**Statement by Enrolled Actuary**  
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

## INDEPENDENT AUDITORS' REPORT

To the Board of Trustees  
Savings Banks Employees Retirement Association

### **Opinion**

We have audited the financial statements of SBERA Pension Plan as adopted by Pentucket Bank, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of October 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of SBERA Pension Plan as adopted by Pentucket Bank as of October 31, 2024 and 2023, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

### **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of SBERA Pension Plan as adopted by Pentucket Bank and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about SBERA Pension Plan as adopted by Pentucket Bank's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

## **Auditors' Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of SBERA Pension Plan as adopted by Pentucket Bank's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about SBERA Pension Plan as adopted by Pentucket Bank's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## **Supplemental Schedule Required by ERISA**

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of October 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

**SBERA PENSION PLAN AS ADOPTED BY PENTUCKET BANK**  
**NOTES TO FINANCIAL STATEMENTS**

---

**1. DESCRIPTION OF PLAN**

The following brief description of the SBERA Pension Plan as adopted by Pentucket Bank (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

**General –**

The Plan is a defined benefit pension plan covering substantially all employees of Pentucket Bank (the Bank). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective November 1, 2020, the bank converted their defined benefit pension plan to a cash balance plan. All benefits earned under the traditional defined benefit pension formula were frozen effective October 31, 2020 and the accrued benefit for each participant was established as the opening hypothetical account balance under the cash balance plan. Effective December 31, 2023, the Plan was frozen as to principal credits under the cash balance plan.

The Plan is administered by Savings Banks Employees Retirement Association (SBERA) which has overall responsibility for the operation and administration of the Plan. An Investment Committee consisting of the Plan's trustees determines the appropriateness of the Plan's investment offerings and monitors investment performance.

The Plan participates in the SBERA Common Collective Trust (the Trust). Under the Trust agreement, the Plan owns a portion of the net assets of the Trust, which represents its interest in the Trust. Within the Trust, each of the member banks' plan assets are jointly invested and the return on the assets is allocated to each plan based on the percentage of ownership each plan has in the Trust's net assets. Contributions made to and benefits paid from the Trust for the Plan result in increases or decreases in the Plan's ownership percentage in the net assets of the Trust.

**Eligibility Requirements –**

Employees hired or rehired after December 31, 2023 are not eligible to participate in the Plan. For employees hired prior to December 31, 2023, an employee must have reached 21 years of age and completed 1 year of service. A year of service is defined as a 12 month period ending on the anniversary date of the participant's employment in which he/she has been credited with at least 1,000 hours of service.

**Vesting –**

Effective November 1, 2020, all participants become 100% vested in the employer-provided benefit after 3 years of service or age 62, if earlier. Prior to November 1, 2020, participants hired after July 1, 2014 became 100% vested in the employer-provided benefit after 5 years of service or age 62, if earlier. In addition, participants become 100% vested upon death or disability.

**Funding Policy –**

The Bank's funding policy is to make annual contributions to the Plan in amounts that are estimated to fully provide for employees' benefits upon their retirement. There were no Bank contributions for the years ended October 31, 2024 and 2023.

**SBERA PENSION PLAN AS ADOPTED BY PENTUCKET BANK**  
**NOTES TO FINANCIAL STATEMENTS**

---

**1. DESCRIPTION OF PLAN (Continued)**

**Funding Policy (Continued) –**

Although it has not expressed any intention to do so, the Bank has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

**Participant Accounts –**

Under the Plan's provisions, principal and interest amounts are credited to each of the participants' hypothetical accounts at the end of each Plan year. Participants receive a principal credit equal to each participant's customized percentage, as defined in the Plan document, multiplied by their Plan earnings for the year. The applicable percentage ranges from 5% to 34% and is based on the participants' age and years of credited service. Participants are eligible to receive principal credits as of the end of each plan year in which a participant has worked at least 1,000 hours. In the year of retirement, death or termination, each participant will receive a principal credit regardless of hours worked based on their plan earnings through their last day of employment.

