Report of Independent Auditors

The Plan Administrator of
Portland Hospital Service Corporation Employees' Retirement Plan

Report on the Audit of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Portland Hospital Service Corporation Employees' Retirement Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of June 30, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended June 30, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Portland Hospital Service Corporation Employees' Retirement Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of June 30, 2024 and 2023, and for the year ended June 30, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to, or derived from, the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Portland Hospital Service Corporation Employees' Retirement Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Portland Hospital Service Corporation Employees' Retirement Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance, and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Portland Hospital Service Corporation Employees' Retirement Plan's internal control. Accordingly, no such opinion is expressed.

- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Portland Hospital Service Corporation Employees' Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter

Supplemental Schedules Required by ERISA

The supplemental schedules, Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) as of June 30, 2024, and Schedule H, Line 4(j) – Schedule of Reportable Transactions for the year ended June 30, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to, or derived from, the certified investment information, has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from, the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to, or derived from, the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to, or is derived from, the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Portland Hospital Service Corporation Employees' Retirement Plan

Notes to Financial Statements

Note 1 – Description of Plan

The following description of the Portland Hospital Service Corporation Employees' Retirement Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General – The Plan is a non-contributory defined benefit retirement plan established for the benefit of eligible employees of Portland Hospital Service Corporation (the Employer). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by the Employer. Standard Insurance Company (Standard) is the qualified institution certifying plan investments (Qualified Institution).

Eligibility – The Plan was amended effective February 24, 2004, such that only employees covered by a collective bargaining agreement, which specifically provides for participation in the Plan, are eligible for participation in the Plan. Under the amended plan, employees need to complete one year of service (performing at least 500 hours of service) to participate in the Plan.

For existing participants who did not meet the amended eligibility requirements, their accrued benefits in the Plan were frozen effective February 24, 2004, and they do not accrue future benefits in the Plan. These participants – and all new employees who meet the eligibility requirements for participation in the Employer's defined contribution retirement plan (the 401(k) Plan) – are eligible to participate in the 401(k) Plan.

Contributions and funding policy – The Plan is funded solely by the Employer. The Employer intends to make contributions to the Plan which – in the aggregate – will be actuarially sufficient to meet the cost of benefits provided by the Plan and any administrative expenses paid by the Plan. Contributions are based on actuarial determinations, as discussed in Note 4. Under current regulations, any contributions made by March 15 following the end of a Plan year may be applied to the minimum funding requirement of the previous year. Accordingly, such amounts have been included in the accompanying financial statements within the Employer contributions receivable as of June 30, 2024 and 2023, as applicable. Employer contributions for the years ended June 30, 2024 and 2023, met the minimum funding requirements of ERISA.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Vesting – Participants vest in accrued benefits as follows:

Years of Service	Nonforfeitable Percentage
Less than 3	0%
3	20%
4	40%
5	60%
6	80%
7 or more	100%

Portland Hospital Service Corporation Employees' Retirement Plan Notes to Financial Statements

In addition, participants who become eligible for retirement while employed by the Employer are fully vested.

Benefits – Normal retirement benefits are based upon retirement at age 65. The normal monthly retirement benefit is the sum of the benefit payment rates according to the years that the employee worked (benefit payment rates are as described in the plan document). If the benefits have an actuarially equivalent value of \$10,000 or more upon retirement or termination, the benefits are normally paid in equal monthly installments in the form of a straight-life annuity; a joint and contingent survivor annuity; or a 60-, 120-, or 180-month certain annuity. If the participant elects to receive benefits in the form of a joint and contingent survivor annuity, the participant can select benefits that provide a level periodic payment for the participant's life, with a choice of 50.0%, 66.7%, 75.0%, or 100.0% of that benefit continuing for the life of the participant's beneficiary. Participants may occasionally receive benefit payments directly from the Plan after becoming eligible for benefits and prior to the purchase of an annuity. Participants may elect a lump sum payment following termination of service if the present lump sum actuarial value of the vested interest does not exceed \$10,000. If the benefits have an actuarially equivalent value of less than \$5,000 upon retirement or termination, participants automatically receive payment in the form of a lump-sum. The amount of benefits paid will vary according to the Plan's specifications for the option selected. The Plan also provides modified benefits for early or late retirement and has provisions for disability benefits and death benefits upon participants meeting certain other conditions.

