INDEPENDENT AUDITOR'S REPORT

To the Pension Committee of
Retirement Income Plan for Salaried Employees of
Plymouth Tube Company

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Retirement Income Plan for Salaried Employees of Plymouth Tube Company (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of August 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, the statement of accumulated plan benefits as of August 31, 2023, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended August 31, 2024 and 2023, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters - Supplemental Schedules Required by ERISA

The supplemental schedule of assets (held at end of year) and schedule of reportable transactions as of or for the year ended August 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTES TO FINANCIAL STATEMENTS

August 31, 2024 and 2023

1. DESCRIPTION OF PLAN

The following description of Retirement Income Plan for Salaried Employees of Plymouth Tube Company (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan which covers salaried employees of Plymouth Tube Company (Company) not participating in any other pension plan sponsored by the Company and nonexempt employees of the Hopkinsville location. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is participating in the Plymouth Tube Company Defined Benefit Master Trust (the Master Trust). The Master Trust is organized as a master trust as defined by 29 CFR 2520.103-1(e) of ERISA. The trustee, Principal Bank (Principal) holds the Plan's investment assets and executes investment transactions for the Plan and Master Trust on behalf of the Plan.

The Plan was amended effective December 31, 2003, such that benefit accruals for employees covered under the Plan ceased. Vested benefits for active employees on December 31, 2003, were determined as if they had terminated employment on December 31, 2003. Employees not fully vested at December 31, 2003, who were active employees on their subsequent vesting date, became fully vested in the benefit they earned as of December 31, 2003.

Pension Benefits

Employees age 65 or older with five or more years of service are entitled to annual income equal to the sum of (a) 1-2/3% of final average compensation, as defined, multiplied by years of credited service (not to exceed 30) and (b) 1% of final average compensation multiplied by years of credited service in excess of 30 (not to exceed 10) less (c) 1-3/4% of the primary Social Security benefit to which the members are entitled multiplied by years of credited service (not to exceed 40).

The benefit for employees who were covered under the prior Hopkinsville Plan is the sum of the Hopkinsville Plan benefit for service to January 1, 1991 (\$5 per month per year of service) and this Plan's benefit for service after January 1, 1991.

The Plan permits early retirement upon attainment of age 60 with five years of vesting service. Early retirement payment is reduced by 6/10 of 1% for each month prior to normal retirement age.

Participants who terminate service prior to the earlier of the Plan's normal retirement age of 65 or the completion of five years of service receive no benefits under the Plan.

PLYMOUTH TUBE COMPANY**
NOTES TO FINANCIAL STATEMENTS (Continued)

1. DESCRIPTION OF PLAN (Continued)

Payment of Benefits

Normal form of retirement benefit payment shall be made under a joint and 50% survivor annuity. Alternative optional forms of distribution available under specific circumstances, as outlined in the plan document, are (1) life annuity payable in equal installments that terminates upon participant's death, (2) life annuity with period certain payable in equal installments until participant's death or until 120 monthly payments are paid to the participant or his/her beneficiary, or (3) joint and 75% or 100% survivor annuity. If the lump-sum actuarial equivalent value of a participant's vested account retirement benefit does not exceed \$5,000 at the time benefits are paid, it may be distributed in a lump-sum payment form.

Pre-Retirement Death Benefit

In the event of an active married participant's death after the completion of five years of service, it will be assumed the participant had terminated on the day prior to death and elected a joint and 50% survivor benefit payable at their normal retirement or early retirement date and died the next day.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Company and are excluded from these financial statements. The Plan pays certain investment advisory fees, Pension Benefit Guaranty Corporation (PBGC) premiums and plan administration fees from plan assets. Certain investment-related expenses are included in change in plan interest in Plymouth Tube Company Defined Benefit Master Trust in the accompanying statements of changes in net assets available for benefits.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements is in conformity with accounting principles generally accepted in the United States of America (US GAAP) and requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits. Actual results could differ from those estimates.

**RETIREMENT INCOME PLAN FOR SALARIED EMPLOYEES OF
PLYMOUTH TUBE COMPANY**
NOTES TO FINANCIAL STATEMENTS (Continued)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Funding Policy

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. During 2024 and 2023, the Company made contributions of \$540,000 and \$63,000, respectively. The Company's contributions for 2024 and 2023 met and/or exceeded the minimum funding requirements of ERISA.

Investment Valuation and Income Recognition

The fair value of the Plan's specific interest in the Master Trust is based on the beginning-of-year value of the Plan's interest in the Master Trust plus actual contributions and investment income or loss less actual distributions and administrative expenses.

The investments of the Plan and Master Trust are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Pension Committee determines the valuation policies of the Plan and Master Trust utilizing information provided by the investment advisers and trustee. See Note 4 for discussion of fair value measurements.

Investments sold by the Master Trust are removed from assets on a first-in, first-out basis. Purchases and sales of securities of the Plan and Master Trust are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's and Master Trust's gains and losses on investments bought and sold as well as held during the year. The net appreciation and interest and dividends of the Master Trust are allocated to the participating plans based upon plan account balances.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

Subsequent events are events or transactions that occur after year end but before financial statements are issued or are available to be issued. These events and transactions either provide additional evidence about conditions that existed at year end, including the estimates inherent in the process of preparing financial statements (that is, recognized subsequent events), or provide evidence about conditions that did not exist at year end but arose after that date (that is, nonrecognized subsequent events).

**RETIREMENT INCOME PLAN FOR SALARIED EMPLOYEES OF
PLYMOUTH TUBE COMPANY**
NOTES TO FINANCIAL STATEMENTS (Continued)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Subsequent Events (Continued)

The Plan has evaluated subsequent events through April 11, 2025, which was the date that these financial statements were available for issuance and determined that there were no significant nonrecognized subsequent events through that date.

3. INTEREST IN MASTER TRUST

The investments of the Master Trust are maintained under a master trust agreement with the trustee. The Plan, Plymouth Tube Company Winamac Hourly-Rated Employees' Pension Plan and Plymouth Tube Company USA Hourly-Rated Employees' Pension Plan each have an undivided interest in the Master Trust. As of August 31, 2024 and 2023, the Plan's interest in the net assets of the Master Trust was approximately 55%. The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. Total investment income (including net appreciation in the fair value of investments) and administrative expenses of the Master Trust are allocated to the individual plans based upon the balances invested by each plan.

The following table presents the investments held by the Master Trust and the Plan's interest in the investments held by the Master Trust as of August 31, 2024 and 2023:

	2024		2023	
	Investments Held by Master Trust	Plan's Interest in Investments Held by Master Trust	Investments Held by Master Trust	Plan's Interest in Investments Held by Master Trust

3. INTEREST IN MASTER TRUST (Continued)

The following table presents the investment income, net of investment expenses, of the Master Trust for the years ended August 31, 2024 and 2023.

	2024	2023
Net appreciation in fair value of investments	\$ 2,243,345	\$ 527,311

TOTAL INVESTMENT INCOME	\$ 2,245,049	\$ 659,117

4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan and Master Trust have the ability to access at the measurement date.

Level 2: Inputs to the valuation methodology other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- a. Quoted prices for similar assets or liabilities in active markets,
- b. Quoted prices for identical or similar assets or liabilities in inactive markets,
- c. Inputs other than quoted prices that are observable for the asset or liability,
- d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

**RETIREMENT INCOME PLAN FOR SALARIED EMPLOYEES OF
PLYMOUTH TUBE COMPANY**
NOTES TO FINANCIAL STATEMENTS (Continued)

4. FAIR VALUE MEASUREMENTS (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for the assets of the Plan and Master Trust measured at fair value. There have been no changes in the methodologies used at August 31, 2024 and 2023.

Money market fund: Valued at cost, which approximates the fair value of the net asset value of shares held at year-end.

Venture capital and partnership interests: Valued based on the net asset value (NAV) per share or its equivalent. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. Were the Master Trust to initiate a full redemption, the investment adviser reserves the right to temporarily delay withdrawal from the fund in order to ensure the securities liquidations will be carried out in an orderly business manner.

Collective trust funds: Valued at NAV per share based on quoted market prices of the fund's underlying investments. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Were the Master Trust to initiate a full redemption, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure the securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan and Master Trust believe their valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. CERTIFICATION OF FINANCIAL INFORMATION

The following financial data included in the accompanying financial statements as of and for the years ended August 31, 2024 and 2023, has been certified as complete and accurate by Principal Bank (Principal), a qualified institution, and has not been audited by the independent auditors for the Plan:

- Investments at fair value, plan interest in the Plymouth Tube Company Defined Benefit Master Trust, and interest receivable as shown in the statements of net assets available for benefits;
- Change in plan interest in Plymouth Tube Company Defined Benefit Master Trust, and interest as shown in the statements of changes in net assets available for benefits;
- Supplemental schedule of assets (held at end of year);
- Supplemental schedule of reportable transactions; and
- Master Trust investment information, as disclosed in Note 3, with the exception of the venture capital and partnership interests and collective trust funds and the related investment income thereon.

6. ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the participants as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries, (b) beneficiaries of participants who have died, and (c) present participants or their beneficiaries. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The effect of plan amendments on accumulated plan benefits is recognized during the year in which such amendments become effective. The significant actuarial assumptions used in the valuations are as follows:

Actuarial Rates

The actuarial present value of accumulated plan benefits was determined using the following actuarial rates as of September 1, 2023 and 2022:

	2023	2022
Discount rate	6.50%	6.00%
Expected return on assets	6.50%	6.00%

PLYMOUTH TUBE COMPANY**
NOTES TO FINANCIAL STATEMENTS (Continued)

6. ACCUMULATED PLAN BENEFITS (Continued)

Mortality

The September 1, 2023 and 2022 mortality table used in the actuarial present value of accumulated plan benefits was the Pri-2012 Mortality Table with Projection Scale MP-2021 released by the Society of Actuaries' Retirement Plans Experience Committee.

Retirement Ages

For 2023 and 2022, it is assumed that normal retirement age is age 65 for employees and the early retirement age is age 60 for employees. The retirement ratios range from 0% at ages 64 and prior to 100% at ages 65 and above.

The computation of the actuarial present value of accumulated plan benefits were made as of September 1 each year. Had the valuations been performed as of August 31, there would be no material differences.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. The net assets of the Plan shall be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the three years preceding plan termination.
- b. Other vested benefits insured by PBGC up to the applicable limitation.
- c. All other vested benefits (that is, vested benefits not insured by PBGC).
- d. All nonvested benefits.

**RETIREMENT INCOME PLAN FOR SALARIED EMPLOYEES OF
PLYMOUTH TUBE COMPANY**

NOTES TO FINANCIAL STATEMENTS (Continued)

7. PLAN TERMINATION (Continued)

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For 2024 and 2023 plan terminations, that ceiling is \$7,108 and \$6,750, respectively. The ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated plan benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

8. TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by letter dated July 10, 2012, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

US GAAP requires management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are managed by an affiliate of Principal, the trustee; therefore, these transactions qualify as party-in-interest. Certain investments of the Master Trust were held in investment funds managed by Aon Investments USA, Inc. (Aon), which acts as the investment advisor to the Master Trust. Fees paid by the Plan and Master Trust for investment management services were included as a reduction of the return earned on each fund. Certain administrative expenses were paid by the Plan or the Company. These transactions qualify as party-in-interest. Employees of the Company provide administrative services to the Plan for which no fees are charged.

PLYMOUTH TUBE COMPANY**

NOTES TO FINANCIAL STATEMENTS (Continued)

10. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Expected Return on Assets

2021 Plan Year

5.75%

The applicable third segment rate limitation is 6.11%.

The applicable third segment rate limitation is 5.92%.

Trust Expenses Included in Target Normal Cost

Equal to prior year administrative expenses paid out of trust, adjusted for actual plan year PBGC premiums. For 2023, this is \$25,420.

Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Expected Return on Assets

2021 Plan Year

5.75%

The applicable third segment rate limitation is 6.11%.

2022 Plan Year

The applicable third segment rate limitation is 5.92%.

Trust Expenses Included in Target Normal
Cost

Equal to prior year administrative expenses paid out of trust, adjusted for actual plan year PBGC premiums. For 2023, this is \$25,420.