Participants also receive interest credits at the end of each Plan year based on the participant's account balance at the beginning of the Plan year and adjusted for any payments during the Plan year. Interest credits are based on the greater of the 30-year U.S. Treasury rate for September of the prior plan year or 3.50%, not to exceed 7.00%. For the years ended October 31, 2024 and 2023, the interest crediting rate was 4.47% and 3.55%, respectively.

**Pension Benefits –**

Prior to November 1, 2020, for employees hired before July 1, 2014, employees were entitled to an employer sponsored benefit of 1.25% of the highest consecutive 3 year average earnings plus 0.60% of the highest consecutive 3 year average earnings in excess of covered compensation (as defined) for each of the first 25 years of service. Employees had minimum entitlements equal to the annuitized value of any prior employer contributions.

For employees hired on or after July 1, 2014, employees were entitled to an employer sponsored benefit of 0.9375% of the highest consecutive 3 year average earnings plus 0.45% of the highest consecutive 3 year average earnings in excess of covered compensation (as defined) up to the first 10 years of service plus 1.25% of the highest consecutive 3 year average earnings plus 0.60% of the highest consecutive 3 year average earnings in excess of covered compensation (as defined) for years thereafter up to 25 years of service.

With the Plan's conversion to a cash balance plan, all benefits earned under the traditional formula were frozen effective October 31, 2020. Under the cash balance formula, upon reaching age 65, participants are eligible for monthly normal retirement benefits equal to the previously frozen benefit under the traditional formula plus the actuarial equivalent of the participant's vested account balance under the cash balance plan, as defined in the Plan document.

If an employee terminates before rendering 3 years of service, the right to receive benefits is forfeited. The Plan also provides for early retirement benefits on a reduced basis based on various age levels and completion of certain years of service. Employees may elect to receive the value of their accumulated plan benefits as a lump sum distribution upon retirement or termination, or they may elect to receive their benefits as a life annuity payable monthly from retirement. If the present value of an employee's vested benefit does not exceed \$5,000 at the time such individual becomes entitled to a distribution, such vested benefit shall be paid in a lump sum.

**SBERA PENSION PLAN AS ADOPTED BY PENTUCKET BANK**  
**NOTES TO FINANCIAL STATEMENTS**

---

**1. DESCRIPTION OF PLAN (Continued)**

**Pension Benefits (Continued) –**

Effective December 31, 2023, the Plan was amended to freeze all benefit accruals and to allow an unlimited lump sum distribution option to all participants.

**Death and Disability Benefits –**

If an active participant dies, a death benefit equal to the actuarial equivalent of the participant's benefit is paid to the participant's beneficiary. Active employees who become totally disabled are entitled to a disability benefit to be distributed in accordance with the Plan document.

**Administrative Expenses –**

Administrative expenses, including investment related fees, are paid directly by the Trust and are reflected in the Plan's share of the Trust net investment activity. In addition, included within the Plan's interest in the Trust's net investment income, in the accompanying Statements of Changes in Net Assets Available for Benefits, are certain investment related expenses included in the Trust's net appreciation in fair value of investments.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The following are significant accounting policies followed by the Plan:

**Basis of Accounting –**

The financial statements of the Plan are prepared on the accrual basis of accounting.

**Use of Estimates –**

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

**Investment Valuation and Income Recognition –**

The Plan's interest in the Trust is reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by its investment managers and custodians.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net investment income includes interest and dividend income and the Plan's gains and losses on investments bought and sold as well as held during the year. The Plan's sole investment at October 31, 2024 and 2023 is its interest in the Trust. Consequently, it recognizes investment income based on its percentage of interest in the Trust.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Payment of Benefits –**

Benefit payments to participants are recorded when paid.

**Date of Management’s Review –**

In June 2016, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) 2016-13, *Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments*, as subsequently amended by additional ASUs. The ASU requires the allowance for credit losses to be estimated based on an incurred loss model, which considers historical and forecasted conditions. Financial assets held by the Plan that are subject to the guidance in FASB ASC 326 were contributions receivable and interest, dividends and investment income receivable.