Administrative expenses – At the Employer's discretion, administrative expenses of the Plan may be paid directly by the Employer; certain other administrative expenses may be paid by the Plan. Expenses that are paid by the Employer are excluded from the accompanying financial statements. In addition, certain investment related expenses are offset against net appreciation in fair value of investments in the accompanying statements of changes in net assets available for benefits.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP), using the accrual method of accounting.

Use of estimates – The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment valuation – The investments are stated at fair value. Standard Insurance Company certifies the fair value of all investments. If available, quoted market prices are used to value investments.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (the "exit price") in an orderly transaction between market participants at the measurement date.

Portland Hospital Service Corporation Employees' Retirement Plan

Notes to Financial Statements

Investment income recognition – Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The net appreciation in fair value of investments consists of both the realized gains or losses and unrealized appreciation and depreciation of those investments.

Payment of benefits – Benefits are recorded when paid.

Subsequent events – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before the financial statements are available to be issued.

The Plan has evaluated subsequent events through March 3, 2025, which is the date the financial statements were available to be issued.

Note 3 – Information Certified by the Qualified Institution

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Standard Insurance Company has certified to the completeness and accuracy of the following:

- Investments reflected on the accompanying statements of net assets available for benefits as of June 30, 2024 and 2023.
- Net appreciation in fair value of investments reflected on the accompanying statement of changes in net assets available for benefits for the year ended June 30, 2024.
- Investments reflected on the schedule of assets (held at end of year) as of June 30, 2024.
- Transactions reflected on the schedule of reportable transactions for the year ended June 30, 2024.

Portland Hospital Service Corporation Employees' Retirement Plan

Notes to Financial Statements

Note 4 – Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to services participants have rendered through the valuation date. Accumulated plan benefits include benefits expected to be paid to the following: (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of deceased employees, and (c) present employees or their beneficiaries. Benefits under the Plan are accumulated based on employees' hours worked during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included to the extent that they are deemed attributable to employee service rendered through the valuation date. Benefits to be provided via annuity contracts that are excluded from Plan assets are also excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits was estimated by the Plan's independent actuary, Standard Retirement Services, Inc. The actuarial present value of accumulated plan benefits is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of July 1, 2024 and 2023. Had the valuations been performed as of June 30, there would be no material differences.

The actuarial present value of accumulated plan benefits as of June 30, 2024 and 2023, was as follows:

	2024	2023
Actuarial present value of accumulated plan benefits		
Vested benefits		
Participants terminated with vested benefits	\$ 1,538,826	\$ 1,848,693
Active participants	3,168,681	2,943,915
	4,707,507	4,792,608
Nonvested benefits	153,767	112,564
Total actuarial present value of accumulated plan benefits	\$ 4,861,274	\$ 4,905,172

Portland Hospital Service Corporation Employees' Retirement Plan

Notes to Financial Statements

The changes in the actuarial present value of accumulated plan benefits during the year ended June 30, 2024, were as follows:

Actuarial present value of accumulated plan benefits at beginning of year	<u>\$ 4,905,172</u>
Increase (decrease) during the year attributable to	
Benefits accumulated, including experience gains and losses	434,437
Increase for interest due to the decrease in the discount period	283,138
Benefits paid	<u>(761,473)</u>
Net increase	<u>(43,898)</u>
Actuarial present value of accumulated plan benefits at end of year	<u><u>\$ 4,861,274</u></u>

The significant assumptions underlying the actuarial computations as of June 30, 2024 and 2023, were as follows:

Actuarial cost method –	Market Value Method
Retirement age –	Normal retirement age, 65
Mortality basis –	Society of Actuaries (SOA) Pri-2012 Total Dataset (Employee/Retiree) Amount-Weighted Mortality with scale MP- 2021 Mortality Table
Discount rate –	6.25%

Note 5 – Fair Value Measurements

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Portland Hospital Service Corporation Employees' Retirement Plan

Notes to Financial Statements

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the techniques used at June 30, 2024 and 2023.

