Independent Auditor's Report

To the Plan Administrator of
DRMP, Inc. 401(k) & Profit Sharing Plan:

Opinion

We have audited the financial statements of DRMP, Inc. 401(k) & Profit Sharing Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits as of July 31, 2024 and December 31, 2023, and the related statement of changes in net assets available for benefits for the period from January 1, 2024 through July 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of DRMP, Inc. 401(k) & Profit Sharing Plan as of July 31, 2024 and December 31, 2023, and the changes in its net assets available for benefits for the period from January 1, 2024 through July 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of DRMP, Inc. 401(k) & Profit Sharing Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about DRMP, Inc. 401(k) & Profit Sharing Plan's ability to continue as a going concern for at least one year following the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of DRMP, Inc. 401(k) & Profit Sharing Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about DRMP, Inc. 401(k) & Profit Sharing Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

DRMP, Inc. 401(k) & Profit Sharing Plan

Notes to Financial Statements

July 31, 2024 and December 31, 2023

1. Description of Plan

The following description of the DRMP, Inc. 401(k) & Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was a defined contribution plan established effective February 1, 1982, as restated January 1, 2022. The Plan covered all employees, excluding collectively bargained employees, non-resident aliens and leased and certain temporary employees, of DRMP, Inc. (the "Company") who were age 18 or older. The Plan required a participant to be employed as of year-end to be eligible to receive employer contributions. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Contributions

Prior to January 1, 2024, a participant could contribute between 2% and 85% of their annual compensation up to the maximum limits of the Internal Revenue Code ("IRC"). Participants could also designate all or a portion of their deferral contributions as after-tax contributions into a Roth account. Participants who had attained age 50 before the end of the Plan year were eligible to make catch-up contributions. Participants also could contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants directed the investment of their contributions into various investment options offered by the Plan. The Plan included an automatic enrollment provision whereby all newly eligible employees were automatically enrolled in the Plan unless they affirmatively elected not to participate in the Plan. Automatically enrolled participants had their deferral rate set at 2 percent of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant. The Company were permitted, but not required, to make matching contributions on behalf of those participants who have made salary deferrals. The Company could also make additional discretionary profit-sharing contributions but not exceed the maximum allowable by the IRC. For the period from January 1, 2024 through July 31, 2024, there were no profit sharing contributions to the Plan. Contributions were subject to certain Internal Revenue Service ("IRS") limitations. Matching and discretionary contributions were only for employees enrolled in the Plan who had completed 1,000 hours in a plan year. The employer did not make any matching or discretionary contributions during the period from January 1, 2024 through July 31, 2024. Employer contributions, if any, were funded at least annually.

Participant Accounts

Each participant's account was credited with the participant's contributions, Company matching contributions, allocations of the Company's discretionary contributions and an allocation of the Plan's earnings. Participant accounts were charged with an allocation of administrative expenses that were paid by the Plan. Allocations were based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant was entitled is the benefit that could be provided from the participant's vested account.

Vesting

Participants were vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts was based on years of continuous service. A participant was 20% vested after two years of credited service and continued to vest in increments of 20% until 100% vested after six years of credited service.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant could elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or installment payments as provided in the plan document. For termination of service due to other reasons, a participant could receive the value of the vested interest in his or her account as a lump sum distribution. In addition, the Plan allowed for hardship distributions if certain criteria were met.

Forfeited Accounts

Forfeitures of nonvested employer contributions of terminated participants could be used to pay Plan expenses, and any remaining forfeitures were allocated to remaining participants as if they were employer contributions. During the period from January 1, 2024 through July 31, 2024, \$5 of forfeitures were used to pay Plan expenses, and the forfeiture balances as of July 31, 2024 and December 31, 2023, were \$0 and \$31,480, respectively.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments were reported at fair value or net asset value ("NAV"), which approximates fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's trustee determines the Plan's valuation policies utilizing information provided by the investment advisors, custodians, and insurance company, as applicable. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income was recorded on an accrual basis. Related fees were recorded as administrative expenses and are expensed as incurred.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation in fair value of investments.

Subsequent Events

The Plan management evaluated events that occurred after July 31, 2024 through May 14, 2025, the date when the financial statements were available to be issued.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurement*, are described as follows:

Level 1 - Inputs to the valuation technique are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation technique include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation technique are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the techniques used as of December 31, 2023.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Investments Measured at Net Asset Value: Consisted of collective trusts, valued at the net asset value ("NAV") of units of a bank collective trust. NAV, as provided by the trustee, was used as a practical expedient to estimate fair value. NAV was based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient was not used when determined to be probable that the fund would sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) could occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserved the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations would be carried out in an orderly business manner.

Self-directed brokerage accounts: Primarily consisted of mutual funds and common stocks that were valued at readily determinable quoted market prices.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believed its evaluation methods were appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2023:

	December 31, 2023			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 39,836,498	\$ -	\$ -	\$ 39,836,498
Self-directed brokerage accounts	1,589,151	-	-	1,589,151
Total assets in the fair value hierarchy	41,425,649	-	-	41,425,649
Investments valued at net asset value (*)	-	-	-	2,217,118
Total investments at fair value	\$ 41,425,649	\$ -	\$ -	\$ 43,642,767

* In accordance with FASB ASC 820, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Fair Value of Investments that Calculate Net Asset Value

The following table summarizes investments measured at fair value based on net asset value ("NAVs") per share as of December 31, 2023. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

	December 31, 2023			
	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Wells Fargo stable value fund	\$ 2,217,118	\$ -	Daily	Daily

4. Plan Merger

Effective January 1, 2024, the directors of the Company approved and adopted the resolution to merge Plan assets with The Trilon Group Retirement Savings Plan (Trilon Group Plan). As a result of the merger all participants with accounts balances became fully vested as of January 1, 2024. Additionally, the Company elected to freeze participation in the Plan as of January 1, 2024. As of July 31, 2024, approximately \$43,080,963 was transferred to the Trilon Group Plan.

5. Party-in-Interest Transactions

Certain Plan investments were managed by the Custodian, and therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services were included in net depreciation in the fair value of the investment. Additionally, the Plan issued loans to participants, which were secured by the participants' account balances. These transactions qualified as party-in-interest transactions. Certain administrative functions of the Plan were performed by officers or employees of the Company. No such officer or employee received compensation from the Plan.

6. Tax Status

The Plan adopted a pre-approved plan offered by GrayRobinson, P.A. The pre-approved plan received an IRS Opinion Letter dated June 30, 2020, that the Plan and related trust are designed in accordance with the applicable sections of the IRC. Although the Plan has been amended since receiving the IRS Opinion Letter, the Plan trustee believes that the Plan was designed, and was operated, in compliance with the applicable requirements of the IRC, and therefore believes that the Plan was qualified, and the related trust was tax exempt.

Plan management was required to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan had taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan was subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