On November 1, 2023, the Plan adopted the new accounting standard and all of the related amendments using the modified retrospective method. The impact of the adoption was not considered material to the Plan’s financial statements.

**Date of Management’s Review –**

The Plan has evaluated subsequent events through May 23, 2025, the date the financial statements were available to be issued. Effective November 1, 2024, the Plan was amended to comply with the legislative and regulatory changes set forth in Internal Revenue Service (IRS) Notice 2016-37. In conjunction with the amended plan document, Benefit Plan Administrative Services, LLC (BPAS) applied for and received IRS approval of the master document. As of February 28, 2023, a favorable opinion letter has been received by the volume submitter plan sponsor.

**3. FAIR VALUE MEASUREMENTS**

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Trust has the ability to access.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

**SBERA PENSION PLAN AS ADOPTED BY PENTUCKET BANK**  
**NOTES TO FINANCIAL STATEMENTS**

---

**3. FAIR VALUE MEASUREMENTS (Continued)**

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Certain investments are measured using the net asset value (NAV) as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. These investments measured using the NAV practical expedient in *Fair Value Measurement (Topic 820)* are exempt from categorization in the fair value hierarchy.

Following is a description of the valuation methodologies used for assets measured at fair value by the Trust. There have been no changes in the methodologies used by the Trust at October 31, 2024 or 2023.

*Certificates of deposit:*

Certificates of deposit are measured at amortized cost, which approximates fair value.

*Collective funds:*

Valued at either the closing price reported on the active market on which the individual securities are traded or valued at the NAV of units of a collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value or is a readily determinable fair value and is the basis for the current transactions. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Trust to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the Trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

*Equity securities:*

Valued at the closing price reported on the active market on which the individual securities are traded.

*Mutual funds:*

Valued at the daily closing price as reported by the fund. Mutual funds held by the Trust are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Trust are deemed to be actively traded.

*Limited partnerships and hedge funds:*

The funds are valued at NAV, without further adjustment, as calculated by the fund's manager based upon the terms and conditions of the organizational documents of the underlying investments, with further consideration to portfolio risks.

**SBERA PENSION PLAN AS ADOPTED BY PENTUCKET BANK**  
**NOTES TO FINANCIAL STATEMENTS**

**3. FAIR VALUE MEASUREMENTS (Continued)**

*Self-directed brokerage account:*

The brokerage account is comprised of exchange-traded funds and equities, which are listed on major U.S. exchanges and actively traded. The funds are valued at the closing price reported in the active market in which the securities are traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Trust's assets at fair value as of October 31, 2024 and 2023. Classification within the fair value hierarchy tables is based upon the lowest level of any input that is significant to the fair value measurement:

There were no transfers to or from Levels 1, 2, and 3 during the years ended October 31, 2024 and 2023.

**Investments Measured Using the Net Asset Value per Share Practical Expedient –**

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of October 31, 2024 and 2023, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Trust.

- (a) This category includes investments in hedge funds that pursue multiple strategies to diversify risks and reduce volatility. Fund objectives are to seek above-average rates of return and long-term capital growth through investments, which are fund of funds with a diversified portfolio of private investment entities and/or separately managed accounts managed by investment managers or achieve superior risk-adjusted capital appreciation over the long-term, generally through an investment, which invests in private investment funds and discretionary managed accounts, structured notes, swaps or other similar products. The fair values of the investments in this category have been determined using the net asset value per share of the fund(s).
- (b) This category has an investment strategy to pursue a hybrid absolute return via portfolio managers, secondaries and co-investments with a flexible and opportunistic mandate tactically allocating capital to look to capitalize on market dislocations and inefficiencies. The opportunities are expected to fall within the following strategies: Niche Alternatives and Private Credit and Hedge Fund secondaries. The fair value of the investments in this category have been determined using the last sales price, for listed securities, and in accordance with the agreement terms for portfolio-managed investments, notes, swaps, and other similar products.