Guaranteed investment contract – The guaranteed investment contract (GIC) is valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

Pooled separate accounts – Units held in pooled separate accounts (PSAs) are valued using the NAV practical expedient of the PSA as reported by the account managers. The net asset value is based on the fair value of the underlying assets owned by the PSA, minus its liabilities, and then divided by the number of units outstanding. The underlying investments comprising the pooled separate accounts are primarily mutual funds, which are valued at quoted market prices.

The following table provides additional information for investments in certain entities that measure fair value using the NAV practical expedient:

	Fair Value 6/30/2024	Fair Value 6/30/2023	Redemption Frequency	Redemption Notice Period	Redemption Restrictions
Pooled separate accounts	<u>\$ 2,809,702</u>	<u>\$ 2,907,534</u>	Daily	N/A	None

The valuation methods used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Portland Hospital Service Corporation Employees' Retirement Plan Notes to Financial Statements

The following tables disclose the fair value hierarchy of the Plan's assets by level at fair value as of June 30, 2024 and 2023:

	Fair Value Measurements at June 30, 2024			
	Level 1	Level 2	Level 3	Total
Guaranteed investment contract	\$ -	\$ -	\$ 1,876,580	\$ 1,876,580
Investments measured at NAV practical expedient				2,809,702
Total assets at fair value				\$ 4,686,282

	Fair Value Measurements at June 30, 2023			
	Level 1	Level 2	Level 3	Total
Guaranteed investment contract	\$ -	\$ -	\$ 1,835,183	\$ 1,835,183
Investments measured at NAV practical expedient				2,907,534
Total assets at fair value				\$ 4,742,717

The following table summarizes certain changes in the fair value of the Plan's Level 3 investments for the year ended June 30, 2024:

	Guaranteed Investment Contract
Purchases	\$ 125,224
Issuances	\$ -
Transfers in	\$ -
Transfers out	\$ -

The following table presents the Plan's Level 3 investments, the valuation techniques used to measure the fair value of those instruments as of June 30, 2024 and 2023, and the significant unobservable inputs and ranges of values for those inputs:

Name	Fair Value 6/30/2024	Fair Value 6/30/2023	Valuation Technique	Unobservable Inputs	Range of Input Values (Weighted Avg)
Guaranteed investment contract	\$ 1,876,580	\$ 1,835,183	Discounted cash flow	Discount rate	3.03%

Note 6 – Related-Party Transactions

The Plan's investments consist of the guaranteed investment contract and pooled separate accounts which are managed by the Standard Insurance Company who also provides actuarial and administration functions for the Plan. Therefore, transactions involving these investments qualify as party-in-interest.

Portland Hospital Service Corporation Employees' Retirement Plan

Notes to Financial Statements

The Employer is the sponsor and administrator of the Plan and paid certain expenses of the Plan during the years ended June 30, 2024 and 2023. In addition, the Plan's actuary is an affiliated entity of the Qualified Institution.

Note 7 – Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations (discussed below).
- c. All other vested benefits (that is, vested benefits not insured by the PBGC).
- d. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For Plan terminations occurring during 2024, that ceiling is \$7,108 per month. That ceiling applies to those annuitants who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations, and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

Portland Hospital Service Corporation Employees' Retirement Plan

Notes to Financial Statements

Note 8 – Tax Status

The Internal Revenue Service (IRS) has determined and informed the Plan administrator by a letter dated March 30, 2018, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (IRC).

In accordance with guidance on accounting for uncertainty in income taxes, the Plan administrator has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Appendix A – Summary of Principal Plan Provisions

*For attachment to 2023 Schedule SB, Part V – Summary of Plan Provisions
EIN 93-0588988 / PN 001*

Original Effective Date: July 1, 1976.

