Independent Auditors' Report

To the Retirement Committee of
TriNet 401(k) Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed the audits of the financial statements of TriNet 401(k) Plan ("the Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, the related statements of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from qualified institutions as of December 31, 2022 and 2021 and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 9 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental Schedule of Delinquent Participant Contributions for the year ended December 31, 2022 and Schedule of Assets (Held at End of Year) as of December 31, 2022 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

TRINET 401(K) PLAN

Notes to Financial Statements

December 31, 2022 and 2021

(1) Description of Plan

The following description of the TriNet 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the plan document for a more complete description of the Plan’s provisions.

(a) General

The Plan was established effective January 1, 2003 with the adoption of the Transamerica Financial Life Insurance Company Volume Submitter Multiple Employer Tax-Favored Savings and Discretionary Contribution Plan and Trust Agreement (“Transamerica Agreement”) and is sponsored by TriNet HR III, Inc. (the “Company”).

Effective March 1, 2021, the Plan adopted the amended Pre-Approved Multiple Employer Tax-Favored Savings and Discretionary Contribution Plan Document sponsored by Transamerica Retirement Solutions LLC. The adopted amended Plan Document amended the Plan for certain regulatory requirements.

In March 2022, the Securing a Strong Retirement Act of 2022 (“Secure Act 2.0”) was signed into law. Under the provisions of the Secure Act 2.0, effective for plan years beginning after December 31, 2024, new 401(k) and 403(b) plans must automatically enroll eligible employees at deferral rates between 3% and 10%, increasing by 1% each year, to a maximum of at least 10%, but no more than 15% of eligible compensation. Although the Plan was established prior to this legislation, under the terms of the Secure Act 2.0, participating employers who join the Plan on December 29, 2022 or later are subject to this automatic enrollment provision starting in 2025.

From January 1, 2022 through July 31, 2022 the Plan operated under a group annuity contract with Transamerica Financial Life Insurance Company (“TFLIC”) who acted as the custodian of the Plan. Transamerica Retirement Solutions (“TRS”) acted as recordkeeper under this contract. Effective August 1, 2022, the Plan entered into a Trust Agreement (“Trust Agreement”) with Great-West Trust Company, LLC, whose name was changed during 2022 to Empower Trust Company (“ETC”), and effective October 1, 2022 adopted the Nonstandardized Profit Sharing/401k Plan Adoption Agreement sponsored by Empower Retirement, LLC (“ERC”), who post adoption of the Trust Agreement became as the Plan’s recordkeeper. On December 2, 2022, the Plan transferred all assets from TFLIC to ETC.

(b) Administration of Plan Assets

The Plan is a multiple employer defined contribution plan which is offered to the employees of participating client employers (collectively, the “Employers”). A participating client employer is a company that has entered into a co-employment arrangement with the Company.

The Plan operates in compliance with the regulations under the Internal Revenue Code of 1986 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

TRINET 401(K) PLAN

Notes to Financial Statements - Continued

(1) **Description of Plan - Continued**

(c) **Mergers and Transfers**

The Plan permits mergers and transfers of assets into and out of the Plan, providing that affected participants would receive a benefit immediately after the merger or transfer equal to or greater than the benefit the affected participants would have received immediately before the merger or transfer.

(d) **Eligibility**

Employees are eligible to participate in the Plan after attainment of age 21 and one hour of service. Employers may elect to reduce the age requirements to any age between no minimum and 21 years and increase the service requirement to a maximum of one year. Participants may enter the Plan on the first day of the calendar month coinciding with or following completion of the eligibility requirement.

(e) **Contributions**

Participants may elect to contribute a portion of their pretax compensation up to limits allowed by the Internal Revenue Service. The Employers may, at their discretion, elect to match up to 100% of their employees' contributions. Only elective contributions deferred through payroll deductions will be matched.

The Plan includes an option for enhanced safe harbor match on contributions whereby Employers can elect to make mandatory contributions of 100% of the first 4% - 6% of elective contributions that will be 100% vested immediately. Employers may also make an additional discretionary contribution to the Plan, regardless of whether or not a deferral contribution was made during the year. Participants may also transfer money from other qualified plans into the Plan as rollover contributions or direct transfers.

The Plan accepts Roth Elective Deferrals as salary deferrals and rollover contributions.