**3. FAIR VALUE MEASUREMENTS (Continued)**

**Investments Measured Using the Net Asset Value per Share Practical Expedient (Continued) –**

- (c) The fund's investment objective is to invest in highly attractive, select investment opportunities by maintaining investments through private investment entities and/or separately managed accounts (each, an Investment or a Portfolio and collectively, the Investments or the Portfolios) with investment management professionals (each a Manager and collectively, the Managers) specializing in various alternative investment strategies. The Managers have broad investment experience and the ability to leverage their existing relationships with corporate management teams, investment banks and other institutions to gain access to certain investment opportunities. As such, the Manager is presented with "best idea" investment opportunities, typically in asset classes where market dislocations or other events have created attractive investment opportunities. The Managers are not restricted in the investment strategies that they may employ across different asset classes and regions. The Manager anticipates that any number of strategies will be eligible for consideration for investment by the fund and the fund reserves the right to invest in any particular strategy or asset class it deems appropriate.

**4. INVESTMENT PLAN INTEREST IN THE TRUST**

All of the Plan's investments are in the Trust, which was established for the investment of assets of the Plan and several other member bank sponsored retirement plans. Each participating retirement plan has an undivided interest in the Trust. The assets of the Trust are held by several custodians.

The value of the Plan's interest in the Trust is based on the beginning of year value of the Plan's interest in the Trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. At October 31, 2024 and 2023, the Plan's interest in the Trust was approximately 1.04% and 1.05%, respectively. Investment income and administrative expenses relating to the Trust are allocated to the individual plans based upon average monthly balances invested by each plan.

**5. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS**

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan’s provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired, disabled or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. The accumulated plan benefits for active employees are based on upon a formula for various hire dates as described in Footnote 1 – Description of the Plan under Pension Benefits. Benefits payable under all circumstances – retirement, death, disability and termination of employment – are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by a consulting actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant assumptions underlying the actuarial computations in determining the present value of accumulated plan benefits are as follows:

Interest Rate	7.00% (2024 and 2023)
Mortality Basis	Amount-Weighted White Collar Pri-2012 Mortality Tables, then projected with mortality improvements using scale MP-2021 (2024 and 2023)
Retirement	Ages 55 to 70 on a sliding scale (2024 and 2023)
Withdrawal	Probability based on years of service as follows:

Years of Service	2024	2023
0 - 1	22.3%	22.3%
1 - 2	20.8%	20.8%
2 - 3	20.3%	20.3%
3 - 4	15.6%	15.6%
4 - 5	12.8%	12.8%
5 - 6	10.8%	10.8%
6 - 10+	20.1%	20.1%

Changes in actuarial assumptions are noted above, if applicable. The computation of the actuarial present value of accumulated plan benefits was made as of November 1, 2024 and 2023. Had the valuations been performed as of October 31, 2024 and 2023, there would be no material differences.

NOTES TO FINANCIAL STATEMENTS**

**5. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (Continued)**

The foregoing assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits under the Plan, as calculated by the consulting actuary, was as follows:

	November 1,	
	2024	2023
Vested benefits:		
Participants currently receiving payments	\$ 5,214,259	\$ 5,389,918
Other participants	7,727,458	7,076,959
Total vested	<u>12,941,717</u>	<u>12,466,877</u>
Nonvested benefits	<u>61,456</u>	<u>142,417</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 13,003,173</u>	<u>\$ 12,609,294</u>

The changes in the actuarial present value of accumulated plan benefits were as follows:

	Years Ended November 1,	
	2024	2023
Actuarial present value of accumulated plan benefits at beginning of year	<u>\$ 12,609,294</u>	<u>\$ 12,071,903</u>
Increase (decrease) during the year attributable to:		
Benefits accumulated (including actuarial gains and losses)	199,138	852,155
Increase for interest due to the decrease in discount period	856,517	804,935
Benefits paid	(746,662)	(1,145,675)
Change in plan design	-	138,210
Change in assumptions	<u>84,886</u>	<u>(112,234)</u>
Net increase	<u>393,879</u>	<u>537,391</u>
Actuarial present value of accumulated plan benefits at end of year	<u>\$ 13,003,173</u>	<u>\$ 12,609,294</u>

**6. RISKS AND UNCERTAINTIES**

The Plan, through its investment in the Trust, invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would-be material to the financial statements.