Schedule SB, Part V—Summary of Plan Provisions

General Information

Original Effective Date	June 30, 1962
Effective Date of Last Amendment	May 1, 2018
Plan Year	September 1 to August 31
Employer Fiscal Year	January 1 to December 31
Plan Administrator	Plan Administrative Committee

Eligibility

All employees of the employer compensated on a salaried basis and not participating in any other defined benefit or defined contribution plan (other than a 401(k) plan) sponsored by the employer, are eligible to participate in this plan upon the first day of the month following completion of one year of service. Participants of the Hopkinsville Plan on January 1, 1991, began participation in this plan on the same date.

Prior to February 6, 1993, employees were eligible to participate in the plan upon the first day of the month following the completion of one month of service.

Service

Periods of service for determining benefit accruals, vesting and benefit qualification are determined using the continuous service of a participant (including authorized leaves of absence and periods of total and permanent disability). For the purpose of determining benefit accruals, continuous service shall be all continuous service after the first day of the year of service which qualifies the employee to be an eligible participant. For other purposes, continuous service shall be all continuous service commencing with date of employment. Periods of employment in a classification excluded from participation shall count for vesting and participant purposes but not for benefit accrual.

Schedule SB Attachment (Form 5500)—2023 Plan Year
Retirement Income Plan for Salaried Employees of Plymouth Tube
Company
EIN: 380933700 PN: 005

Normal Retirement Date	For participants who entered the plan before January 1, 1988, the normal retirement date is the participant's sixty-fifth birthday. For participants who entered the plan on or after January 1, 1988, the normal retirement date is the later of the sixty-fifth birthday or the first day of the plan year which includes the fifth anniversary of the date the participant comes into the plan.
Annual Compensation	Annual compensation is compensation paid during each calendar year which is subject to withholding.
Final Average Compensation	Final average compensation is the highest average compensation for any consecutive three calendar years in the previous 10 years of service.
Normal Retirement Benefit	<p>The annual benefit at normal retirement age to be paid in monthly installments equals:</p> <ol style="list-style-type: none">(1) $1\frac{2}{3}\%$ of final average compensation multiplied by years of credited service (not to exceed 30 years); plus(2) 1% of final average compensation multiplied by years of credited service in excess of 30 years (not to exceed 10 years); minus(3) $1\frac{3}{4}\%$ of primary Social Security benefit multiplied by years of credited service (not to exceed 40 years). <p>The benefit for employees who were covered under the prior Hopkinsville Plan is the sum of the Hopkinsville Plan benefit for service to January 1, 1991 (\$5 per month per year of service) and this plan's benefit for service after January 1, 1991.</p> <p>The plan was frozen as of December 31, 2003. No benefits shall accrue after this date.</p>
Delayed Retirement	A participant may continue in the employment of the employer after his normal retirement date. In such event he will receive at actual retirement the greater of the actuarial equivalent of his normal retirement benefit or the benefit based on service and compensation as of actual retirement date.

Schedule SB Attachment (Form 5500)—2023 Plan Year
 Retirement Income Plan for Salaried Employees of Plymouth Tube
 Company
 EIN: 380933700 PN: 005

Accrued Benefit

The accrued benefit at any time prior to a participant's normal retirement date shall be the normal retirement benefit based on credited service and final average compensation on the date of determination. The primary Social Security benefit is calculated using the current law and assuming the employee earns level Social Security taxable compensation after the date of the determination.

Early Retirement Benefit

Upon the completion of five years of service and the attainment of age 60, a participant may elect to retire. He may receive a monthly benefit for life beginning at his normal retirement date equal to the benefit accrued at early retirement date. Payments may begin immediately, with the benefit being reduced by 0.6 of 1% for each month by which the payment date precedes the normal retirement date.

Death Benefit

In the event of a married participant's death after the completion of five years of service, it will be assumed the participant had terminated on the day prior to death and elected a joint and one half survivor benefit payable at his normal retirement or early retirement date and died the next day.

Severance Benefit

Upon the termination of employment after five or more years of service a participant shall have a vested interest in his accrued benefit which will be payable at normal retirement date. The percentage vested shall be:

Years of Service	Vested Percent
Less than 5	0%
5 or more	100%

In the event that a participant has met the service requirements for early retirement at the date of termination, he may elect to receive his vested interest at age 60. Such benefit will be reduced as described under Early Retirement Benefit.