(f) **Participant Accounts**

Participant accounts are credited with participant contributions and an allocation of the Employers' contributions and plan earnings and expenses. The benefit to which a participant is entitled is equal to the vested value of their account.

(g) **Vesting**

Participants are immediately vested in their voluntary contributions and safe harbor employer match and non-elective contributions plus actual earnings thereon. Employers may elect an alternative vesting schedule for additional discretionary contributions.

TRINET 401(K) PLAN

Notes to Financial Statements - Continued

(1) **Description of Plan - Continued**

(h) **Investment Options**

Plan assets are invested in mutual funds, collective trust funds, self-directed brokerage accounts and a stable value fund. Contributions made by the Employers are allocated based on the funds selected by the participants for the employee contributions. Upon enrollment in the Plan, a participant may direct employee contributions in any of several available investments. Participants are allowed to execute investment transfers between the Plan's investment options on a daily basis.

(i) **Payment of Benefits**

At age 59½ and thereafter, active employees can withdraw any portion of their vested balance at any time. Participants, while employed, may make withdrawals against their vested account balance in accordance with the Plan, which generally requires the demonstration of financial hardship.

Upon termination, retirement, death, or disability, participants or their beneficiaries may elect to receive a lump sum amount equal to the value of the vested interest in their account. Any non-vested balances are forfeited. Terminated participants may also elect to maintain their accounts in the Plan.

(j) **Forfeited Accounts**

Any non-vested amounts in a terminated participant's account are forfeited by the participant and transferred to a forfeiture account. Forfeitures shall be used to pay plan expenses or to reduce the Employers' future matching contributions. Any unused forfeitures shall be reallocated as non-elective contributions. Approximately \$4,568,000 of forfeited non-vested accounts were utilized during the year ended December 31, 2022 to reduce employer contributions. At December 31, 2022 and 2021, forfeited non-vested accounts available for use totaled approximately \$3,018,000 and \$2,742,000, respectively.

(k) **Notes Receivable from Participants**

Participants may borrow money from their vested account balance for any reason. The maximum amount available for loans is the lesser of \$50,000 reduced by the participant's highest loan balance outstanding in the 12 months prior to the date of the loan or 50% of the participant's vested account balance. The minimum amount for a loan is \$1,000. The participant shall be charged with any costs associated with processing of the loan.

Loan repayments must have a definite repayment period not to exceed five years unless the loan is for the purchase of a principal residence, in which case the repayment period must not exceed Internal Revenue Service limits. A participant shall have only one loan outstanding at a time. Participant loans, including interest thereon, are taxable to the participant upon default, as well as subject to applicable excise penalties. Loans are collateralized by the balance in the participant's account and bear interest at any reasonable rate (prime plus 1% for loans taken by participants through TRS and ERC). The Plan honors rates on notes receivable from participants transferred in from other plans. At December 31, 2022, interest rates on active loans ranged from 3.20% to 9.09%.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting and present the net assets available for benefits and changes in net assets available for benefits in accordance with accounting principles generally accepted in the United States of America.

(b) Investment Valuation and Income Recognition

Funds under TFLIC were invested in an unallocated group annuity insurance contract which is funded through pooled separate accounts, a general account obligation and self-directed brokerage accounts. Funds under ETC include investments in registered investment companies which are stated at fair value based on quoted market prices.

Investments in pooled separate accounts are stated at fair value as determined by TFLIC. Fair values of pooled separate accounts are based on the net asset value ("NAV") of shares held by the Plan at year end. The pooled separate accounts are credited with earnings in the underlying investments, net of investment management expenses. Changes in the fair value of investments in pooled separate accounts and gains or losses on disposal of these investments are reported in the statement of changes in net assets available for benefits as net appreciation or depreciation in fair value of investments.

The general account obligation is a fully benefit-responsive investment contract that is valued at contract value (see Note 11).

Collective trust funds ("Funds") are maintained on a unit value/share value basis as reported to ETC from the fund house or investment provider, and therefore valued at net asset value ("NAV") of shares held by the Plan at the end of the year. Participants do not have beneficial ownership in the specific underlying securities or other assets in the Funds but do have an interest therein represented by units valued daily. The Legal & General S&P 400, 500 and 600 DC Funds managed by Legal & General Investment Management America Inc. and the State Street Emerging Markets, International Index Securities Lending, and US Bond Index Funds managed by State Street Global Advisors work to replicate applicable indexes such as the S&P 500 index by investing in underlying assets with similar objectives and investment strategies. The Vanguard Target Retire Date Funds (2020 - 2070 Trust Select) are managed by Vanguard Equity Index Group and seek to provide capital appreciation and current income consistent with its current asset allocation, investing in other Vanguard mutual funds and trusts according to an asset allocation strategy designed for investors planning to retire and leave the workforce within a few years of the denoted fund date.