**7. PLAN TERMINATION**

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- 1) Benefits attributable to employee contributions, taking into account those paid out before termination.
- 2) Annuity benefits that former employees or their beneficiaries have been receiving for at least 3 years, or that employees eligible to retire for that 3 year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those 3 years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the 5 years preceding Plan termination.
- 3) Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations. The limit was \$7,107.95 and \$6,750.00 for the years ended October 31, 2024 and 2023, respectively.
- 4) All other vested benefits (that is, vested benefits not insured by PBGC).
- 5) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

**8. TAX STATUS**

The SBERA Pension Plan as adopted by the Plan is a volume submitter plan. BPAS maintains the overall volume submitter plan document (master document). BPAS has applied for and received IRS approval of the master document. As of September 28, 2018, a favorable opinion letter has been received by the volume submitter plan sponsor. The Plan's administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Internal Revenue Code (IRC). Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Department of Labor or IRS. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress.

**9. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS**

Northeast Retirement Services (NRS), by contract with the approval of the Boards of Trustees of SBERA and NRS, provides various administrator support services, compliance services, payment services, recordkeeping services, actuarial services, legal support services and training in connection with the administration of defined benefit plans for SBERA. The costs associated with these services are funded by an assessment on each SBERA employer member on a quarterly basis for their proportionate share. In 2024 and 2023, the rate for the defined benefit plans was \$1,261.75 per employer member (\$1,536.75 for plans with over 100 participants) per quarter. In 2024 and 2023, there was also a fee of \$27.95 per active participant per quarter, plus an additional 1.25 basis point assessment on assets.

The Plan invests in a common collective trust managed by SBERA, the trustee of the Plan. Additionally, Global Trust Company, a wholly owned subsidiary of NRS, is the trustee of two collective funds that the Plan holds investments in. Therefore, these qualify as party-in-interest transactions.

## Actuarial Assumptions and Methods

The valuation of a defined benefit pension plan involves estimates and assumptions about the probability of events occurring far into the future. Examples include assumptions about future employment, mortality, and retirement. Below is a description of the actuarial assumptions and methods used in the valuation.

### Funding Target Liability

**Valuation Date:** November 1, 2023

**Demographic Information:** The demographic information was provided as of November 1, 2023 by Pentucket Bank. Although we did not audit the data, we did review the data for reasonableness.

**Actuarial Cost Method:** As required by PPA, the Traditional Unit Credit Cost Method was used.

**Asset Valuation Method:** Market Value of Assets, as provided by the Trustee.

**Actuarial Valuation Software:** For purposes of developing the projected future benefit payments as well as determining attributed liabilities and normal costs as of the valuation date, we utilized the ProVal software platform developed by Winklevoss Technologies. We believe this externally developed valuation system is appropriate, was used for its intended purpose, and did not produce unreasonable results.

**Interest Rates for Minimum Required Contribution:** The October 2023 funding segment rates were utilized as prescribed by IRC Section 430(h) and elected by Pentucket Bank. Below, please find the segment rates after reflection of the segment rate stabilization provisions of IRC Section 430(h)(2)(C)(iv) with regard to provisions provided under Section 9706 of the American Rescue Plan Act of 2021.

Segment	Interest Rate
Segment 1	4.75%
Segment 2	5.00%
Segment 3	5.74%

Effective Interest Rate
5.33%

Segment 1 is applied to benefit payments expected to be made in the first 5 years, segment 2 is applied to benefit payments expected to be made in the next 15 years and segment 3 is applied thereafter.

**Interest Rates used to determine Maximum Recommended Contribution:** Below, please find the segment rates without reflection of the segment rate stabilization provisions of IRC Section 430(h)(2)(C)(iv). These rates were utilized to determine the low-default risk obligation measurement (“LDROM”) of the accrued benefits as of the Valuation Date.

Segment	Interest Rate
Segment 1	3.82%
Segment 2	4.59%
Segment 3	4.63%

Effective Interest Rate
4.58%

Segment 1 is applied to benefit payments expected to be made in the first 5 years, segment 2 is applied to benefit payments expected to be made in the next 15 years and segment 3 is applied thereafter.

**Rate of Compensation Increase:** Salaries are assumed to increase at 5.00% per year, based on discussions with the Bank regarding historical experience, future expectations, and current market conditions.

**Mortality for Healthy Lives:**

*Base mortality table:* The sex distinct RP-2014 mortality tables for employees and healthy annuitants, adjusted backward to 2006 with Scale MP-2014.

*Mortality improvements:* The base mortality table is adjusted by projecting mortality improvements using Scale MP-2021 from the year 2006 through 2023, with an additional projection period of 8 years for males and 9 years for females. For ages below 80, the additional projection period is increased by 1 year for each year below age 80. For ages above 80, the additional projection period is reduced (but not below zero) by 1/3 year for each year above 80.

**Retirement Incidence:** Rates of retirement are based on a review of SBERA pension plan experience for the November 1, 2017 through November 1, 2022 plan years. Future experience is not expected to deviate significantly from these results. Active participants were assumed to retire in accordance with the following rates.

Age	Percentage
55	5.00%
56	5.00%
57	5.00%
58	5.00%
59	5.00%
60	5.00%
61	10.00%
62	10.00%
63	10.00%
64	15.00%
65	30.00%
66	30.00%
67	30.00%
68	30.00%
69	30.00%
70	100.00%

Current and future vested terminated participants are assumed to retire at age 65 based on the Plan's normal retirement age.

**Turnover:** Rates of turnover are based on 130% of the SOA Basic Service Table after a review of SBERA pension plan experience for the November 1, 2017 through November 1, 2022 plan years. Future experience is not expected to deviate significantly from these results. Illustrative rates are shown below.

Service	Percentage
0	22.27%
1	20.83%
2	20.32%
3	15.57%
4	12.83%
5	10.84%
10	6.38%
15	4.76%
20	3.65%
25	2.76%
30	1.98%
35	0.52%

**Disability:** Rates of decrement due to disability are assumed to be 0%.

**Interest Crediting Rate for Determining Projected Cash Balance Accounts:** 4.47% per year. This assumption was selected based on the interest crediting rate in effect for the plan year beginning on the valuation date.

**Assumptions used to Convert Annuities to Actuarially Equivalent Lump Sum Amounts:** In accordance with IRS Regulation 1.430(d)-1(f)(5)(ii)(B), annuities are converted to actuarially equivalent lump sum amounts using the current applicable mortality table under IRC Section 417(e)(3) that would apply to a distribution with an annuity starting date occurring on the valuation date and the underlying valuation interest rates under IRC Section 430(h)(2).

**Assumptions used to Annuitize Cash Balance Accounts:** The current applicable mortality table under IRC Section 417(e)(3) that would apply to a distribution with an annuity starting date occurring on the valuation date and 5.50%, based on the Plan provisions.

**Administrative Expenses:** Actual plan expenses, not including investment advisory fees, paid out of the trust during the previous plan year rounded to the nearest thousand.

**Spouse Assumptions:** 100% of participants not currently collecting benefits are assumed to be married, with male spouses assumed to be three years older and female spouses assumed to be three years younger than the participant.

**Compensation and Benefit Limitation:** The IRC Section 401(a)(17) compensation limit and the IRC Section 415 benefit limitation were assumed to increase 2.50% per year.

**Form of Benefit:** 40% of active participants are assumed to elect a life annuity and 60% of active participants are assumed to elect a lump sum upon retirement. 100% of active participants are assumed to elect a lump sum upon termination or death prior to retirement. 20% of terminated vested participants are assumed to elect a life annuity and 80% of terminated vested participants are assumed to elect a lump sum at their Normal Retirement Age. This assumption is based on a review of SBERA pension plan experience for the November 1, 2017 through November 1, 2022 plan years.

All assumptions used in determining the low-default risk obligation measurement were consistent with those used in determining the Funding Target Liability, except the interest rates which were disclosed above.

## Actuarial Present Value of Accumulated Plan Benefits (ASC 960)

**Interest Rate:** 7.00%, based on a review of the Plan's asset allocation, investment policy (as shown in the annual funding notice), and expected returns using recent capital market assumptions published by leading financial organizations.

**Mortality:** The sex-distinct Amount-Weighted White Collar Pri-2012 Mortality Tables for employees, healthy annuitants, and contingent survivors with mortality improvements projected using Scale MP-2021 on a generational basis. This assumption was based on a review of published mortality tables and the demographics and industry of the Plan.

**Assumptions used to Convert Annuities to Actuarially Equivalent Lump Sum Amounts:** The segment interest rates in the table below. This assumption was selected based on the applicable segment rates under IRC Section 417(e) for the plan year beginning on the valuation date.

Segment	Interest Rate
Segment 1	5.58%
Segment 2	5.66%
Segment 3	5.56%

Segment 1 is applied to benefit payments expected to be made in the first 5 years, segment 2 is applied to benefit payments expected to be made in the next 15 years and segment 3 is applied thereafter.

Unless specifically mentioned, all remaining assumptions for the Actuarial Present Value of Accumulated Plan Benefits remain the same as described for the Funding Target Liability above.

## Plan Provisions

This summary is intended as an outline of plan provisions and does not alter the intent or meaning of the provisions contained in the plan document.

**Plan Sponsor:** Pentucket Bank  
**EIN/PN:** 81-2054111/001

### EFFECTIVE DATE OF LAST AMENDMENT

The Plan was last amended effective December 31, 2023, to freeze participation and all benefit accruals in the Plan. As of this date, the Plan was also amended to allow an unlimited lump sum distribution option to all participants upon separation from employment.

### ELIGIBILITY

Employees become eligible to participate in the Plan on the first day of the month coinciding with or next following the attainment of age 21 and one year of service. Participation was frozen as of December 31, 2023.

### EMPLOYEE CONTRIBUTIONS

Participants are not required to contribute.

### RETIREMENT

- i. Normal Retirement.* Participant's Normal Retirement Date is the first day of the month coincident with or next following the month during which a Participant attains age 65.
- ii. Early Retirement.* Participant's Early Retirement Date is the first day of any month coinciding with or next following the date the Participant attains age 62, age 55 after completing 10 years of plan service, or age 50 after completing 15 years of plan service.
- iii. Late Retirement.* After Normal Retirement Date.
- iv. Disability Retirement.* In the event of a Participant's disablement prior to his/her eligibility for Early or Normal Retirement Benefits, he/she will be entitled to the actuarial equivalent of his/her Accrued Benefit.

**BENEFIT AT RETIREMENT**

- i. *Normal Retirement Benefit.* The monthly frozen benefit as of October 31, 2020, plus a monthly pension benefit equal to the actuarial equivalent of a participant's Account Balance.

For those hired on or after July 1, 2014 the monthly retirement benefit shall be equal to 0.9375% of the average compensation for the highest consecutive 3 years of service plus 0.45% of the average compensation for the highest consecutive 3 years of service in excess of covered compensation for each of the first 10 years of service and 1.25% of the average compensation for the highest consecutive 3 years of service plus 0.60% of the average compensation for the highest consecutive 3 years of service in excess of covered compensation for each of the next 15 years. For those hired before July 1, 2014 the monthly retirement benefit shall be equal to 1.25% of the average compensation for the highest consecutive 3 years of service plus 0.60% of the average compensation for the highest consecutive 3 years of service in excess of covered compensation for each of the first 25 years of service, with service and compensation frozen for all participants as of October 31, 2020.

