Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Description of Weighted Average Retirement Age**

Newport Cardiac & Thoracic Surgery, Inc. Cash Balance Plan

33-0204983 / 002

For the plan year 01/01/2024 through 12/31/2024

The age reported is the weighted average of the assumed retirement ages for all active participants as of the valuation date based on their funding target or target normal cost should the funding target of the plan be zero rounded to the nearest whole age. For an active late retiree, the assumed retirement age may be later than the Plan's normal retirement age. Each participant's rate of retirement is assumed to be 100% of his/her assumed retirement age.

Schedule SB, Line 25 – Change in Method

The valuation date has been changed to the first day of the plan year due to the plan termination occurring during the year. This change is granted automatic approval in accordance with Section 1.430(g)-1(b)(2)(iv).

Schedule SB, Line 25 – Change in Method

The valuation software used to produce the actuarial information submitted on this schedule is different than used for the previous valuation due to a change in both the enrolled actuary for the plan and the organization providing actuarial services to the plan, and such change in software may be considered to be a method change.

The new method is substantially the same as the method used by the prior enrolled actuary and is consistent with the description of the method contained in the prior actuarial valuation report and Schedule SB of Form 5500. The funding target and target normal cost, as determined for the prior plan year by the new enrolled actuary (using the actuarial assumptions of the prior enrolled actuary) are both within 3% of those values as determined by the prior enrolled actuary. The actuarial value of assets as determined for the prior valuation date by the new enrolled actuary is within 2% of the value as determined by the prior enrolled actuary. Therefore the change in funding method receives automatic approval under IRS Announcement 2017-56.