Last Restatement: July 1, 2020.

Subsequent Amendments: None.

Eligibility: Employees are eligible to enter the plan on the first monthly date after completing 500 hours of service in either a plan year or the year beginning on their date of employment. An employee may not participate if he is covered by a collective bargaining agreement with Teamsters Local Union 305 or International Union of Operating Engineers Local 701, or if he is part of the Administrative Staff. Participating employees accrue benefit if they work at least one hour in a plan year.

Past Service: The past service credit for employees who became participants on July 1, 1976 is a monthly retirement income for each plan year of service before July 1, 1976 in the amount of:

A. \$6.00 for participants who terminated employment before July 1, 1980.

B. \$8.00 for participants who terminated employment after June 30, 1980 but before July 1, 1982.

C. \$9.50 for participants who are employed after June 30, 1982.

Portland Hospital Service Corporation Employees' Retirement Plan

Appendix A - Summary of Principal Plan Provisions (cont.)

Future Service: The future service credit for each plan year in which a participant has at least 1,800 hours of service is:

<u>Plan Year</u>	<u>Benefit Rate</u>
July 1, 1976 to June 30, 1983	\$9.50
July 1, 1983 to December 31, 1986	\$10.00
January 1, 1987 to June 30, 1988	\$11.00
July 1, 1988 to June 30, 1990	\$12.00

July 1, 2015 to June 30, 2016	\$37.25
July 1, 2016 to June 30, 2023	\$37.50
After June 30, 2023	\$38.25

Future service credit is reduced proportionately for a year in which a participant has less than 1,800 hours of service. There is no credit for a plan year in which a participant has less than 500 hours of service unless it is a plan year in which the participant commences or terminates employment.

If the plan is determined to be Top Heavy, it is also subject to Top Heavy minimum accrued benefits.

Effective February 24, 2004, benefits were frozen for those participants who work as Administrative Staff and are eligible for the 401(k) plan sponsored by the company.

Vesting Service: The sum of the plan years during which a participant has at least 500 hours of service.

Normal Retirement Date: The first day of the calendar month coincident with or next following the attainment of age 65.

Appendix A - Summary of Principal Plan Provisions (cont.)

Early Retirement: Any participant who has attained age 55 and completed 10 years of vesting service may elect early retirement on the first day of any calendar month following the termination of service. In this case, the participant's accrued retirement benefit earned on the basis of service to the date of retirement is reduced to an actuarial equivalent to compensate for the longer period over which benefits will be paid.

Termination Benefit: A terminating participant who has completed three years of service is entitled to receive a vested monthly benefit starting on his normal retirement date. The amount of the benefit is equal to the retirement income earned to the date of termination multiplied by the vested percentage from the following table:

<u>Years of Service</u>	<u>Vested Interest</u>
Less than 3	0%
3	20%
4	40%
5	60%
6	80%
7 or more	100%

Late Retirement: Retirement may be postponed beyond normal retirement date. Benefits will continue to be earned according to the benefit formula.

Death Benefit: If a vested participant has a surviving spouse and dies prior to the time his benefit payments (on account of his retirement or disability) commence, a qualified pre-retirement survivor annuity shall be provided to such surviving spouse, unless the present value of the participant's qualified pre-retirement survivor annuity is \$5,000 or less; in which event, such present value shall be paid to the surviving spouse in the form of a lump sum.

A qualified pre-retirement survivor annuity is an annuity for the life of the surviving spouse commencing on the later of (1) the date of the participant's death and (2) the earliest date on which the participant could retire, in an amount equal to the amount the surviving spouse would have received had the participant (A) retired on that date, (B) accrued benefits equal to his accrued benefit on the date of his death, (C) elected a two-thirds Joint & Survivor Annuity, and (D) died on the day following the date he retired.

Disability Benefit: A participant who becomes disabled will continue to accrue retirement benefits during disability. Disability eligibility requirements are the same as that of Social Security.