The Account Balance is determined as of the sum of the following:

- *Service Credits* – An account balance will receive a Service Credit at the end of each plan year in which a participant has worked at least 1,000 hours. The amount of the Service Credit will be based on the participant's attained age at the end of each plan year and will be computed according to the customized Service Credit schedules as stated in the Plan document as a percentage of the participant's plan compensation for each plan year. In the year of hire, the participant will receive a Service Credit regardless of hours worked. In the year of retirement or termination, the participant will receive a Service Credit regardless of hours worked based on their plan compensation through their last day of employment and their attained age at their date of separation. As of December 31, 2023, no additional Service Credits will be earned. A partial Service Credit for the period November 1, 2023 through December 31, 2023 was earned by all active participants at December 31, 2023, regardless of hours, based on compensation earned from October 1, 2023 through December 31, 2023.
- *Interest Credits* – Interest Credits will be added to a participant's Account Balance at the end of each plan year, based on their Account Balance at the beginning of the plan year. Interest Credits will be based on the greater of the 30-year U.S. Treasury rate for September of the prior plan year and 3.50%.

A participant's Account Balance will be converted to an actuarially equivalent monthly pension benefit using a 5.50% interest rate and the current applicable mortality table under IRC Section 417(e)(3), as stated in the Plan document.

- ii. *Early Retirement Benefit.* Accrued normal retirement benefit, reduced by 7% for each year by which Early Retirement Date precedes the Participant's Normal Retirement Date.
- iii. *Late Retirement Benefit.* The greater of the benefit determined in the same manner as the Normal Retirement Benefit including years of service and compensation after Normal Retirement or the actuarial equivalent of the Normal Retirement Benefit.

- iv. *Maximum Benefits.* The maximum retirement benefit is determined in accordance with Section 415 of the Internal Revenue Code and Regulations.

#### **NORMAL AND OPTIONAL FORMS OF BENEFIT**

Normal Form: Life Annuity

Optional Forms: Ten Year Certain and Life annuity, Joint and Survivor annuity with either 67% or 100% continuation to the survivor, Joint annuity with either 50% or 75% continuation to the beneficiary, or joint annuities with ten years certain. Effective December 31, 2023, a lump sum option is available to all participants.

The Qualified Joint and Survivor Annuity (QJS) and other available optional forms are “actuarially equivalent” to the normal form, meaning that the amount of benefit is determined so as to have the same value when computed using the following actuarial assumptions:

Interest – 6.00% per annum

Mortality – 1971 Individual Annuity Mortality Table for Males setback 3 years.

#### **VESTING**

Years of service are all years of service with the Employer in which the employee was given credit for 1,000 or more hours of service. The employee will be 100% vested upon completion of 3 Years of Service or age 62, if earlier.

#### **DEATH BENEFITS**

The Qualified Pre-Retirement Survivor Annuity (QPSA) plus the excess, if any, of the Present Value of the Participant’s Vested Accrued Benefit minus the Present Value of the qualified pre-retirement survivor annuity.

## Summary of Changes

The form of benefit, turnover, and retirement incidence assumptions were updated based on a review of SBERA pension plan experience for the November 1, 2017 through November 1, 2022 plan years. Revised assumptions have been utilized as of November 1, 2023 and resulted in an insignificant change in liability and normal cost.

The Plan was amended on October 19, 2023 with changes effective December 31, 2023, to freeze participation and all benefit accruals in the Plan. In addition, the Plan was also amended to allow an unlimited lump sum distribution option to all participants upon separation from employment (previously participants on or after July 1, 2014 could only receive 50% of their accrued benefit as a lump sum upon separation from employment). The Plan changes resulted in an insignificant change in liability and a decrease in normal cost.