The Funds earn dividends and interest which are automatically reinvested in additional units and participants earn appreciation/ (depreciation) on their units depending on underlying investments of the Funds. Generally, contributions to and withdrawals from each Fund are converted to units by dividing the amounts of such transactions by the unit values as last determined, and the participants' accounts are charged or credited with the number of units properly attributable to each participant. The Funds have no unfunded commitments and redemption notice and frequency period is daily.

(b) Investment Valuation and Income Recognition - Continued

The Putnam Stable Value Fund (“Putnam”), maintained by Putnam Fiduciary Trust Company, LLC, is a fund which invests in high-quality guaranteed interest contracts and similar contracts issued by insurance companies, banks and other financial institutions. Putnam invests up to 75% of its assets in a security-backed investment contracts. The underlying investments of Putnam are valued at contract value, which represents invested principal plus accrued interest earned thereon. Investment income earned is accrued as earned, and investment income earned from SBIC’s is recorded net of fees paid to the wrap contract providers. Investment income earned by short-term investments is reinvested. All contracts with Putnam are benefit responsive at contract value for all plan permitted, participant directed transactions. There are no exceptions to this stipulation. Putnam is valued on a daily basis. All income and expenses to be deemed to be accrued, received or paid at an equal rate from day to day. Daily unit values are determined by dividing Putnam’s net assets by the number of participating units outstanding on the valuation date. Contributions and redemptions to Putnam occur daily at the current NAV.

Investments in self-directed brokerage accounts are valued based on the underlying investments held by the Plan at the end of the year.

Purchases and sales of securities are reflected on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

(c) Administrative Expenses

Management fees and operating expenses are paid out of the Plan unless paid by the Company and the Company does not elect to be reimbursed by the Plan as permitted by the plan agreement.

Participants are charged a quarterly recordkeeping fee and a contract asset charge calculated monthly on the combined asset balance of all contract accounts in the Plan as of the 15th day of each month. In addition, there are expense ratios and other costs associated with each investment option. There are also fees that relate to requesting loans and distributions.

During 2022, the Plan’s administrative expenses totaled approximately \$13,521,000 including approximately \$13,442,000 paid to TRS and ERC for services provided, \$21,000 to the Plan Sponsor, and approximately \$81,000 for other expenses such as consulting and audit fees.

(d) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and the related changes therein. Actual results could differ from those estimates.

(e) Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2022 or 2021. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

(3) Asset Transfers and Mergers

Qualified plans sponsored by certain Employers may be merged into the Plan in conjunction with such Employers' adoption of the Plan. New participant accounts are then created for such participants in the Plan. In addition, the account balances of participants employed by certain Employers who terminate their co-employment arrangements with the Company during the year may be transferred out of the Plan through mergers with, or creation of, other qualified plans.

Assets transferred into the Plan in 2022 totaled approximately \$224,996,000. Assets transferred out of the Plan in 2022 totaled approximately \$892,943,000.

(4) Excess Contributions Payable

Excess contributions payable of approximately \$5,486,000 as of December 31, 2021, respectively, represent payments made in 2022 to participants to return to them excess contributions as required to satisfy the relevant nondiscrimination provisions of the Plan.

(5) Income Tax Status

The Plan adopted the amended and restated TRS volume submitter multiple employer plan document effective March 1, 2021, which obtained its latest opinion letter on June 30, 2020, and adopted the ERS volume submitter plan document effective August 1, 2022, which obtained its latest opinion letter dated April 7, 2021, in which the Internal Revenue Service stated that the respective adopted plan documents, as then designed, were in compliance with the applicable requirements of the Internal Revenue Service. The adopted plan documents have been amended since receiving the opinion letter. However, the Company and the Plan's tax counsel believe that the adopted plan documents are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022 and 2021, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(6) **Party-in-Interest Transactions**

Certain of the Plan's investments are managed by TFLIC and ETC. While this activity qualifies as party-in-interest activity as defined in Section 3(14) of ERISA, it is expressly exempted from the prohibited transaction rules. Participant loan transactions are considered to be party-in-interest transactions, because they are transacted with plan participants.

