Schedules Required by ERISA

The supplemental schedule of assets (held at end of year) and schedule of reportable transactions as of or for the year ended August 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTES TO FINANCIAL STATEMENTS

August 31, 2024 and 2023

1. DESCRIPTION OF PLAN

The following description of Plymouth Tube Company Winamac Hourly-Rated Employees' Pension Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan covering all employees of Plymouth Tube Company's Winamac plant (the Company) who were members of the collective bargaining unit. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is participating in the Plymouth Tube Company Defined Benefit Master Trust (the Master Trust). The Master Trust is organized as a master trust as defined by 29 CFR 2520.103-1(e) of ERISA. The trustee, Principal Bank (Principal) holds the Plan's investment assets and executes investment transactions for the Plan and Master Trust on behalf of the Plan.

The Plan was amended effective November 1, 2008, such that benefit accruals for employees covered under the Plan ceased. Vested benefits for active employees on November 1, 2008, were determined as if they had terminated employment on November 1, 2008. Employees not fully vested at November 1, 2008, who were active employees on their subsequent vesting date, became fully vested in the benefit they earned as of November 1, 2008.

Pension Benefits

Each member who retires on or after the dates specified below accrued a monthly benefit equal to the benefit rate specified below, multiplied by the sum of their years of benefit accrual to date of termination. A year of benefit accrual was earned during each year in which a participant worked 1,700 hours or more, with fractional years earned (to the nearest one-tenth of a year) when a participant worked between 170 and 1,700 hours.

<u>Retirement Date</u>	<u>Monthly Benefit Rate</u>
01/01/74 through 07/08/82	\$ 7.00
07/09/82 through 07/12/85	9.25

Pension Benefits (Continued)

<u>Retirement Date</u>	<u>Monthly Benefit Rate</u>
07/07/92 through 07/05/93	\$ 18.00
07/06/93 through 07/09/94	19.00
07/10/94 through 07/10/95	20.00

07/01/00 through 06/30/01	24.00
07/01/01 or after	25.00

The Plan permits early retirement upon attainment of age 58 with five years of vesting service. Early retirement payment is reduced by 5/10 of 1% for each month prior to normal retirement age.

Participants who terminate service prior to the earlier of the Plan's normal retirement age of 62 or the completion of five years of service receive no benefits under the Plan. For retirements prior to July 9, 1994, the normal retirement age was 65.

Payment of Benefits

Normal form of retirement benefit payment shall be made under a joint and 50% survivor annuity. If the lump-sum actuarial equivalent value of a participant's vested account retirement benefit does not exceed \$5,000 at the time benefits are paid, it may be distributed in a lump sum payment form.

Pre-Retirement Death Benefit

In the event of an active married participant's death after the completion of 5 years of service, it will be assumed the participant had terminated on the day prior to death and elected a joint and 50% survivor benefit payable at their normal retirement or early retirement date and died the next day.

Pre-Retirement Disability Benefit

In the event of an active participant who retires from employment due to permanent and total disability, who has five years of service, and who is not eligible for or does not elect to receive an early retirement benefit shall be eligible for a disability retirement benefit equal to 200% of his vested accrued benefit on the date of his disability retirement, which will be reduced to 100% of the participant's vested accrued benefit at normal retirement age.

1. DESCRIPTION OF PLAN (Continued)

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Company and are excluded from these financial statements. The Plan pays certain investment advisory fees, Pension Benefit Guaranty Corporation (PBGC) premiums and plan administration fees from plan assets. Certain investment-related expenses are included in change in plan interest in Plymouth Tube Company Defined Benefit Master Trust in the accompanying statements of changes in net assets available for benefits.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements is in conformity with accounting principles generally accepted in the United States of America (US GAAP) and requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits. Actual results could differ from those estimates.

Funding Policy

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. During 2024, the Company made contributions of \$112,000. The Company did not make any contributions during 2023. The Company's contributions during 2024 met and/or exceeded the minimum funding requirements of ERISA.

Investment Valuation and Income Recognition

The fair value of the Plan's specific interest in the Master Trust is based on the beginning-of-year value of the Plan's interest in the Master Trust plus actual contributions and investment income less actual distributions and administrative expenses.

The investments of the Plan and Master Trust are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Pension Committee determines the valuation policies of the Plan and Master Trust utilizing information provided by the investment advisers and trustee. See Note 4 for discussion of fair value measurements.

PLYMOUTH TUBE COMPANY WINAMAC
HOURLY-RATED EMPLOYEES' PENSION PLAN
NOTES TO FINANCIAL STATEMENTS (Continued)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition (Continued)

Investments sold by the Master Trust are removed from assets on a first-in, first-out basis. Purchases and sales of securities of the Plan and Master Trust are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's and Master Trust's gains and losses on investments bought and sold as well as held during the year. The net appreciation and interest and dividends of the Master Trust are allocated to the participating plans based upon plan account balances.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

Subsequent events are events or transactions that occur after year end but before financial statements are issued or are available to be issued. These events and transactions either provide additional evidence about conditions that existed at year end, including the estimates inherent in the process of preparing financial statements (that is, recognized subsequent events), or provide evidence about conditions that did not exist at year end but arose after that date (that is, nonrecognized subsequent events).

The Plan has evaluated subsequent events through April 11, 2025, which was the date that these financial statements were available for issuance and determined that there were no significant nonrecognized subsequent events through that date.

3. INTEREST IN MASTER TRUST

The investments of the Master Trust are maintained under a master trust agreement with the trustee. The Plan, Plymouth Tube Company USA Hourly-Rated Employees' Pension Plan and Retirement Income Plan for Salaried Employees of Plymouth Tube Company each have an undivided interest in the Master Trust. As of August 31, 2024 and 2023, the Plan's interest in the net assets of the Master Trust was approximately 27%. The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. Total investment income (including net appreciation in the fair value of investments) and administrative expenses of the Master Trust are allocated to the individual plans based upon the balances invested by each plan.

4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan and Master Trust have the ability to access at the measurement date.

PLYMOUTH TUBE COMPANY WINAMAC
HOURLY-RATED EMPLOYEES' PENSION PLAN
NOTES TO FINANCIAL STATEMENTS (Continued)

4. FAIR VALUE MEASUREMENTS (Continued)

Level 2: Inputs to the valuation methodology other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- a. Quoted prices for similar assets or liabilities in active markets,
- b. Quoted prices for identical or similar assets or liabilities in inactive markets,
- c. Inputs other than quoted prices that are observable for the asset or liability,
- d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for the assets of the Plan and Master Trust measured at fair value. There have been no changes in the methodologies used at August 31, 2024 and 2023.

Money market fund: Valued at cost, which approximates the fair value of the net asset value of shares held at year-end.

Venture capital and partnership interests: Valued based on the net asset value (NAV) per share or its equivalent. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. Were the Master Trust to initiate a full redemption, the investment adviser reserves the right to temporarily delay withdrawal from the fund in order to ensure the securities liquidations will be carried out in an orderly business manner.

PLYMOUTH TUBE COMPANY WINAMAC
HOURLY-RATED EMPLOYEES' PENSION PLAN
NOTES TO FINANCIAL STATEMENTS (Continued)

4. FAIR VALUE MEASUREMENTS (Continued)

Collective trust funds: Valued at NAV per share based on quoted market prices of the fund's underlying investments. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Were the Master Trust to initiate a full redemption, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure the securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan and Master Trust believe their valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of August 31, 2024 and 2023:

Description	Assets at Fair Value as of August 31, 2024			Total

5. CERTIFICATION OF FINANCIAL INFORMATION

The following financial data included in the accompanying financial statements as of and for the years ended August 31, 2024 and 2023, has been certified as complete and accurate by Principal Bank (Principal), a qualified institution, and has not been audited by the independent auditors for the Plan:

- Investments at fair value, plan interest in the Plymouth Tube Company Defined Benefit Master Trust, and interest receivable as shown in the statements of net assets available for benefits;
- Change in plan interest in Plymouth Tube Company Defined Benefit Master Trust, and interest as shown in the statements of changes in net assets available for benefits;
- Supplemental schedule of assets (held at end of year);

- Supplemental schedule of reportable transactions; and
- Master Trust investment information, as disclosed in Note 3, with the exception of the venture capital and partnership interests and collective trust funds and the related investment income thereon.

6. ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the participants as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries, (b) beneficiaries of participants who have died, and (c) present participants or their beneficiaries. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The effect of plan amendments on accumulated plan benefits is recognized during the year in which such amendments become effective. The significant actuarial assumptions used in the valuations are as follows:

Actuarial Rates

The actuarial present value of accumulated plan benefits was determined using the following actuarial rates as of September 1, 2023 and 2022:

	2023	2022
Discount rate	6.50%	6.00%
Expected return on assets	6.50%	6.00%

Mortality

The September 1, 2023 and 2022 mortality table used in the actuarial present value of accumulated plan benefits was the Pri-2012 Mortality Table with Projection Scale MP-2021 released by the Society of Actuaries' Retirement Plans Experience Committee.

Retirement Ages

For 2023 and 2022, it is assumed that normal retirement age is age 62 for employees and the early retirement age is age 58 for employees. The retirement ratios range from 0% at ages 61 and prior to 100% at ages 62 and above.

HOURLY-RATED EMPLOYEES' PENSION PLAN
NOTES TO FINANCIAL STATEMENTS (Continued)

6. ACCUMULATED PLAN BENEFITS (Continued)

Retirement Ages (Continued)

The computation of the actuarial present value of accumulated plan benefits were made as of September 1 each year. Had the valuations been performed as of August 31, there would be no material differences.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. The net assets of the Plan shall be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the three years preceding plan termination.
- b. Other vested benefits insured by PBGC up to the applicable limitation.
- c. All other vested benefits (that is, vested benefits not insured by PBGC).
- d. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For 2024 and 2023 plan terminations, that ceiling is \$7,108 and \$6,750, respectively. The ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

PLYMOUTH TUBE COMPANY WINAMAC
HOURLY-RATED EMPLOYEES' PENSION PLAN
NOTES TO FINANCIAL STATEMENTS (Continued)

7. PLAN TERMINATION (Continued)

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated plan benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

8. TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by letter dated July 10, 2012, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

US GAAP requires management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are managed by an affiliate of Principal, the trustee; therefore, these transactions qualify as party-in-interest. Certain investments of the Master Trust were held in investment funds managed by Aon Investments USA, Inc. (Aon), which acts as the investment advisor to the Master Trust. Fees paid by the Plan and Master Trust for investment management services were included as a reduction of the return earned on each fund. Certain administrative expenses were paid by the Plan or the Company. These transactions qualify as party-in-interest. Employees of the Company provide administrative services to the Plan for which no fees are charged.

10. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Expected Return on Assets

2021 Plan Year

Schedule SB, Part V—Summary of Plan Provisions

General Information

Original Effective Date	September 1, 1987
Effective Date of Last Amendment	May 1, 2018
Plan Year	September 1 to August 31
Employer Fiscal Year	January 1 to December 31
Plan Administrator	Plan Administration Committee

Eligibility

All Winamac Plant employees who are members of their collective bargaining unit of Local 1448 are eligible employees and participate in the plan on their date of employment.

Service

A year of vesting service is credited for each employment year in which an employee works 1,000 hours.

A full year of benefit accrual credited service will be earned for each calendar year after the later of September 1, 1985 or his date of hire during which the participant works 1,700 hours or more. A fractional year of benefit accrual credited service (to the nearest one-tenth of a year) will be earned for each plan year a participant works at least 170 hours but less than 1,700 hours.

The plan was frozen as of November 1, 2008. After this date no further benefits will accrue.

Normal Retirement Date

Normal retirement date is the first day of the month coinciding with or next following attainment of age 62. For retirements before July 9, 1994, normal retirement date is the first day of the month next following attainment of age 65.

Schedule SB Attachment (Form 5500)—2023 Plan Year
 Plymouth Tube Company Winamac Hourly-Rated Employees' Pension
 Plan
 EIN: 380933700 PN: 002

Normal Retirement Benefit

For participants retiring on or after July 2, 1999, the amount of monthly benefit at normal retirement date equals \$23.00 multiplied by the participant's total benefit accrual credited service. This multiplier increases as follows:

Years of Service	Benefit Rate
July 2, 1999 through July 1, 2000	\$23.00
July 2, 2000 through July 1, 2001	\$24.00
July 2, 2001 and thereafter	\$25.00

Delayed Retirement

A participant may continue in employment after normal retirement date. In such event, he will receive at actual retirement the actuarial equivalent of his normal retirement benefit, but not less than the amount he would receive if his benefit continued to accrue to his actual retirement date.

Accrued Benefit

The accrued benefit at any time prior to a participant's normal retirement date shall be the normal retirement benefit based on the years of benefit accrual credited service earned to date.

Early Retirement Benefit

Upon the completion of five years of vesting service and the attainment of age 58, a participant may elect to retire. He may receive a monthly benefit for life beginning at his normal retirement date equal to the benefit accrued at the early retirement date. Payments may begin immediately with the benefit being reduced by 0.5 of 1% for each month by which the payment date precedes the normal retirement date.

Disability Retirement Benefit

A participant who becomes totally and permanently disabled before his normal retirement date and has five or more years of vesting service, may retire and receive a monthly disability retirement benefit payable from his disability date to his normal retirement date equal to twice his accrued benefit on the date of disability. At his normal retirement date, his benefit shall be reduced to equal his accrued benefit.

Death Benefit

In the event of a married participant's death after the completion of five years of vesting service, it will be assumed the participant had terminated on the day prior to death and elected a joint and one-half survivor benefit

Schedule SB Attachment (Form 5500)—2023 Plan Year
Plymouth Tube Company Winamac Hourly-Rated Employees' Pension
Plan
EIN: 380933700 PN: 002

payable at his normal retirement or early retirement date and died the next day.

Severance Benefit

Upon the termination of employment after five or more years of vesting service, a participant shall have a vested interest in his accrued benefit which will be payable at normal retirement date. The percentage vested shall be:

Years of Service	Vested Percent
Fewer than 5	0%
5 or more	100%

The participant may elect to receive his vested pension at age 58. Such benefit will be reduced as described under Early Retirement Benefit.