Schedule SB, Part V—Summary of Plan Provisions

General Information

Original Effective Date	June 30, 1962
Effective Date of Last Amendment	May 1, 2018
Plan Year	September 1 to August 31
Employer Fiscal Year	January 1 to December 31
Plan Administrator	Plan Administrative Committee

Eligibility

All employees of the employer compensated on a salaried basis and not participating in any other defined benefit or defined contribution plan (other than a 401(k) plan) sponsored by the employer, are eligible to participate in this plan upon the first day of the month following completion of one year of service. Participants of the Hopkinsville Plan on January 1, 1991, began participation in this plan on the same date.

Prior to February 6, 1993, employees were eligible to participate in the plan upon the first day of the month following the completion of one month of service.

Service

Periods of service for determining benefit accruals, vesting and benefit qualification are determined using the continuous service of a participant (including authorized leaves of absence and periods of total and permanent disability). For the purpose of determining benefit accruals, continuous service shall be all continuous service after the first day of the year of service which qualifies the employee to be an eligible participant. For other purposes, continuous service shall be all continuous service commencing with date of employment. Periods of employment in a classification excluded from participation shall count for vesting and participant purposes but not for benefit accrual.

Normal Retirement Date	For participants who entered the plan before January 1, 1988, the normal retirement date is the participant's sixty-fifth birthday. For participants who entered the plan on or after January 1, 1988, the normal retirement date is the later of the sixty-fifth birthday or the first day of the plan year which includes the fifth anniversary of the date the participant comes into the plan.
Annual Compensation	Annual compensation is compensation paid during each calendar year which is subject to withholding.
Final Average Compensation	Final average compensation is the highest average compensation for any consecutive three calendar years in the previous 10 years of service.
Normal Retirement Benefit	<p>The annual benefit at normal retirement age to be paid in monthly installments equals:</p> <ol style="list-style-type: none">(1) $1\frac{2}{3}\%$ of final average compensation multiplied by years of credited service (not to exceed 30 years); plus(2) 1% of final average compensation multiplied by years of credited service in excess of 30 years (not to exceed 10 years); minus(3) $1\frac{3}{4}\%$ of primary Social Security benefit multiplied by years of credited service (not to exceed 40 years). <p>The benefit for employees who were covered under the prior Hopkinsville Plan is the sum of the Hopkinsville Plan benefit for service to January 1, 1991 (\$5 per month per year of service) and this plan's benefit for service after January 1, 1991.</p> <p>The plan was frozen as of December 31, 2003. No benefits shall accrue after this date.</p>
Delayed Retirement	A participant may continue in the employment of the employer after his normal retirement date. In such event he will receive at actual retirement the greater of the actuarial equivalent of his normal retirement benefit or the benefit based on service and compensation as of actual retirement date.

Accrued Benefit

The accrued benefit at any time prior to a participant's normal retirement date shall be the normal retirement benefit based on credited service and final average compensation on the date of determination. The primary Social Security benefit is calculated using the current law and assuming the employee earns level Social Security taxable compensation after the date of the determination.

Early Retirement Benefit

Upon the completion of five years of service and the attainment of age 60, a participant may elect to retire. He may receive a monthly benefit for life beginning at his normal retirement date equal to the benefit accrued at early retirement date. Payments may begin immediately, with the benefit being reduced by 0.6 of 1% for each month by which the payment date precedes the normal retirement date.

Death Benefit

In the event of a married participant's death after the completion of five years of service, it will be assumed the participant had terminated on the day prior to death and elected a joint and one half survivor benefit payable at his normal retirement or early retirement date and died the next day.

Severance Benefit

Upon the termination of employment after five or more years of service a participant shall have a vested interest in his accrued benefit which will be payable at normal retirement date. The percentage vested shall be:

Years of Service	Vested Percent
Less than 5	0%
5 or more	100%

In the event that a participant has met the service requirements for early retirement at the date of termination, he may elect to receive his vested interest at age 60. Such benefit will be reduced as described under Early Retirement Benefit.