Certain administrative expenses are paid to TFLIC and ETC and the plan sponsor and administrator (Note 2(c)) and as such are considered party-in-interest transactions.

(7) **Plan Termination**

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts. In the event of termination, the general obligation account is subject to a market valuation adjustment.

(8) **Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(9) **Information Certified by Custodian and Trustee**

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, TFLIC and ETC, the custodian and trustee of the Plan, respectively, have certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, at fair value
- Fully-benefit responsive investment contract at contract value
- Notes receivable from participants
- Net depreciation in fair value of investments
- Interest and dividends
- Interest income on notes receivable from participants
- Schedule of assets (held at end of year)

The Plan's independent auditors' did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in these financial statements and supplemental schedule.

(10) Fair Value Measurements

Accounting Standards Codification (“ASC”) Topic 820, *Fair Value Measurement*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC Topic 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- (a) Quoted prices for similar assets or liabilities in active markets;
- (b) Quoted prices for identical or similar assets or liabilities in inactive markets;
- (c) Inputs other than quoted prices that are observable for the asset or liability;
- (d) Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset’s or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Interest-Bearing Cash

Interest-bearing cash represents the Plan’s balance in the expense budget account and is classified as Level 1.

Pooled Separate Accounts, Collective Trust Funds, and Stable Value Fund

Valued at the NAV of units of a collective trust, pooled separate account, or stable value fund. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

TRINET 401(K) PLAN

(10) Fair Value Measurements - Continued

Self-Directed Brokerage Accounts

Valued based on quoted market prices in active markets. Investments within the self-directed brokerage accounts are considered Level 1 by the Plan based on asset listings provided by TFLIC and ETC.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2022 and 2021:

Description	Assets Measured at Fair Value at December 31, 2022	Fair Value Measurements at Reporting Date Using		
		Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value ("NAV") per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

TRINET 401(K) PLAN

(11) Fully Benefit-Responsive Investment Contract

The Plan had a fully benefit-response general account obligation with TFLIC. Investments in the general account obligation allow participants to invest money in a general account of TFLIC which earns interest. Participant contributions are commingled with TFLIC's other assets and TFLIC assumes the risk of principal and accrued interest. An effective annual rate of interest is established before the first day of each month. Interest is credited to the general account obligation daily based on its daily balance, at a rate of interest that is the daily equivalent of the effective annual rate of interest applicable for each month.

Because the general account obligation is fully benefit-responsive, contract value is the relevant measurement for reporting purposes. Contract value, as reported to the Plan by TFLIC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with TFLIC. Such events include the following: (1) amendments to the plan documents (including complete or partial termination); (2) bankruptcy of the Company or Employers; (3) other Company or Employers' events that cause a significant withdrawal from the Plan; or (4) the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA.

(12) Delinquent Participant Contributions

Defined contribution plans are required to remit participant contributions to the Plan as soon as they can be reasonably segregated from the employer's general assets. While the Company remitted all participant contributions to the Plan, contributions of approximately \$635,509 were not remitted within the Plan's remittance parameters for the year ended December 31, 2022. The Company remitted lost earnings of \$448 under the US Department of Labor Voluntary Fiduciary Compliance Program to the Plan during 2022 and 2023 for 2022 delinquent contributions. All applicable excise taxes were paid, as applicable with lost earnings remittances.

(13) Subsequent Events

The Plan's management has evaluated events and transactions for potential recognition or disclosure in the financial statements through February 15, 2024, except for Note 14, as to which the date is April 22, 2025, the date the financial statements were available to be issued.

Subject: Amended 2022 Form 5500 for the TriNet 401(k) Plan (Plan #334)

Dear Sir/Madam,

I am writing to submit an amended Form 5500 for the TriNet 401(k) Plan (Plan # 334) for the plan year ending December 31, 2022. The original Form 5500 was filed on February 15, 2024, and we have identified the need to amend the report due to corrections to financial information. These changes are reflected in Schedule H and Note 14 on the audited financial statements.

Enclosed with this letter you will find the amended Form 5500 together with financial statements and all necessary schedules and attachments. We have taken care to ensure that all corrections are accurately reflected in the amended report.

Please do not hesitate to contact me at catherine.wragg@trinet.com if you have any questions or require further information.

Thank you for your attention to this matter.

Sincerely,
Signed by:
